Comptines pour enfants activités à imprimer frises coloriages

Ce petit cahier de maternelle est gratuit. Il va permettre aux enfants d'apprendre à écrire les chiffres, de s'entraîner à écrire. Pour apprendre à écrire l'enfant a besoin d'être guidé par un adulte bienveillant et attentif. Ne pas brusquer l'enfant dans son apprentissage de l'écriture. L'encourager. Ne pas lui imposer de longues séances de travail, il est encore petit ! Si vous voyez qu'il «en a marre» changez d'activité avec lui, en douceur.
