

Abundance

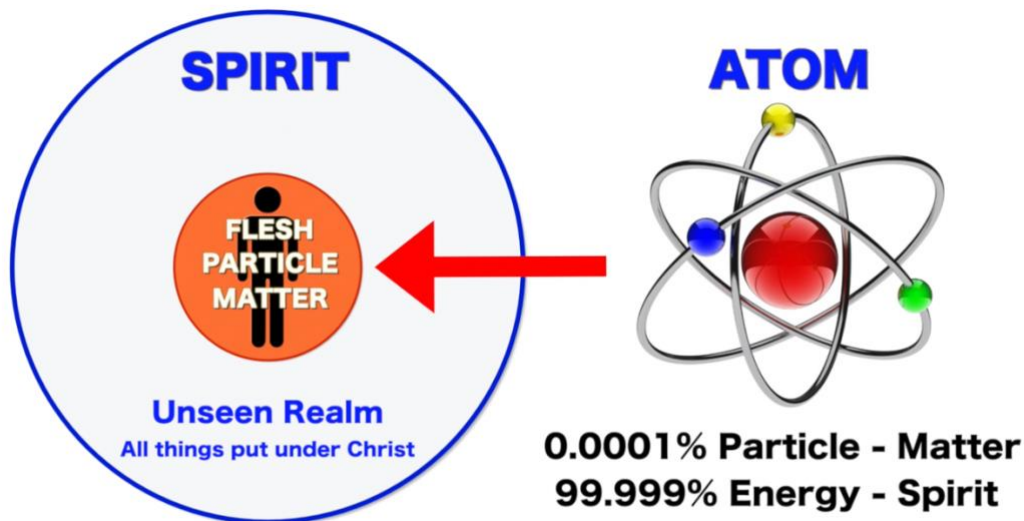

English Transcript | Emerson Ferrell | Session 4 – 2024 Annual Conference

Before we worship, I want to do a little teaching because I talked about some stuff yesterday that I think may need more understanding. Your brain is capable of learning, but **your mind needs the seeds of change.**

See, if you think of your body as this computer, your brain is the “CPU”, and *the mind* supplies the energy or the *power source* to change the brain. If you're plugged into the mind of Christ, “*You can know without learning*”.

Learning requires the analytical brain; and the knowledge of the Spirit requires knowing Him. Are you with me? So, when you know Him and you're *in Him*, then your analytical mind is quiet, and you don't need to try to force things to happen. When you try “to force” things to happen, that's **matter trying to change matter.**

Pinch your skin and say, “*This is matter. This comes from atoms.*” In this dimension (which is linear) atoms are what makes things look solid. And guess what? Atoms are 99.999% empty space.

There's only 0.00000000000000000001% (19 zeros and a 1) that is material. You remember the black dot my wife was talking about? (*See session from Ana Mendez Ferrell*) That's an atom. That's how much *matter* there is in the universe. And when you talk about photons, there's no matter. But we're going to get to that in a minute.

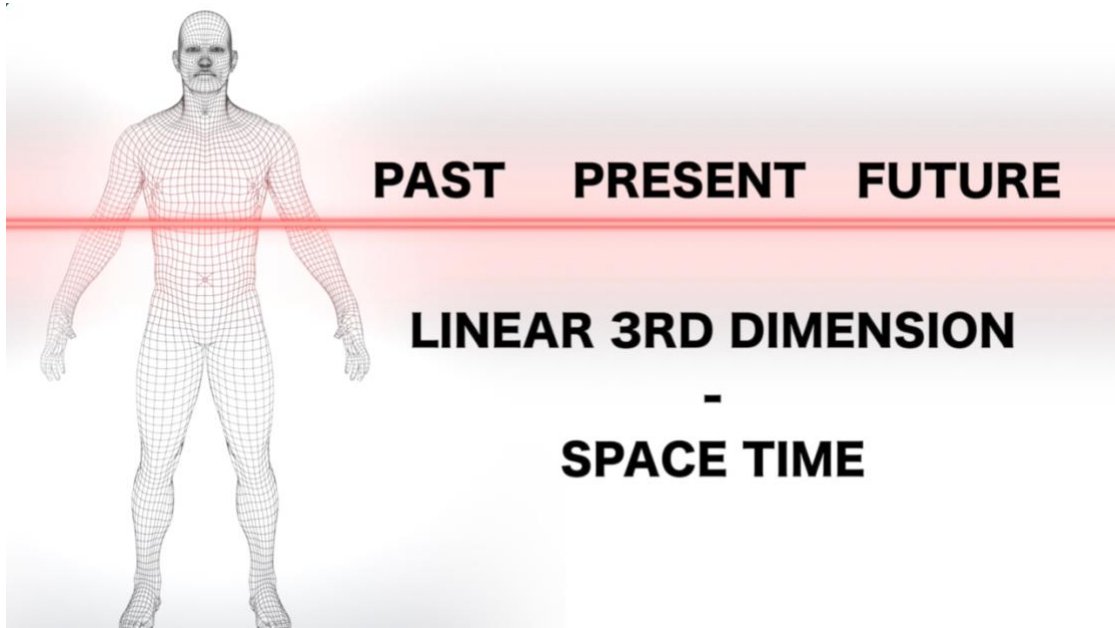

Matter has memory.

