Results-driven Web Developer with hands-on experience in full-stack and mobile application development, specializing in Laravel, Next.js, React Native, Supabase, and responsive web technologies. Proven track record of developing POS systems, optimizing web application performance by 40%, and delivering scalable web and mobile solutions across freelance and corporate projects. Brings strong expertise in frontend and backend development, database integration, and Agile collaboration, helping organizations build efficient, user-friendly digital platforms that improve operational performance and user experience.

WORK EXPERIENCE

PART-TIME MOBILE DEVELOPER (CONTRACT)

Trixicon (Tel Aviv, Israel) | January 2026 – Present

- Developed mobile applications using React Native, built WordPress-based solutions, and integrated Amazon services for backend functionality and scalable support.

AI TEST DEVELOPER (CONTRACT)

CoreThink AI Inc. (United States) | December 2025 (1 Month)

- Tested and evaluated coding model outputs, identified bugs and inconsistencies, created test scenarios, and contributed structured feedback to improve AI model reliability and performance.

SOFTWARE DEVELOPER (CONTRACT)

Freelance Client | September 2025 – February 2026 (6 Months)

- Developed a POS and inventory management system with sales tracking, stock monitoring, and reporting features to improve operational efficiency.

WEB DEVELOPER

DSG Son's Group Inc. | July 2025 (1 Month)

- Developed and maintained Laravel-based web applications, implemented backend logic and database integrations, and used Python scripts for data processing and system integration.
