

The Walking Dead

Emerson Ferrell

We're going to talk about some things that will really help you understand your relationship with eternity. You see, when God is spirit and he created man, he created man spirit. I don't know how many people understand that dimension because we're so focused on the physical. We spend our waking hours concentrating, scanning the environment to see what can harm us. Because we're so interested in securing this physical body and providing for this physical body.

Because we don't really believe what God said when he says, I've given you my kingdom and the kingdom is invisible. It's inside of you. Jesus said, the words I speak are spirit and life. The flesh, prophets, nothing. Say nothing.

But why do we spend our life trying to protect the flesh?

Because we don't believe God. And that's where it all starts. So this afternoon, I'm going to give you a foundation that it's going to be up to you how you build on it. I'm going to give you keys that if you write them down or you listen to this message again, it will really help you read the Bible differently, understand your relationship much differently, because your responsibility is you. You are responsible for the world you live in.

And that's going to become infinitely clear by the end of this session. In Genesis one. In the beginning, God created the heavens and the Earth. The Earth was without form and void. So that doesn't even make an image inside of you.

If it was formless and void, there's no way you can form an image what that looks like.

So these words are written not for you to form an image, but for you to hear the spirit behind it. Because that's where all truth lies, in the spiritual dimension, not in your analytical mind, because that's where your senses tell you what's real and what's not real. That's the reason people are so corrupted by untruth. You know the old saying that says it's not a lie if you believe it? Oh, yeah, it's a lie.

Because Jesus came to bring us the truth, and he brought us the truth in every word he spoke. But he said, My word is spirit. So you can't hear it with your analytical mind. The same with the scriptures. Darkness was on the face of the deep and the Spirit of God was hovering over the face of the waters.

Then God said, Let there be light, and there was light. God called the light day, and the darkness he called night. So the evening and the morning were the first day. Keep that in mind. The first day was when God spoke, let there be light.

It was not until the fourth day god put the light in the heavens that we live by in the flesh. It's really important to understand because the light we live by creates shadows. The light of the first day has no shadow. There's no image. If there's no shadow, are you with me?

The Walking Dead

Emerson Ferrell

Are you hearing me? So the light of the first day does what has no image. It's light. It says in songs, in your light I see what light? So understanding the relationship of light and your physical dimension is critical for you to understand the spiritual realm.

Because we live in shadows, in darkness, on the land, because that's the dimension that produces the light from above. The light of the first day, which is who you are in the spirit, has no image. So what do we do when we're born? We immediately create an image of who we are, and that image is what we protect. So we validate our image from this dimension, from the sickness, from the disease, from the trauma, from everything that happens to us physically.

We create this image and we're conditioned by this image. What's conditioning? You form an image and you have an emotional attachment to it. That emotional attachment becomes a biological condition inside of your body that you can produce an effect with thought alone. And then we spend the rest of our life validating our image through the conditions we produce?

That's right. We're responsible for the world we live in. No one is affecting you. Your ex didn't do it, the devil didn't do it, no one does it but you.

Look, in Hebrews, we're going to look at chapter two.

Pick up verse eight. For in that he put all in subjection under Him, he left nothing that is not put under him. But now we do not yet see all things put under him. But we see Jesus, who was made a little lower than the angels for the suffering of death, crowned with the glory and honor that he, by the grace of God, might taste death for everyone. So if he tasted death for you, what are you afraid of?

Why are you trying to protect your body? Why are you running to the doctor for every symptom, every feeling? Why? Because you're afraid of death.

Verse 14. Inasmuch then, as the children have partaken of flesh and blood, he himself likewise shared in the same that through death he might destroy him who had the power of death, that is, who does it say he destroyed him? Say the devil is destroyed.

So if that is a reality in your life, what are you fighting?

What are you fighting?

Either you believe God or you don't.

And release those who, through the fear of death, were all their lifetimes subject to bondage. So not only are people afraid of death, they're afraid of the future. Death not just protecting themselves from dying in a car wreck or shot or sickness or whatever, but you're constantly protecting yourself because of the fear of death. That's the bondage that Christ broke at resurrection.

