

Remembering Your Future

English Transcript - Emerson Ferrell – 2023 Annual Conference (Session 5)

The Lord was very special with us today. Hallelujah.

How do you like that slide up there?

Do you understand **dimension** by looking at this? This is a multi-dimensional rendition of what “worlds and earths and planets” looks like. You see, God is not linear, and neither are you. So, He creates any possibility that your spirit can conceive, He makes it available in any dimension. When you live in the “present moment”, the past, present and future are happening all the time simultaneously and so are all of the planets, universes, galaxies; they are all doing the same thing that you are. And as you move through those dimensions by the frequencies that you carry you can access what you are hearing from the Heavenly Father in that present moment.

You want to live in a dimension where there is no gravity, it is possible. Whatever you believe, you can have it. But the thoughts that you have when you are living like that are not primitive thoughts like we have in this dimension. What I mean by “primitive” is “selfish”. There is no selfish thinking in the dimensions where everything is possible.

Jesus said there are only two commandments. Because He is speaking to the Jews who understand commandments and laws. He said, *“Love your Father, the Lord Your God with all your heart, soul, mind and body.”* (read **Luke 10:27**)

In other words, love something you can’t “see, feel, touch, or taste” in this dimension with all of your being. And if you can do that, then it is easy for you to love yourself and your neighbor.

Many times, we don’t love ourselves because we don’t know how to love God. If you love the Father with all of your being, someone you can’t give an image to, or receive something back immediately, you are not going to expend that energy.

Remembering Your Future

English Transcript - Emerson Ferrell – 2023 Annual Conference (Session 5)

But subtly God says, *“If you can do that, you will never have an enemy again. You’ll never have to fight anybody again, because you will be in love with everybody as much as you are in love with yourself.”*

The worst thing that happened to us coming out of Christianity was “judging”. We “judge” everything except us. We are okay, but “you” I’m not so sure. ☺

You see that? And that was #1 on Jesus’ list: **JUDGE NOT**

Matthew 7:1-2

“Judge not, that you be not judged. For with what judgment you judge, you will be judged; and with the measure you use, it will be measured back to you.”

But if we can get in the habit of “falling in love” with what we can’t “touch, smell, taste, see, or feel”, the attachment for this physical dimension starts to fade away. And that is why God has to make “chaos” in the earth because it cleverly disguises the greatest transitional opportunities in impossible looking situations. Do you know what I’m saying? Should I say it in a different way?

We see “chaos” and then out of that chaos we think it is impossible to make any opportunities or changes. So, we look at the world, we hear the silly “News”, and we say, “oh this place is going to hell.” That is the visible image that our senses tell us, but it is a veil that is hiding the greatest opportunity behind the “impossible” looking situation. Do you get it?

So, whenever you hear the nonsense, or you see the “herd” running one way --- you go the other way. True story.

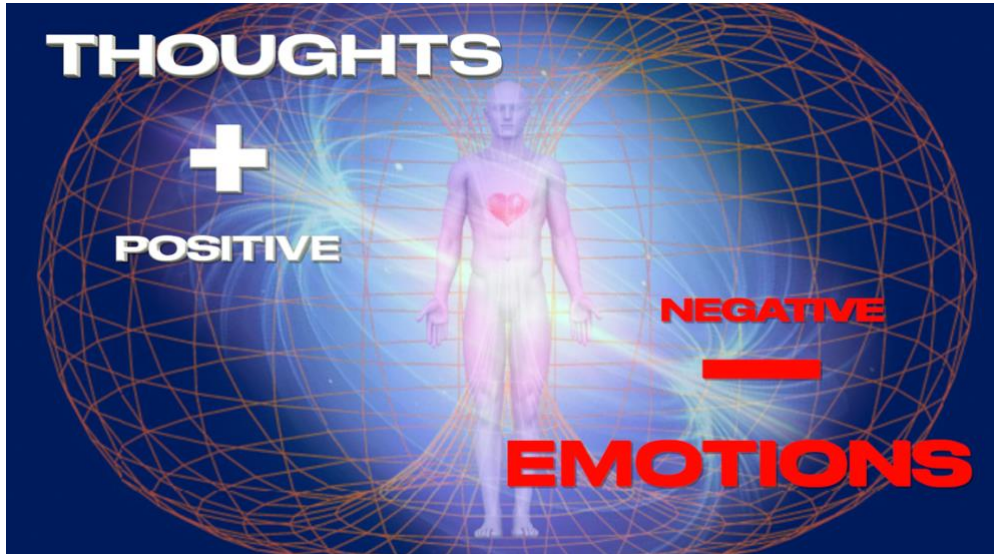

The reality that we are designed to live in has nothing to do with our senses. And when you *practice living in the present*, that will expand in your consciousness. And you will start to reproduce inside of your body a different resonance. Because “fear” resonates at a very low primitive level. And when you begin to resonate at a higher level, you can start thinking about something “higher” than yourself. And all of this is available, but we cannot go 30 seconds without remembering it. When you find yourself responding or reacting to something in the physical realm, observe it, step back and understand your reactions are part of your programming. And every time you observe it without judgment you actually go in the “back door” of your program and the Holy Spirit can start to change it.

