Scan to watch the music video, get brushing tips, and print more charts!

Help the Blobbies defeat the Hexacones (and cavities) by brushing twice a day for 2 minutes each time!

Every time you brush, choose a Blobbiesticker that matches your mood (or the color of the day) and place it over a Hexacone!

If you brush twice a day for a full week, place the Toothbrushing Champion Blobbiesticker over the Hexacone King, because you just defeated tooth decay!
