

The Future is Now

Remembering Our Future Series – Session 2 | English Transcript – Emerson Ferrell

As you know, we're continuing our series "Remembering our Future" and understanding "that" requires us to understand Scripture. And we've been studying the scriptures regarding "before the foundation of the world."

Let's look at those verses again. It's always good to read the scriptures.

John 17:24

"Father, I desire that they also whom You gave Me, may be with Me where I am, that they may behold My glory which You have given Me, for You loved Me before the foundation of the world."

And if we turn over to **Ephesians 1:4**

"Just as He chose us in Him before the foundation of the world, that we should be holy and without blame before Him in love,"

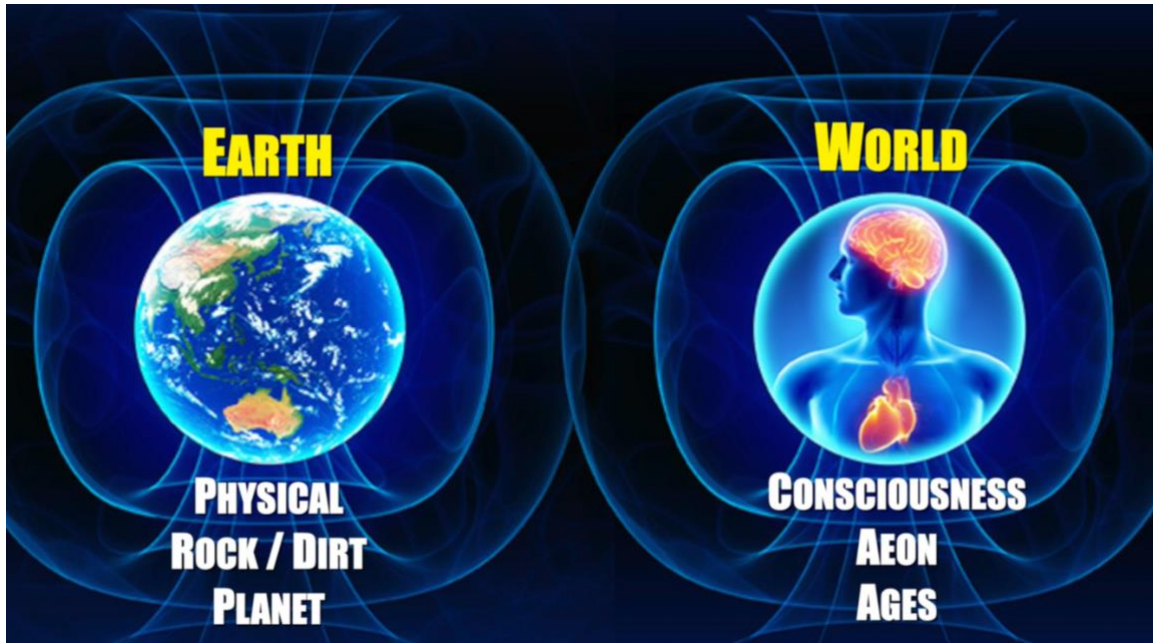

Before the foundation of the world, we were in Him.

1 Peter 1:20

"He indeed was foreordained before the foundation of the world, but was manifest in these last times for you."

Now this is really critical to understand "what is" before the foundation of the world? Because that phrase is used, but unless we can identify when that was, we may have some difficulty understanding the difference between **world** and **earth**.

We've already discussed the difference as far as the **world** being *what we believe* and the **earth** being *this physical realm*. So, let's look at this verse that I gave you in the letter written by Thomas. And this will help us as we go through our description.

The Gospel of Thomas, saying # 11

Jesus said, "This heaven will pass away, and the one above it will pass away. The dead are not alive, and the living will not die. In the days when you consumed what is dead, you made it what is alive. When you come to dwell in the light, what will you do? On the day when you were one you became two. But when you become two, what will you do?"

Now this is one of the most interesting verses, I think, that Thomas wrote. And today we want to make it crystal clear. Because we know that when Jesus spoke, He spoke Spirit. And because we have become so earthly minded, it's hard for us to understand the spiritual meanings of what Jesus spoke.

Before anything existed in the material realm, the "Godhead is". In the Godhead we find the Father, the Son and the Holy Spirit. We read in those verses that we were "in Him" before the foundation of the world. That means everything that *is visible* and *invisible* is in the Godhead, in the timeless multi-dimensional area. And it's not an area. **It is a dimension.** When Jesus was quoted in this verse, He said, "the sky above you will pass away, and the one above it will pass away." This is not in any of those dimensions. It is the **Eternal Now!**

See, “*before the foundation of the world*” happens outside of this dimension. Because what is “in God” is His completeness. Everything. So, everything that was “in Him” was in this dimension. The ***foundation of the world*** happened in **Genesis 3**.

