

The series titled '**AESTHETIC SKILL**' consists of eleven books-A,B,C and 1to8. It has been specially designed and prepared with the sole purpose of developing the **hidden talent** of a child to trace, colour, draw and paint. The series welcomes the child to the world of **art and activity**. The dictionary meaning of the word art is : 'The use of imagination to express ideas or feelings' particularly in painting , drawing or sculpture. It is an expression of 'creative skill' in a visual form. Art provides the child with a prime means of learning, understanding and communication. Different art concepts are introduced to help the learner appreciate the work of art in making use of his imagination.

The series includes colouring, drawing and painting, step-wise photographic method and paper folding. The large variety of activities has made this series immensely interesting. Its greatest advantage is that while the child is engrossed in the creative learning, these activities develop his power of imagination. A few pages have been left blank at the end of each book to play with colours. The series has the following **salient features**:

1. Colouring and drawing of object.
2. Step by step gradation in simple and easy to understand language.
3. Vast area of art field covered through visual aids.
4. Stress on craft activities.
5. Colourful and supportive background.
6. Thought-provoking and delightful exercise.

Efforts have been made to keep in mind the standard and comprehension capability of the learners, while preparing and designing this series.

About the Author

A gifted artist and an accomplished painter, Mr Parminder Singh Vilkhu has been an alumni of Maharaja Sayajirao University, Vadodra . Along with being a proficient author he has produced amazing results as a graphic designer with various publication houses and worked independently with them for designing, writing and illustrating various art book series. He has a great hold on all genres of art which gives him instant recognition. He has been honoured with several awards in the field of art First Prize in All India Camel Colour Contest, 1987, Prize in All India Anti-Drugs Poster Competition "UPCHAAR", Crusade against Drugs at New Delhi 1993 by Prime Minister of India, "Games and Sports by "Ministry of Resource Development, New Delhi, 1994 are just a few to name.

He has remarkable sensibilities of understanding the mind of young learners and presenting his work in such a way as to develop their creative abilities. He believes that art cannot be forced on anyone but it should be nurtured with patience so that it develops the child's love and passion for this field. His books are not only a step by step teaching of art but they are systematic and possess well planned approach of leading the children into a vast new world of originality, imagination and creativity. As is well said, you never know which piece of work created by your child becomes a masterpiece !!
