# introduction

What's good for your heart is great for your taste buds! The recipes in this cookbook show that you don't have to lose flavor to eat nutritious foods. *Keep the Beat™ Recipes: Deliciously Healthy Dinners* contains 75 heart healthy recipes. More than two-thirds of these recipes were created for the National Heart, Lung, and Blood Institute (NHLBI) by a Culinary Institute of America-trained chef and a James Beard Foundation award-winning registered dietitian. The remaining recipes come from popular NHLBI cookbooks—*Keep the Beat™ Heart Healthy Recipes from the NHLBI*, *Heart Healthy Home Cooking African American Style*, and *Delicious Heart Healthy Latino Recipes*.

*Keep the Beat™ Recipes: Deliciously Healthy Dinners* is part of a planned series of new “Keep the Beat™” cookbooks from the NHLBI.

## eating for health

Staying healthy can be a challenge, but lifestyle changes like eating healthfully and being physically active can help lower your risk for heart disease and other conditions.

One way to eat a healthy diet is to choose a variety of foods. Variety matters because no food has all the nutrients that your heart and the rest of your body need. A healthy eating plan is one that:

- Emphasizes fruits, vegetables, whole grains, and fat-free or low-fat milk and milk products
- Includes lean meats, poultry, fish, beans, eggs, and nuts
- Is low in saturated fat, *trans* fat, cholesterol, sodium, and added sugars

Also, think about what you drink—choose nonalcoholic, low/no-calorie options such as water, skim milk, iced tea, club soda, diet soda, and sparkling beverages as a substitute for regular, sweetened beverages.

When it comes to eating healthfully, portion size also matters. The recipes in this cookbook are designed to give you a satisfying portion, while helping you stay within your calorie limits.

## cooking a multicultural feast

Whether you're an experienced cook or you shy away from the kitchen, *Keep the Beat™ Recipes: Deliciously Healthy Dinners* can help you prepare dishes that have an American, Latino, Mediterranean, or Asian flair.

Aside from being healthy, the recipes also are reasonably quick and easy to prepare. Most of the main-dish meals take no more than 40 minutes to prepare and cook. Side dishes cook in 30 minutes or less. Some of the ingredients may be new to you, such as fish sauce and rice vinegar (which are used in many Asian dishes) and low-sodium products. You can find these and other ingredients in most grocery stores. Try looking in the spice, ethnic, or health food section of your local store. If you can't find products labeled "low-sodium," compare the Nutrition Facts panels on available products to find the one with the lowest amount of sodium. We also have suggested a select number of ingredient substitutions in the appendix on page 136. For dishes that include fresh fruits, vegetables, and herbs, consider buying produce at your local farmer's market.

The recipes in this cookbook also are limited in fat, saturated fat, *trans* fat, cholesterol, sodium, and calories. They use lean cuts of meat, poultry without the skin, fish, beans, whole grains, fruits, vegetables, small amounts of vegetable oil, and lots of herbs and spices for flavor. Most of all, these recipes are delicious. Try them on a weeknight, weekend, or special occasion.

For more information on how to shop for, prepare, and serve healthy meals, see the appendixes for tools such as:

- A list of heart healthy items to keep stocked in your kitchen
- A glossary of common cooking terms
- A "how to" guide for commonly asked cooking questions
- Temperature rules for cooking food safely

*We hope you will enjoy the recipes in this cookbook.*

# japanese-style beef and noodle soup

Prep time: 25 minutes  
Cook time: 15 minutes

this hearty main-meal soup is flavorful, yet simple to prepare

## For broth:

- 4 oz shiitake mushroom stems, rinsed (remove caps and set aside) (or substitute dried shiitake mushrooms)
- 1 Tbsp garlic, minced (about 2–3 cloves)
- 1 Tbsp ginger, minced
- 1 stalk lemongrass, crushed (or the zest from 1 lemon: Use a peeler to grate a thin layer of skin off a lemon)
- 1 Tbsp ground coriander
- 4 C low-sodium beef broth
- 1 Tbsp lite soy sauce

