

## The Last Message You Will Ever Need

English Transcript | Emerson Ferrell | Session 1 – 2024 Annual Conference

It's always unbelievable when you worship corporately. And the reason it is, is because you can't control it. And that's an example of how you're supposed to live your life. What if you woke up every day and knew everything was going to work out perfectly? That's the reality of the *spiritual dimension*. That's the reality.

Now, immediately you're going to say, "Well, what about when you have problems?"

If your mindset is that: "Everything is going to work out perfectly", then you will "see" every *obstacle as an opportunity to learn*. Because the minute you "lose your energy" to "reacting to a situation", you **change your frequency** from the *supernatural* to the "controllable" natural.

You see, our brain is an archive of the past. It's not creative, it is there to protect you, to protect your physical senses, not your spiritual being. **And the more you use your brain to control your environment, the less the Spirit has control of you.**

Think of it this way. You go to a house and it's full of furniture, but it's dark. Now, if your mindset is, "*I have to be cautious because I don't know where anything is in this place,*" then **your brain is the one that's leading you**. But if you go in there with the mindset that "*everything will work out perfectly,*" you walk through the room boldly (even if you hit something), because you know it's going to work out perfectly.

It's a mindset. Your *mind* and your *brain* are not the same.

**Your mind is the one that gives your brain instruction, and it comes from your mindset.** So, you must be conscious of "what" is operating this physical being.

Is it the conditioning that we're all brought up in to fear everything and be afraid of everything? Or is it the *consciousness of Christ* that says, "**Everything was already completed for you on My resurrection.**"

It's your choice. That's what "free-will" is. And the more we practice that, the less we are conforming to this world's system.

You know, Jesus came, and He preached one message. He preached, "**Seek first the kingdom of God.**" (see **Matthew 6:33**)

He says, "*that's your priority*". All these other things that you're looking for in the natural will follow you if you find the kingdom. Because the Kingdom of God is not a place, it is a Person. It is the **risen Christ**, that's the Kingdom of God.

You remember the scripture in Ephesians.

### **Ephesians 1:3**

*Blessed be the God and Father of our Lord Jesus Christ, who has blessed us with every spiritual blessing in the heavenly places in Christ.*

Now let that sink in, “All the blessings in the heavenlies in Christ.” Now that is really important to let sink into you, because most people that have the wealth of this particular *material realm* probably don't have the blessings in the heavenly places, because many times they *spend that money* trying to protect themselves from disease, college expenses, “all of the things” that this material world takes from you. And these days it's their health they sacrifice.

In verse four it says:

### **Ephesians 1:4**

Just as He chose us in Him before the foundation of the world, that we should be holy and without blame before Him in love.

He chose us “**in Him**” *before the foundation of the world.*

Say, “*I was chosen “in Him” before the foundation of the world.*”

Now, that's critical for you to get hold of. If you were chosen “**in Him**” before the foundation of the world, “who” said you left that position? You choose to leave that position every time you have the mindset that's “connected” to this world's system.

Now, this is not a concept. I want you to get past “concept.” These meetings during this time are for you to “go beyond” concept to practicality.

I want you to **start remembering** the times you left the position of peace, joy, happiness and chose to worry about a bill, about a problem in your body, about some kind of situation that took you out of that place of peace.

So, when you leave that position, you've lost the mentality of knowing everything was going to work out. And it's nobody's fault but yours. We are responsible for the life we're living today.

