- ✓ Choose from Two Games

Storyline keeps students engaged and laughing

SQUIRREL MAYHEM

The squirrels in your neighborhood are curious. They're also mischievous...

They've been known to work in groups to snatch your neighbors' items and scurry away with them.

They often take the items up trees, where they become snagged on branches.

SQUIRREL MAYHEM

You are known as the master snowball thrower in your neighborhood, and you've decided to put your special skills to good use. You've offered to retrieve all your neighbors' items.

Your plan is to throw snowballs at the items to knock them off the branches.

Your aim will need to be good in order to retrieve all ten items and return them to their rightful owners.

This was a great activity to get my students started with reading music. They especially loved the Match It PPT (this sight-singing was still a bit over their heads). It was so fun to hear them giggle at all the crazy things the squirrels took up the tree.

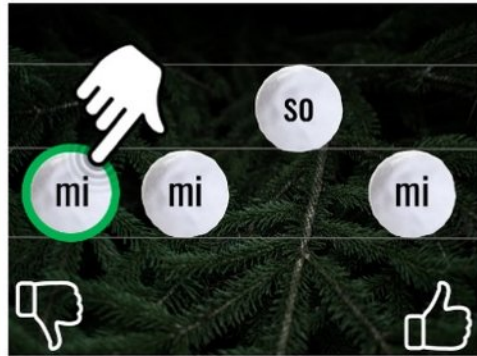

— Kayla M.

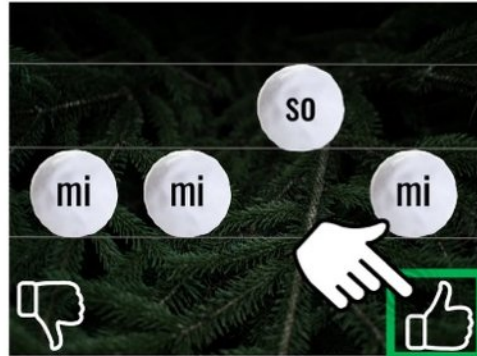

Use a **squirrel puppet** or pointer to tap the icons as you play the game

Choose between Match It and Sing It

YOUR MISSION

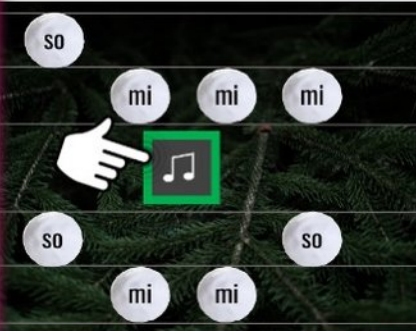

1. Click the starting pitch only.
2. Then sing the pattern beginning with the starting pitch.
3. Click each snowball to check your answer.

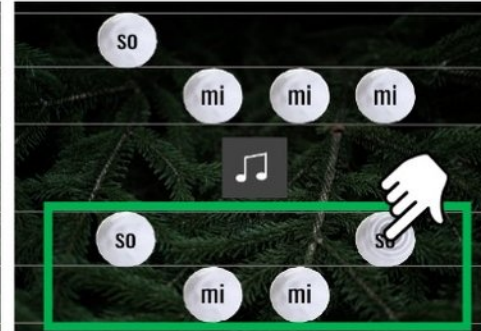

4. Click like if you were correct.
5. Click dislike if you missed one or more pitches.

YOUR MISSION

1. Click the music button at the center of each slide and listen carefully.
2. Match what you hear with one of the patterns shown.