## For meat and vegetables:

- 1 bag (12 oz) frozen vegetable stir-fry
- 4 oz shiitake mushrooms caps, rinsed and quartered
- 8 oz udon or soba noodles (or substitute angel hair pasta), cooked
- 1 lb lean beef top sirloin, sliced very thin
- 4 oz firm silken tofu, diced
- ¼ C scallions (green onions), rinsed and sliced thin

- 1 Thaw frozen vegetables in the microwave (or place entire bag in a bowl of hot water for about 10 minutes). Set aside until step 4.
- 2 Combine all ingredients for broth, except soy sauce, in a medium-sized pot or saucepan. Bring to a boil over high heat, then lower heat and simmer for 15 minutes.
- 3 Strain the broth through a fine wire colander, and discard the solid parts. Season to taste with soy sauce.

*continued on page 15*

## japanese-style beef and noodle soup (continued)

- 4 To finish the soup, bring the broth back to a boil. Add the thawed vegetable stir-fry mix and mushroom caps, and simmer for 1 minute.
- 5 Add the noodles and continue to simmer for another minute.
- 6 Add the beef and continue to simmer for about 5 minutes or until the beef is slightly pink to brown (to a minimum internal temperature of 145 °F).
- 7 Add tofu and scallions, and simmer 1–2 minutes until heated through.
- 8 Serve immediately in 1-cup portions.

**Hint:** There are several varieties of tofu, each with a different moisture level. Silken and soft tofu are the moistest and easily blended into shakes, dips, and dressings. Regular tofu is less moist, and it's best for scrambling or using like cheese in casseroles. Firm, extra-firm, and pressed tofus are the driest. They absorb other flavors easily and hold their shape in stir-fries and on the grill.

# rotini with **spicy red pepper** and almond sauce

Prep time: 15 minutes  
Cook time: 15 minutes

spicy and crunchy pair together nicely to create this dish's unique sauce

- 8 oz whole-wheat rotini (spiral) pasta
- ½ C whole natural almonds, unsalted
- 1 jar (12 oz) roasted red peppers
- 1 Tbsp garlic, roughly chopped (about 2–3 cloves)
- ⅛ tsp ground cayenne pepper
- 1 tsp paprika
- 1 Tbsp dried basil or parsley
- 1 tsp red wine vinegar
- ½ tsp salt
- Ground black pepper to taste

- 1 In a 4-quart saucepan, bring 3 quarts of water to a boil over high heat.
- 2 Add pasta, and cook according to package directions for the shortest recommended time, about 10 minutes. Drain pasta.
- 3 While the pasta cooks, toast almonds in a toaster oven or regular oven at 350 °F until lightly toasted, about 5–8 minutes. Set aside to cool.
- 4 Meanwhile, in a food processor or blender, add roasted red peppers and liquid, garlic, cayenne pepper, paprika, basil, vinegar, salt, and pepper. Blend until smooth, 1–2 minutes.
- 5 Add cooled almonds to the sauce in the processor. Pulse until the almonds are chunky.
- 6 After draining the pasta, return to pot. Add almond sauce. Toss until pasta is well coated.
- 7 Divide into four equal portions (about 2 cups).

**Tip:** Try adding chicken or seafood—or, for a vegetarian meal, just add cooked lima beans or edamame (green soybeans).

# turkey bolognese with shell pasta

**Prep time:** 5 minutes  
**Cook time:** 35 minutes

anise seed makes turkey taste like Italian sausage, with none of the saturated fat; the red wine and dried mushrooms make this a uniquely delicious dish

- 1½ C** dry red wine (optional)
- ½ oz** dried porcini mushrooms (optional)
- 1 C** onion, chopped
- ½ C** celery, rinsed and chopped
- 1 C** carrots, rinsed and thinly sliced or shredded
- 1 Tbsp** garlic, pressed or finely chopped (about 2–3 cloves)
- 1 Tbsp** olive oil
- 12 oz** 99 percent lean ground turkey
- 1 tsp** anise seed
- ¼ tsp** salt
- 8 oz** medium shell pasta
- 4 Tbsp** no-salt-added tomato paste
- ½ C** shredded parmesan cheese