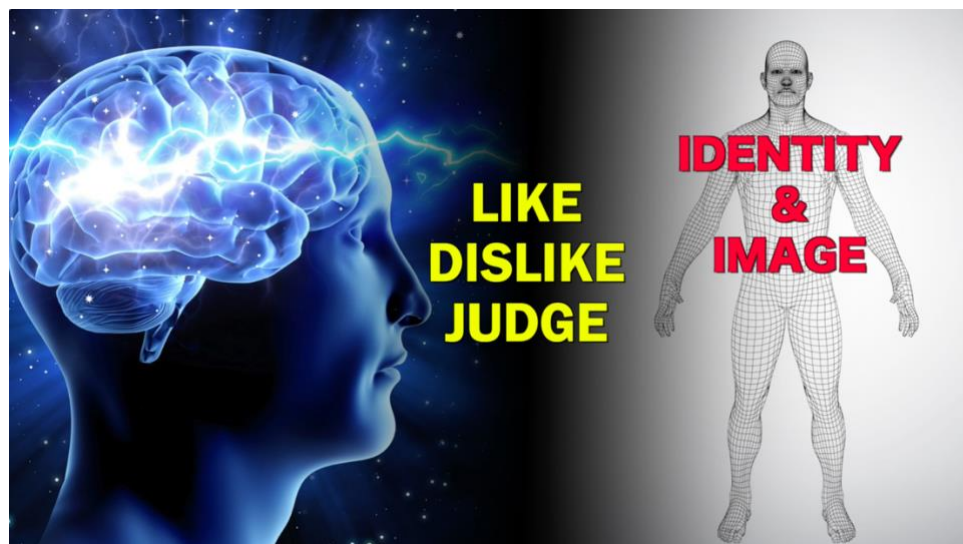

It's nobody's fault. It's yours.

When you take responsibility of your situation right now, you open opportunities for the Holy Spirit to change your condition, and that's why you *run into furniture* (for example as mentioned in the "dark house" analogy earlier). Are you following me?

See, if we had all the answers, we wouldn't need any help. The Holy Spirit is your Helper. He's helping you move in the direction where you're going to have that success, you're going to have that peace of mind, you're going to walk in absolute joy. The issue is **mindset**. Okay? So, understand that everything that is alive emits frequency and information, and science knows now that the reason we don't understand things at the **quantum level** ("Quantum" is below the atomic level) is because "mind and matter" are connected.

Pinch your arm and say, "This is material." Okay, that's matter (our body). Your mind is spirit. So, spirit and physical matter are connected in the **quantum realm**. And therefore, **your brain tries to separate spirit from material**, and most of the time it does it with fear. For example, you're afraid, you're upset, you become anxious, and you lose your temper. All those emotions play into the control your brain has over your physical being. But when you are conscious of those emotional behaviors, you start to change the power the brain has over your situation. And when that happens, you start to have a great revelation of the spiritual connection you have with God.

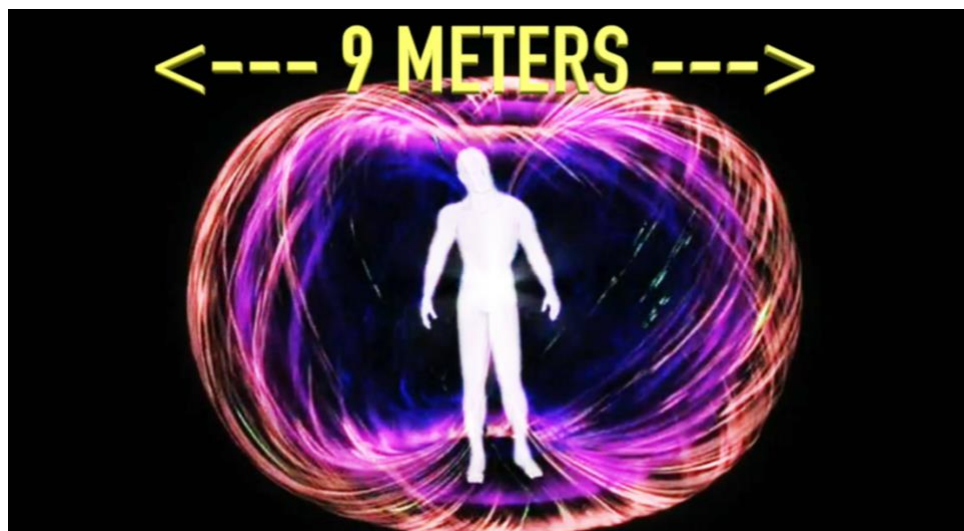

How many of you experienced a different frequency in the way you *thought* and *felt* during worship. You left your analytical mind (your brain), and when that happens, all kinds of doors open up in the spiritual dimension. You are a spirit being. A spiritual being does not have an *identity* or *image*. The identity and image come from what the brain creates, from what you like, dislike and judge.

