

Exploring Creation with Zoology 2, 2nd Edition – Errata File

This file contains the corrections for the **Textbook**. The printing for the Textbook may not be the same as for the Notebooking Journal. Corrections for the Notebooking Journal is in a separate file.
(Posted 2026)

1st printing – January 2024:

Corrections:

Page 128 – In the last two paragraphs, change the word ‘born’ to ‘**hatched**’ twice. At the end of the 4th sentence in the 2nd to last paragraph and at the end of the 1st sentence in the last paragraph.

Page 199 – In Activity 9.2, replace steps 12. 13. and 14. with:

12. Draw the continents of the world as well as sea dragons and ships on your egg. You can find a map in Book Extras to use as a reference.

13. Take a picture of it for your Notebooking Journal.

Page 355 – Answer Key to Activity 3.2 Classification of a Whale section:

Order: Cetacea

Family: *Answers vary.*

Genus: *Answers vary.*

Species: *Answers vary.*

Page 93 – at the end of the 2nd paragraph change the last two sentences to:

That’s because the molecules of warm water **have a higher energy, which allows them to vibrate more. So sound travels better in warm water than in cold water.**

Page 265 – in the 4th paragraph change the word cannibalistically to eat so that part reads: and sometimes they’ll even **eat** each other.

2nd printing – January 2025:

Page 93 – at the end of the 2nd paragraph change the last two sentences to:

That’s because the molecules of warm water **have a higher energy, which allows them to vibrate more. So sound travels better in warm water than in cold water.**

Page 265 – in the 4th paragraph change the word cannibalistically to eat so that part reads: and sometimes they’ll even **eat** each other.

3rd printing – January 2026:
