

RIDDLES ABOUT ANIMALS IN GARDENS

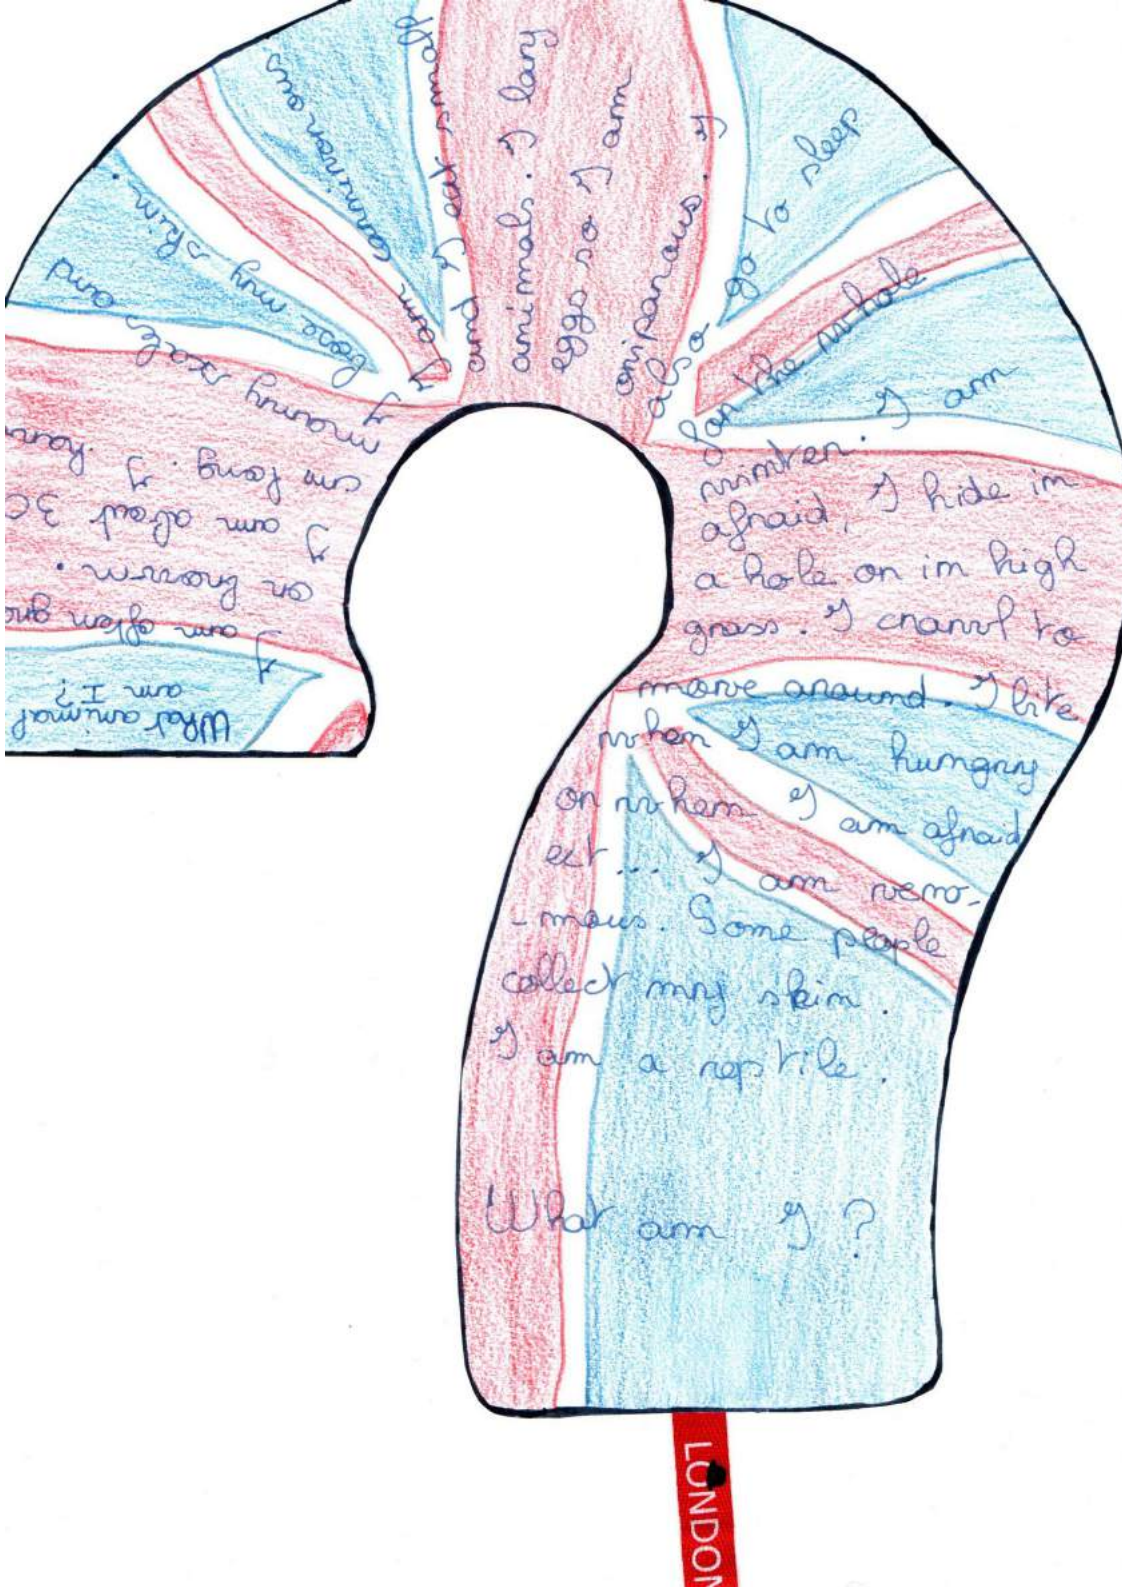

I live in attics and in houses behind cupboards. I am usually black but sometimes red and green. People often think I am insect but I am not insect. People don't like me and crush me if they see me. I am sometimes deadly. I have hairy legs and I have a hairy body too. I have several eyes. I live for about two years. I knit my big white house. I am little. I bit a man who became a superhero afterwards. I walk on the wall or on the floor (without noise/silently).

What am I ?

I live in attics and in houses behind cupboards. I am usually black but sometimes red and green. People often think I am an insect but I am not. People don't like me and crush me if they see me. I bit a man who became a superhero afterwards. I walk on the wall or on the floor silently.

What am I ?

I am a spider of course !

