- Stripe
- WellSky
- Claude
- Replit
- Lovable
- Bolt
- Cursor

Results-driven Web Developer with 4+ years of experience in frontend and mobile application development, specializing in React, React Native, Angular, Next.js, and TypeScript. Proven track record of building scalable web and mobile solutions, integrating payment systems and third-party APIs, optimizing application performance, and delivering user-focused interfaces across multiple client projects. Brings strong expertise in responsive UI development, API integration, and Agile collaboration, helping organizations create high-quality digital products that enhance user experience, streamline operations, and support business growth.

## WORK EXPERIENCE

### MID LEVEL FRONTEND DEVELOPER

Xentra Solutions | March 2022 – April 2026 (4 Years, 2 Months)

- Developed web and mobile applications using React, React Native, Angular, and Ionic, built reusable UI components, integrated POS devices and Stripe payments, implemented social authentication, optimized application performance, and supported deployments through Google Play Console.

### JUNIOR WEBSITE DEVELOPER

BeFied | December 2024 – August 2025 (9 Months)

- Developed data-driven dashboards and analytics interfaces using React and Next.js, integrated APIs with filtering and validation features, and created responsive HTML email templates for marketing and client communications.

### RECORDS & DOCUMENTATION SPECIALIST

Second Chance (Remote, Atlanta, USA) | August 2025 – December 2025 (5 Months)

- Managed member records, care plans, and compliance documentation using WellSky, processed Level of Care (LOC) and Minimum Data Set (MDS) requirements, and maintained accurate healthcare service documentation to support compliance standards.
