STAINLESS STEEL STOVETOP ESPRESSO MAKER

COMES IN 3 STYLES

Espresso without the machine! Our Stovetop Espresso Maker puts a London spin on an old favorite, the Italian mocha pot. Favoring stainless steel over the traditional aluminum, it not only keeps unwanted flavors out of your cup, it works with all stove tops, including induction.

CERAMIC BURR COFFEE GRINDER

A better grind for better flavor.

Our Coffee Grinder's ceramic burr mechanism is made of sharp, durable blades to create a uniform grind without imparting any undesirable flavor, and the grind size is easily adjustable, allowing you to prep your beans for any brewing method. Keeping your grinder clean is simple with its rust-proof ceramic and stainless steel construction. And the ergonomics of the grinder makes it comfortable and easy to hold; a silicone outer grip prevents slipping while turning the extra-large, smooth-turning handle. Just flip the handy silicone lid back to add your beans to the 40g capacity hopper without having to remove the entire lid. *So easy!*

CS230

PREMIUM COFFEE SPOON

The perfect addition to your morning coffee routine.

VERSI COFFEE SCALE

Featuring 4 pre-programmed pour-over modes designed specifically for coffee and tea drinkers, this Coffee Scale allows you to be in control throughout the brewing process. The super-bright digital LED display is easy to read in any environment and the rechargeable lithium-ion battery allows for up to 16 hours of continuous use. The Versi's 6.6 pound (3 kilogram) capacity can handle anything from espresso to the largest of pour-over brews, and you can easily switch between grams, milliliters, and ounces.

IMMERSION EXCURSION

FRENCH PRESS IMMERSION BREWER

FP1000

6 CUPS

1000ml / 34 oz

FP350

2 CUPS

350ml / 12 oz

Made from durable and thermal shock resistant borosilicate glass, our French Presses are perfect for those who want a bold and rich cup of coffee. The easy to clean glass carafe and high quality stainless-steel filtration system ensures no unwelcome flavors make it into your cup. Best yet, three levels of filtration keep coffee grounds and tea leaves out of your favorite beverage.

CB1500

COLD BREW IMMERSION COFFEE MAKER

1200ml

50.7 oz

Eco-friendly, easy to clean, and easier to use, our Cold Brew Immersion Coffee Maker is crafted from quality borosilicate glass and utilizes a stainless steel filter to minimize waste. In addition, the filter is constructed of rust-proof 304 stainless steel and designed to keep coffee grounds out of your coffee cup. Just add coffee and water, and let it steep.

POUR-OVER PERFECTION

CD1-B | CD2-B | CD3

COFFEE DRIPPER

These pour-over coffee drippers come in two designs: a ceramic dripper that requires standard paper filters or a stainless steel dripper with a reusable filter. Both are designed for simplicity and convenience, offering minimal effort and easy cleanup.

The stainless steel option completely eliminates the need for paper filters, while the ceramic dripper boasts excellent heat retention for the perfect brew every time. Whether you prefer reusable or disposable filters, both options deliver fresh, flavorful cups with less hassle.