Turn with me. We're going to look at the Bible here.

Let's first look in **Exodus 33:11**

So, the Lord spoke to Moses face to face, as a man speaks to his friend. And he would return to the camp, but his servant Joshua, the son of Nun, a young man, did not depart from the tabernacle.

Now you remember that Moses was in the presence of God for 40 days and 40 nights. He was outside linear space; Moses was in a dimension called "*multidimensional*". God is multidimensional, understand? So, the difference between the linear and multidimensional is the way time and space operate.

In this *linear dimension*, where you have a beginning and an end, matter is confined by speed and time.

You only have limited amount of time in this dimension, but you have an infinite amount of space. Space is infinite, time is limited. You can only go so fast in this dimension before your matter becomes so big it cannot leave.

You see, people like Einstein and the physicists understood that the currency in this dimension is light. What I mean by currency is, it is *the factor* that limits our ability to move beyond time in this dimension.

So, when you get to the multidimensional realm where God is, time is infinite. You're not limited by matter because you're not matter there. And the reason there's no time is because it's infinite. You don't use terms like yesterday or tomorrow in that dimension. See, *time* in this dimension is infinite, so *future, present and past* is stacked on top of one another.

That's why people say they *see things in the Spirit*. You might be *seeing things* that are taking place right now, because everything is *right now* in that dimension. Everything is happening all the time there.

That's why if you enter into that dimension with your spirit, you have experiences that you can't really explain. But those experiences are not for you to explain, they're *to change your perception*. The reality is your spirit goes *in and out* of that dimension six or seven times a second.

But if you go out with the same mentality, you're not going to bring back anything. If you practice *being conscious* while you're in this third dimension, you go out with an open understanding so God can replace your mentality with something different. This is where miracles happen, but you can't go out thinking you're sick and expect to get changed.

You have to understand you are spirit. Spirits don't have memories; they live in the now!!!

Memories cause you to continually repeat the past. When you trust God with your life, you don't need to protect yourself, because it's that *security mentality* that we have in the third dimension that keeps us blocked and locked into the third dimension.

Let that sink in. Our *third dimension* is stacked against the spiritual person, because it trains us to prepare for the end: *"Save money, get a job, always protect yourself, pray for a rapture; we need a rescue mission."*

This is the mentality in the third dimension. But if you live in the *multidimensional spiritual realm*, you can be conscious and receive.

Consciousness is the spiritual realm, because it is only present!

So, people that have these experiences, they call “dépà vu”, their spirit remembers that time they went into the multi-dimension, because everything you're experiencing now, you've already experienced in that dimension.

You got to get this. That's why people should not be looking for experience. The result of an experience is an emotion. Emotion leaves images in your brain, and that's what keeps you *in the loop* of doing the same thing, remembering the same thing day after day.

In your brain there's a gland called the *hypothalamus*. It produces chemistry for your body. So, if you have a thought of feeling like a “victim, sad, angry,” whatever, it produces that chemistry to match your thought so your body can have a feeling, because we associate an emotion with a feeling.

So, your body becomes the *unconscious mind*, so your brain can go to sleep, your body can have a feeling, and your brain will immediately produce the chemistry. You can have a panic attack without your brain. So, when your mind is connected to the spiritual realm and the mind of Christ, you're plugged into this dimension. That's where we want to be, because we are so conscious of our feelings in our body, in our *state of mind*, that it takes us out of our state of *being aware of what we are in*.

Science has measured that man is only conscious 10 seconds every minute. So where are you the other 50 seconds? You're probably in the past or the future. And that's what keeps us going in and out of the spirit realm with our spirit, without bringing anything back.

The Holy Spirit has already set our spiritual bodies and mind in a perpetual motion of receiving all the time. But because we're so stressed out and the hormones of stress keep us so focused on the physical realm, we can't receive. So, most people aren't sick, they're stressed over the imaginary ghost they've created. You see, there's all these *imaginations* that we get from our emotionally charged being that creates all the *illusions* that we live by. And I'll give you an example:

Were so stressed out that when we get information, 90% of the time, we think the worst-case possible outcome because we figure if we think the worst case, maybe we can survive with something a little less.

That's why I was saying yesterday, if you wake up every morning knowing things are going to work out in your *best interest* every minute, you're way ahead of the game. Biologically, the same emotions kick in. The same thing that produces stress in your emotions when you start thinking like that, starts to produce dopamine, which is a good thing.

Back to Joshua. Joshua spent time after Moses left the tabernacle. So that means Joshua was in *that glory* longer than Moses was.

Now turn over to **Joshua 24:25-27**

So Joshua made a covenant with the people that day, and made for them a statute and an ordinance in Shechem. Then Joshua wrote these words in the book of the law of God. And he took a large stone, and set it up there under the oak that was by the sanctuary of the Lord. And Joshua said to all the people, "Behold, this stone shall be a witness to us, for it has heard all the words of the Lord which He spoke to us. It shall therefore be a witness to you, lest you deny your God."