And I know you can do it. You can do it! You don’t need destruction in your life to reach that place. I tell people all the time, ***“You see things the way YOU ARE, NOT the way it is. So, when you change the way think you will change the way you see.”***

Remembering Your Future

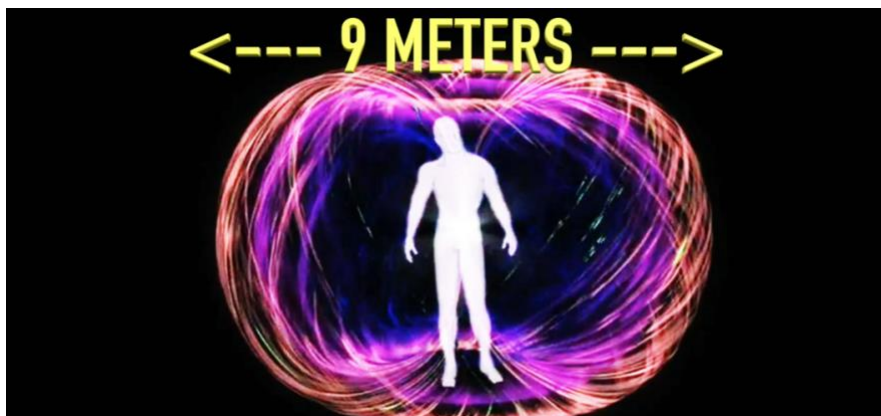

English Transcript - Emerson Ferrell – 2023 Annual Conference (Session 5)

We understand we are a magnetic being, physically.

You see, we have to get away from the idea that “this flesh” is who you are. It is a hunk of meat that is objective that responds to what you think. In fact, your body can have a panic attack without you because it becomes your *unconscious mind*. The personality that you have adopted according to how you “think and believe” creates this *world* that you live in.

So, if you are living in the world you create, then obviously you can't blame anyone for your condition. Are we together here? Alright, so now we understand that we have to think greater than we feel. Now, I've already explained to you that if you are living in the “eternal present moment” God can speak to you “thought to thought”. So that means you get out of your analytical mind, you *be still* until you hear the thoughts of God. You are not going to be late; you're not going to miss anything. Be still and wait until you hear the thoughts of your Heavenly Father. Then His thoughts become your thoughts. It doesn't mean you have to write a book or call a friend. You can if you want to, but it is better to stay in the present. So, if we continue to resonate with the sound of the thoughts of the Father, then **we expand** according to this picture here:

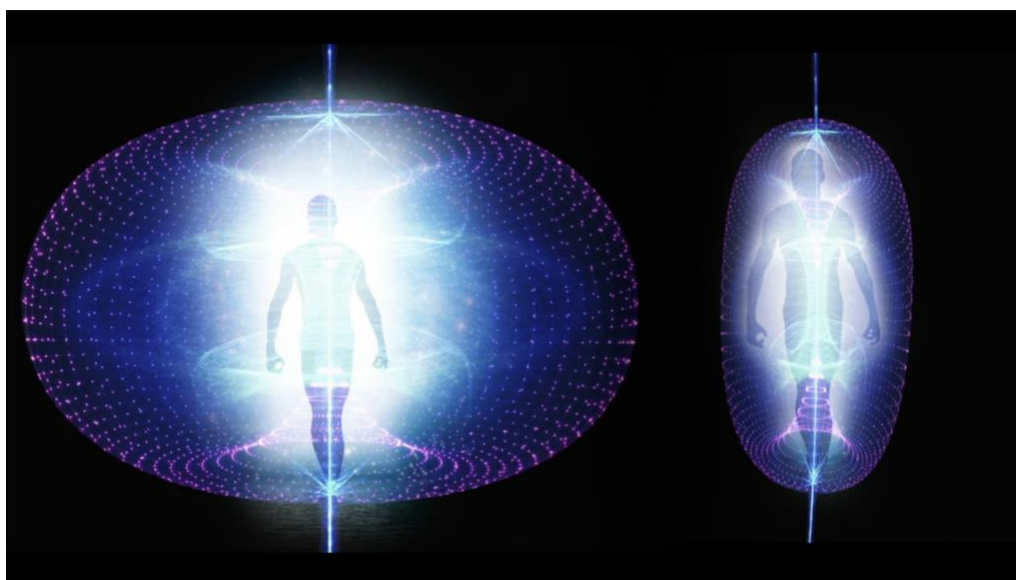

Remembering Your Future

English Transcript - Emerson Ferrell – 2023 Annual Conference (Session 5)

