FAQ

Planning your big day? Here's everything you need to know when booking with Cutting Discos & Entertainment.

How much is the deposit and when is payment due?

To secure your date, we ask for a £250 deposit. The remaining balance is due 30 days before your wedding. You're welcome to pay off the balance in instalments if you prefer. You can view and manage your payments anytime via your personal client portal.

Can we choose our own music?

Absolutely! You'll get access to our online planning system where you can list must-play songs, first dance choices, and even tracks you'd prefer to avoid. On the night, guests are also welcome to make requests (if that's okay with you!).

Do we get a contract?

Yes - all bookings come with a formal contract, giving you peace of mind. This is signed electronically and includes full details of your booking.

Will we speak to you before the big day?

Of course! We're happy to schedule a Zoom or FaceTime chat before your wedding to go over your music choices, timings, and any special requests.

What kind of music do you have?

Our DJs have access to thousands of songs across every genre—from Motown and 90s R&B to Ibiza classics and everything in between. If there's something special we don't have, we'll make sure we get it.

Are you insured and venue-compliant?

Yes, we hold full Public Liability Insurance and all of our equipment is PAT tested. Certificates can be downloaded via your portal or sent directly to your venue. All we require is one standard 13amp plug socket.

How long does setup take?

We typically arrive 45-60 minutes before the party starts to get everything set up. If your venue requires earlier setup (e.g. before the ceremony), we can arrange that too.

Do you offer packages or extras?

Yes! You'll save when bundling multiple services such as photo booths, uplighting, fun casinos, and more. Extras can be added at any time through your client portal.

We already have some great packages available that contain everything you need.