- 1** Optional step: Bring the wine to a boil in a medium saucepan. Break up the mushrooms, then stir them into the wine. Cover, reduce heat, and simmer for 20 minutes.
- 2** Finely chop the onion, celery, carrots, and garlic. Or you can coarsely chop them, place them in a food processor, and pulse until all vegetables are finely chopped.
- 3** In a 4-quart saucepan, bring 3 quarts of water to a boil over high heat.
- 4** While the water is heating up, warm the olive oil in a large nonstick pan over medium-high heat. Crumble in the ground turkey. Sprinkle with anise seed and salt. Cook for 5–10 minutes to brown, stirring occasionally.
- 5** Meanwhile, when the water comes to a boil, add pasta to boiling water. Cook according to package directions for the shortest recommended time, about 10–12 minutes.
- 6** Add vegetables to cooking turkey. Reduce heat to medium. Cook and stir 10 minutes until all vegetables are soft, but not browned. Add tomato paste, and simmer for an additional 5–10 minutes. (Continue to optional step 7 if including the optional ingredients; otherwise, skip to step 8.)

*continued on page 75*

## turkey bolognese with shell pasta (continued)

- 7 Optional step: While the pasta and turkey mixture cooks, strain mushrooms, draining unabsorbed wine directly into the turkey mixture. Place mushrooms on a cutting board and chop finely, or place in food processor and pulse once or twice to more finely chop mushrooms. Stir mushrooms into turkey mixture. Simmer for 10–15 minutes to blend flavors.
- 8 Drain pasta. Add pasta to turkey mixture (the minimum internal temperature of cooked turkey should be 165 °F). Stir to blend well.
- 9 Divide pasta mixture evenly (about 2 cups each) among four dinner plates. Top each with 2 tablespoons of shredded parmesan cheese.

# lentils with brown rice and kale

Prep time: 5 minutes  
Cook time: 35 minutes

for a different flavor and even more fiber and protein, try quinoa in place of the brown rice; quinoa (pronounced KEEN-wah) is a grain native to South America

## *For lentils and kale:*

- 1 C brown lentils, rinsed
- ¼ tsp salt
- ⅓ tsp ground black pepper
- 4 C kale, with heavy stems removed, rinsed and dried

## *For brown rice:*

- 1 C instant brown rice, uncooked (for quinoa, follow cooking instructions on box)
- ¼ tsp salt
- ½ tsp dried basil

## *For onion:*

- 2 Tbsp olive oil
- 2 C onion, diced
- ¼ tsp salt
- ⅓ tsp ground black pepper

- 1 Rinse lentils thoroughly in a fine wire colander, and remove any stones or debris.
- 2 In a 4-quart saucepan, cover lentils with 2½ cups of water. Add salt and pepper. Cover, and bring to a boil over high heat. Reduce heat. Simmer for 15 minutes (until adding kale in step 5).
- 3 In another saucepan, bring 2 cups of water to a boil. Add rice, salt, and basil. Cover, and cook for 10 minutes. Set aside.
- 4 In a medium sauté pan, warm olive oil over medium heat and add onion, salt, and pepper. Cook and stir until the onion pieces become soft and dark brown (caramelized), but not burnt. If the onions start to stick to the pan, add a few drops of water and scrape the onions loose. Keep cooking until onions are completely caramelized (about 10–15 minutes total). Remove from pan and set aside.
- 5 After the lentils have cooked for 15 minutes, lightly place the kale on top of the lentils. Do not stir. Cover. The kale will steam while the lentils continue to cook, for another 15 minutes.

# broccoli with asian tofu

Prep time: 20 minutes  
Cook time: 20 minutes

the wonder of tofu is that it takes on the flavor of your favorite marinade

- 1 pkg (16 oz) firm tofu, drained
  - 2 Tbsp lite soy sauce
  - 1 tsp sesame oil (optional)
  - ½ Tbsp brown sugar
  - 1 Tbsp fresh ginger root, finely chopped or shredded (or 1 tsp ground)
  - 1 lb fresh broccoli, rinsed and cut into individual spears
  - 1 Tbsp peanut oil or vegetable oil
  - ¼ tsp crushed red pepper
  - 4 Tbsp garlic, peeled and thinly sliced (about 8 cloves)
  - 1 Tbsp sesame seeds (optional)
- Cooking spray

- 1 Slice tofu into eight pieces. Place on a plate or flat surface covered with three paper towels. Top with four more paper towels. Top with another flat plate or cutting board. Press down evenly and gently to squeeze out moisture. Throw away paper towels. Replace with fresh paper towels and press again. (The more liquid you remove, the more sauce the tofu will absorb.)
- 2 Place tofu in a bowl just big enough to hold all eight pieces lying on their widest side without overlapping.
- 3 In a small bowl, combine the soy sauce, sesame oil, brown sugar, and ginger into a marinade, and stir thoroughly. Pour over tofu. Carefully turn the tofu several times to coat well. Set aside.

