PROFESSIONAL

HYPER DRESSING

D170

- ◀ Highest shine possible – inside or out
- ◀ Dilutes up to 4:1 for variable shine
- ◀ Water-based formula

**FOR PROFESSIONAL USE ONLY.
 NOT INTENDED FOR RETAIL SALE.**

BODY SHOP SAFE

MEGUIAR'S® HYPER DRESSING is one product with multiple uses. Until now, the industry average for diluting water based dressings has been one to one or ready-to-use. Meguiar's Hyper Dressing dilutes up to four to one, varying the gloss from high to satin. A winning combination for every professional, and an industry first.

DILUTION: High Gloss RTU Medium Gloss 1:1 Satin: 2:1
 Low Gloss 3:1 Natural Shine 4:1

DIRECTIONS: For best results, dilute to proper specifications. Spray or wipe on surface.

NOTE: When applying to tires, wipe off excess (especially in grooved areas) to prevent spin-off, which may stain painted plastics. Do not use on tires or seats of motorcycles, bicycles or other two-wheeled vehicles or surfaces that should not become slippery.

PROFESSIONAL TIPS: To restore shine and luster to all engine components, clean engine compartment with Super Degreaser, blow excess water with compressed air and apply liberal amounts of diluted Hyper Dressing and allow to dry.
