Escalas y arpegios

Este libro presenta escalas mayores, escalas menores armónicas; también, arpegios mayores y menores en las tres inversiones y la digitación apropiada para cada tonalidad. La mayoría de estas escalas y acordes se deben tocar con las manos situadas una octava aparte. Algunas de ellas están escritas con una separación de dos octavas para obtener mejor claridad visual.

Para las escalas que se tocan en las teclas negras, hemos escogido aquellas que tiene las mas pocas alteraciones posibles para evitar doble sostenidos y dobles bemoles. Por ejemplo, para DO♯ mayor, usamos la escala de RE♭ mayor y la de DO♯ menor.

La escala de DO# mayor tiene 6 sostenidos. = **La escala de RE♭ mayor tiene 5 bemoles.**

La escala de DO# menor tiene 4 sostenidos. = La escala de RE♭ menor tiene 6 bemoles y 1 doble bemol.

Acordes

Para los acordes, no hemos incluido ninguna digitación, ya que hay varias digitaciones posibles para un mismo acorde. La digitación que se usa depende de las circunstancias. Para mantener la notación musical de los acordes lo mas simple posible, usamos enarmónicos, lo cual se refiere a dos notas con diferentes nombres que producen el mismo sonido.
Ejemplo: DO♯ and RE♭

Es importante mencionar que existe confusión con la notación de acordes menores con 9a. La música clásica usa ciertas alteraciones, mientras jazz y música popular usan otras. En este libro, usamos notación de música popular y jazz.

Cmin9	Clásica	DO, MI, SOL, SI♭, RE♭	(5o grado en la tonalidad de Fa menor)
Cmin9	Pop & Jazz	DO, MI♭, SOL, SI♭, RE	
C7♭9	Pop & Jazz	DO, MI, SOL, SI♭, RE♭	(C7 ♭9 Pop & Jazz = Cm9 Clásica)

Ejercicios

Estos ejercicios comienzan con Sol y terminan cuando se llega a Sol una octava mas alto. Para descender, comienza con el Do y termina cuando llegues al Do una octava mas abajo.