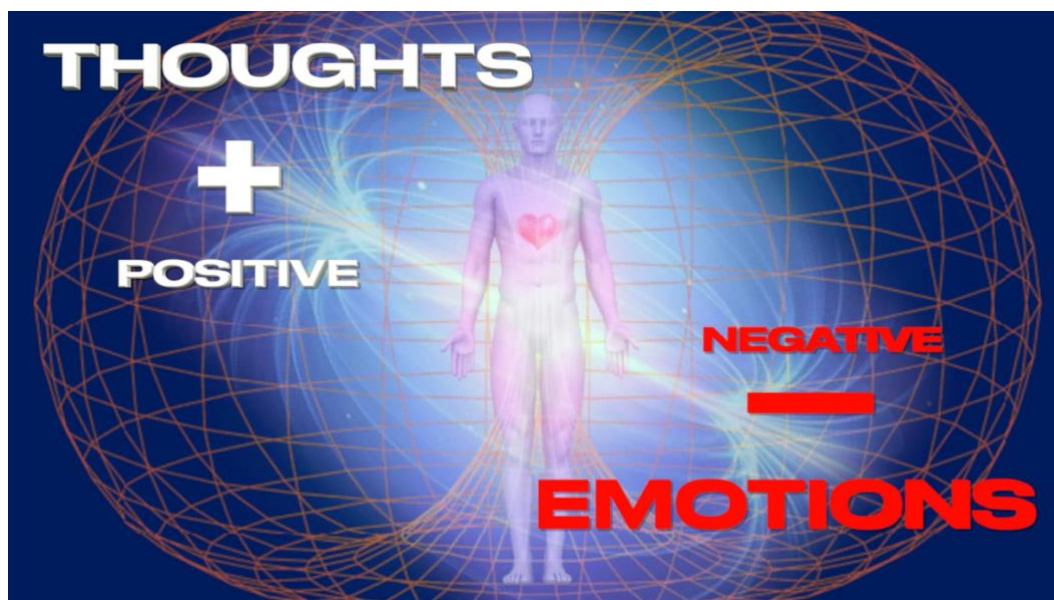

So, we form this image, and we train this body to protect this image. But your spirit does not have an image, it's *in Christ*, in that place with all heavenly blessings. Is it going from concept to practicality in your mind? **Our relationship with this material world is only as important as our attention gives it.** Where we place our attention is where our energy goes.

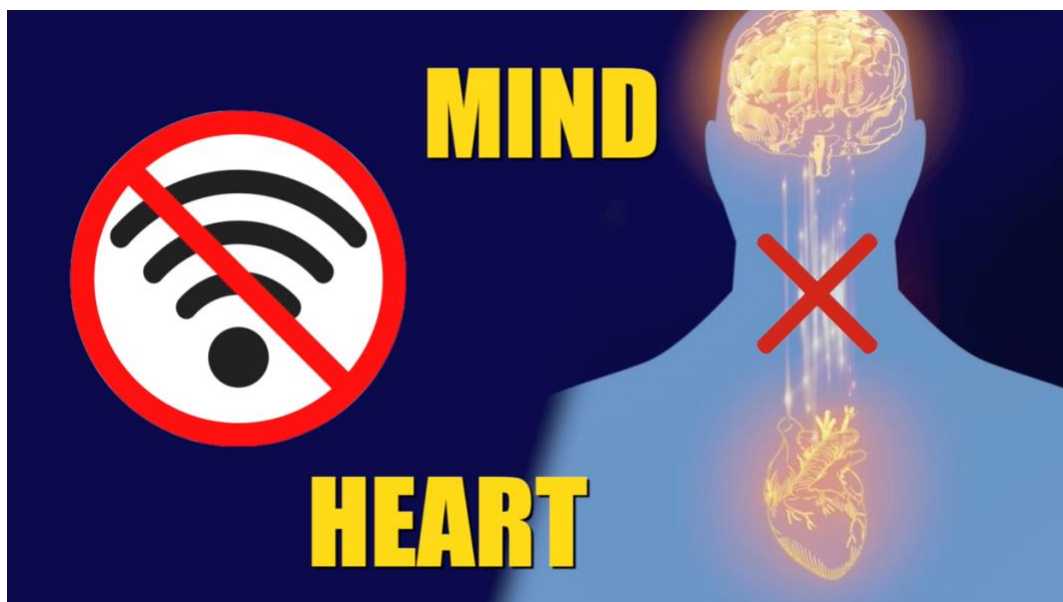

**As material, everything is magnetic. It has energy.** You see, when God created man, He formed him in *His image* and *likeness*. But when man disobeyed God, he lost his spiritual covering, and he lost his connection. But man, still has the frequency of a spirit inside of him. And because the *material realm* was made from God's voice, man carries this energy. So, our body is this *magnetic field* that when the **heart and the mind are one**, it can produce a magnetic field up to 9 meters wide.

