Google Slides & PDF

**A multi-use resource for
teaching musical symbols
featuring ideas for:**

- ☒ **Review**
- ☒ **Assessment**
- ☒ **Scavenger Hunt**

**Includes answer sheet
& ideas for use**

Google Slides™ Presentation makes it easy to perform a quick review

I am a music symbol
with lots of curls.
I show where Do is
for boys and girls.

**TREBLE
CLEF**

Use the Symbol Riddles as a
no-prep review at the beginning
or end of class

Digital and print options provide multiple methods of use

FRONT

I'm a music symbol,
but I make no sound.
I last for one beat.
In rhythms I'm found.

BACK (OPTION 1)

QUARTER
REST

BACK (OPTION 2)

Everyone loves riddles! These are beautifully presented, well thought out, with great suggestions of how to use in class.
Fantastic resource!

– Victoria H.

Print the riddles double-sided for an easy set of flashcards

Students become detectives with fun and engaging symbol riddles

I am a music symbol,
thin and straight.
I separate measures
In 4/4 and 6/8!

© 2017 Jennifer Hibbard | The Yellow Brick Road

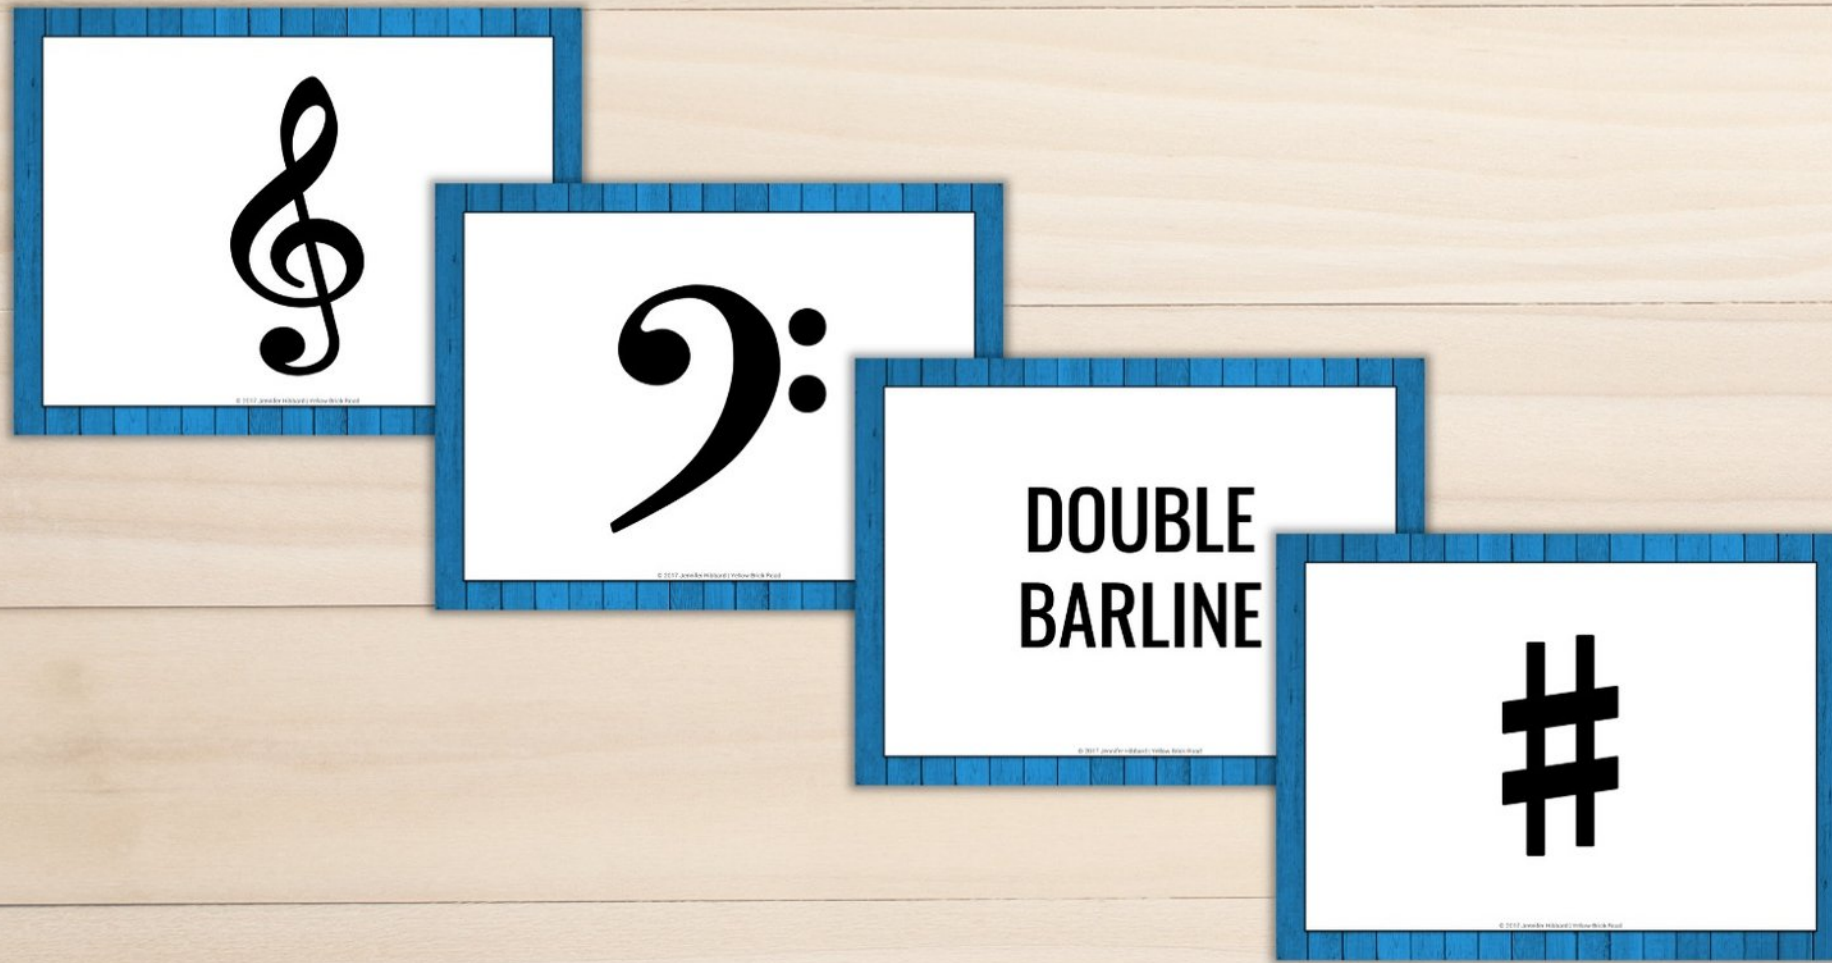

We used this resource at the beginning of our google meets while waiting on others to join. Fun use of time!

— Megan Y.

Create a scavenger hunt where
students answer riddles and
explore the classroom to find all
the symbols

Students can use the images to identify the names of each instrument

Really fun for the kids!
Gets them thinking differently than normal.

– Courtney M.

Have students play a **modified four corners game** where they race around the room to answer the symbol riddles

