- MariaDB
- Filament
- FPDF
- HTML-to-PDF Tools
- PhpSpreadsheet
- Bootstrap
- Git
- REST APIs
- Claude
- Replit
- Lovable
- Bolt
- Cursor

Results-driven Web Developer with 4+ years of experience in PHP development, specializing in Laravel, CodeIgniter, MySQL, and data-driven web applications. Proven track record of developing and modernizing government and financial systems, optimizing complex SQL queries, and delivering scalable solutions for billing, collections, reporting, and permit management platforms. Brings strong expertise in backend development, database optimization, financial reporting, and system integration, helping organizations streamline operations, improve data accuracy, and enhance the efficiency of mission-critical business processes.

WORK EXPERIENCE

PROGRAMMER/SYSTEMS DEVELOPER

Hyperion Core OPC | 2025 – Present

- Develops and maintains Laravel-based systems for business permits, collections, and reporting, optimizes financial and reconciliation queries, builds PDF and Excel reporting solutions, performs legacy data cleanup, and contributes to Online Building Permit, eBPLS/eBOSS, Cash Receipt, and Water Laboratory systems.

PROGRAMMER/SYSTEMS DEVELOPER

Uplink Integrated Solutions Inc. | 2022 – 2025 (3 Years)

- Developed LGU systems using Native PHP, implemented cash receipt, billing, collections, and financial reporting systems, built Market Administration and Billing solutions, maintained SQL-intensive queries, and supported modernization efforts from Native PHP to Laravel.