I am often green or brown.
 I am about 30 cm long.
 I have many scales and I lose my skin.
 I am carnivorous and I eat small animals.
 I lay eggs, so I am oviparous.
 I also go to sleep for the whole winter.
 I am afraid, I hide in a hole or in high grass.
 I crawl to move around.
 I bite when I am hungry or when I am afraid etc...
 I am venomous.
 Some people collect my skin.
 I am a reptile.

What I am?

I am a viper...

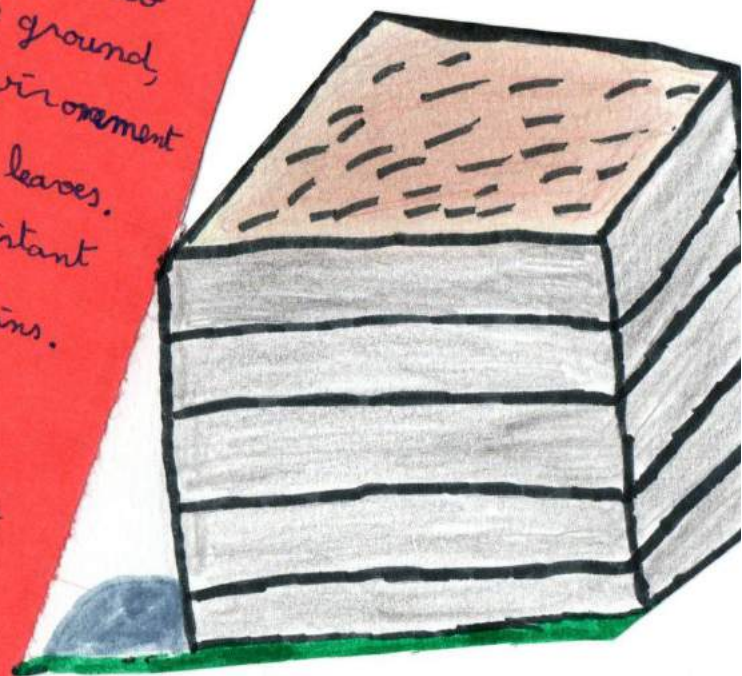

I am small and grey. I can roll up
 in a ball when in danger. The children
 play with me because they love when I
 roll up in a ball. I have many short
 legs but I don't have wings. I am two
 centimetres long. I can live in the ground,
 in the tree stumps, in a humic environment
 or under stones. I eat fruit and rotten leaves.
 Chickens like eating me. I am a distant
 cousin of the shrimp. I like compost bins.

