

Exploring Creation with Astronomy, 2nd Edition – Errata File

This file contains the corrections for the **Notebooking Journal**. The printing for the Notebooking Journal may not be the same as for the Textbook. Corrections for the Textbook are in a separate file. (Posted 2024)

Clarifications:

For the 1st and 2nd printings (2016 & 2018) we produced a Science Kit that was included in the Suggested Daily Schedule. We discontinued the kit and removed the references to the kit in the 3rd printing (2020).

Major Edits were made in the 7th printing (2023)

1. The Suggested Daily Schedule was updated to a newer weekly format. You can print the original schedule from Book Extras.
2. The Parent Guide was updated for cohesiveness among all Young Explorer 2nd edition courses.
3. New layout within each Lesson was incorporated to combine the Regular and Jr. Notebooking Journals:
 - a. 1 coloring page – additional coloring pages can be printed from Book Extras
 - b. Only 1 Fascinating Facts page
 - c. Handwriting Copywork was removed – you can print these pages from Book Extras
 - d. Dotted handwriting guides were removed
 - e. Vocabulary Crosswords – the junior hints were removed
4. New pagination due to revised layout.

Corrections:

Page 299 – Lesson 12 Crossword solution – Add the missing “G” to 3 down and across. (7th printing). (pg. 331 in 1st – 6th printings).