Energy carries frequency which carries information. The information that is in this field that you carry is wide enough to touch people 9 meters in every direction. And you don't have to open your mouth. That is why Jesus, when He walked through Galilee or He walked through Jerusalem, people didn't have to ask, "who He was". He was carrying the frequency of the Messiah. And as you start to expand because of your thought and your condition in the present, you are going to carry the same frequency. But if you are stressed out and you start to be concerned about predators in the environment and you start producing the hormones of stress, that field shrinks, actually, it can be cut in half.

This is the spirit dimension that you are created with:

But when you go from "living in the present" to "looking to the future or the past" your field shrinks. And the energy that is being expanded in this dimension actually keeps your body whole. But when you go into "fight or flight" or "hide" stage, your field shrinks. And what happens is, it starts taking energy from the organs and cells in your body and you don't feel good. So, what do you do? Can I get a doctor's appointment? So, they are going to give you synthetic drugs that is going to make your field shrink even more, and then you are on a downhill slide to oblivion. So, "stress" is the result of being unconscious. The minute you start to feel anything that resembles out of the "present tense" you can experience stress. You know the stress when you get the phone call that says, "somebody is in an accident" or "someone went to the emergency room" or you got a letter from someone that says they are going to "sue you" or your kid is doing this, etc... immediately you want to react.

All of these are "**opportunities in chaos**". Did you hear what I said? It is the greatest opportunity when you hear that someone is going to "sue you", is to get your check book out and write a check to "Voice of The Light Ministries". ☺ I'm just kidding, but really, I'm not. ☺

Remembering Your Future

English Transcript - Emerson Ferrell – 2023 Annual Conference (Session 5)

Whenever it looks like you are about to “go under”, when “there is no hope”, you do what nobody else is doing. When your body tells you, “*I can't get out of bed, I've got this pain, I've got this...*” you say, “*I know that is not true!*”

Listen, we can only feel our nose when we put our attention on it. Where you put your attention is where your energy goes. Pain in your body is “chaos” looking for someone that will believe that opportunity. **Chaos in your body is cleverly disguising the greatest healing you could have if you could believe it.** But you have to believe it. And the way you believe it is not in the future or in the past, but in the present. I'm not telling you things I have not tried; this is not theory, this is not concept. I am talking about things that I am living. So, if I can do it, you can do it, Amen!

So, I'm showing you these dimensions, these rooms:

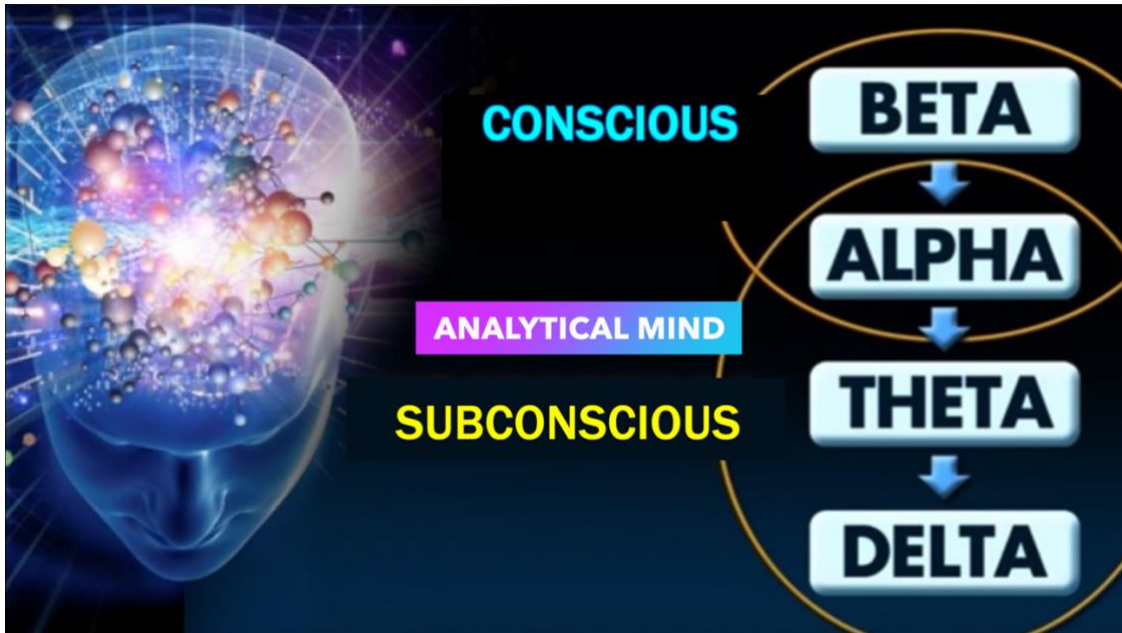

Whenever there is a place in my body or there are thoughts I am battling with, these are the dimensions I go into. And the warfare is getting to that position of *being still*. You have to fight. You have to be still and be quiet and fight every thought that is trying to invade that peace. Because it is easy to get on “WhatsApp” and say, “Oh look, Carla is eating carbohydrates again!” It is easy to get distracted. But that is when you really have to make it a decision that you don't back away from. And if you have the wrong kind of people around you, you might need to make a voicemail recording that I made.

“Thanks for the call, I'm busy doing some changes in my life, and if I don't call you back you are one of the changes.”

Remembering Your Future

English Transcript - Emerson Ferrell – 2023 Annual Conference (Session 5)

So, once I get into this place and start to see myself in dimensions, the analytical mind gets quiet, I slip into my Alpha thinking where my eyes are open, but I am kind of in a trance (a little sleepy, but my eyes are open). And if I really press in, I can get into Theta. I'm just giving you these names so that you can just kind of put a tag on it. You don't have to know when you are in it, you will just know.

That is when the limbic brain opens up and all you see is LIGHT. And the LIGHT is so bright that you don't have any idea what space you are in. And all of a sudden you will start to see dimensions. Not out there, but in here (in you). And when you are seeing it in here (in you) you know that you are in the dimensions of the Spirit. And then if you can resonate with a frequency of thanksgiving, you start to see a different type of light until it absolutely goes blank. And that is the sign that you have filled up with the resonating Spirit that you carry. And as you start to ascend back into the room you started in, when you arrive, it looks the same, but something is different. You are not being bombarded with any kind of stress. They could pull out your teeth and you wouldn't even feel it. You are totally a different type of being when it comes to sensitivity in this dimension. And the Lord told me, *"The reason you can do that is because you have overcome the fear of death."*

If there is fear of death in you, it is what keeps stress alive in you. At the root of all stress is the fear of death. You might clothe it in something else, but beneath that it is the fear of death.

So, I want to talk a little bit about the glory of God. Because that is a very important subject when it comes to understanding your spiritual nature.

Remembering Your Future

English Transcript - Emerson Ferrell – 2023 Annual Conference (Session 5)

In John 11, this is the chapter that Jesus meets with Mary and Martha and raises Lazarus from the dead, and before Jesus went to Bethany to be with them He had to tell His disciples... well let's read it, it's funny...

John 11:11-15

"...Our friend Lazarus is asleep, and I am going there to wake Him up." And the disciples said, "Lord, if he sleeps, he will get well." Then Jesus said to them plainly, "Lazarus is dead, and I am glad for your sakes that I was not there, that you may believe. Nevertheless, let us go to him."

So, you can understand that Jesus had a hard time communicating with the disciples. The disciples didn't understand that when Jesus was speaking, He was speaking about things that were spiritual, but because we want everything plain and easy to digest, you have to speak in the language of this linear dimension.

Lazarus is dead, and I am going to wake him up.

John 11:23

Jesus said to her (Martha), "Your brother will rise again."

Again, here is *linear thinking* by Martha.

John 11:24

Martha said to Him, "I know he will rise again in the resurrection at the last day."

Hallelujah!!! How many know the church language. They don't even believe what they are saying, but they can repeat it. That is the language you grow up with, that is what dumbs you down to think primitive thoughts.

John 11:25

Then Jesus said to her, "I am the Resurrection and the Life;"

Now you say it. "I am the Resurrection and the Life." Now say, "The Resurrection and the Life lives in me."

John 11:25

"...he who believes in Me, though he may die, he shall live."

Remembering Your Future

English Transcript - Emerson Ferrell – 2023 Annual Conference (Session 5)

So, in this dimension “dying is dying”, in the dimension of the Spirit, “dying is living”. Are you getting this? Dying is living. Remember, when I said if you can love your neighbor as yourself, you are dead because you don’t have any enemies. You don’t have to protect yourself. You don’t have to change your password, no one is going to steal anything.