The Walking Dead

Emerson Ferrell

Too often, Christian church people spend their life at the foot of the cross and not at the resurrection of Christ.

Once you understand your spiritual condition, you praise God for the fact that he tasted the death. But you are excited beyond belief that the resurrection over death. Because that's what gives you the freedom. That's what gives you the authority. That's what makes you someone that this world does not understand.

Because this world is controlled by the fear of death. Think Back to March 2020. The whole planet was under subjection of the fear of death. The medical communities always had the message, but they didn't have the platform. Now they have the platform.

So they can promote death across the planet. On every platform. They have Facebook, Media, whatever.

But that's your frequency if that's what you believe.

And then not only were they afraid of dying, they took the poison to help quicken that process.

You see how much authority we have if we will just exercise it. You cannot kill a dead man.

I'm going to say it again. You cannot kill a dead man. And physically, you're the walking dead on this planet because spiritually, this is not your home.

Now, I know I'm saying things that you know, but you need to hear again, because you know this in your spirit, you know this. But you have to be brave enough and have the courage to take the responsibility that you've become a victim and submitted to the fear that's been broadcast through the planet.

And the reason Jesus used sheep as an example. All it takes is one sheep to lead the herd in authority and power, and the rest of the sheep will follow.

So now, Ephesians, chapter one, verse three and four.

Blessed be the God and Father of our Lord Jesus Christ, who has blessed us with every spiritual blessing in the heavenly places in Christ, just as he chose us in Him before the foundation of the world, that we should be holy and without blame before Him in love, just as he chose us that he chose me in Him before the foundation of the world. Now, what is the foundation of the world?

The foundation of the world is a critical point that I want you to really dig into. World and Earth are not the same word. You cannot use them together. Earth is everything. Physical, material.

The Walking Dead

Emerson Ferrell

It's the particle from the wave. If you understand physics, the world is what you create by your belief. You are the only one that creates your world. Not your neighbor, not your husband, not your wife. You create the world you live in.

What you surrender, believe, and accept becomes your world. See, our personalities are made of what we think, believe in the way we act. That becomes our personal reality. And that's exactly the world you live in. You even bring people into this world of yours to create turmoil, chaos, because that validates the image you create in your world.

You're the star of your world. You're the world revolves around you.

And it's that world that you operate from. And believe other people understand you? They don't.

They don't. It's the confusion that we live in. It's the chaos that we create. Because why? We're addicted to it.

We're addicted to the drama. Because when we are spirit, we don't live linearly. We live dimensionally. But physically. If we believe we're physical and we believe that that's who we are, then we live in a linear pattern.

We wake up every day, we plan our day. We start thinking about the problems we had yesterday, and our today looks like yesterday. And we live in this loop, and we create this loop, and we live in this world. And we think people are trying to hurt us from the condition of our mind inside of this world.

And when you understand that you're basically an electromagnetic physical body, and this dimension that you create is an electromagnetic field, that's a spirit. And when you start focusing more on material than the spirit, that field shrinks because the energy leaves. So where does the energy, where is it sapped from? Your physical body. So your organs start failing.

Parts of you start deteriorating. Because God made us magnificently, physically and spiritually. But he told us not to use the senses to determine our reality. That's when he opened the eyes of Adam, remember? Because Adam disobeyed god.

He opened his eyes, and now his whole physical realm became his reality. And that's the sin consciousness everyone is born into. So we use the same mechanism to determine what's right, what's wrong. This is the world of duality, right and wrong, good and bad, like the tree of good and evil. So the first thing we do is we have to judge.

We have to judge what's right. We have to judge what's wrong. What does Jesus say in Matthew seven? Don't judge anything.

But you can't live in this dimension without judging, can you? It's impossible.

The Walking Dead

Emerson Ferrell

So the foundation of this world is the fear of death. That's how everything operates in this world system. It's controlled by the fear of death. So people that live in this dimension, who believe this dimension is their reality, that this is a place where you have to get your resources. This is a place where you need to live abundantly.

And all of the things we've been taught as children and grown up believing, then we're subject to the laws of this dimension. You're subject to time. In the spirit realm, there is no time. It's endless. Because the Creator gave us the ability to choose what we want.

