BEACH CLEAN EXCURSION PACK

We have created this beach clean pack with a variety of resources to help get your students excited about cleaning up marine debris and protecting the ocean.

If a beach is not easily accessible, we have also created an adapted version for a schoolyard cleanup, aimed at preventing litter from reaching the ocean (available on the website).

This pack is not just for classroom activities, parents are encouraged to join in and get involved with their children as well!

INCLUDED IN THE PACK:

- 🦋 Bingo for marine debris
- 🦋 Data collection sheets
- 🦋 Data reflection activity
- 🦋 Beach clean reflection worksheet
- 🦋 Beach Clean Hero award

If you plan to take your students outdoors, please ensure the following safety measures:

- 🦋 Appropriate risk assessment completed
- 🦋 Sun protection
- 🦋 Appropriate footwear (to protect from glass and needles)
- 🦋 Water
- 🦋 Bags to collect the waste
- 🦋 Gloves (if available)
- 🦋 Any activity sheets from the pack you wish to use during the clean up

Most importantly, have fun while cleaning up and protecting the ocean and marine life!
