Ideogramas chamados de **HANJA** (한자).

# INTRODUÇÃO: BREVÍSSIMA HISTÓRIA DO HANGUL

## TODOS CONSEGUIAM LER?

Certamente que não. Somente pessoas da corte e burocratas tinham esse privilégio.

Burocratas

Aristocratas

Povo comum

Para a **população em geral**, portanto, ficava **impossibilitada** a comunicação com autoridades e também o registro de experiências e conhecimento.

## E AGORA, QUEM PODERÁ NOS AJUDAR?

O Rei Sejong!

Para ele, o hanja era incapaz de captar os sentimentos unicamente coreanos.

A partir de um **alfabeto simples**, tinha a esperança de melhorar a qualidade de vida de todo o povo.

Obrigado!
