TOOLS

- WordPress
- Elementor
- HTML
- CSS
- JavaScript
- PHP
- jQuery
- Advanced Custom Fields (ACF)
- Custom Post Types (CPT)

Results-driven Web Developer with 7+ years of experience specializing in WordPress development, front-end engineering, and responsive web applications using HTML, CSS, PHP, JavaScript, and jQuery. Proven track record of building custom WordPress websites with Advanced Custom Fields (ACF) and Custom Post Types (CPT), transforming Figma and PSD designs into fully functional websites, and optimizing performance through ongoing maintenance, troubleshooting, and UI/UX enhancements. Brings strong expertise in WordPress, front-end development, theme customization, website optimization, and responsive design, helping organizations deliver scalable, user-centric web solutions that strengthen their digital presence and support long-term business growth.

WORK EXPERIENCE

FRONTEND WEB DEVELOPER

Echo Web Solutions | November 2022 – Present

- Developed custom WordPress websites using HTML, CSS, PHP, JavaScript, and jQuery, built websites with Advanced Custom Fields (ACF) and Custom Post Types (CPT), customized WordPress themes and plugins, and performed ongoing website maintenance and enhancements.

WEB DEVELOPER

Mindfuse Inc. | October 2019 – October 2022 (3 Years, 1 Month)

- Converted PSD and Figma designs into responsive WordPress websites, handled front-end and back-end development, maintained and troubleshooted websites, and collaborated on UI/UX design improvements.

FRONTEND DEVELOPER (INTERN → JUNIOR DEVELOPER)

Miyens Technologies | July 2018 – September 2019 (1 Year, 3 Months)

- Developed WordPress websites using Divi, Elementor, and Enfold theme builders, maintained existing WordPress websites, and created e-learning modules using Articulate Storyline.