Now remember, when God created the earth, He created it as the Kingdom of Heaven. But when man fell, there was a difference in *the world*. So, before we get to the *second world*, let's look at what happened in the *first world*. Because I'm using the word “**world**” and “**earth**” together in the Kingdom of God. God's thoughts and His heart were One in the *first earth*. In other words, what God believed, He also thought. That consciousness was in the first man, and in the first earth and world. It was released in **Genesis 1:3**.

Genesis 1:3

Then God said, “Let there be light. And there was light.”

Think about that. The consciousness of what God believes, and thinks is released in that light. And that light was made “visible” in the “invisible and the visible” dimensions, because that's how the first man was created. Man was absolutely in the invisible and visible because of his consciousness. And in Genesis, when He released the light, look what happens in Revelation 5.

Revelation 5:13

And every creature which is in heaven and on the earth and under the earth, and such as are in the sea, and all that are in them, I heard saying:

“Blessing and honor and glory and power be to Him who sits on the throne, and to the Lamb forever and ever!”

This happened simultaneously in every part of God's creation. Genesis and Revelation work hand in hand. So, what happened in the first Earth? This Earth was in a quantum condition. Whatever man could think he could create, that part of man is still the same. Whatever he believes he creates. The problem is his heart, and his thinking are separate.

Let's see where the *foundation of the world* began.

Genesis 3:7

Then the eyes of both of them were opened, and they knew that they were naked; and they sewed fig leaves together and made themselves coverings.

Genesis 3:10

So he said, "I heard Your voice in the garden, and I was afraid because I was naked and I hid myself."

So, what happened in the first Earth? The foundation of the world was established in that fear and in that unbelief. The population of that whole *earth* was destroyed (with the Flood). The second earth was formed after the water receded, but the *foundation of the world was established* in this *condition of man*. His eyes and senses were activated, and he was afraid. That's what separated him from God.

Now, what was dead was in the first earth. But the condition of the mind and the thoughts were transferred into the *second earth*. So, when we read this verse and we see what Thomas is saying "the dead are not alive and the living will not die," (*read The Gospel of Thomas, saying 111*) the dead were in the *first earth*. The consciousness of that came into the *second earth*. **Those of us who are in Christ from before the foundation of the world are alive.** We will never die unless we choose to die. The men in the first earth had a choice. They could serve God, but they chose not to serve God, so they died. That consciousness came into the second earth.

The Gospel of Thomas, saying # 11

"In the day when you consumed what is dead, you made what is alive."

If we consume the consciousness of this verse, "*the foundation of the world*", which is the satanic mentality, we make it alive, and it becomes alive inside of us. It consumes what we think, it consumes what we believe. And we make that "that is dead" alive because that's what we consume.

Now, Jesus in **John 3:16** died for this consciousness. He died for the consciousness of mankind that was passed into the *second earth*. That's **the light** that is now in this earth.

The Gospel of Thomas, saying # 11

“When you come to dwell in the light, what will you do?”

You come to dwell in the knowledge of what Christ did. What will you do? You have a choice. You can serve darkness, fear, unbelief, yourself, which is what happened in the first world. But that's your choice.

The Gospel of Thomas, saying # 11

“On the day when you were one you became two.”

In the *first world*, man was one. His thinking and his believing were the same.

In this verse Thomas says:

The Gospel of Thomas, saying # 106

Jesus said, “When you make the two one, you will become the sons of man, and when you say, ‘Mountain, move away,’ it will move away.”

When you make your thinking and your believing “one”, which is your heart, you become one, you become one. And then you can make the mountains move away. **What you say has the power to do what you believe.**

Let's look at the beginning of this verse here.

The Gospel of Thomas, saying # 56

Jesus said, “Whoever has come to understand the world has found (only) a corpse, and whoever has found a corpse is superior to the world.”

Jesus is telling Thomas that before He reconciled man to God, the consciousness of sin made man dead. This man was dead. He was a corpse. And when you see that your life is dead without the light, then you have what Thomas says: *“You're superior to the consciousness of this world. You're superior to this world.”* (see *The Gospel of Thomas, saying # 56*)

So, what I'm trying to get you to understand is, we must recognize that *the consciousness of the first earth is what came into the second earth*. That sin consciousness is what controls the world system. The world system is not what you can live in. We have to go back to where we originated. All that requires is making the choice. **The choice to “live in the eternal now” is the spiritual consciousness that removes the world system from inside you.** Otherwise, man becomes consumed by the world's system. And what happens is man is basically a skin covered petri dish.

