SKIN COMPLAINTS

ALHYDRAN ensures optimal recovery of the skin, as a result of which skin complaints decrease and the skin relaxes, feeling relieved, soft and flexible. ALHYDRAN's effectiveness in relieving the following skin problems is clinically proven.

Scars

A scar is a reaction to deep skin damage. During the recovery process, a thickened scar can develop and cause discomfort. **ALHYDRAN helps the scar fade, reduces itching and redness, and makes the scar feel less tight.**

Itching

Various conditions can cause the skin to become itchy and painful. This can vary from mild discomfort to symptoms that make normal life unbearable. **ALHYDRAN helps the skin recover and relieves itching.**

(Sun)burns

A burn wound can cause many skin complaints, some of which are severe. **ALHYDRAN reduces itching and redness, and accelerates skin recovery.**

Dry and reddened skin

Many people suffer from dry or reddened skin. This arises, for example, from eczema, diabetes or the use of elastic support stockings. **ALHYDRAN protects, hydrates and softens the skin. Itching and redness are reduced.**

Radiation

The skin is damaged (in a controlled way) during radiation therapy. As a result, it can become irritated, extremely red and feel tense and overly sensitive. **ALHYDRAN moisturises and soothes the skin, reducing itching, pain and redness.**

Surgery

After surgery, the skin is damaged, fragile and sensitive. Scarring is also a risk. **ALHYDRAN helps to repair and moisturise the skin and reduces the risk of scarring.**

Did you know...

*ALHYDRAN's ability to moisturise the skin effectively and for long periods is proven? ¹
The effect of ALHYDRAN's effectiveness has also been demonstrated in a number of clinical studies.²⁻⁴*

Did you know...

*That 'water' (aqua) is the main ingredient in many moisturising products?
But does water help with your complaints?*

SKIN COMPLAINTS... NOW WHAT?

Even a minor problem can have a large impact on quality of life, self-image and one's ability to function normally. Skin problems such as painful itching, embarrassing redness or very dry skin are just some familiar examples. Many people think that nothing can be done about their skin complaints. But something can be done - with ALHYDRAN.

ALHYDRAN

ALHYDRAN is a powerful hydrating cream that partly penetrates into the skin and thereby improves the skin both from the outside and from the inside. It contains high-quality ingredients such as fresh Aloe Vera gel to offer lasting skin hydration. Its ideal blend of ingredients helps the skin recover and reduces skin problems.

- + Less itching, pain and redness
- + Actively reduces (new and existing) scars

Did you know...

ALHYDRAN contains no perfume or parabens and is not tested on animals.

+ Protection and softening of the skin

THE POWER OF ALHYDRAN

ALHYDRAN uses top-quality Aloe Vera from the oldest plantation in the world. Because only this Aloe Vera is good enough for your skin.

- **Highly concentrated Aloe Vera**
ALHYDRAN contains 45% Aloe Vera gel, the highest possible concentration. This is what makes ALHYDRAN so effective.
- **Pure and freshly processed**
The Aloe Vera plant is processed as soon as it is harvested, so that no active ingredients are lost.

Did you know...

That ALHYDRAN contains fresh Aloe Vera gel and not powder concentrate?

HIGH-QUALITY INGREDIENTS

ALHYDRAN contains all the ingredients that damaged skin needs for good recovery and reduction of skin complaints. In addition to Aloe Vera it also contains other active ingredients such as natural oils, jojoba oil, vitamin C and vitamin E.

SPF 30
broad spectrum
UVA- en UVB-
protection

ALHYDRAN WITH HIGH SUN PROTECTION

Vulnerable skin must also be protected against damaging UV rays⁵. ALHYDRAN with high factor 30 sun protection provides this protection. It is advisable to avoid the sun, wear covering clothing and use ALHYDRAN SPF-30.

Did you know...

That on a completely cloudy day, 40% of damaging UV radiation reaches the earth's surface?⁵