So, Jesus goes to the grave of Lazarus and says:

John 11:40

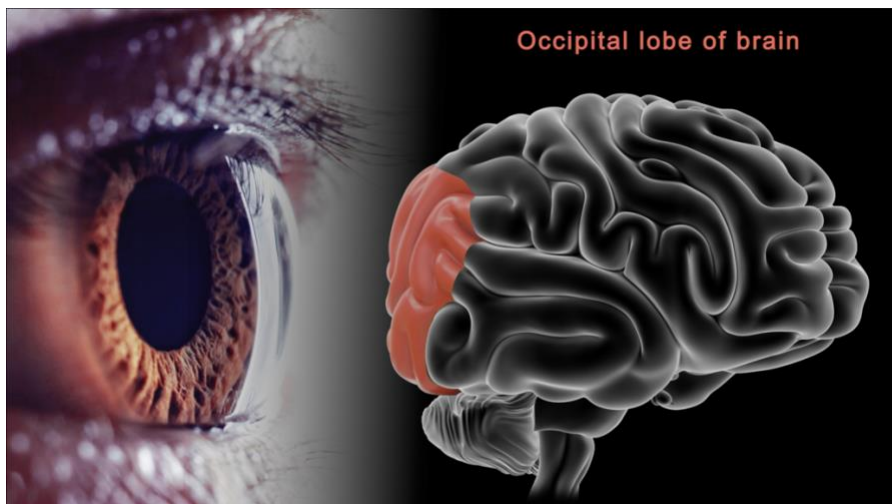

Jesus said to her (Martha), “Did I not say to you that if you would believe you would see the glory of God?”

The girls (in the audience) that asked me if they could see the spirit realm, stand up. Get off your cell phones and listen to what I’m telling you. Jesus is saying, “If you can believe, you will see the glory of God.” The glory of God is the invisible kingdom. We think the glory of God is some kind of special miracle, and it can be. Just as you heard earlier today, there are all kinds of glory. But when Jesus is speaking about the glory of God, He is talking about a dimension outside of this one. Most people want to see something with their senses.

I’m going to tell you about an experiment that I was not a part of, but I knew the people that did it. There were 20 people, and they gave them glasses that had a red lense and a green lense. And they told them to wear it for 2 weeks wherever they went (work-out, grocery store, picking up the kids) wear them all the time. At the end of 2 weeks, they came into the laboratory with their glasses on, and were asked, “Ok, look to the right and tell me what color you see.” They said, “We don’t see a color.” “Look to your left, what color do you see?” “We don’t see a color.”

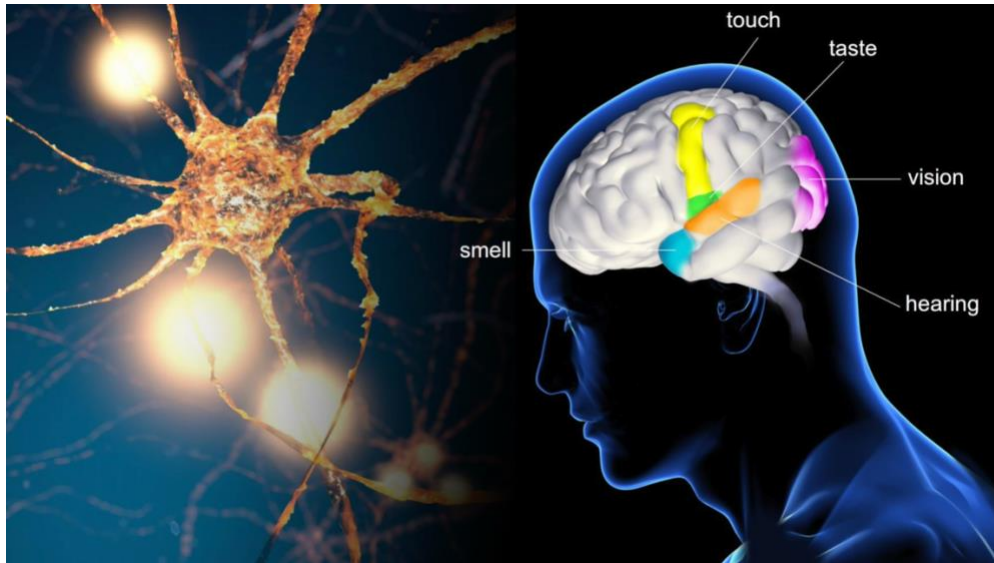

(The reason for this example)

Your eyes don’t see, your brain sees. The *occipital nerve* is in the very back of the brain.

Remembering Your Future

English Transcript - Emerson Ferrell – 2023 Annual Conference (Session 5)

Everything that you observe in the physical dimension goes through the receptors and all of this network of neurons and establishes an image. So, the point is, I recognize people by the neurological network that has been established with the image. The smells, the colors, everything that we think we are experiencing as a reality is a neurological network. The brain doesn't even have any light in it, it is totally dark, and it creates all of these images and all of these things that you respond to that has no reality. It is like watching a "motion picture."