3. Click on the matching pattern to see if your snowball knocked an item out of the tree.

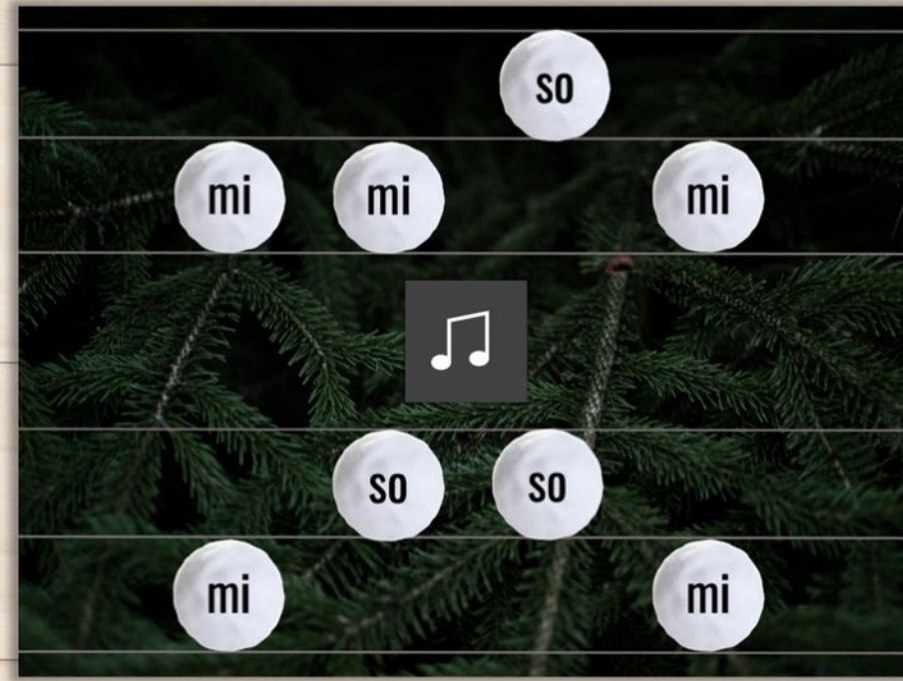

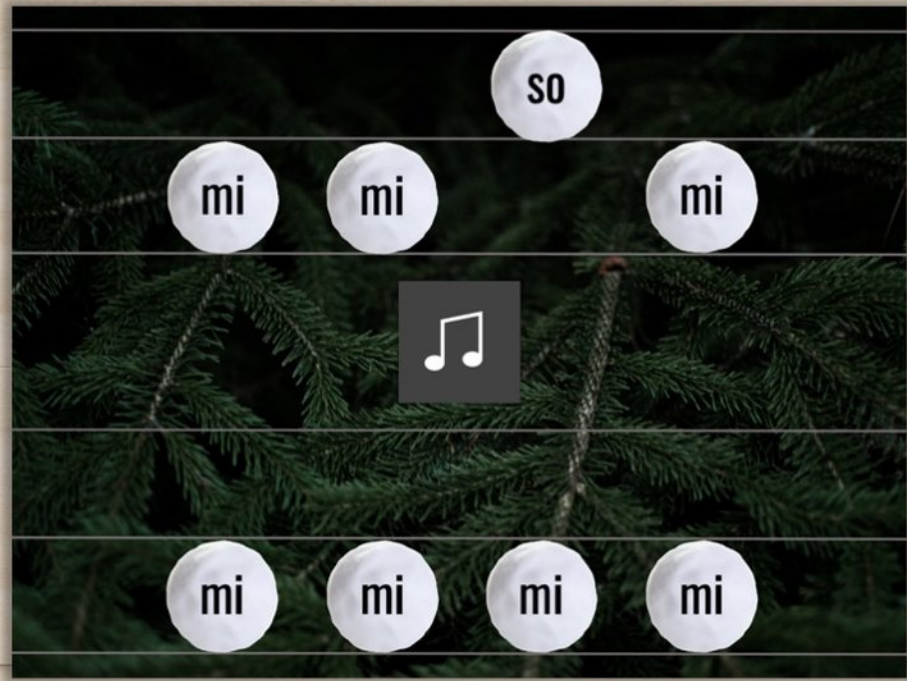

This is a great resource! My students love this game....they giggle when they see the random items that the squirrel took! I love seeing them have fun while learning to sing sol and mi!

– Miss Rody Makes Musicians

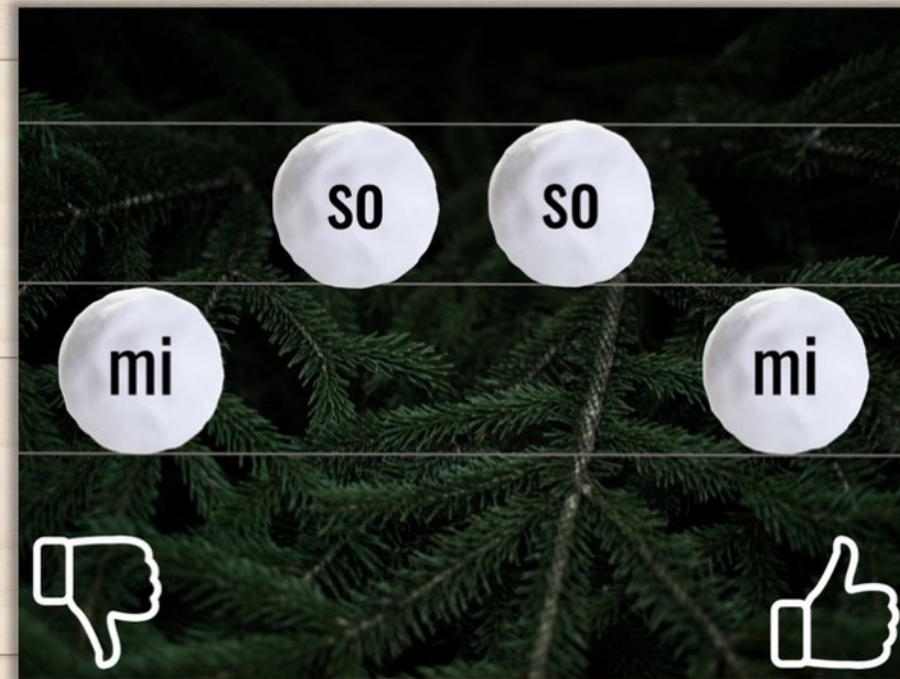

Use the Match-It Game
for non-music subs since
it's self-correcting!