That's when he gave Adam. So every offspring after Adam was born with this sin consciousness, this duality mentality. So the minute we're born, we start judging what's right and wrong. We learn the culture that we grow up in, and we're hypnotized to believe that this is reality. And in church, you don't hear about the spirit realm.

You just hear about the things that can harm you and the money that you need and this and that. And I'm not criticizing because I grew up in the same thing. I'm just explaining to you why the conditions in people had never seemed to change. There seems to be one gigantic loop of continuous trials and tribulations. Trials and tribulations?

Trials and tribulations. When God has given us the key, he says, live in my kingdom. My kingdom is not of this.

So when Jesus died, we all know John 3:16 for God so loved the world, not the Earth. He loved man's soul. The world we create is from our soul, from the sin consciousness that we're brought into this world with. That's how we make our decisions about what's right, what's wrong, what we want, what we don't want. The people we need in our world to make us look better or to make us look worse, to validate our condition.

Whatever he said, you don't live in this world. You live in my kingdom. So when Jesus died for the consciousness of man in this world because he knows and he loves mankind forever, God said, okay, that sacrifice. You have the souls of all men in this dimension. That's what you died for.

So I'm giving My grace and My mercy to every soul on this planet in any generation, every generation that comes across this planet. Jesus died for them. So they have the ability to come to the Father, the one that created them. That's Jesus. That was God's gift to Jesus.

So what does Jesus say to us? I'm glad you asked. Let's look in John three. How many of you following me here? Are you following me?

Are you getting some of this?

The Walking Dead

Emerson Ferrell

John Three, we'll begin with verse one. There was a man of the Pharisees named Nicodemus, a ruler of the Jews. This man came to Jesus by night and said to him, rabbi, we know that you are a teacher. Come from God, for no one can do these signs that you do unless God is with him. Jesus answered and said to him, most assuredly, I say to you, unless one is born again, he cannot see the kingdom of God.

So Jesus was not even receiving the salutation from Nicodemus. He immediately knew what this man needed to hear because this was one of the men that God was going to use. And he says immediately, you must be born again. So salvation and born again are two different subjects here. They're not the same, just like world and earth.

So Jesus is explaining what it is. He says, how can a man be born again? This is Nicodemus in verse four. When he is old, can he enter a second time into his mother's womb and be born? Most assuredly I say unto you, unless one is born of the water and the Spirit, he cannot enter the kingdom of God.

Now, we know the Kingdom of God is not a place. It's not your church. It's not someplace when somewhere else. The kingdom of God is Christ. He is the Kingdom of God.

So the reason Jesus is speaking to us to be born again, it's because he's offering us his womb to be birthed from the same way he was born flesh from Mary. He's saying to his body of believers, you want to see the kingdom of God? You want to be born again? You must be baptized in me and be born through me. Jesus Christ is the womb for us to receive the new birth.

Now, it's just a picture I'm painting, but you need to understand what the water and spirit are. You need to understand what the true kingdom looks like in your life.

I'm saying some things here that will really change your life. The new birth is a reality because the new birth is what breaks the image that you create from birth. You have to understand that you can't change yourself without being born again.

Let me tell you a little bit about quantum physics. You see, in the spirit realm, when Jesus told the man who brought his epileptic son to him, he said, if you can believe what anything is possible, right? Didn't he say that if you can believe, all things are possible? So what is believing? Is it a mental thing?

See, your mind is different than your brain. But thoughts send an electrical charge into the atmosphere. Your heart sends a magnetic charge into the atmosphere. When they are one, you will bring from that invisible realm what it is you believe. But you see, our thoughts are different from the biology that we've created from the pain and suffering in our minds and in our bodies.

The body becomes the unconscious mind with all the trauma, all the different hurts, all the pain, suffering, victimization, mentality, all of that is held into the body. And that's where the heart is. So you might be quoting scriptures with your mind I'm blessed, I'm healed, I'm abundant. And your body is saying I'm sick, I'm tired and I'm broke. You can't pray like that and you can't believe like that.

The Walking Dead

Emerson Ferrell

How many of you believe me? Is that heart and mind? Heart and mind. You have to believe it because then you can drab it. Then it can become part of you.

