Birthday:
1996 - Feb - 21

LinkedIn:
www.linkedin.com/in/jorge-enrique-pedrero-perez/

Languages

Spanish - Native

English - TOEFL ITP - 525
(2014 - 2017)

Softwares

- MS Office
- iWork
- LaTeX
- Omega
- Petrel
- GeoGraphix
- Interactive Petrophysics
- GLOBE Claritas
- Python
- Autocad

Education

2022-AUG - 2024-JAN	Universidad Olmeca - EPLV - Villahermosa, Tabasco. Master in Petroleum Engineering GPA: 95
2014-AUG - 2018-DEC	Instituto Politécnico Nacional - ESIA Ticomán - Ciudad de México. Bachelor's in Geophysical Engineering GPA: 80 Professional license: 12587602 Degree by individual Thesis:
2021-JAN	Reservoirs Static Characterization for the Generation of Candidates with Workover Opportunity on Mature Field Wells.

Experience

2023-NOV - 2024-MAY	Geoscience Intern - StrataScan/Pemex - Kaan Ceiba, Paraíso, Tabasco. Responsibilities: • Generate and update structural models with information acquired in real time from fields with complex geology, such as the Atoyatl, Nanka, Popoca, and Iyel fields, for the productive area of the Tabasco Littoral, in waters of the Gulf of Mexico. • Give Geological - Operational follow-up to the development of opportunities or wells in real time. • Search for opportunities in neighboring fields. • Perform stratigraphic correlations of wells, following or interpreting electric marks. • Generate synthetic seismograms of wells. • Perform depth-to-time seismic conversion. • Perform seismic interpretation of fields with complex geology. • Interpret geologic horizons and faults. • Perform seismic attribute analysis. • Provide static-dynamic analysis.
2023-JUL - 2023-OCT	Math Tutor - Tutor.com - Remote Responsibilities: • Facilitate high school and college students in the acquisition of curricular content mainly in subjects related to mathematics, algebra and trigonometry. • Provide personalized counseling in English to students in order to improve their school performance, through the use of digital distance learning platforms. • Real-time support or guidance in the solution of homework and extra-class academic activities. • Seeking that students become experts in topics seen in class. • Provide additional material as additional support so that students can continue to improve in the topics indicated in the live session. • Grade or evaluate the quality of the session and/or the student attended.

Education

2022-AUG - Present	Universidad Olmeca - EPLV - Villahermosa, Tabasco. Master in Petroleum Engineering GPA: 95
2014-AUG - 2018-DEC	Instituto Politécnico Nacional - ESIA Ticomán - Ciudad de México. Bachelor's in Geophysical Engineering GPA: 80 Professional license: 12587602 Degree by individual Thesis: 2021-JAN Reservoirs Static Characterization for the Generation of Candidates with Workover Opportunity on Mature Field Wells.

Experience

2023-MAR - 2023-JUN	Geosolutions Geophysicist - SLB - D&I - Villahermosa, Tabasco. Responsibilities: • Be hands-on in training activities to understand geologic and geophysical objects as well as internal/client risks. • Seismic processing of the Papantla 2D line. • Foster technical solutions, enhance training efficiency and ensure effective team participation. • Geophysical data analysis and data processing using Omega software. • Perform tests of seismic processing workflows. • Execute quality control (QC), monitoring, and interpretation of seismic data acquired. • Data backup and archives. • Amplitude Compensation, Noise attenuation, Refraction Statics, Deconvolution, Velocity Analysis. • Project reporting, documentation, and data administration. • Troubleshoot and offer solutions based on the data's needs.
2022-FEB - 2023-AUG	Professor - Tecnológico Nacional de México - Department of Earth Science - Villahermosa, Tabasco. Responsibilities: • Facilitating to petroleum engineering students acquiring the curricular contents mainly of topics related to geology, petrophysics, and reservoir characterization. • Carrying out and delivering the didactic planning in due time and form. • Preparation of didactic material. • Evaluate student's progress and translate this evaluation into a report card. • Contributing to the design of curricula that meets criteria and standards. • To plan, develop and organize events related to the oil industry such as the annual oil meeting.

Hobbies and interests

- Running
- Swimming
- Driving
- Baseball
- Gym
- Movies
- Music
- Books
- Chess
- Videogames

Sales Executive - Hola CSS - Ciudad de México.

2021-AUG
-

Responsibilities:

2021-DEC

- Performs sales work via telephone sales of Volaris Invex credit cards to potential customers.
- Explain product features, service availability and related promotions.
- Review coverage to schedule and coordinate product delivery.
- Prioritize ensuring positive business relationships to ensure future sales.
- Supply management with reports on customer needs, problems, interests, competitive activities, and potential for new products and services.

Reservoir & Wells Workover Intern - Oleorey/Petrolíferos Tierra Blanca - Poza Rica, Veracruz.

2019-FEB

-

2019-JUN

Responsibilities:

- Geological characterization of the Tertiary in the "San Andrés" oil-field.
- Generation of production proposals for work-overs operations.
- Interpretation of well logs and seismic data (2D and 3D).
- Generation of stratigraphic correlations.
- Generation of thickness maps.
- Well-bore diagrams analysis.
- Technical support in the operative follow-up of the work-overs.
- Review of operational reports.
- Monitoring the times and costs of interventions.

Social Service - Instituto Politécnico Nacional - ESIA Ticomán - Department of Geophysics - Ciudad de México.

2018-MAR

-

2018-OCT

Responsibilities:

- Reception, revision and elaboration of elective credits formats.
- Development of organizational activities oriented to the use of the geophysics department material.
- Telephone attention to issues related to administrative and school processes.
- Academic support for student recovery groups.

Courses and Certifications

- **Driver's License** - Secretary of transportation of Mexico
- **Passport** - Secretary of foreign affairs of Mexico
- **SLB Safe** - SLB HSE Department
- **Land data processing training (Omega software)** - SLB Service Delivery Lead
- **Marine data processing training (Omega software)** - SLB
- **Customer data security** - SLB IT Department
- **Working with mutual respect** - SLB
- **Seismic Acquisition** - IPIMS
- **Seismic Interpretation** - IPIMS
- **Seismic Processing** - IPIMS
- **Drilling fluids** - ITVH
- **Deepwater drilling simulator certification** - Repsol, NovaOil