## broccoli with asian tofu (continued)

- 4 Meanwhile, heat a large nonstick sauté pan coated with cooking spray. Add broccoli and sauté for about 5 minutes, until it turns bright green and becomes tender and crispy. Remove broccoli from pan and set aside.
- 5 Heat a grill pan or flat sauté pan over high heat. Drain tofu, reserving marinade. Place on grill pan to heat for about 3 minutes. Gently turn. Heat the second side for 3 minutes.
- 6 At the same time, in the sauté pan over medium-low heat, warm the peanut oil, crushed red pepper, and garlic until the garlic softens and begins to turn brown, about 30 seconds to 1 minute. Add broccoli and reserved marinade, and gently mix until well-coated.
- 7 Place two slices of tofu on each plate with one-quarter of the broccoli and marinade mixture. Sprinkle with sesame seeds (optional).

**Tip:** Delicious served on top of brown rice or Asian-style noodles (soba or udon).

- ¼ tsp ground cayenne pepper**
- ½ tsp ground ginger or pumpkin pie spice (or try Chinese five-spice mix)**
- 3 Tbsp light teriyaki sauce**
- 1 tsp sesame oil (optional)**
- 1 can (14½ oz) low-sodium chicken broth or vegetable broth, divided**

Restack the slices and cut into ½-inch wide strips. Place tofu in a bowl just big enough to hold all strips lying on their widest side without overlapping.
- 2** In a small bowl, combine cayenne pepper, ginger (or pumpkin pie spice/Chinese five-spice mix), teriyaki sauce, sesame oil (optional), and ½ cup of the chicken broth. Stir well, and then pour over the tofu. Set aside for 20 minutes.
- 3** Combine the remaining chicken broth and the cornstarch. Stir until cornstarch dissolves. Set aside.
- 4** In a large wok or large nonstick pan, heat 1 teaspoon of canola oil until very hot, but not smoking. While the pan heats, drain tofu marinade into cornstarch mixture.
- 5** Place half the tofu slices in the hot pan. Cook just until brown, about 1 minute per side. Remove from pan and set aside. Repeat with 1 teaspoon of oil and remaining tofu.

# asparagus with lemon sauce

Prep time: 5 minutes  
Cook time: 10 minutes

lemon sauce makes fresh asparagus the perfect side dish for fish, scallops, chicken, or meat dishes

- 20 medium asparagus spears, rinsed and trimmed
- 1 fresh lemon, rinsed (for peel and juice)
- 2 Tbsp reduced-fat mayonnaise
- 1 Tbsp dried parsley
- $\frac{1}{8}$  tsp ground black pepper
- $\frac{1}{16}$  tsp salt

- 1 Place 1 inch of water in a 4-quart pot with a lid. Place a steamer basket inside the pot, and add asparagus. Cover and bring to a boil over high heat. Reduce heat to medium. Cook for 5–10 minutes, until asparagus is easily pierced with a sharp knife. Do not overcook.
- 2 While the asparagus cooks, grate the lemon zest into a small bowl. Cut the lemon in half and squeeze the juice into the bowl. Use the back of a spoon to press out extra juice and remove pits. Add mayonnaise, parsley, pepper, and salt. Stir well. Set aside.
- 3 When the asparagus is tender, remove the pot from the heat. Place asparagus spears in a serving bowl. Drizzle the lemon sauce evenly over the asparagus (about  $1\frac{1}{2}$  teaspoons per portion) and serve.

this side dish is rich in flavor, but low in calories

- 1 slice whole-wheat bread
- 1 medium cauliflower head, rinsed
- ¼ tsp salt
- 1 Tbsp soft tub margarine
- ⅛ tsp ground black pepper

## food preparation glossary

This appendix contains definitions for common cooking and food preparation techniques that are used in *Keep the Beat™ Recipes: Deliciously Healthy Dinners*.