So when you pray, you want to move mountains. All it takes is your thoughts and your heart to be one.

That relationship is what shifts the material realm. You see, I was talking about the spirit realm. That's considered to be waves. According to quantum physics, the physical realm is when a wave collapses into a particle. One of the famous scientists, Einstein, he understood the speed of light.

He understood what it did to this dimension. So he was totally immersed in what the speed of light and how it controls this dimension. But he didn't understand the quantum realm. You see, we live in this three dimension. Physically, who you are doesn't live there.

Remember in Ephesians we just read you were in Him before the foundation of the world. Who told you? You left.

When did you leave? When did you leave? If we were in Him before the foundation of the world, we left when we got frightened. You remember when Adam hit himself? He was afraid.

That was the consciousness that was installed inside of your soul when you were born physical. So you became that mentality. But you see in that spiritual dimension that science calls quantum, that wave is an ocean of possibilities, an ocean of anything you want. You can have it. But once you know you can have it, you don't want it.

Because the goal for you as a believer in a physical body is to release the love that God gave you to come here. He filled you with his love. He filled you to overflowing so that you could never be afraid. And we didn't believe him. We chose not to believe Him.

Why? Because we wanted to exalt an image.

So we created religions, we created doctrines to protect our images, to make sure that we could blame everything on the devil, blame everything on something else.

There's an interesting scripture, hebrews. Since we're in Hebrews, let's look at chapter ten, verse one. For the Law, having a shadow of the good things to come and not the very image of the things, can never, with these same sacrifices which they offer continually, year after year, make those who approach perfect. For then, when they would not have ceased to be offered for the worshippers, once Purified would have had no more consciousness of sin.

So in this verse, these two verses, the writer is explaining what the Law produced in the people.

The Walking Dead

Emerson Ferrell

An image. So when God created Adam, in what his image, which you have to understand, is formless and spirit. So what kind of image did Adam have?

We don't know. Same way we don't know what kind of image Jesus had. All we know is once he sinned, his eyes were open and then he saw he was naked. We don't know if that's the way he was created. We don't know.

All we know is things shifted when sin entered into this dimension. So man needed a way back to the Father. And that was the purpose of what? The law. Right.

We needed the law. Which was what? An image of the real source. So the real source, Jesus, is the real light, but it was hidden by this image called the Law.

Stick with me now, it's going to get better. So the image we create from our belief and our lack of belief, from the sin consciousness that we're born with, we form this image. So God creates this law. That is the image of the reality of the first Daylight, that has no image, has no shadow, so that man can understand his condition.

Are you with me? That's what romans says that the Law was brought so man could see that no one can live perfect, right? No one can complete the Law without sinning. So this was the image of the perfect First Daylight, which is Christ, so that the image could minister to the image of the people.

Are you following me? Man's got an image and you needed the image of the Law. So now they can communicate image to image. But you see, when Jesus came, no one wanted to give up their image.

Follow me. It's going to get dicey here. So today the churches are still using the image, they're still talking about the Law, even though they call it the New Testament. They're still telling you, you must be perfect, you must accept the commandments. We talk about the conditions that happened all through the Scriptures and the Old Covenant.

So subtly, man is protected from changing his image and he's being ministered to by the image of the Law. Even though they say, Jesus, Jesus, Jesus, the mentality is following the Law. And here's another key for you. That little page that separates Matthew, Mark, Luke and John from the Socalled old Covenant. You need to rip that out, because Matthew, Mark, Luke and John are the completion of the Old Covenant.

That's what Jesus came to fulfill, did he not? He said, Every jot and tittle I have to complete, I have to finish. And that's what he did. He finished the Law as a perfection lamb of God. But he was resurrected as the New Covenant with the kingdom of God, so that everyone born again could leave the shadows and enter the first day light.

The Walking Dead

Emerson Ferrell

Think of a lunar eclipse. Think of the sin of atom coming between the earth and the sun. The moon comes between it, and that moon is the eclipse that puts darkness on the Earth. Well, that's your soul. That's the image of your soul when you're born.

