

ECC05NA

MANUAL CONCEALED CISTERN

Framless with Flush Plate

KEY FEATURES

- Leak Proof design** - EURONICS Instaflush guarantees no leakages and complete peace of mind. Each tank is tested for 2 lakh cycles which is equivalent to 50 years of use.
- Solid Construction** - EURONICS Instaflush has a sturdy build, with no joints, ensuring that it can withstand a load upto 1000 Kg.
- Debris Proof** - Stainless steel filter to block debris from entering the tank, while a sloping surface inside the tank ensures that any debris inside the tank slides out.
- Low filling time** - Don't wait between flushes as the tank fills up in less than a minute at 3 Bar pressure.
- Silent Filling** - Water fills in silently so that your loved ones can sleep uninterrupted.
- Flexible Installation** - 4 Way inlet ensures easy installation under any setting of water supply - be it on the top, back, left or right of the water tank. Allows for back to back installation.
- Easy Servicing** - A unique shape and slim design of flush valve ensures that it can be taken out easily for service if required.
- Full Flush** - 6 L (Can be controlled to 4 L)
- Half Flush** - 3 L (Can be controlled to 2 L)
- Including** - Flush Plate

All measurements are in mm.
