EXPERTISE SKILLS

- AI Application Development
- AI Agent Development
- Full Stack Development
- Frontend Development
- Backend Development
- Retrieval-Augmented Generation (RAG)
- LLM Integration & Fine-Tuning
- AI Chatbot Development
- Prompt Engineering
- Web Scraping & Data Extraction
- Data Processing & CSV Generation
- Responsive Web Development
- API Integration
- Workflow Automation
- Vector Database Integration
- Real-Time Analytics & Monitoring
- White-Label SaaS Development
- Technical Research & AI Tool Evaluation

TOOLS

- JavaScript
- TypeScript
- HTML
- CSS
- SQL
- NoSQL
- Databases
- Node.js
- Next.js
- React
- Python
- Firebase
- Flutter
- Dart
- Streamlit
- Google Workspace
- Make (Integromat)
- Flowise
- n8n
- Zapier
- PostgreSQL
- Prisma ORM
- Pinecone
- AWS SQS
- AWS SES
- OpenAI
- Anthropic Claude
- Google Gemini
- Azure AI Foundry
- Cursor
- Windsurf
- Claude Code
- Replit
- Lovable
- Bolt
-

Results-driven Web Developer with 4+ years of experience in frontend and mobile application development, specializing in React, React Native, Angular, Next.js, and TypeScript. Proven track record of building scalable web and mobile solutions, integrating payment systems and third-party APIs, optimizing application performance, and delivering user-focused interfaces across multiple client projects. Brings strong expertise in responsive UI development, API integration, and Agile collaboration, helping organizations create high-quality digital products that enhance user experience, streamline operations, and support business growth.

WORK EXPERIENCE

AI SOFTWARE DEVELOPER (AI AGENTS & AI TOOLS)

Outrank Strategy | April 2025 – Present

- Developed the SimplaBots platform, a suite of AI-powered business assistants, built responsive applications using Next.js, TypeScript, and Tailwind CSS, implemented white-label AI agent solutions, integrated OpenAI, Claude, Gemini, and Pinecone technologies, and contributed to analytics, credit tracking, and usage monitoring systems powered by AWS services.

DATA SCIENTIST (INTERNSHIP)

Connex | July 2024 – August 2024 (2 Months)

- Architected and deployed a company-wide chatbot using Streamlit and Python, implemented Retrieval-Augmented Generation (RAG) and LLM optimization techniques, performed web scraping and data extraction, and organized structured datasets to improve internal information retrieval and documentation accuracy.
