- Form Validation & Workflow Automation
- Database Design & Integration
- Code Refactoring & Maintainability
- Accessibility & UI Optimization

TOOLS

- TypeScript
- JavaScript
- Python
- React
- Next.js
- Node.js
- FastAPI
- NestJS
- HTML5
- CSS3

Results-driven Web Developer with professional experience in full-stack development, specializing in React, Next.js, Node.js, FastAPI, and AI-powered web applications. Proven track record of building scalable SaaS platforms, reusable UI component libraries, and intelligent systems leveraging RAG, LLMs, and cloud infrastructure to improve operational efficiency and user experience. Brings strong expertise in modern frontend frameworks, backend architecture, API development, and AI integration, helping organizations create innovative, high-performance digital solutions that support scalability and business growth.

WORK EXPERIENCE

SOFTWARE DEVELOPER

Ingenuity Global Consulting, Inc. | April 2024 – December 2025
(1 Year, 9 Months)

- Engineered reusable UI component libraries using Tailwind CSS, built analytics dashboards with real-time visualizations, developed multi-step form workflows with schema validation, standardized code formatting practices, and delivered responsive and accessible interfaces.

WEB DEVELOPMENT INTERN

Remarkablism Services Corporation | Turnkey Phils | March 2023 – April 2023 (2 Months)

- Built responsive user interfaces using JavaScript, HTML5, and CSS3, contributed to UI implementation for client websites, and supported digital media and visual communication tasks.