Now, that energy was designed to keep you healthy and keep you absolutely at peace. But it requires your heart and mind to be one. Now I'll explain what that means.

Your thoughts send out an electrical signal into the field. And the thoughts come from your brain because it's stimulated by your body. So, if your brain is sending out one signal and your heart is sending out another signal, which is the magnetic force, it's in conflict.

Let me give you an example. Let's say a person feels like a victim. They don't want to feel that way. They just have all of these feelings and all of these experiences that make them feel like everybody's against them. So obviously they're thinking about this "victimization" in their brain. And every time you have a thought, you release a chemical in your brain. And it's that chemical that starts to make you "feel" like that victim. So, what does your heart do? Remember? It's the one that pulls back what you're thinking about from the spiritual dimension. So, the heart thinks, *"Okay, this person wants more suffering because they're thinking about being a victim. So, let's bring more problems for this person because they want to be a victim."*

So, you see how you're responsible for your condition? **Where you put your attention is where you put your energy.** And what happens? Your field shrinks. So, what was there to protect you and keep your organs healthy, shrinks, and you start finding pain all over your body because the heart is giving you exactly what you've been calling for.

So, what do you do? Oh, you run to your doctor. And what does the doctor do? He gives you drugs. And the drugs shrink the field even more. When the whole problem began with the way you *"think and feel"*.

The condition in your body is totally related to what you're thinking about. So, it goes back to our mindset that we talked about. Because if you walk confident that God has already taken care of every situation in your day, what thoughts are you sending out? What thoughts are you sending out?

*"Bring me success every day. Bring me peace every day. Bring me love every day."*

See, we've been conditioned to believe *we can't feel the feeling until we have the experience.*

*"I can't feel love until I have it. I can't have the awe of the supernatural until I experience it."*

That's hypnotically wrong because we weren't created that way. But as long as you believe that you're going to keep sending the thoughts of all the problems you think you have and your heart's going to bring all that stuff to you. How many of you see what I'm talking about? And the minute you start to change what you think all hell is going to break loose because you have a default system in your brain.

*"Your lover is going to leave you. The IRS (Internal Revenue Service) is going to send you a letter. Your siblings or offspring are going to betray you."*

All of the things that will give you an excuse or a reason to "feel like a victim".

