

This Hebrew Alphabet worksheet is super simple.

On the next page, you have a chart of all the Hebrew letters and the stroke orders. So you know how to write them. Yes, print that out and keep it.

On the following pages, you get empty boxes to practice writing the letters. So, you should hold on to the chart for reference as you're writing these out.

Your goal? Twofold.

- First, you need to start slow so that you can get used to writing each character. Don't rush. You're not going anywhere. There are no awards for sloppy work. You won't win anything for rushing through this. Just do them slowly and carefully.
- Second, you need to start speeding up. Yes, here, I allow you to speed up. The goal is to start writing quickly and comfortably after you get used to each letter.

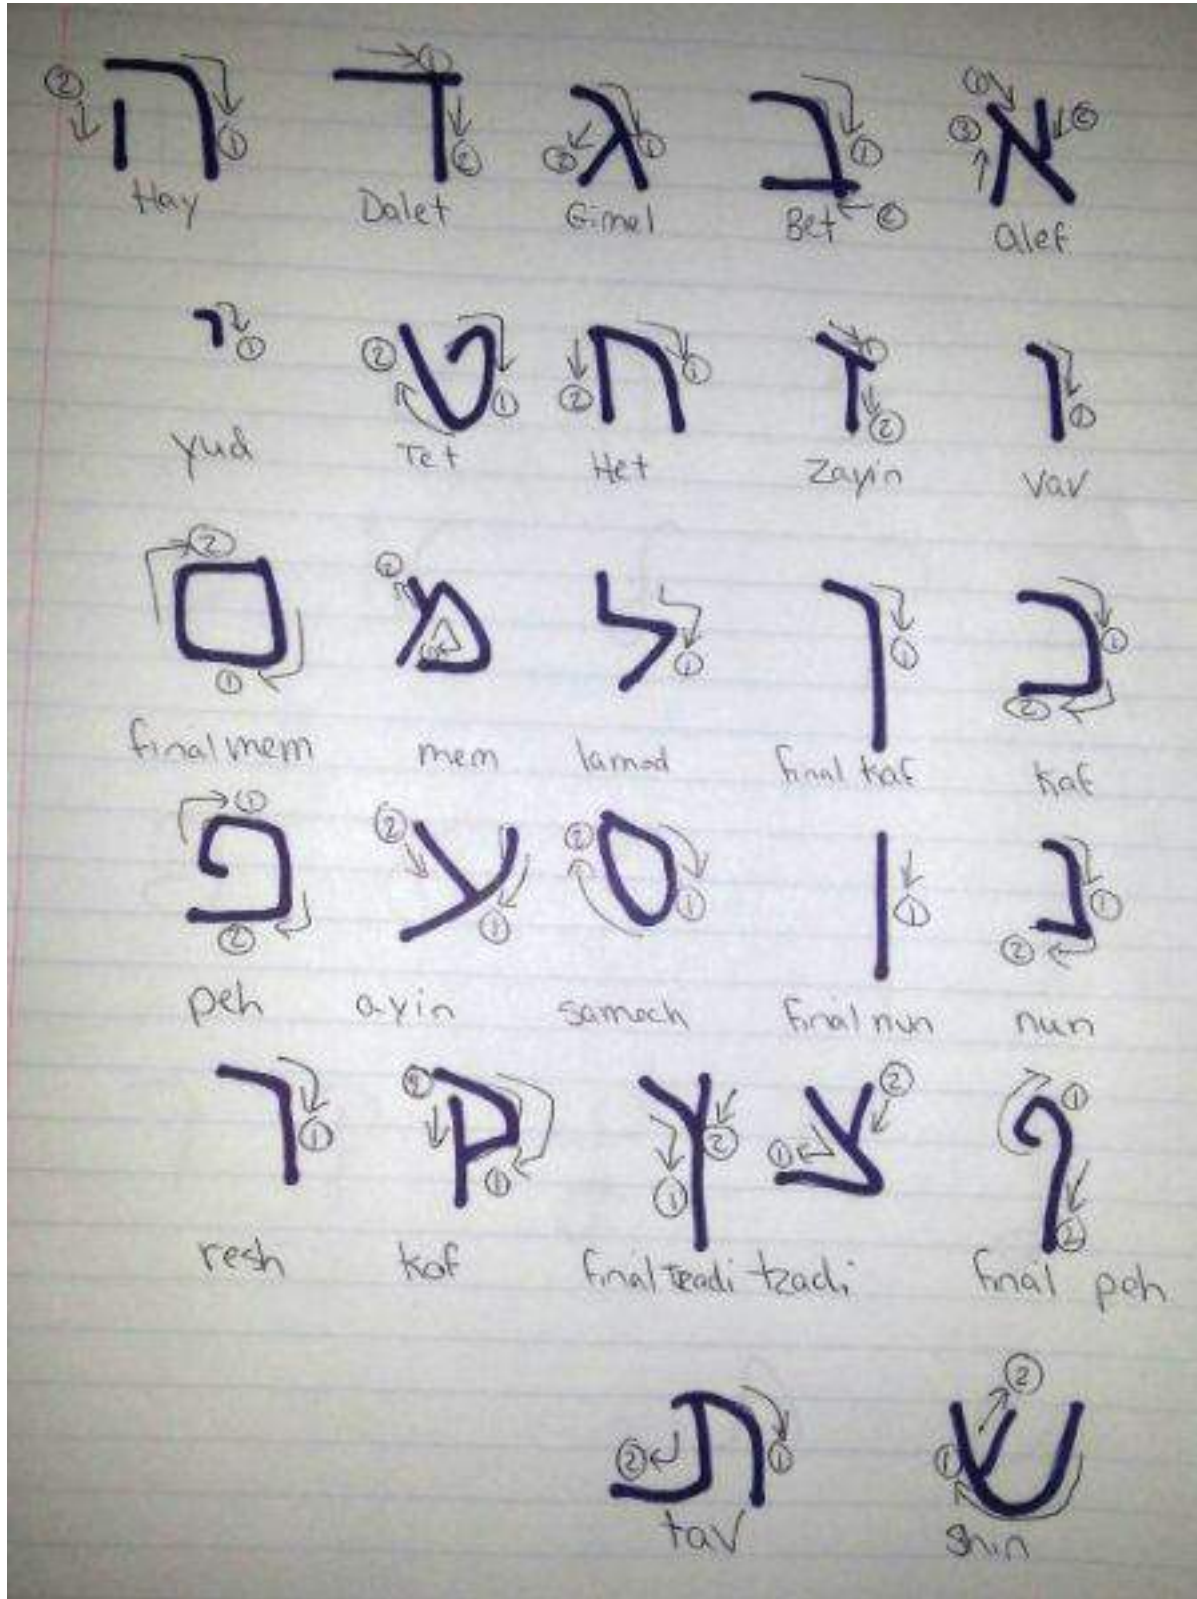

Also, remember, this is a printable PDF.

That means you can print multiple copies and practice as much as you want. Once you've filled up the boxes on your first try... Print out another batch a few days later and do some more.

Also, if you want to learn and speak Hebrew with lessons by real teachers...

...then I recommend HebrewPod101.com. It's a Hebrew learning website with audio/video lessons. You learn with 3-15 minute long lessons. They teach you real conversations and explain every word so that you're ready to speak at the end.
