PROFESSIONAL

WHEEL & PAINT IRON DECON

D1801

- Rapid color-changing iron remover for wheels & paint
- pH balanced, safe on all wheels & painted brake components
- Clings to wheels to remove road grime, grease & iron

FOR PROFESSIONAL USE ONLY. NOT INTENDED FOR RETAIL SALE.

BODY SHOP SAFE

MEGUIAR'S® WHEEL & PAINT IRON DECON is a pro-strength gel formula that safely & effectively removes embedded iron particles from body panels, wheels & painted brake components. D1801 is highly effective at removing road grease, grime and dirt from wheels & brakes.

DILUTION: RTU

DIRECTIONS: DO NOT PRE-RINSE WHEELS OR PAINT. Apply product directly to cool, dry surface in the shade.

1. Spray generous amount, covering the entire area being treated.
2. Allow product to dwell 2-5 minutes. Do not allow to dry on surface.
3. Rinse away product residue with strong stream of water.
4. Dry area with Meguiar's® Water Magnet™ Drying Towel.

PROFESSIONAL TIPS:

FOR WHEELS: For neglected wheels, agitation may be required to fully remove heavy soiling. Apply a second application for severely neglected wheels and agitate.

FOR PAINT: Apply to washed and dried surface for maximum effectiveness. May require multiple applications for severe iron/fallout contamination. If non-ferrous particles remain, follow with Meguiar's Professional Clay.

PRECAUTIONS: Avoid breathing dust/fume/gas/mist/vapors/spray. Wear protective gloves and eye/face protection. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Contaminated work clothing must not be allowed out of the workplace. Dispose of contents/container in accordance with applicable local/regional/national/international regulations.