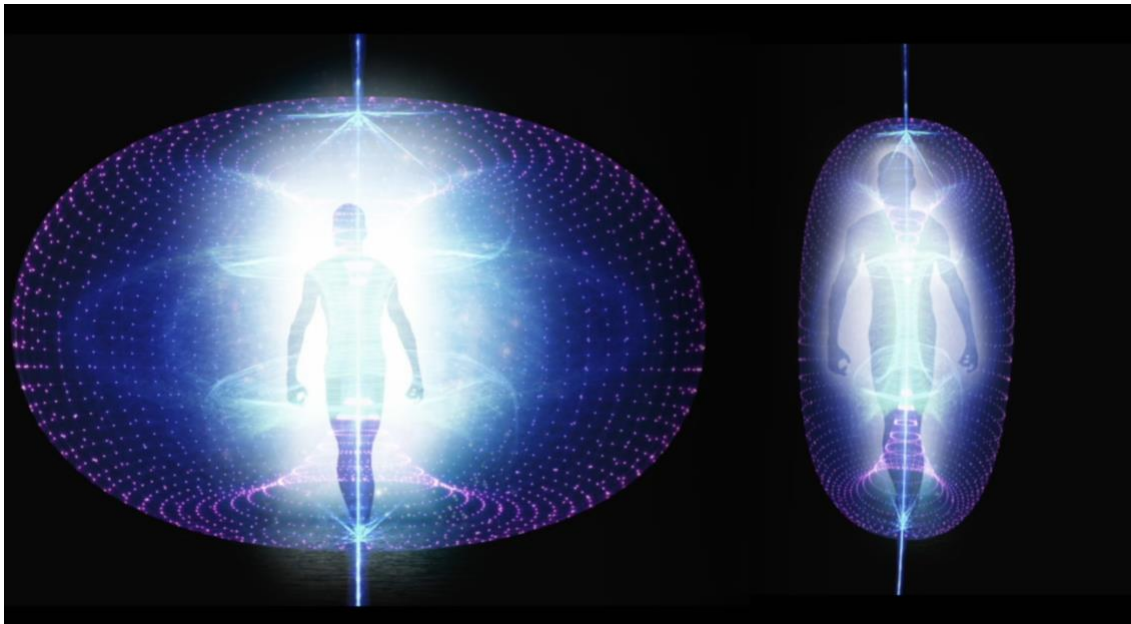

The relationship we have with the spirit realm is so powerful. If you're unconscious of your behaviors and choices and the experiences you have, you'll walk through this material life totally asleep. And Jesus said, *"Let the dead bury the dead."* (see *Matthew 8:22*) There "are" dead walking around. But that's not your responsibility. This (developing your spiritual nature) is your responsibility. And when you take care of that, you become one in Him.

We have 60,000 to 70,000 thoughts a day and 90% of your thoughts are the same every day. That means you're not going to experience anything "new" if you keep thinking the same thing. You'll just keep living your past. You can lay your future over your past, and they'll be identical. And that should really wake some people up. Because there's not a lot of time given in this material body.

Be conscious of your actions, thoughts and behaviors. Because if you're having the same thoughts every day, you're making the same choices and experiencing the same thing. Nothing can change that way. So, you're living your life like you just bought a lottery ticket. You know what I mean?

*"Maybe I'll get lucky. Maybe I'll find Mister right. Maybe I'll win that "million dollars".*

**We generate our abundance from the spiritual dimension.**

So, if we want to increase the field around us, this *electromagnetic field*, we have to stop reacting to the external dimension. Now, what's the external dimension? My wife asks me that all the time. It's anything that's not inside you. Anything "not in you" is external. Is that clear?

See, if we react to the external, we use our "energy", and it shrinks. It's not going to happen right away, but if you're conscious when you do it, your energy starts to build. God created you spiritually. And that is such a deep understanding that it takes eternity to get a hold of.

**Christ's resurrection changed everything in the natural.** Nothing was the same after that. The enemy was judged and sent to hell. The second heaven was wiped clean and now you have thoughts that are not interrupted. He put you back in the Garden of Eden, and He says, *"Now you wake up every day and choose what fruit you're going to eat. You want to live in duality? Go ahead and eat from the tree of good and evil. But don't come to Me if things aren't working out. I gave you free will."*

One of the first things Jesus said is, *"Don't judge."* (see Matthew 7:1)

You know why we judge? To protect our identity, to separate ourselves from Him, being "in Him". When we're "in Him", we don't have an identity, but we can partake of all the heavenly blessings. You see, we have to break the ideological brain set that we're created with, because all of us come from cultures that say, *"You've got to win. You've got to achieve; you've got to have."*

I don't know anyone that was raised with parents who says, *"You don't need to achieve, you already have it."* What a different mindset that would create. **You don't chase what you already have.** But that's the reality of the spiritual dimension.

Each of us have that opportunity every morning, wake up every day and say, this day is perfect. How do I want it to be? And even if there are situations along the day, you don't react. Why? Because you know it's going to work out. You know it's going to work out because **you are in Him, not in the world.** Remember Jesus told Pilate (see John 18:28-38)

(Paraphrased)

Jesus: *"I'm not of this world."*

Pilate said, *"They say You're a king."*

Jesus said, *"Yeah, I am, but I'm not of this world."*

Pilate: *"Well, the Jews want to put You on a throne. They want You to come back and sit in Jerusalem."*

Jesus: *"I'm not of this world."*

Remember that "world" and "earth" are different. How many have read any of my books?

The "world" is what we create. When God made Man's spirit, He put him on the creation that He had, which is the earth, in the garden that He created to keep him healthy. But He told him, *"Now you create what you want. That's your world."* So, when we were *"in Him before the foundation of the world"* that takes on a different meaning, doesn't it? The foundation of this world was created by what? Fear and death. The fear of death. That's what the universe is controlled by. That's why people always try to protect themselves, because their mindset is not "that it's going to work out", but it's "that we're going to die!" That belief is instilled in every child in the West.

And that's why this particular time in the ages of God's calendar, things look so "bleak", because people believe that things are exploding and they're dying. But "we" are "in Him." Whatever goes on in this world system does not affect me or you if you're "in Him." This physical body dies, and sometimes it could be sooner than later. But so far, we play with the team we got.