# cooking

## **sauté, pan fry, or stir fry**

To cook food quickly (for just a few minutes), in a small amount of fat (oil, butter, etc.), in a sauté pan or wok over direct heat. Foods that are commonly sautéed include meats, poultry, and vegetables.

## **boil**

To heat a liquid until bubbles break the surface (212 °F at sea level, lower at altitude). Boiling is a common way to cook foods such as pasta, sauces, and vegetables.

## **simmer**

To cook food gently in liquid at a temperature that is just below the boiling point so that tiny bubbles just begin to break the surface. Foods are typically brought to boil over high heat, and then the heat is reduced to simmer with a lid on the pan/pot to finish the cooking. Foods that are commonly simmered are sauces, rice and some other grains, and dried beans.

## **brown**

To cook for a short period of time over high heat at the beginning or end of cooking, often to enhance flavor and texture, and create a nice cooked look.

Browning is usually done on the stovetop, but also may be achieved in a broiler. Foods that are typically browned include meats, casseroles, and anything that needs quick melting and crisping on top.

## **bake**

To cook food in an oven, thereby surrounding it with dry heat. To ensure an accurate cooking temperature, it can be helpful to use an oven thermometer. Many ovens bake either hotter or cooler than their gauges read. Foods that are commonly baked include seafood, meats, casseroles, vegetables, and baked goods (breads, cakes, pies, etc.).

## **broil**

To cook food directly under or above a very hot heat source (~500 °F). Food can be broiled in an oven, directly under the gas or electric heat source, or on a barbecue grill (known as “char-broiling”) directly over charcoal or gas heat. Foods that are typically broiled include meats, poultry, and seafood.

## **grill**

To cook directly over a heat source on metal racks or rods or on a special grill pan. Meats, poultry, seafood, vegetables, and even some fruits grill beautifully.

# cutting

## chop

To cut food with a knife or food processor into fine, medium, or coarse, irregular pieces.

## cube

To cut food into uniform pieces, usually  $\frac{1}{2}$  inch on all sides.

## dice

To cut food into smaller uniform pieces, usually  $\frac{1}{8}$  to  $\frac{1}{4}$  inch on all sides.

## mince

To chop food into tiny, irregular pieces.

## slice

To cut food into flat, usually thin slices from larger pieces.

## julienne

To cut food into thin slices about  $\frac{1}{8}$  inch thick and about 2 inches long.

## frequently asked questions (FAQs)

This appendix provides answers to questions about specific ingredients or cooking methods that are featured in this cookbook.

# frequently asked questions (FAQs)

## **Question:** What if I can't find certain ingredients in my supermarket? Can I substitute other ingredients for them?

Some recipes have ingredients that may not be available in every supermarket across the country or may cost more than you want to pay. Here are some suggestions for alternatives:

**Fish sauce:** For 1 tablespoon of fish sauce, use ½ tablespoon anchovy paste (see below), ½ teaspoon soy sauce, and 1 teaspoon stock or broth.

**Hoisin sauce:** For 1 tablespoon Hoisin sauce, substitute ½ tablespoon lite soy sauce, 1 teaspoon sugar, and ¼ teaspoon ground ginger.

**Mirin:** Substitute any sweet white wine or a generic white wine with a pinch of sugar.

**Rice vinegar:** Substitute white wine vinegar.

**Asian hot chili sauce:** Substitute regular chili sauce.

**Green curry paste:** For 1 tablespoon green curry paste, substitute ½ tablespoon yellow curry powder thinned with 1–2 teaspoons water.

**Ginger root:** For 1 tablespoon fresh ginger root, substitute 1 teaspoon ginger powder. Fresh ginger root also can be stored in the freezer for up to 1 year and grated as needed.

**Anchovy paste:** Use an equal amount of mashed canned anchovy fillets.

## **Question:** What is the meaning of all the different product nutrient label claims?

One of the best ways to find heart healthy products is to check the food labels. Here are some terms to look for per labeled serving to find products lower in sodium, fat, cholesterol, and calories.