What am I?

(miam!)
 yummy!

2 cm

My thorax is black, my legs are yellow and I have two antennae. People don't like me because I am dangerous. And, sometimes I live in Asia and I eat bees.

What am I?

I am a hornet. (Frelon in French!)

I am quite small with few short legs and a long tail. I have small ears and my coat is red. I am an animal who hibernates. People love me because I am cute. I hide my food, hazelnuts, mushrooms, seeds, buds, insects, walnuts and bark. As soon as I am afraid, I climb up trees. You often find me near forests or in gardens. I live in trees, more exactly in a nest.

What am I?

I am quite small with four short legs and a long tail. I have small ears and my coat is red. I am an animal that hibernates. People love me because I am cute. I hide my food, and sometimes I do not know where I have left it. I eat hazelnuts, mushrooms, seeds, buds, insects, walnuts and bark. As soon as I am afraid, I climb up trees. You often find me near forests or in gardens. I live in trees, more exactly in a nest.

What am I ?

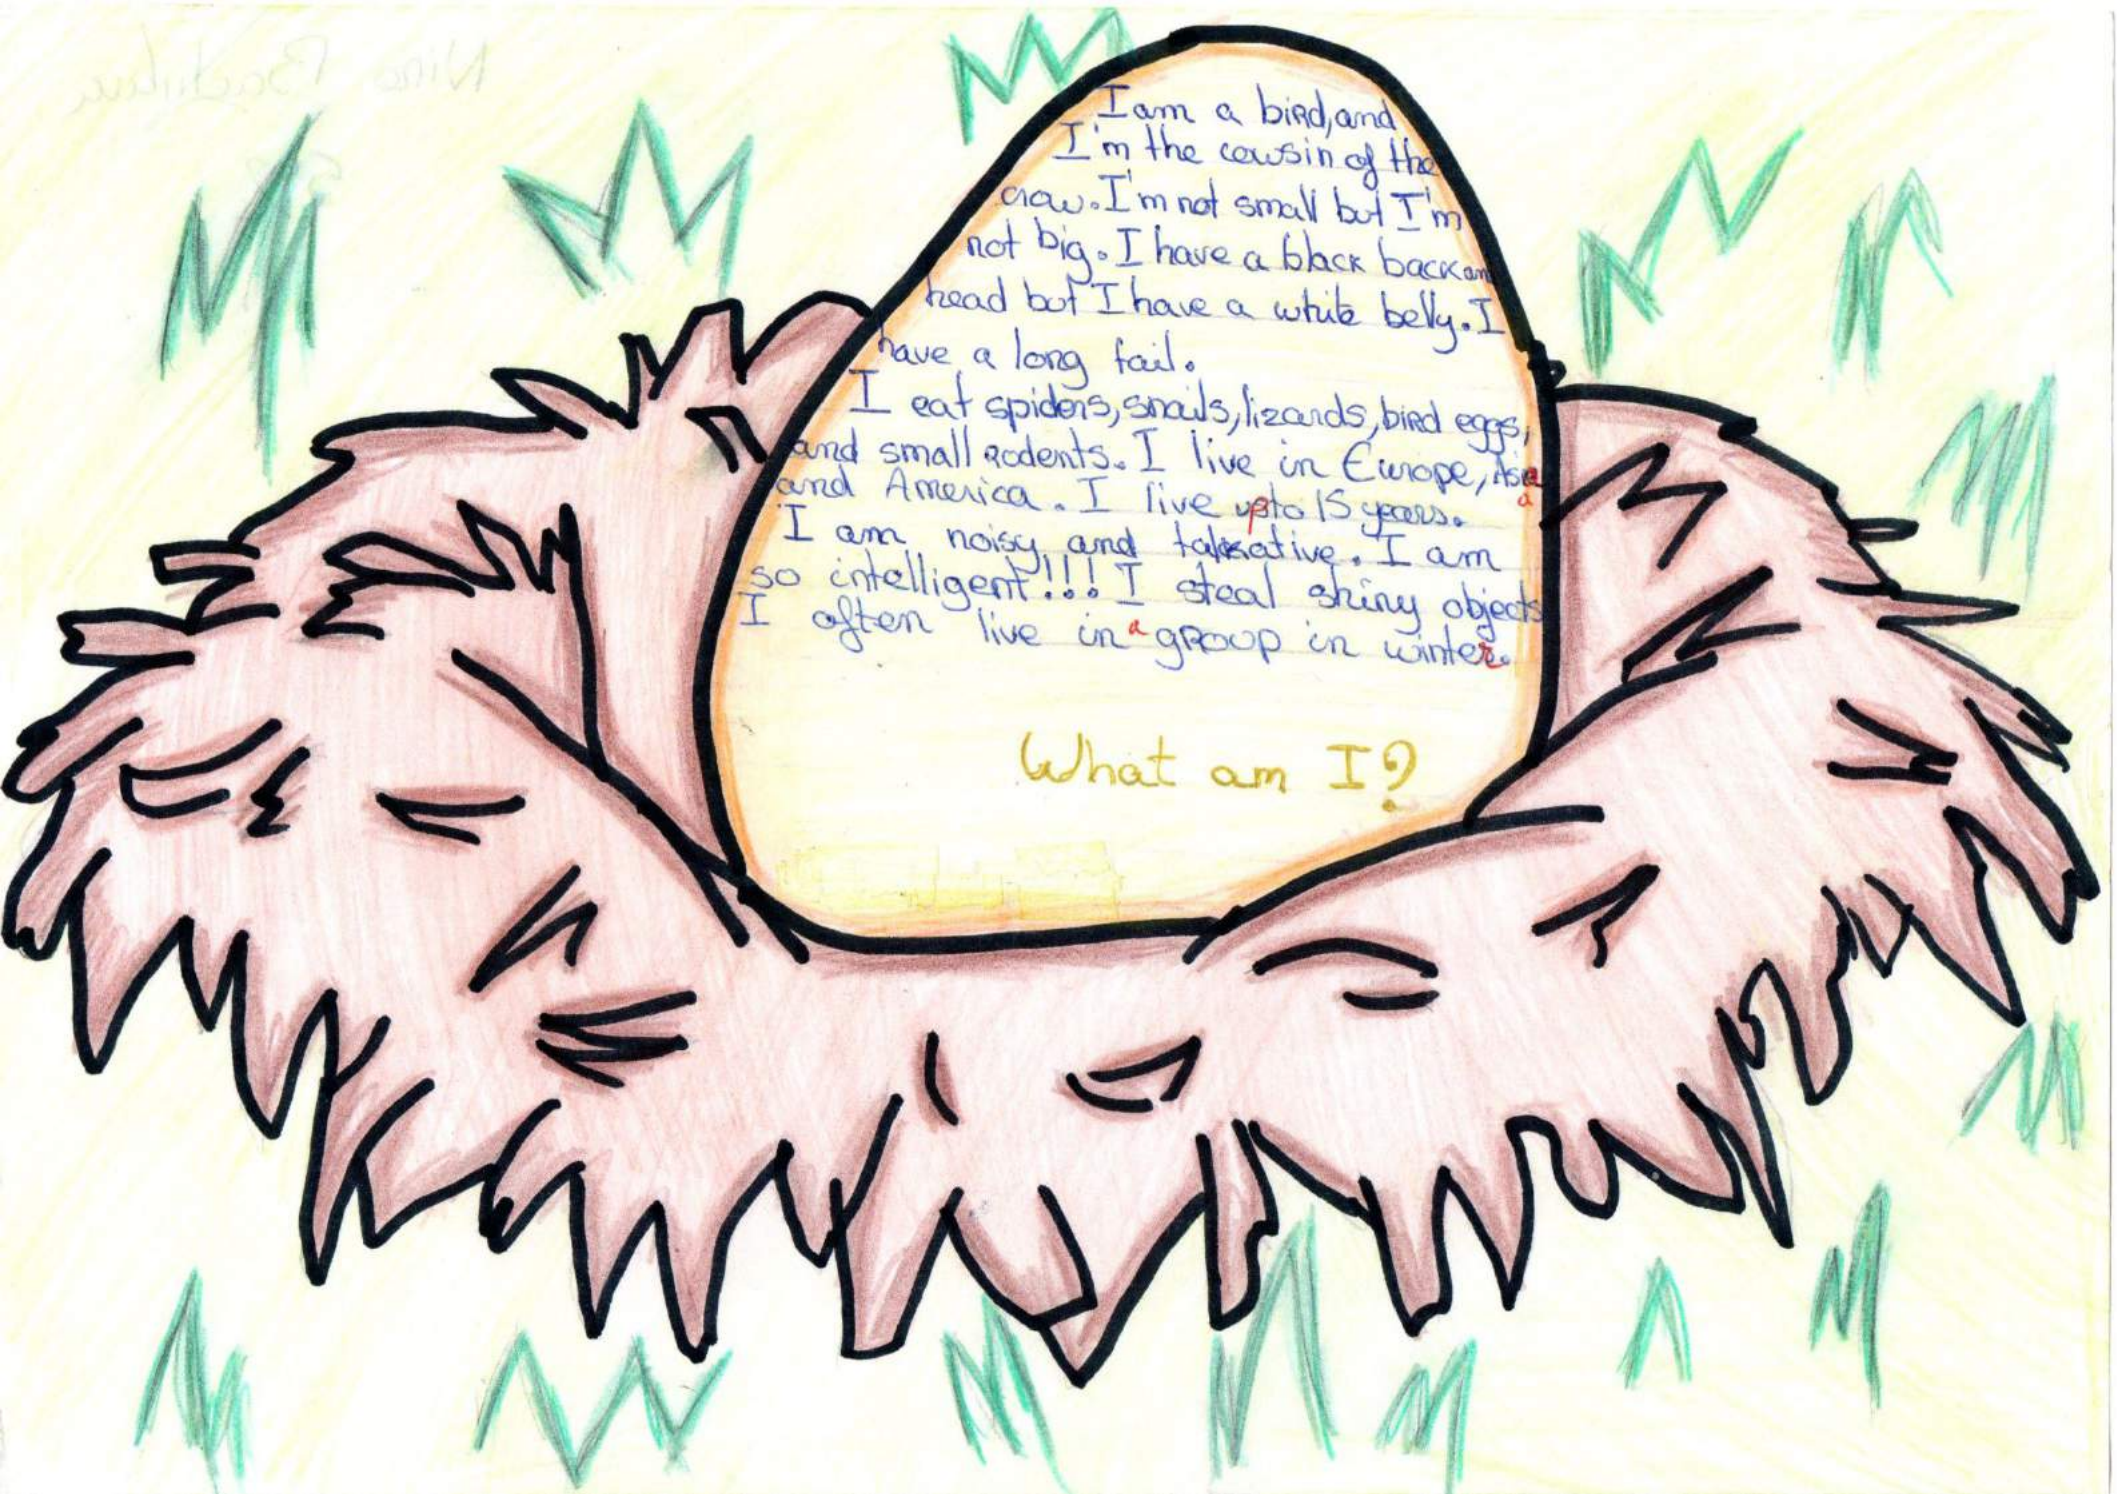

I am a squirrel...

(Watch the pronunciation!!)

I am a bird, and
I'm the cousin of the
crow. I'm not small but I'm
not big. I have a black back and
head but I have a white belly. I
have a long tail.
I eat spiders, snails, lizards, bird eggs,
and small rodents. I live in Europe, Asia
and America. I live up to 15 years.
I am noisy and talkative. I am
so intelligent!!! I steal shiny objects
I often live in a group in winter.

What am I?