Our relationship with this time is important right now. We're walking this earth specifically for a purpose. And the reason is so that we can worship Him. You know how much power there is when you worship Him? Before Jesus left, He told the disciples, *"There's only two commandments: Love the Father, your God, with all your heart, mind, soul, and body. And love your neighbor as yourself."* (see Matthew 22:37-39)

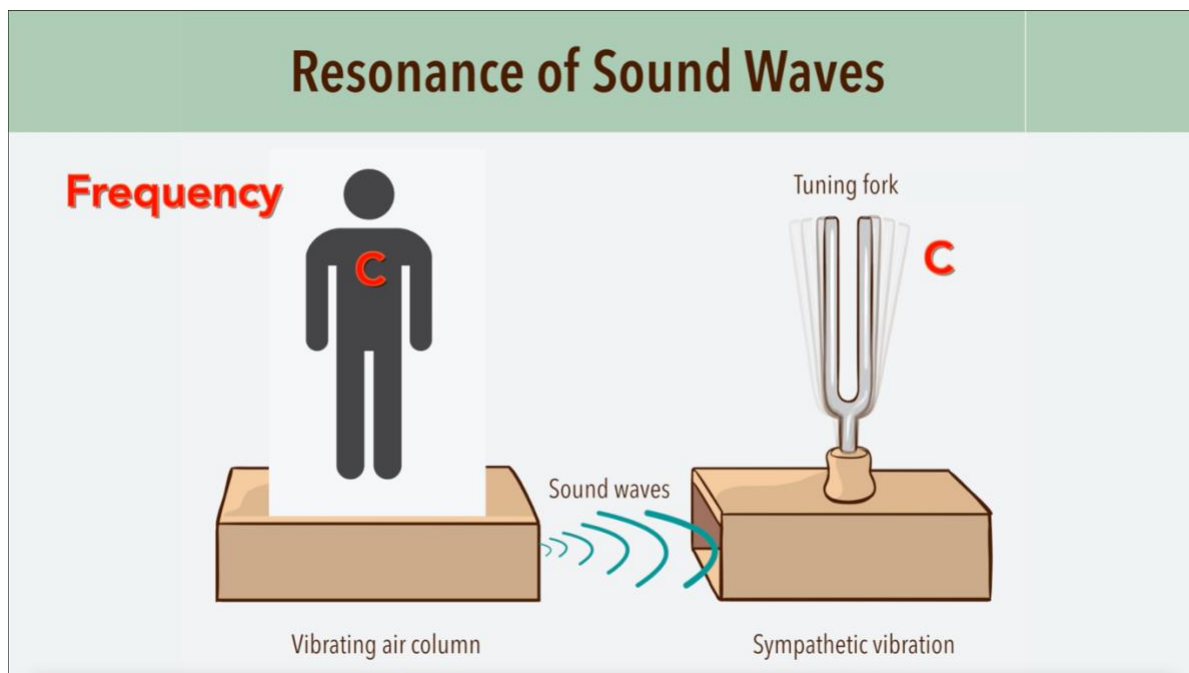

Nothing in that says, "Go get a job. Protect yourself from your neighbor, buy the best safe there is on the planet. Judge everybody that doesn't act or think like you." None of those were the commandments of Jesus. There was no "I" in any of that commandment. Everything was "you giving" because that's the relationship that tells the Father that you are "in Him."

If you're "giving" you are not worried about your condition. You know you're going to succeed. You know you're going to make it. That's why this ("receiving") becomes this ("giving"). That's so He can fill that (you) up. That's what He does with people who have that mindset. This world system cannot provide for you because you're not from this world system.

But if you believe you “are” (of this world) and that you need to “protect yourself”, then you have to play by the laws of this dimension. And if you play by the laws of this dimension, you might as well go to Las Vegas. Your chances are better. This dimension grinds up “matter.” That's what its design is. And for years I heard in churches, “We've got to change this world system.” They are right but they're wrong with what they chose to do.