Students practice pattern identification with the Match It Game

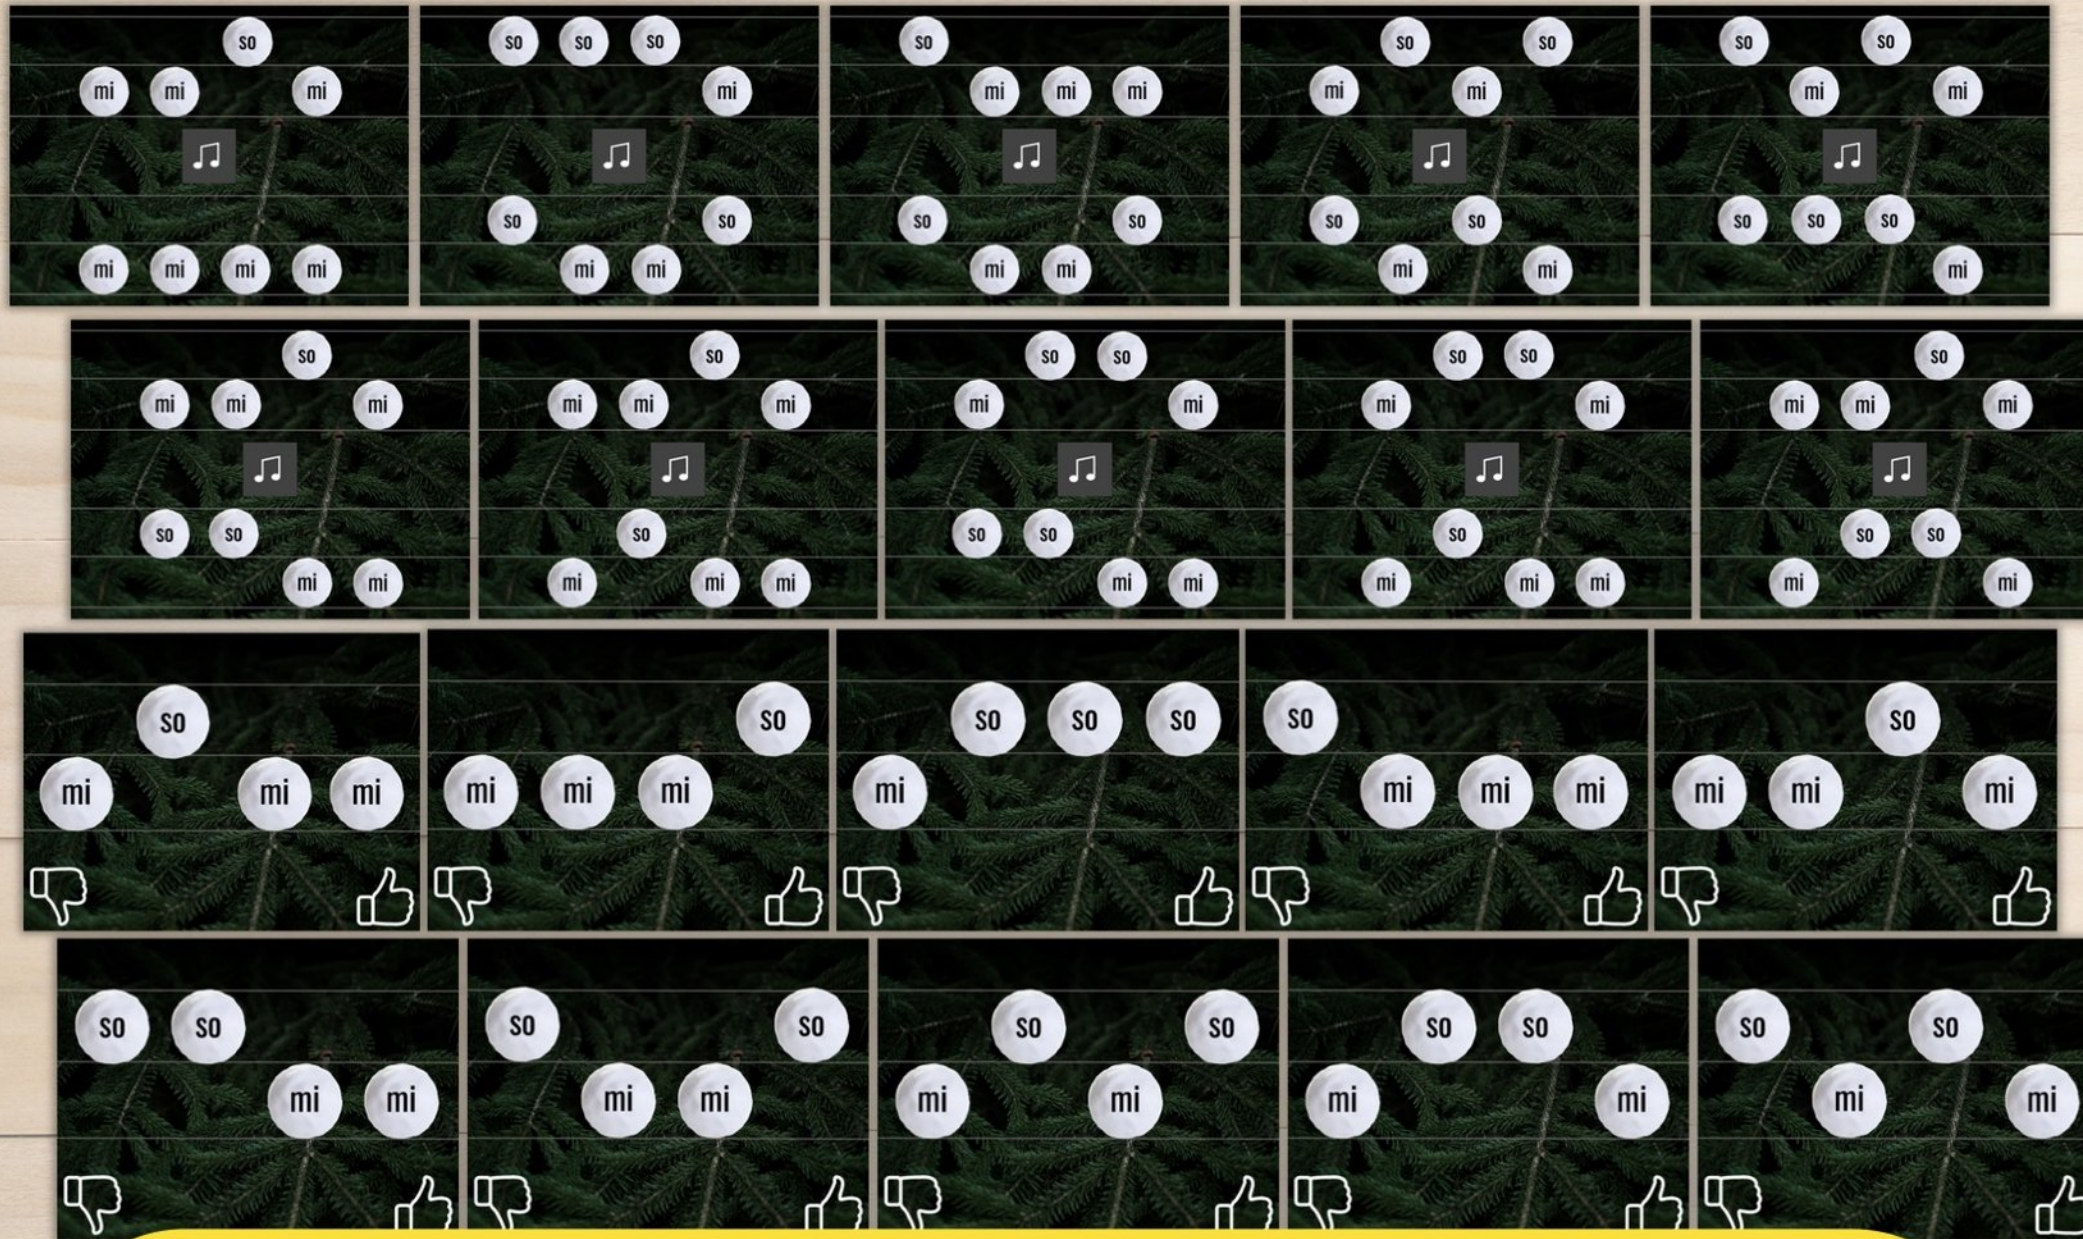

Use this game as a **center activity** with students taking turns checking their answers

Students practice sight-singing with the Sing It Game

For an **extra challenge**, ask students to sing the pattern backwards

10 separate patterns for each game

THEY LOVED IT! So cute and funny!
Thank you so much!
– Songbird Serenade

Use the Sing It Game as
an easy and quick
assessment

So cute! It even got my grumpy little guys singing. Thank you!
