- Claude AI
- Voyage AI
- OpenRouter
- OpenAI GPT-4o-mini
- AWS EC2
- Vercel
- Railway
- NGINX
- RAG
- LLMs
- Embeddings
- Foursquare Places API
- Replit
- Cursor
- Lovable
- Bolt
- Git
- Prettier

Results-driven Web Developer with hands-on experience in full-stack and mobile application development, specializing in React, Next.js, Laravel, React Native, and Firebase technologies. Proven track record of building responsive web and mobile applications, optimizing page performance through server-side rendering, and developing secure real-time systems with API and cloud integrations. Brings strong expertise in frontend development, full-stack architecture, and UI/UX optimization, helping organizations deliver scalable digital solutions that enhance user experience, streamline operations, and support business growth.

WORK EXPERIENCE

FULL-STACK DEVELOPER

Independent | March 2025 – February 2026 (1 Year)

- Built responsive web applications using Next.js with SSR and SEO optimization, and developed a React Native budget tracker mobile app with authentication, expense tracking, Firebase synchronization, and analytics features.

MOBILE APP DEVELOPER

Infinity Hub | February 2025 – May 2025 (4 Months)

- Developed a payroll mobile application with attendance tracking, biometric and JWT authentication, payslip viewing, and REST API integrations for real-time synchronization with Laravel backend systems.

FRONT-END WEB DEVELOPER

Infinity Hub | February 2025 – May 2025 (4 Months)

- Collaborated on React and Laravel web applications, resolved frontend issues, optimized UI responsiveness, and participated in Agile sprint planning and code management using Git.

FREELANCE FULL-STACK DEVELOPER

Thesis/Capstone Project | August 2024 – January 2025 (6 Months)

- Architected and developed a smart crop-selling mobile platform with buyer-seller chat, delivery tracking, AI chatbot support, multilingual functionality, Firebase synchronization, TomTom Maps integration, and a React.js admin panel for moderation and seller verification.
