FOREWORD

Method books give you the materials you need, yet only the relationship between you and the student can bring the music to life. This *Teacher's Guide* is intended to suggest possible ways to introduce and work with each piece in *Piano Lessons Book 1* of the **Hal Leonard Student Piano Library**.

New Concepts: highlight the new musical ideas presented in each piece

Touch & Sound: highlight the physical skills needed to create the appropriate sound and mood of each piece

Review: highlights those concepts that may need continued work

The teaching suggestions are divided into the following categories:

Prepare	Practice	Perform
Introduces the coordination and rhythm of each piece before combining those aspects of the music with pitch reading.	Includes steps to learning each piece, such as blocking, comparing phrases, and saying note names or intervals out loud.	Includes suggestions for putting all the steps together to play each piece accurately and in the appropriate tempo, mood, and style.

Each page also includes references to the coordinated activities in *Piano Practice Games*, *Piano Theory Workbook*, *Piano Technique*, *Notespeller*, *Piano Solos*, and *Music Flash Cards*.

In addition, the *Lesson Planning Chart* on pages 65-69 gives you an at-a-glance view of how to coordinate all of the books and materials in Book 1 of the **Hal Leonard Student Piano Library**.

We hope these teaching ideas will stimulate your own unique teaching style and will help you organize your lessons in ways that keep the pleasure of making music the first priority!

Feel The Beat!

Become aware of the heartbeat inside your body. Feel how it beats in an even pulse. Sometimes your heart beats fast, like when you run; sometimes it beats slowly, like when you are asleep, but it always beats evenly.

Rhythm In Music

Music has a pulse, too. Just like your heartbeat, musical pulse can go fast or slow.

Clap this pulse as your teacher plays the accompaniment below three different times at different speeds:

- 1) at a slow speed, 2) at a medium speed, 3) at a fast speed.

You can also play this pulse on the piano using any black key. Remember to keep the pulse even.

Accompaniments may also be played on audio CD or General MIDI Disk. Numbers indicate the track.

Accompaniment

From the very first lessons in **Book 1**, students are making music as they explore the piano keyboard through fun improvisation pieces called *My Own Song*. The beginning of the book introduces finger numbers, the black-key and white-key groups, and basic rhythm patterns.

Directional reading is taught first by finger number, then by note name, and then by interval (step, skip, and repeat). Once the students are introduced to the staff, they learn reading guides **Bass F** and **Treble G** and read by interval in several different hand positions.

Each book of the Piano Ensembles series also contains a **Conductor's Score** with optional teacher accompaniment, and suggested instrumentation for electronic keyboards.

Piano study doesn't need to be lonely any more! These ensemble versions of favorite piano pieces from the **Hal Leonard Student Piano Library** will give students the pleasure and inspiration of playing with their friends.

Each selection includes:

- A conductor's score with optional teacher accompaniment
- Four student parts:
Parts I and II for the first piano
Parts III and IV for the second piano

Four players at two pianos will be able to give a full and appropriate performance of each piece, yet more combinations of players and instruments are possible. Students can even add an orchestra!

Here are some ideas:

- Use four digital pianos or electronic keyboards that allow students to play the suggested instrumentation for each part.
- Double, triple, or quadruple the student parts.
- Add the orchestral arrangement available on CD  or GM disk .
- Add the optional teacher accompaniment, designed for both rehearsal and performance, by using an additional piano or keyboard.

Full orchestral arrangements, available on CD or GM disk, may be used for both performance and rehearsal:

Track 1, a **full performance version**, includes the four student parts recorded with suggested instrumentation plus an instrumental accompaniment that deepens and broadens the sound of the student ensemble.

Track 2, a **rehearsal version**, includes the four student parts recorded with suggested instrumentation and a guiding rhythm track.

If students are using a keyboard that lacks a suggested sound, other voices may be substituted. For example, if an instrument does not have "Glockenspiel," use any available similar sound, such as "Vibes" or "Marimba." If "Oboe" is unavailable, use any similar sustaining sound, such as "Flute," "Clarinet," or "Strings."

We hope you and your students will enjoy the challenges and pleasures of playing these exciting ensembles. Strike up the piano band!