How many of you cry at motion pictures? We all cry at motion pictures. So, it can create emotions in you, feelings in you (all kinds of feelings). But do not be deceived, your senses are no guide for reality. And all of the governments throughout the world depend on you to depend on your senses for reality. You eliminate for having any feeling for what is being shown, and they will disappear. Trust me, they depend on you more than you depend on them. You don't play their game they go away. All of that to explain to you that the glory Jesus is talking about is beyond your senses.

John 11:41

Then they took away the stone from the place where the dead man was lying. And Jesus lifted up His eyes and said, "Father, I thank You that You have heard Me."

Did any scripture talk about Him asking to raise Lazarus? Please Father, raise Lazarus for Me.

No. Jesus and His Father are One. Their thoughts are One. When you are in that conscious present, you don't need long prayers folks, you just need "thanksgiving".

Remembering Your Future

English Transcript - Emerson Ferrell – 2023 Annual Conference (Session 5)

John 11:41-42

“Father, I thank You that You have heard Me. And I know that You always hear Me, but because of the people who are standing by I said this, that they may believe that You sent Me.”

Isn't that amazing! Jesus did it for you! Everything He was doing He was doing it for you and He was satisfying He and His Father. You want miracles in your life, you want to raise the dead, you want to change the people around you, be One with the Father. He will know your thoughts because they will be His thoughts. And all you do is say, Thank you Father, you gave me the thought and now you have completed my desire. That is how the Father works. He says, *“It is My pleasure to give you the Kingdom.”* (read Luke 12:32)

What is the Kingdom? Anything you can believe for. If you can believe for it, your Father has given it to you. You don't have to check your wallet, look at your bank account, call your pastor to see if it is God's will.

Your Heavenly Father says, *“It is My pleasure to give you the Kingdom.”* (read Luke 12:32)

We have to live like this folks. Don't be around people that tell you that you can't and don't listen to those thoughts. When you hear those thoughts, it is because you have fear.

John 11:43

Now when He had said these things, He cried with a loud voice, “Lazarus, come forth!”

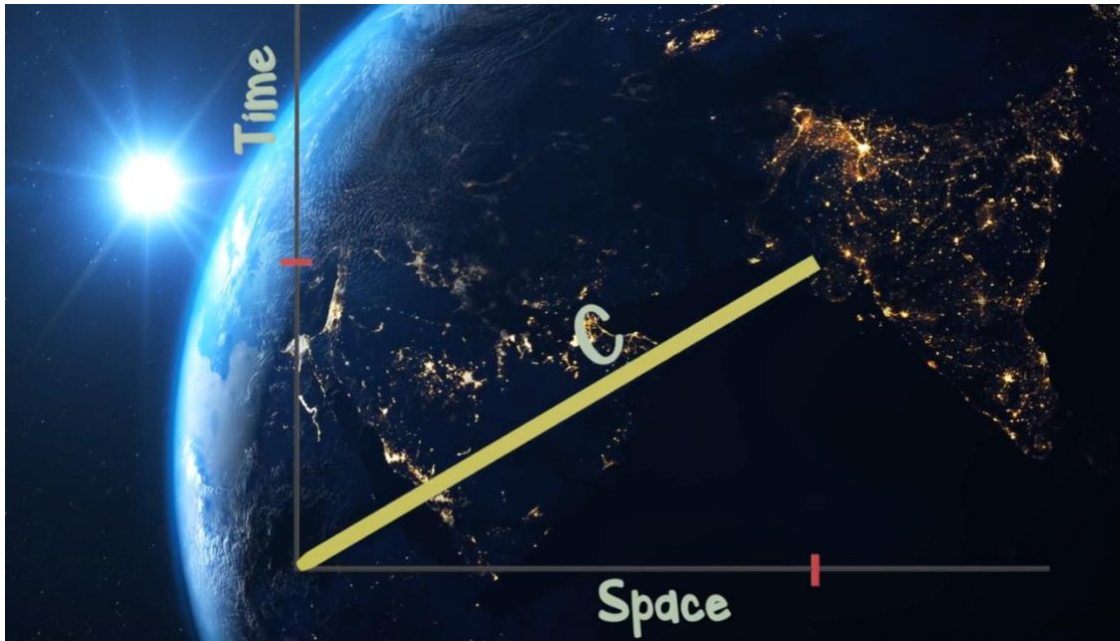

No surprise, Lazarus came forth. So obviously this was the glory of God being displayed in the physical, but it happened in the Spirit first. Jesus, in the Spirit, saw wholeness. There is no death in the Spirit dimension. What did He say (John 11:25), *“I am the Resurrection and the Life; he who believes in Me, though he may die, he shall live.”*

Physical death has no place in the Spirit dimension. The Spirit dimension is “Life and Life Abundant.” Living in a linear time zone, this dimension, is designed for physical death.

In this dimension, if you have a thought here and you want to go over there, you have to drag your body through time to get to that place.

