

Telon

Novel is a metal frame that can be complemented with shelves, closet poles, lighting and accessories, whereas Telon is a curtain that hides it from view and reveals, in certain cases, a cupboard, a work area or multimedia space, or even all these things together. The curtain, an evocative accessory that adds warm appeal and elegance to a room, is a sustainable solution as it reduces the consumption of materials. It also plays a soundproofing role, helping to limit sound diffusion in the room, thus preserving the intimacy of the sleeping area.

DESIGN Lievore + Altherr Désile Park

Novel è una struttura metallica da completare con ripiani, pali appendiabiti, illuminazione e accessori, mentre Telon è la tenda che la nasconde alla vista, rivelando all'occorrenza un armadio, uno spazio di lavoro o multimediale, ma anche tutte queste cose assieme. La tenda, oggetto evocativo che rende l'ambiente caldo ed elegante, è una soluzione sostenibile, perché riduce il consumo di materiale; in più, ha una funzione insonorizzante che aiuta a limitare la propagazione del suono nella stanza, preservando l'intimità della zona notte.

Lievore + Altherr Désile Park

An offshoot of the long-standing Lievore Altherr studio in Barcelona, Lievore + Altherr Désile Park is the result of the merger of two studios specialised in product design and development, strategic consulting, creative direction, art direction and ephemeral architecture for leading international design companies.

Evoluzione dello storico studio Lievore Altherr di Barcellona, Lievore + Altherr Désile Park nasce dall'unione di due studi specializzati in design e sviluppo di prodotti, consulenza strategica, direzione creativa, direzione artistica e architettura effimera per le maggiori aziende di design a livello internazionale.

Reduced volume

The Novel and Telon system has the same storage capacity as a closed wardrobe but occupies a smaller volume. This means more space in the sleeping area and a 30% reduced space for shipment compared to a traditional system.

Il sistema composto da Novel e Telon ha la stessa capacità di contenimento di un armadio chiuso ma occupa un volume inferiore. Significa più spazio a disposizione nella zona notte e ingombri di spedizione ridotti del 30% rispetto a un sistema tradizionale.

Fixing systems