So that's the image that keeps you from seeing the true light. And so you're filtered from understanding the reality of Christ. You're filtered. You're looking through the image, your image, the protecting of your image. And what Christ came to do was to destroy all the works of the devil and to break you free from the image that you tried to use to protect yourself.

Because he says, if you enter my kingdom, you don't have an identity any longer. You are back to being in me before the foundation of the world.

Are we getting clear here? Yes, sir. Making some sense. So the churches today are still in the tabernacle, aren't they?

They're still understanding Jesus as a Messiah and not as a resurrected Christ.

I know churches that are following all the feasts. I know churches that are doing this and they want to be holy, they want to be righteous. They're not doing it evilly. They just don't understand the beauty and perfection of what God created. You don't understand the power you carry until you recognize the responsibility you have for your condition.

We have to look in here, not out there. If I was God, I would hide myself into people because that's the last place they look.

So in the quantum realm, in the waves of all possibility, your thoughts and your heart go to that unlimited ocean full of possibilities and pull out everything that you believe for. And the frequencies that we've been talking about makes it appear or manifest according to the frequency you carry. You're ever ascending? Once you start the journey into Christ, you never stay at the same frequency. You're continually spinning faster and faster.

The higher you spin, the faster things change.

So the quantum realm needs the mind and the heart to be connected. And if you start paying attention to what you're thinking about, paying attention to the emotions you attach yourself to, then you will start to recognize how much energy you spend every day on the physical and not the spirit. We use so much energy reacting to things in the physical that have no effect over who you are.

It's never too late, folks. There is no yesterday. There is no tomorrow. There's only right now. And God has given you right now.

The Walking Dead

Emerson Ferrell

Begin now to be conscious of what you spend your energy on. What you focus on is what you drain your energy to. And you've been created such a powerful man and woman of God because you were in Him. Say I'm in him and I never left. You have to believe that because the minute you leave that conscious reality and start to interact with the particle, you'll become more particle and less wave.

And when you become more spirit and less particle, everything changes around you. Your perception, your beliefs. The people are not even nasty anymore. They're sweet because you're bringing that into the world.

So the faster we spin what, the greater influence we have on our environment. And you don't have to open your mouth anymore. Who you are speaks volumes. And that's the greatest opportunity we have. You remember when Jesus performed a miracle?

Don't tell anybody I did that. He did not want to be recognized for anything.

Why? He didn't want people idolizing him. He didn't want to be exalted. I'm here from my father. I came to do my father's work.

I have no identity. I have no image. Because then I know who I am. I'm the father. The Father loves me because I do his work.

When that is what you wake up with every day and you believe it and you think about it, then your day changes and you become that first day light.

I'm telling you things that work. I'm not just giving you concepts. I'm showing you things from the spirit dimension that will allow you to hook into it.

But it's going to be up to you how much attention you pay to that spiritual dimension. Every time something cuts you off in traffic and you feel like doing whatever or somebody says something, you want to react. Watch yourself. Be conscious of it. Watch the way you act.

Watch the way you think. And that conscious observation moves you higher, gets you closer to the revelation of Christ. And the closer you get to the revelation of Christ, the less this world appeals.

There is no appeal in the physical, he says. The flesh profits nothing.

Can we stand? I just want to prophesy over you right now, Father. I know that you brought these precious people here to stand in your presence, to understand that they are in you before the foundation of the world and fear leaves every one of them right now. They understand. They are dead men walking on this planet because they are in you.

The Walking Dead

Emerson Ferrell

They never left that place. They're never going to leave that place. They're going to be conscious of their thoughts, their actions, and their attention to the particles on this planet. They're going to be more concerned with your attention and your presence and your Word. In fact, just read the red letters in the Bible, folks.

Just read the red letters. And, Jesus, you have disciples, you have pioneers that are going to leave a new revelation in this land. This land will no longer suffer as a patient that's on life support. But you're bringing life into this land. You're bringing new blood into this land.

You're bringing new waters into this land. Why? Because people are no longer afraid. People are no longer afraid they're going to do what you call them to do before the foundation of the world. And we give you glory, and we give you praise, and we thank you, Lord, in Jesus name.

Amen.
