The image shows a collection of musical manuscripts and a spiral notebook. In the foreground, a spiral notebook is open, showing musical notation on a staff. The text "ejercicios en 3 II" is visible on the page. To the right, another sheet of music is partially visible with the title "GROOVES EN 5/4 NIVEL I". Two wooden drumsticks are lying across the papers. A crumpled piece of paper is in the upper left corner. The background is dark, making the white papers stand out.

9. TRABAJO ADICIONAL.

RHYTHM CONSTRUCTOR:

es un libro de batería que te ayudará a trabajar: técnica, coordinación, independencia y construcción de grooves en los compases irregulares 3/4, 5/4, 7/4 y 7/8 desde los niveles sencillos a los más avanzados. A partir de **frases rítmicas** construiremos ejercicios para mejorar todas nuestras habilidades en estos compases de una manera sencilla y progresiva.

ESTRUCTURA DEL LIBRO:

El libro está dividido en cuatro bloques, uno por cada compás que vamos a trabajar. A su vez, cada bloque está dividido en dos apartados. En el primero se desarrollarán aspectos técnicos aplicando diferentes posibilidades a cada **frase rítmica** (rudimentos, digitación, etc), para luego combinarla con varios patrones de pies; y el segundo donde a partir de esas **frases rítmicas** desarrollaremos grooves de batería para trabajarlos como tal.

Cada apartado está dividido en tres niveles de complejidad ascendente.

CÓMO TRABAJAR EL LIBRO:

El libro se puede trabajar de varias maneras, al estar dividido en bloques, apartados y niveles, bien diferenciados, y cada uno de ellos organizados para que su complejidad vaya de menor a mayor; podemos estudiar el libro de principio a fin y de manera progresiva; o podremos ir directamente al bloque, apartado o nivel que queramos trabajar y centrarnos en ese exclusivamente. Por lo tanto adaptar la complejidad a nuestro nivel o necesidades concretas.

APARTADO TÉCNICO:

En el apartado técnico vamos a tocar **las frases rítmicas** utilizando varios rudimentos y posibilidades de combinación de manos (acentos, flams, golpes dobles, etc). De esta manera, al mismo tiempo que ejercitamos nuestras manos y conseguimos una buena técnica, vamos interiorizando el compás que estamos trabajando. Es imprescindible contar siempre las partes del compás que estemos trabajando.

Está dividido en tres niveles, siendo el primero de baja dificultad y el último de dificultad alta. Tanto **las frases rítmicas**, como los recursos técnicos que aplicamos y la subdivisión que utilizamos son acordes al nivel.

Una vez hayamos realizado correctamente el desarrollo técnico de las frases, añadiremos los patrones de pies creados para cada bloque, y tocaremos cada frase con todos los patrones.

El siguiente paso es la orquestación de las frases, repartiendo las frases utilizando las diferentes partes o voces de nuestro kit de batería. De esa manera encontraremos una aplicación más musical del apartado técnico y podremos añadir más recursos a nuestro vocabulario dentro de los compases irregulares.

GROOVES:

En este apartado, a partir de **las frases rítmicas** de cada nivel, he desarrollado ritmos acordes al nivel, siendo los del nivel I de dificultad baja y el resto de complejidad ascendente, tal y como ocurre con las frases rítmicas.

Los grooves están escritos en líneas de ocho compases. En el primer compás encontramos el groove escrito; luego tenemos una repetición de seis compases del mismo groove y el último está reservado para el fill o break, el cual debemos realizar en todas las partes del compás, empezando desde el último tiempo hasta el primero con el fin de realizar un fill de un compás completo. Podemos utilizar para el fill las frases rítmicas que tenemos desarrolladas técnicamente y así tener la aplicación práctica de éstas.

Una vez realizados correctamente todos los grooves, debemos tocarlos con los diferentes ostinatos proporcionados en el libro, para luego, como se explica, hacer el ostinato en el plato ride o en una campana y realizar todos los ostinatos de nuevo con todos los patrones de pie de hi-hat también proporcionados.

En los ejemplos del nivel III aparecen tanto notas acentuadas como notas entre paréntesis (notas fantasma). Eso es simplemente para aportar opciones. Es recomendable que experimentes y seas tú mismo quién tome esas decisiones buscando tu propio lenguaje.

DESARROLLO TÉCNICO DE LAS FRASES:

NIVEL I: El nivel I por lógica es el más sencillo de los tres. En el utilizamos tres recursos y dos subdivisiones que pasamos a detallar:

Acentos: Con una subdivisión de corcheas y utilizando manos alternadas, primero empezando por la derecha y luego por la izquierda, realizaremos **la frase rítmica** que queramos desarrollar con acentos, resaltando así la frase por arriba de las demás notas.

Right hand lead: Con este recurso, que traducido literalmente significa mano derecha conduce, y con una subdivisión de corcheas, realizaremos **la frase rítmica** por completo con la mano derecha acentuada y el resto de la frase con la mano izquierda a muy bajo volumen, como notas fantasma (El R.h.l. tiene sus complicaciones, pregúntale a tu profesor para que él te guíe); Luego realizaremos el mismo ejercicio pero sustituyendo la mano derecha por la izquierda: Left hand lead.

Flams o mordentes: Utilizando manos alternadas y con una subdivisión de corcheas, aplicaremos este rudimento para desarrollar **la frase rítmica**, quedando la frase hecha con flams y el resto notas simples; empezaremos tanto por la derecha como por la izquierda y aplicaremos un acento a la nota principal de cada flam.

