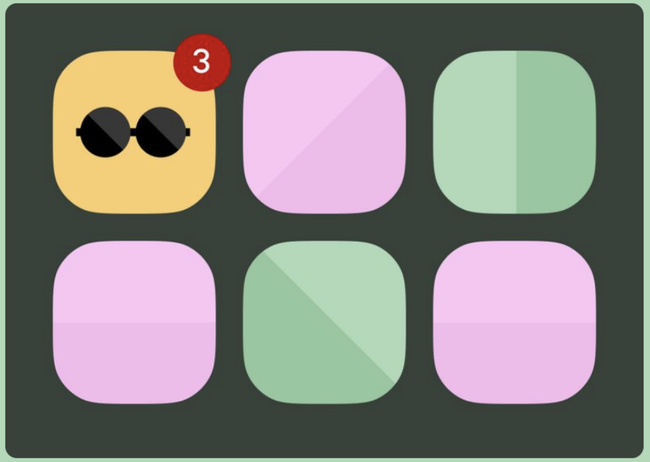
Vexl: Discreet Bitcoin

Vexl: Discreet Bitcoin

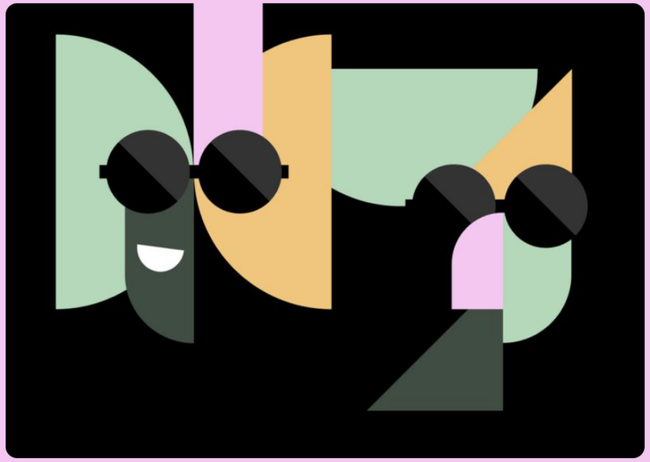
- mobile app giving its users a simple, accessible and safe way to trade bitcoin as it was intended peer-to-peer and without KYC.
- open source GitHub
- available on iOS and Android
- gift to community from SatoshiLabs

vexl

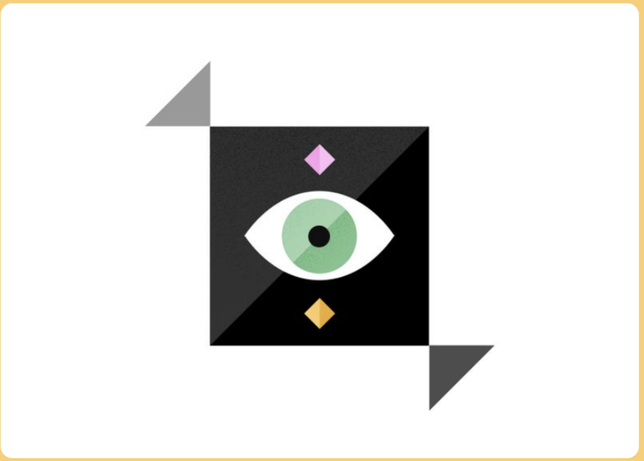
Vexl: Discreet Bitcoin



Without the freedom to transact, we have no other rights.



Technology should be used to empower individuals, not to control them.



Everyone has the right to free choice, self-determination and privacy.
