

Exploring Creation with Mathematics, Level 5 – Errata File

This file contains the clarifications and corrections for the 3rd Printing: February 2024 of the **Student Text and Workbook**. (Posted 2024)

You can find which printing you have by going to the publications page in the front of your book. The printing for the Student Textbook and the Teaching Guide & Answer Key may not be the same. Corrections for the Teaching Guide & Answer Key are in a separate file.

Clarifications:

Page 257 – Revise the middle paragraph to read as follows:

"Estimation is a helpful tool for finding the approximate solution to a division problem. First, round the divisor and the dividend to make it a simpler problem."

Corrections:

Page 208 – On the 4th line, $10^4 = \mathbf{10 \times 10 \times 10 \times 10} = 10,000$ (delete the extra "x 10").

Page 209 - #2d. should be listed as $4 \times 10^2 + \mathbf{0 \times 10^1} + 3 \times 1 \dots$ (add the 0×10^1).

Page 257 – In Example 1 box, change the answer to the last equation from 50 to **5** ($150/30=5$).

Page 304 – The triangle on the bottom far right is "**scalene**" not "isosceles" (H and G points).

Page 335 – Example 2, Step Two, 2nd equation: change 7200 minutes to 7200 **seconds**.