You change the world system when you get healthier. When you get healthier the world system changes in “frequency.” The reason this world system is so anemic now is because so many people are walking around with this “reduced” electro-magnetic field. They can't think, they're sick, their bodies are destroyed, so their frequency is very low. **One of the greatest things you experience in corporate worship is the level of frequency that changes in your body.**

We all come into the corporate worship with a certain *resonant frequency*. “Resonant” means “frequencies that are the same.” For example, if I had a tuning fork that was in the corner of the room and it was tuned to the frequency of “C” and then I walked over to another corner of the room with a tuning fork and hit that tuning fork, the tuning fork would begin to sound or resonate at the same frequency of “C”.

That's how God tunes up His body. Worshippers come in with different frequencies and so they're resonating at a different sound. But when they get into the flow of God's Heavenly frequencies, they're resonating together. And that *magnetic field* begins to expand and as it expands, so does the way you *think and feel*.

And the strange thing that begins to occur is you think less about yourself and more about your neighbor. Because all frequency is driven by love, that's the highest frequency. That's why God speaks to our spirit with that frequency. There's no misunderstanding in communication. We all understand that frequency when we're resonating in love.

And the mindset begins to change. So, all of you that have joined us this weekend, you're not going to leave the same. It's a chance for you to reset your default button. And then you're conscious when you leave that position "in Him" and begin "to judge" or "react to" something that causes you to leave that place. It's okay. Just stop. Don't judge yourself. Just get back into that place. Love yourself. The more you love yourself, the more you will love your neighbor. Because that's what it means to be "in Him."

In the gospel of Thomas, there is a great scripture. How many of you have read Thomas? We have a great commentary book on "The Gospel of Thomas". It's really good.

In the 3<sup>rd</sup> saying of Thomas, he writes:

*Jesus said, "If those who lead you say to you, 'See, the kingdom is in the sky,' then the birds of the sky will precede you. If they say to you, 'It is in the sea,' then the fish will precede you. Rather, the kingdom is inside of you, and it is outside of you. When you come to know yourselves, then you will become known, and you will realize that it is you who are the sons of the Living Father. But if you will not know yourselves, you dwell in poverty, and it is you who are that poverty."*

So what Jesus is saying, *"If you know who you are, you will be known by the Father because you are His son. If you don't know yourself, you will live in poverty."* And that is the situation we see around us today. People who depend on *someone else* to give them an identity, to give them some kind of "purpose in life" are not spending time to know "who they are". But those who are "in Him" must return to that mentality. And when you return to that mentality, things change. You're not concerned about *the external*.

You see, we love distraction. Distraction keeps us from finding out the truth about who we are. And then it's easy to go into this loop where we have the same thoughts every day because we can predict what's going to happen. **But true change happens in that place where you can't predict what will happen.** We've been conditioned to believe that's a scary place. Our brain goes off with all kinds of flashing lights if it can't control your outcome.

You get all kinds of thoughts about: “This could harm you, that could create problems...” and it's all because we fear death. When you cross that bridge and don't look back, you're “entering into” that realm called “ever-ascending.”

“You never arrive,” and that thrills you because you can't predict what's going to happen. You've given up your parachute, you've given up all your safety valves. **You're totally trusting God to see you through.** Those are the real guardians in the heavenly places. Those are the angels that will show you things that can't be shown in this dimension. When they give you revelation, you can't speak about it. There's no words for it, there's only frequency. And it changes your dimension, and it changes your appetite.

Those were the people I met before I started fasting. They were guardians in the heavenly places. And when they showed me things that already were, that is and will be. You lose your appetite for this dimension. And when you lose your appetite, you're totally convinced God has got everything under control. We have to get really, really bold, people. Yank off all those things that hinder you from going beyond. When you have the mindset that everything is going to work out, you are no longer afraid. You wake up bold every day knowing it's going to work out. You see the end from the beginning. You live in that place of confidence. There's no questioning if I'm saved or if I'm not saved. Is that right? Is that “theology” right? No. You live in the confidence that everything was already done *“before the foundation of the world.”* There is nothing “coming” that hasn't been “done.” Live in the “finished” place “right now”. Don't be looking for anything else. It's done. It's up to you to live like that.

You were created before the foundation of the world. You saw Christ's sacrifice, and you were coming to this material realm to change it. Change it. Change this (your heart and soul and mind) and you become what you already were before the foundation of the world. Get bold with your thinking. Knowing that it's completed doesn't make you lazy, it makes you bold. It makes you bold. You're not waiting for something to happen, you know it's already happened, so you go boldly to finish the job. Nothing stops you.

Amen. Amen.