So here we start to understand that Joshua carried out of that tabernacle some understanding of the material realm. He understood the laws in this dimension have to play by certain rules. *Atoms and matter* are formed by frequency. And he understood that if the *heart and mind are one*, that you carry a frequency that's different than if the mind is like a lightning in a cloud and the heart is somewhere else.

So, they spoke to this stone, and it became a witness of their covenant that day. And then we understood that when Joshua was going to Jericho, what happened? We all know the story of the wall that came down in Jericho. (See *Joshua 6*) They were given instructions to march around the wall seven days. And on the 7th day they were crashing their lanterns and blowing the shofar and yelling. So, what Joshua had shown these people is that stones and matter have a frequency that keep them together, and our little *quantum physicist*, Joshua understood what it would take to make those walls fall.

And Joshua was also capable of stopping the earth from moving. Remember when he said *the sun was standing still?*

Joshua 10:12

Then Joshua spoke to the Lord in the day when the Lord delivered up the Amorites before the children of Israel, and he said in the sight of Israel: "Sun, stand still over Gibeon; and moon, in the valley of Aijalon."

Joshua understood frequency. Joshua had the understanding that was given to him by that *face-to-face* meeting in the tabernacle with God. That kind of understanding is available in this dimension.

The Egyptians had that building the pyramid. The same thing that can destroy stone can build it. You remember how Pharaoh's sorcerers threw down their staffs and they became snakes, just as Moses had done?

There is the understanding in this dimension of how to change matter. But that's not your purpose.

You can go to Africa and find these dark people that have sold their life out, that can levitate, but that's third dimension witchcraft. Those are frightened, insecure people. Their goal is to make people superstitious and afraid. **Our goal is to set people free.** And you set people free when you understand the multidimensional region that you operate in.

You can't go into this dimension afraid. You have to be fearless. That's why most people don't want to do it, they want to be in control. But when you trust God for everything in your life, you have no fear. That cannot be concept.

You work out that salvation every day you live. Nobody's going to lay hands on you to have that. Each one of us are responsible for that. But it is available. It is available. It is the greatest desire of those who know Christ.

You remember Jesus was on the earth 40 days after He resurrected. He totally restored everything the flood leveled, in the spirit realm! In the spirit realm!

And that's what gives you access to do everything He was doing. You never heard the disciples talk about the kingdom coming, because He brought it. So anytime you hear somebody say, "Jesus has got to come back for the kingdom," there's no scripture for that.

So, your reality is much greater than you've known. And that's the wonderful thing about the Holy Spirit, He will give you everything you're willing to go for, just don't bite off more than you can chew because it's serious stuff and you don't want to be discouraged.

It's like I was saying yesterday, 90% of our thoughts are the same every day. And we found out that all of our thoughts change the atoms, they change matter, but if you are seeing "*material and the people*" the same way every day, you're not changing anything.

If you want a new experience, close your eyes and forget about yesterday. And when you pray you see it already done.

Don't go to your bank account and say, "Where's that \$10,000 I prayed for?" Because material takes time.

Let me talk to you about **photons** and **electrons** and then we'll worship.

That's a picture of the multi-dimension that you live in. That's where your spirit is all the time. It's only when you leave that place *"in Him"* and you decide to play by the *laws of this dimension*, in the three dimensions, that you get *caught up* in experiences and emotions.

This is kind of a picture of an atom, and you see the nucleus in the middle, which is the only part that's matter, and the electron is what spins around it.

But the *photon* is not matter, it's all *energy*. It's a piece of light and that's what you are.

Real quick, let me share this with you. Turn to **John 10**. Keep your finger there and go to **John 1**.

John 1:1-2

In the beginning was the Word, and the Word was with God, and the Word was God. He was in the beginning with God.

That beginning is not three-dimensional, they just have to use that word because they're writing in a two-dimensional space.

John 1:3-4

*All things were made through Him, and without Him nothing was made that was made. **In Him was life, and the life was the light of men.***

In Him, the life was the light of men. Man is *the light* because of the life of Jesus ("in Him"). The more of that, the more "in Him."

John 10:10

"The thief does not come except to steal, and to kill, and to destroy. I have come that they may have life, and that they may have it more abundantly."

Okay say, "**Abundantly**". Okay, now, we mentally are raised in this "three dimensions" which is "material based", right? **Matter is how we measure abundance.**

What if Jesus came to give you more “light”? What if “abundance is light”? The more “light” you get, the more “abundant” you are. There's no shadows in that light. Shadows are disease. Shadows are sickness. Shadows are lies. All the shadows that are in *this 3rd dimension* are not in that “Light” (the Light of Christ).

Follow me. You want abundance? You want more light? You want more light? When you “live in the Light”, there are no shadows. And you live in that *multi-dimensional space* all the time.

Remember when I said, “*You generate abundance from the inside*”? When you have that “Light”, you command matter.

Joshua was in *that Light* 40 days and 40 nights. Joshua knew what matter was all about. After spending that time in that Light. We should be ready to worship now. Let's worship.
