- Azure

Results-driven Web Developer with 4 years of experience in full-stack development, specializing in Laravel, Next.js, React, Vue.js, Node.js, REST APIs, and scalable web application architecture. Proven track record of developing and maintaining business-critical systems, improving application performance by 80%, reducing backend data bottlenecks by 75%, implementing third-party integrations, and deploying applications across cloud and on-premise environments. Brings strong expertise in frontend and backend development, API integration, performance optimization, cloud deployment, Git, and AI-assisted development, helping organizations build reliable, maintainable, and high-performing digital solutions.

WORK EXPERIENCE

FULL STACK DEVELOPER

WeAnswer | December 2025 – Present (9 Months)

- Developed and enhanced WeProChat and WePro CRM using AI-assisted development tools, implemented MCP server integrations to automate Jira and GitHub workflows, applied scalable software architecture practices, and collaborated with project managers and cross-functional teams to deliver features and resolve technical issues.

SENIOR FRONTEND DEVELOPER – PROJECT-BASED CONSULTANT

Highly Succeed Inc. | June 2025 – October 2025 (5 Months)

- Maintained and developed the Makati Hospital System, Plant-AI System, Makati Waste Management System, and Messiah College website, optimized frontend and Node.js backend performance, implemented pagination and queue jobs, configured image-processing workflows, supported deployments, and collaborated with QA, backend, DevOps, project management, and clients.

SENIOR FRONTEND DEVELOPER

Bitverse Corporation | February 2024 – June 2025 (1 Year, 5 Months)

- Maintained and enhanced HRIS features and performance, implemented SEO, deployed applications to cloud and on-premise servers, supervised and trained interns, and contributed to a configurable HRIS platform using React.js and Node.js for payroll, leave, and company rule management.

WEB DEVELOPER

Eversun Software Philippines Corporation | September 2022 – February 2024 (1 Year, 6 Months)

- Developed an internal domain classification system, maintained and improved the CONX staff augmentation platform, built Node.js integrations with Upwork for reporting and freelancer work-hour and cost tracking, and collaborated with QA teams, project managers, and clients throughout development.
