Chair / Armchair

La sedia come microarchitettura in legno.
L'arte dell'ebanisteria in chiave industriale: i singoli elementi di legno massello sono lavorati da un robot.

A chair that is a wooden micro-architectural feature. The art of cabinet-making with an industrial twist: the individual elements in solid wood are processed by a robot.

Der Stuhl als Mikro-Architektur in Holz. Die Kunst des Schreinerhandwerks aus einer industriellen Perspektive: Die einzelnen Massivholzstücke werden von einem Roboter bearbeitet.

La chaise comme une microarchitecture en bois. L'art de l'ébénisterie en style industriel: chaque élément en bois massif a été façonné par un robot.