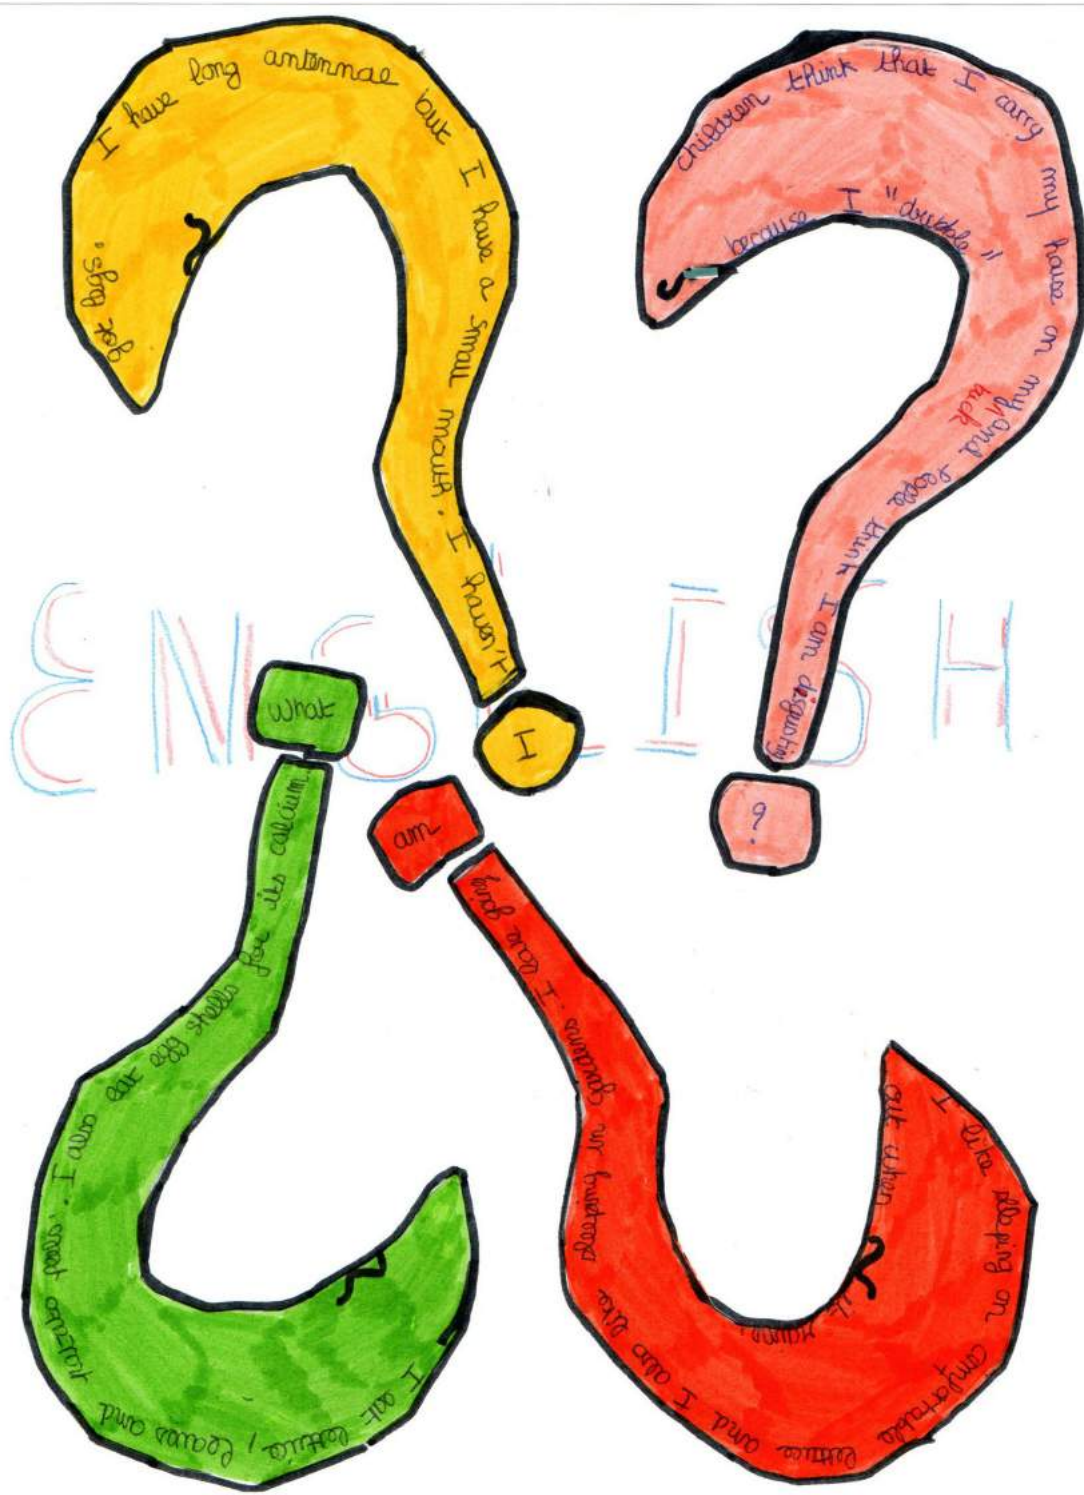

Mrs. Boudreau

I am a bird, and I'm the cousin of the crow. I'm not small but I'm not big. I have a black back and head but I have a white belly. I have a long tail. I eat spiders, snails, lizards, bird eggs and small rodents. I live in Europe, Asia and America. I live up to fifteen years. I am noisy and talkative. I am so intelligent!!! I steal shiny objects. I often live in a group in winter.

What am I ?

I am a magpie...

I am a snail !

I am an insect so I have wings, two antennae and six legs. I can have many colours. I love flowers

because I can eat them. When I was young, I was a caterpillar I do not

live for very long. I lay more than thousand eggs. I sleep in winter, children

like to catch me with nets and some people collect hundreds of my cousins
