CARE INSTRUCTIONS

Cleaning: Hand wash the plastic cutting board with soap and hot water or run it through the dishwasher.

Disinfecting: You can disinfect the board by soaking it for 2 minutes in a solution of two teaspoons of bleach and one gallon of water.

Deodorize: Wet the board and sprinkle it with baking soda. Let it stand for a few minutes then rinse it in water.

Scratches: It is normal for plastic cutting boards to take knife marks. The scratches will be noticeable when the board is new. Over time, they will blend in.

Heat: Do not expose the cutting board to hot surfaces, or put in an oven or microwave. It can cause the board to melt.
