

ST ROME

Description

ST Rome is a modern interpretation of the Roman capital letter. The typeface retains the character of a wide-edged pen and continues the dynamics of the original. At the same time, the characters are cleared of archaism, increasing the versatility of the font tool. The contrast has been simplified, and the shapes of the main structures and small details have become more geometric. The typeface is revealed in 6 basic styles with expanded Cyrillic and Latin letters.