Remembering Your Future

English Transcript - Emerson Ferrell – 2023 Annual Conference (Session 5)

And you can only go at the speed of light at this dimension. That is why Einstein created his *relativity theory*. Because he understood everything had a ceiling at this dimension at the speed of light. This light was created on the 4th day where there are shadows and limitations. We are created in the 1st Day Light. That Light has no shadows and has no death. Death is in this dimension because it just recycles. And if you go faster than the speed of light, you disintegrate, but in the Spirit, you can go faster than ALL LIGHT, because YOU ARE LIGHT.

In fact, the Light of the 1st Day is the thought dimension of God. And Thomas has a very cool verse about that:

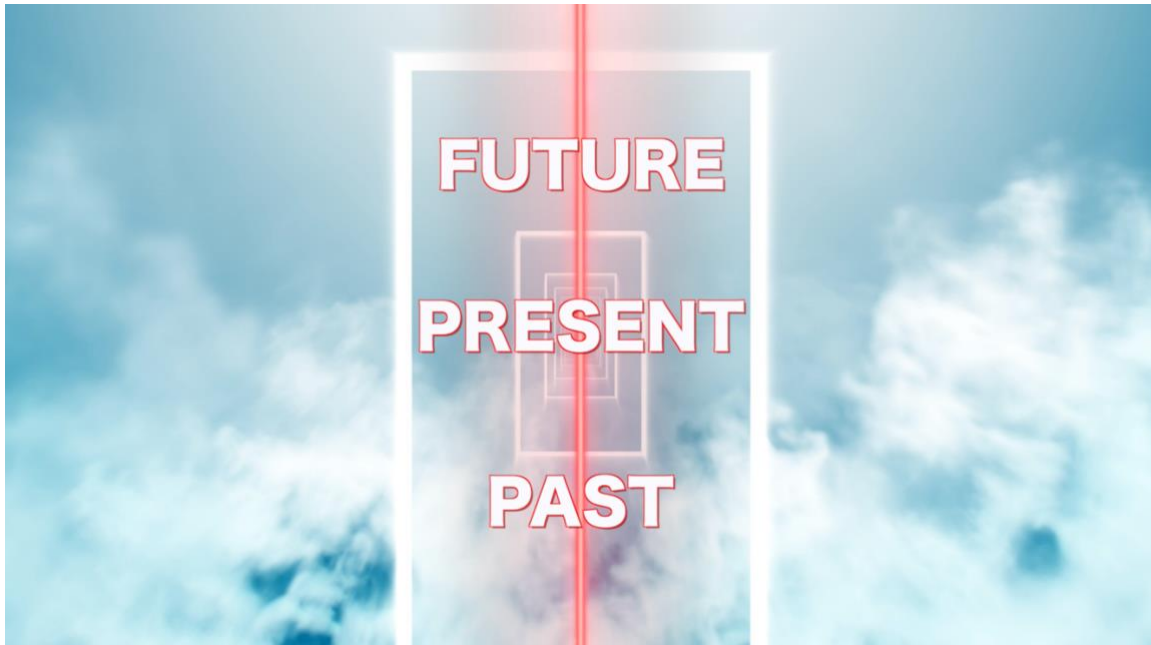

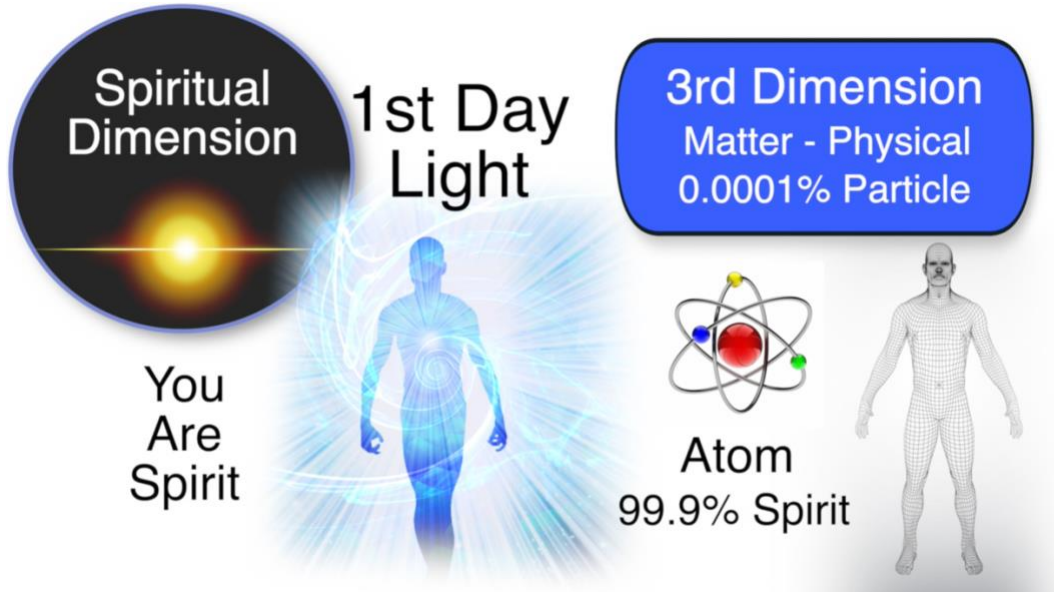

Gospel of Thomas, saying 83:

Jesus said, "The images are manifest to man, but the light in them remains concealed in the image of the Light of the Father. He will become manifest, but His image will remain concealed by His Light."

So, we are the container for the 1st Day Light. Inside of you is the ability to expand to the 1st Day thought of God. When God said, "Let there be Light," He created all things at that time. All things were done because the Light is in that dimension. It was not until the light of the 4th day that this dimension and material had existence. So, if you look at "Time and Space" which we were talking about "Time" is the 4th dimension and the "Space" we live in here is the 3rd dimension. And the faster you go in this dimension, the shorter time it takes. The problem is it does something to your physical body in this dimension.

Remembering Your Future

English Transcript - Emerson Ferrell – 2023 Annual Conference (Session 5)

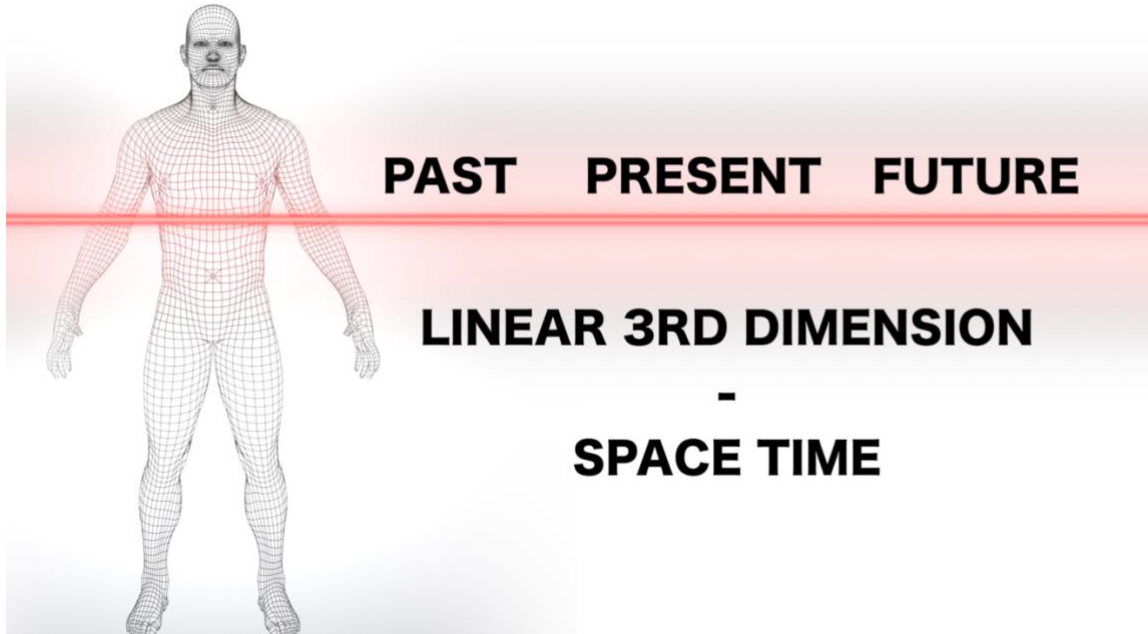

In the dimension of “Time and Space” when you turn vertically “*past, present, and future*” you can become “**pure spirit**” without moving anywhere, as long as you *stay in the present*.

Remembering Your Future

English Transcript - Emerson Ferrell – 2023 Annual Conference (Session 5)

The minute you start thinking about the “future” and the “past” you go back into the linear “Space and Time” dimension.

Be conscious of what you are thinking about. If you can think about a future that hasn't happened, that means you are transmitting (moving) in the Spirit dimension. Because your brain is an archive, it is a filing cabinet of everything that you have experienced. Your brain is not wired for a new experience because it is unfamiliar; it wants to be “in control” and it wants to be “safe guarded”.

But when you can have thoughts that have not had an experience in your brain, in other words, they are not connected to any experience you have had in this dimension, you are living in the present. Because those thoughts will not come to exalt you, or to protect you, or to give you anything. They will come as “breadcrumbs” to let you know that you are on the right track.

You will have to chew on that.