Now what does that mean? That means the senses that Adam was talking about in the garden become his governor of how to live on this planet.

Many people are raised hearing the voices of their parents say, “Look out for the car, tie your shoes, you're going to fall down the stairs, you're going to get killed.” This narrows our focus to be on the external. **The minute your consciousness starts to look at the outer world, you're going to by nature try to navigate through that system. That means you are separated from the spiritual dimension. Your thoughts and your heart cannot be one when you're focused on the external because you're interested in self-preservation.** And look at the outer world that we're living in today. There's no nothing but fear being broadcast in every corner of the planet. That produces stress hormones in your body. The stress hormones make you focus on symptoms that are external. **And where you put your attention is where your spiritual energy goes.**

So, ten good things could happen to you today, and you might break a fingernail or step on something; so, one bad thing happens, and you'll obsess on that bad thing the rest of the day. Why is that? Because we're so sensitive to what's wrong around us because of the fear that we've manifested in our beliefs.

“Someone is going to cause me pain. Somebody's going to create a condition that I can't handle. I need to be in control. If I'm not in control, something can happen to me.”

And the more energy you put in that area; you start signaling to everything around you that *you want to be in control*. That frequency will bring everything to you that will take you out of being in control. You'll attract the disaster that you feared because all your energy is going in this external circumstances. It's the same thing when you get some kind of feeling in your body, some kind of symptom. The minute you get a symptom, you start obsessing over the symptom. You Google search the symptom on your computer and immediately you say, *"Yeah, I got that, I got that feeling. That's what's wrong with me, I need to run to the doctor to see if he can help me."* Ever done that? And the more you start to understand you are not this physical being, the less attention you'll place on your physical body.

You are light. If you dwell in the light, what will you do? If you separate and become two, the separation creates distance between you and what you're trying to achieve.

What do I mean by that?

We're taught to operate according to *action and reaction*, **"cause and effect"**. That's the **Newtonian system**. The Newtonian system had laws. It says, *"Time is merely a measure of cycles of change within the world."*

Already time becomes a factor. See, when you operate in this three-dimensional system, because that's how we're taught, we need to do something to get something. We have to be the best in order to get the best prize. But that requires moving through time. If your goal is separated from you, say you want a car, a new house, clothes, whatever it is, you get an image of that and that is separated from where you are. Operating in this system of three dimensions means you have to work harder to get enough money to pay for the car. You have to do all these physical things to get from point A to point B. And if you want to get to point B faster, you have to work harder. All of that is operating under the laws of Newton in the three-dimensional space.

"Space is something distinct from body and exists independently of the existence of bodies."

In other words, you have **time**, and you have **space**. And the more we focus on our external, the more time we need to get through space. That requires our attention to be strictly on the external. It produces more stress, it produces more separation, and it creates something that you can never achieve.

What God is saying through Thomas, “*On the day that you dwell in the light, you are one.*” (paraphrased) (read *The Gospel of Thomas*, saying # 11 and # 106)

That means **what you're after is not different than who you are**. Let me explain it differently.

Most people want to have money so they can have freedom. If people are sick, they want to have health so they can feel better. That's operating in three dimensions of the duality system. That's cause and effect. Suppose you say to the mountain, “Move!” That requires for the two to be one. So instead of waiting for the disease to leave to feel healthy, why don't you start feeling healthy now? Because *who you are* is health, *who you are* is life. So, people want to have money so they can feel abundance. Why don't you feel abundance now? Instead of waiting for that cause to create an effect, **why don't you cause the effect by feeling the emotion now?**

Because most of our life in the physical dimension is so that we can feel something. And if you have the feeling now, there's no reason to think about it for the future. You end up living in the *eternal now*.

So, man comes into this physical dimension as a skin covered petri dish. **Cells** are what creates life from the blood, they're like little batteries. So, whatever we picture creates the chemistry that goes into this petri dish. So, the brain creates the image that produces the chemistry that affects the cells. So, if you're thinking about death over life, then what you're producing in your blood and in your cells is death. Which is going to cause you to focus more on your physical body. But if you're thinking about life, you're going to work in conjunction with uniting your heart with your thoughts.

You see, every time you have an image, the picture we focus on in our brain produces the chemistry. So whatever our picture is that we have, the brain produces the chemistry for the cells.