Symbol Riddles are the perfect activity for centers and other small group work

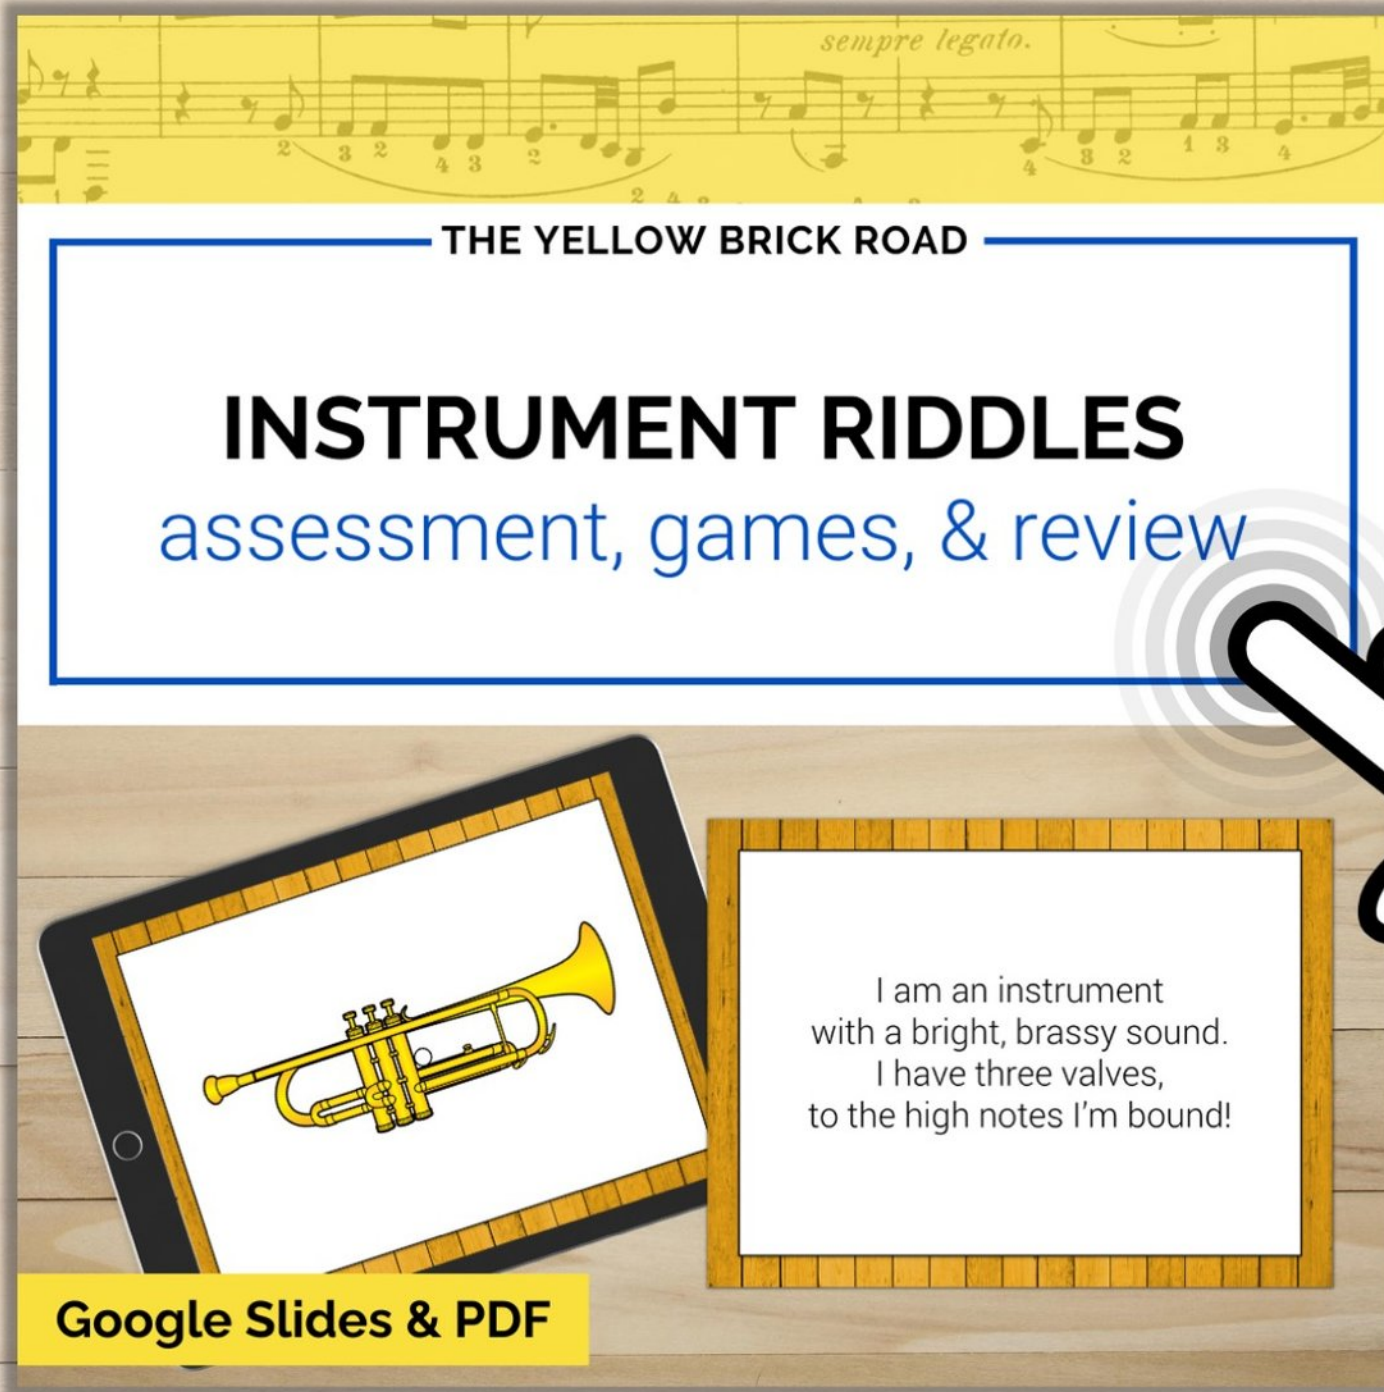

ANSWER IS INSIDE

I am a music symbol,
thin and straight.
I separate measures
In 4/4 and 6/8!

© 2017 Jennifer Hibbard | Yellow Brick Road

Tape the riddles to the front of a file folder with the answer on the inside. Then, **display the file folders on a bulletin board** for your next open house night!

Google Slides & PDF

This was my family's favorites activity open house night! So many parents were either impressed that their student knew the instrument or the other way around - That their parents knew what instruments even were, haha!

– Music with Mari