Acentos: Al igual que el primer recurso que hemos utilizado, éste se trata simplemente de incluir acentos, pero hemos pasado de una subdivisión de corcheas a una subdivisión de semicorcheas. Con manos alternadas y empezando primero por la derecha y luego por la izquierda tocaremos **la frase rítmica** realizando un acento en el lugar correspondiente a la frase, tal y como se ve en los ejemplos.

NIVELES II Y III: En los niveles II y III el desarrollo técnico es el mismo, ya que utilizamos los mismos recursos y la misma subdivisión; lo que cambia son **las frases rítmicas** de los dos niveles, en el nivel II son más sencillas y con menos notas que en el nivel III; por eso la explicación es válida para los dos niveles.

Acentos: Con una subdivisión de semicorcheas y con el patrón de manos alternadas, primero empezando por la derecha y luego por la izquierda, realizaremos **la frase rítmica** con acentos tal y como se ve en los ejemplos.

Right hand lead: Aplicaremos este recurso, pero esta vez utilizando una subdivisión de semicorcheas. El planteamiento es exactamente el mismo, tocaremos **la frase rítmica** utilizando la mano derecha acentuada y el resto de las notas con la mano izquierda. Luego haremos lo mismo pero con la mano izquierda como protagonista: Left hand lead.

Flams: Aplicaremos el mismo proceso que en el nivel I, pero esta vez utilizaremos una subdivisión de semicorcheas. Recuerda: manos alternadas,

empezado por la derecha y luego por la izquierda y realiza **la frase rítmica** utilizando los flams, tal y como se ve en los ejemplos.

Notas dobles: Este recurso no es más que el resultado de tocar las notas de **la frase rítmica** como semicorcheas normales pero acentuadas y convertir el resto de las semicorcheas que no forman parte de la frase cada una en dos fusas tocadas como dobles, respetando siempre el patrón de manos alternadas, primero empezando por la derecha y luego por la izquierda tal como está escrito en los ejemplos.

*El desarrollo técnico y la orquestación de **las frases rítmicas** solamente está ejemplificado en los tres niveles del primer bloque en $\frac{3}{4}$. En los bloques siguientes: $\frac{5}{4}$, $\frac{7}{4}$ y $\frac{7}{8}$, se deben aplicar los mismos recursos y desarrollo adaptandolos al compás que estemos trabajando concretamente, exceptuando el nivel I del compás de $\frac{7}{8}$, el cual está debidamente detallado en su lugar correspondiente.

***NOTA:** En el caso del compás de siete, he decido dividirlo en dos bloques porque me **parecía** más interesante y productivo trabajarlo de esas dos maneras: en $\frac{7}{4}$ y en $\frac{7}{8}$. Para mí, y según a qué velocidades, estos dos compases se pueden trabajar por separado sacando mucho más partido. Por ello he decidido unir los niveles II y III en un solo nivel II, tanto para el apartado técnico como para el apartado de grooves. Por lo tanto hay solo dos niveles en los compases $\frac{7}{4}$ y $\frac{7}{8}$.

NOTATION KEY

A musical staff with a treble clef and a key signature of one sharp (F#). The staff contains eight notes, each with a specific percussion instrument label below it. The notes are: a quarter note on the first line (B4) labeled 'Bombo'; a quarter note on the second line (C5) with an 'x' above it labeled 'Hi-hat pie'; a quarter note on the second space (D5) labeled 'Tom base'; a quarter note on the third line (E5) labeled 'Caja'; a quarter note on the third space (F5) with an 'x' above it labeled 'Caja con nota fantasma'; a quarter note on the fourth line (G5) labeled 'Tom uno'; a quarter note on the fourth space (A5) with an 'x' above it labeled 'Hi-hat'; and a quarter note on the fifth line (B5) with an 'x' above it labeled 'Plato'. The staff ends with a double bar line.

***COMO TRABAJAR LOS EJERCICIOS PRELIMINARES.**

- Los ejercicios están todos escritos empezando con la mano derecha. Debes realizarlos también empezando por la izquierda.
- Realiza los ejercicios preliminares con los patrones de pies correspondientes a cada compás que están en el libro **RHYTHM CONSTRUCTOR**.
- Una vez adquieras solidez, desplaza las notas principales de cada ejercicio (acentos, flams, etc...) por las diferentes partes de tu kit de batería.
- En los flams solo está puesta la digitación de las notas principales, la nota de flam la debes realizar con la mano opuesta.
- No olvides utilizar siempre el metrónomo y contar las partes del compás.

EJERCICIOS PREVIOS EN 3/4 NIVEL A

Enric Castelló

The image displays ten staves of musical exercises in 3/4 time, Level A. Each staff begins with a treble clef, a key signature of one sharp (F#), and a 3/4 time signature. The exercises are organized into two groups of five staves each, separated by a double bar line. The first group consists of five staves of rhythmic exercises, each containing two measures of music. The first measure of each staff has a dynamic marking of $>$ (accent) above the first note. The notes are quarter notes, and the rhythm is consistent across all staves in this group. The second group also consists of five staves, each with two measures. The first measure of each staff has a dynamic marking of $>$ above the first note. The notes are quarter notes, and the rhythm is consistent across all staves in this group. The exercises are designed to be played as a continuous sequence.
