

Exploring Creation with Biology, 3rd Edition – Errata File

This file contains the corrections for the 9th Printing (January 2025), of the **Textbook**. The printing for the Solutions and Tests Manual and Student Notebook may not be the same as the Textbook. Corrections for the Solutions and Tests Manual and Student Notebook are in separate files. (Updated March 2026).

Clarifications:

Page 10 – The answer to On Your Own question #1.1 can be found in the section “The Limitations of Science” following the questions.

Page 251 – 6a. – for consistency, change the spelling of homologues to **homologs**.

Page 268 – Insert the following clarification between the 3rd and 4th sentences of the first full paragraph as follows:

“is dominant or recessive). **A shaded circle or square indicates the individual shows the genetic trait being studied.** Look at Figure 7.11...”

Page 298 – at the top of the page ‘This’ refers to ‘**Complementary base pairing...**’

Corrections:

Page 51 – in the Universal Solvent paragraph change the last sentence to: Polar covalent molecules like **sugar can also** be broken down and dissolved by water’s polar chemical structure.

Page 200 and 684 – definition of Krebs cycle – change the word *used* to **produced**.

Page 452 – at the end of 2nd to last paragraph, change “...and they contain **ovaries**” to “...and they contain **pollen**.”

Page 584 – On Your Own 14.16b. – Change mosquito to **crane fly**.

Page 683 – definition of Hydrophobic – change Latin to **Greek**.