### **Sodium**

**Sodium-free:** Less than 5 milligrams (mg) of sodium per serving

**Very low sodium:** 35 mg or less of sodium per serving

**Low-sodium:** 140 mg or less of sodium per serving

**Low-sodium meal:** 140 mg or less of sodium per 3½ ounces

**Light (or lite) in sodium:** At least 50 percent less sodium per serving than the regular version

**Reduced or less sodium:** At least 25 percent less sodium per serving than the regular version

**Unsalted or no salt added:** No salt added to the product during processing, but this is not necessarily a sodium-free food

If you can't find products labeled "low-sodium," compare the Nutrition Facts panels on available products to find the one with the lowest amount of sodium.

## Fat

**Fat-free:** Less than ½ gram (g) of fat per serving

**Saturated fat-free:** Less than ½ g of saturated fat and less than ½ g of *trans* fat per serving

**Low-saturated fat:** 1 g or less of saturated fat and 15 percent or less calories from saturated fat per serving

**Low-fat:** 3 g or less of fat per serving

**Reduced fat:** At least 25 percent less fat per serving than the regular version

**Light in fat:** Half the fat per serving (or less) than the regular version

## Cholesterol

**Cholesterol-free:** Less than 2 milligrams (mg) cholesterol and less than 2 grams (g) of saturated fat per serving

**Low cholesterol:** 20 mg or less cholesterol and less than 2 g of saturated fat per serving

**Reduced or less cholesterol:** At least 25 percent less cholesterol than the regular version and less than 2 g of saturated fat per serving

## Calories

**Calorie-free:** Less than 5 calories per serving

**Low-calorie:** 40 calories or less per serving

**Low-calorie meal:** 120 calories (or less) per 3½ ounces

**Reduced or less calories:** At least 25 percent fewer calories per serving than the regular version

**Light (or lite):** Half the fat (or less) or a third of calories per serving of the regular version

## Question: How do I cut meat across the grain?

If you have ever wondered what it means to cut meat “against the grain,” here is your answer.

Some cuts of meat have distinct fibers in them, which make the meat difficult to chew. Flank steak (typically used to make London broil), skirt steak, and brisket are good examples. Cutting through the fibers or grain in the meat makes it tender and easier to chew.

The picture at right shows the lines of the steak running from right to left down the length of the steak. If you slice this steak in the same direction as those lines, you’ll have to chew through the fibers. Whereas if you cut across the lines or the grain, the knife will have already done that work before a bite reaches your mouth.

When slicing this type of meat, it is often recommended to slice thinly at a 45-degree angle, as shown.

## Question: How do I zest a lemon or orange?

Zest is the colorful outer rind on a lemon or orange (not the white pith underneath, which is bitter). There are several ways to grate citrus peel:

- Use a regular vegetable peeler to make thin, larger slices.
- Use a citrus zester, which has a stainless-steel edge with a series of sharp-edged holes that cut off thin strips of the peel.
- Use a microplane, or flat grater, which allows you to shred multiple small strips of peel faster and with less pressure than a regular grater or citrus zester.

## Question: What herbs can be used to substitute for an herb I don't have on hand?

Although each herb has its own unique flavor, many herbs can be substituted for one another. Here are some fresh or dried herb alternatives to try:

- **For sage:** Try savory, marjoram, or rosemary.
- **For basil:** Try oregano or thyme.
- **For thyme:** Try basil, marjoram, oregano, or savory.
- **For mint:** Try basil, marjoram, or rosemary.
- **For rosemary:** Try thyme, tarragon, or savory.
- **For cilantro:** Try parsley or coriander.

# temperature rules for safe cooking

Make sure you cook and keep foods at the correct temperature to ensure food safety. Bacteria can grow in foods between 40 °F and 140 °F. To keep foods out of this danger zone, keep cold foods cold and hot foods hot. Use a clean food thermometer and measure the internal temperature of cooked food to make sure meat, poultry, and egg dishes are cooked to the temperatures listed below. For more information on food safety, please visit [www.isitdoneyet.gov](http://www.isitdoneyet.gov).