The cells can only be in two conditions. They're either in protection or they're in growth. If they're in growth, your body starts to reproduce the chemistry that fights disease. Your body produces what's necessary to make you healthy. But it begins right here: *what you're thinking about, what you're hearing, what you focus on*. Now these are basic things you've all heard before, but they work at the cellular level.

All of us have the responsibility to create a *new earth*. God created this earth to be quantum. We can create whatever we want. We have to see beyond what is obvious to what God put before the foundation of the world.

Everything that He hid in plain sight is available to His disciple. You remember when Jesus tells His disciples:

“I'm going to share the mysteries of the kingdom with you.”
(paraphrased from Matthew 13:11)

The **“mysteries of the kingdom”** is everything is hidden in plain sight for every generation that comes across this planet. You see, throughout history, man has always depended on science. You remember when Nebuchadnezzar called his astrologers. You remember all the kings that always wanted to hear from the astrologers, and they wanted to hear from their wise men. **God has always put the prophetic in the earth because science is not the salvation. The kingdom of God is the salvation. And the prophetic is supposed to show people the kingdom of God.**

The prophetic removes the veil of what is obvious, to show what is hidden. What's hidden is the **first day**. We can return to the **first day** where the consciousness of Christ fills our being, and we have whatsoever we ask.

What is it that you want the most? Is it health? Is it healing? Marriage wholeness? You think you need money? You think you need a new house? Do you think you need new clothes? Whatever it is you think you need, you can't achieve it in the *“cause and effect”* reality of the third dimension, you receive it when you do what Jesus told His disciples:

“Enter the kingdom and all these things you desire are there waiting on you.”
(paraphrased, see Matthew 6:33)

You don't need anything but focusing on what He's already given you. Can you see yourself abundant? Can you see yourself whole and healed? Can you see yourself with all your needs met? The minute you do, you have what you've asked for. I say that as long as you're waiting for something to come to you, you're looking in the wrong place.

Jesus, absolutely, because of His death on the cross, returned the kingdom of God to this earth. In other words, He made it quantum. So, whatever you believe you can have.

Are you believing for life or are you looking over your shoulder for something to get you? Be conscious of what you're doing. The Spirit of consciousness is the reality of that dimension. The Spirit of consciousness, because it is the Holy Spirit, came to bring into remembrance everything Jesus has said (*see John 14:26*).

Everything Jesus said was bringing the Spirit of consciousness into the earth. The Spirit of consciousness is faith. Instead of using faith to bring sickness to you or disease to you, (*remember we spoke some time ago about how faith will bring you what you believe*), it works with the consciousness of God or the consciousness of the first world. Whichever consciousness you're focused on, faith will bring it to you.

So, if you are focused on what Christ is doing right now, then you're living in the now. And everything that you think you need has already been supplied.

I hope you're getting this because the condition that we find so obvious around us is because the kings of this world are listening to the science and the astrologers of this world. I've come to tell you as a messenger from God. It's not the way it looks.

I'm going to say it again. What the obvious is, is not what it is. It's only what you believe.

Do you believe all the chaos and terror and disease? You'll have what you believe?

If you can see what is hidden, you can live in the fruits of abundance now. Because that's where it is. We've had the greatest time of our life these last several months.

We're rested. We're hearing things from God we've never heard before. Let me tell you, life is good.

If you're under the sound of my voice, unplug from the voices of this world's system. Unplug. Don't repeat the nonsense that you're hearing. Something is coming. You see, this is the **Lazarus generation**. It's been in the grave now for almost four days. Jesus is about to step forward and tell you to come forward. Are you asleep or are you dead? Look at this verse in Matthew 8:21.

Matthew 8:21

*Then another of His disciples said to Him, "Lord, let me first go and bury my father." But Jesus said to him, "**Follow Me and let the dead bury their own dead.**"*

So that means there's the dead already in the earth. How is that possible? That consciousness came over from the first world. Everyone was in the Godhead in the beginning, but the *first world* was the *foundation of the world*. The dead consciousness came from the first world. And we make it alive by believing it. That makes you dead.

I hope you understand what we're trying to do here. We're trying to show you a real clear difference between living in the spiritual dimension and how people operate from this material dimension. When they "think" in this three-dimensional dimension, they try to change what's happening from that condition.

Matter cannot change matter. The only thing that changes matter is your spirit. And that comes from what you believe. That's the dimension that marries your heart with your thinking.

So, all of these series will be designed to give you tools to help you see your consciousness and the emotions tied to them. Because those emotions are what's putting the chemistry in your blood that's causing your cells to have symptoms. Our cells are getting brighter and stronger every day because we're feeding them with the glory of God. That's the resurrection. All you think about is the resurrection. So, until we see you next time. God bless you all!
