BEYOND THE GAME

As players leave the game there needs to be a programme of support to ensure a smooth transition into their new career.

OUR VISION

- Whatever your story, wherever you played, we are there to support you as you take the next step(s) on your path.

OUR MISSION

- We are dedicated to helping rugby players who have contributed and shaped our sport to achieve their full potential Beyond the Game.

OUR PURPOSE

- Support players in navigating their transition from rugby while empowering them to face the challenges associated with the loss of identity that accompanies leaving the game.
- Promote the physical, mental, and social wellbeing of players after rugby, by offering comprehensive support services and proactive mental health programmes.
- Prevent the social exclusion of the most vulnerable players, including those facing challenges such as unemployment, financial difficulties, physical or mental illness, substance abuse, or dependencies, by providing necessary support and resources.
- Encourage players to use their capacity as role models to create positive change in their communities.
- Advocate the importance of supporting players throughout their entire life, and not just their playing careers.

[International Rugby Players](#), through its global player associations, has successfully piloted programmes for former players in several countries. They will be key partners to extend these programmes to other countries and to guide the development of new programmes.

OUR PLACE IN THE RUGBY ECOSYSTEM

In the rugby ecosystem, we focus on past players and those transitioning from the game, distinguishing ourselves from others who are primarily concerned with current players. In order to be successful, we will need the support of the whole ecosystem.

SUSTAINING SUCCESS BEYOND THE GAME

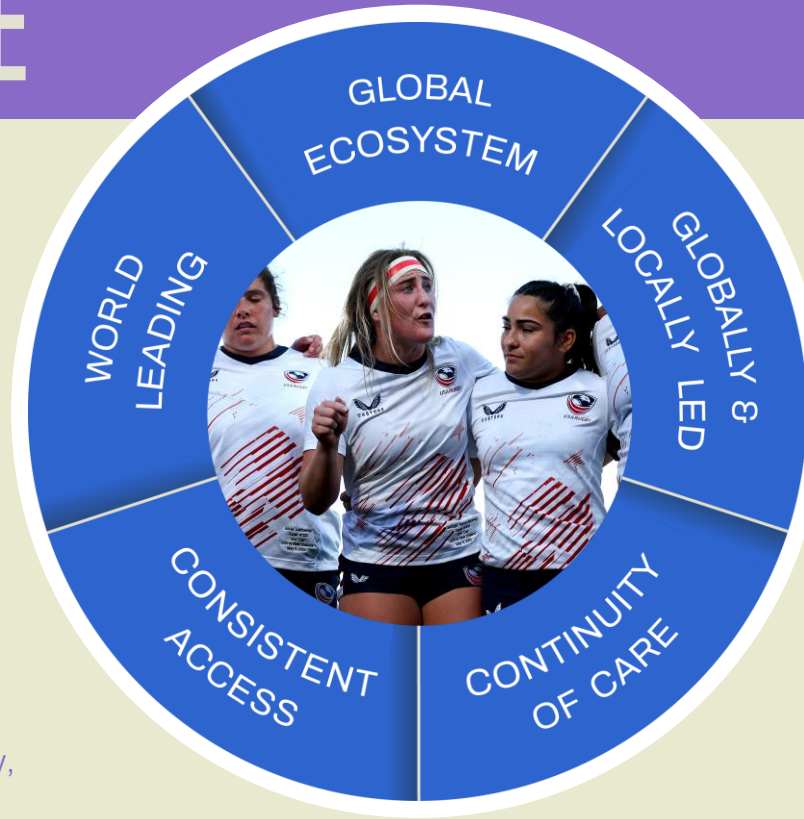

Our aim is to work with national and local organisations to reframe the concept of life Beyond the Game by looking at it as a positive challenge, creating opportunities to sustain success.

AWARENESS

Raise public awareness of the challenges players may encounter when transitioning away from the game, highlighting the importance of [supporting players during this adjustment](#) period. By taking a global-to-local approach, we can tailor and enhance our services for maximum impact where it's needed most.

AMPLIFY

Serve as a platform to promote positive practises and drive cultural change within the global ecosystem. By [measuring and tracking](#) the progress of the players as they engage with our programmes we are able to [magnify, enable and showcase best practises](#) to empower all players to become self-sufficient, reaching their full potential Beyond the Game.

ALIGN

Bring together current and former players worldwide and actively [encourage connection](#) through targeted and timely engagement strategies. This effort aims to bridge divides, address inequalities, and build a supportive global community.

ACTION

Establish a proven record of influencing, engaging, supporting, and mobilising the global ecosystem to [promote physical and mental health and well-being](#). Our efforts aim to reduce loss of identity and [prevent social exclusion](#) among our most vulnerable players while [advocating for the importance of lifelong support](#) for all players.

ALLY

Cultivate [collaboration and engagement](#) within the rugby ecosystem [to allow for greater contribution, sharing, and achievement of meaningful results](#). This approach is rooted in a shared understanding of the needs of current and former players, guided by our common ambition.
