[PORTFOLIO](#)

EXPERTISE SKILLS

- Full-Stack Development
- Backend Development
- Frontend Development
- REST API Development
- System Architecture & Design
- Scalable Backend Systems
- AI-Integrated Systems Development
- Automation Workflow Development
- Speech Processing & Audio Analysis
- Machine Learning Pipeline Integration
- Cloud Deployment & Infrastructure
- MVP Development & Rapid Iteration
- Authentication & Authorization Systems
- Real-Time Features Development
- API Integration & Validation
- Performance Optimization
- Accessibility & Maintainability
- Technical Mentorship & Developer Support

TOOLS

- Python
- Django
- Django REST Framework (DRF)
- FastAPI
- React
- Tailwind CSS
- Bootstrap
- AWS (S3)
- Docker
- DigitalOcean
- Render
- Vercel
- Netlify
- NumPy
- Pandas
- Scikit-learn
- Librosa
- Pydub
- AssemblyAI
- Shopify
- Contentful
- Webflow
- WordPress
- DatoCMS
- Git
- GitHub
- AI Development Tools
- Replit
- Cursor
- Claude
- Bolt
- Lovable

Results-driven Web Developer with 7+ years of experience in full-stack software engineering, specializing in Python, Django, React, and cloud-based application development. Proven track record of building and deploying 30+ scalable web applications across SaaS, AI, and eCommerce industries, delivering high-performance systems and AI-powered solutions under tight timelines. Brings strong expertise in backend architecture, REST API development, cloud infrastructure, and modern frontend technologies, helping organizations create reliable, scalable, and user-focused digital platforms that drive innovation and business growth.

WORK EXPERIENCE

FREELANCE SENIOR FULL-STACK SOFTWARE ENGINEER

Remote | November 2018 – Present

- Built and deployed 30+ production-grade SaaS, AI, and eCommerce applications using Django, FastAPI, React, and cloud infrastructure, developed scalable backend systems and REST APIs, integrated AI-powered features for speech and audio processing, and managed deployments across AWS, DigitalOcean, Render, Netlify, and Vercel.

MODERATOR & CONTRIBUTOR

DEV/Forem | 2019 – Present

- Contributed technical content, mentored developers on Django and frontend systems, and supported developer community initiatives.

VOLUNTEER DEVELOPER

Project: Website (Nonprofit)

- Developed and improved nonprofit websites with focus on accessibility, maintainability, and performance optimization.
