# ACCOUNTING PROCESS AND PRINCIPLES, FINANCIAL, COST AND MANAGEMENT ACCOUNTING 

## Unit Structure:

### 1.0 Objectives

1.1 Introduction
1.2 Meaning of Accounting
1.3 Accounting Principles
1.4 Branches of Accounting
1.5 Accounting process
1.6 Funds Flow Statement
1.7 Cash Flow Statement
1.8 Distinction between Funds Flow Statement and Cash Flow Statement
1.9 Exercises

### 1.0 OBJECTIVES

After studying the unit the students will be able to:

- Understand the meaning of Accounting.
- Explain the Accounting Principles and Concepts.
- Know the Process of Accounting.
- Understand and explain the process of Accounting.

### 1.1 INTRODUCTION

Every person performs some kind of economic activity. A worker daily works and get wages and he spends to buy goods, cloths and some part of earnings saves for future. A business man purchases goods and sales it. He incurred various expenses like salaries, rent etc. A partner in firm contributes towards capital in the firm which carries on business may be trading in goods. Similarly companies, Governments are also carries on some financial activities. All are carrying some kind of economic activities. Such economic activities are performed through transactions and / or
events. Thus the business transactions include purchase, sale of goods, rendering various services, receipts and payments for such transactions. In a business concerns the transactions are numerous. The details of all transactions cannot be remembered by the business man. Therefore it is necessary to keep written records of all such transactions. The records of written transaction will help business to settle disputes and also possible to provide valuable information to the owner of business. Book-keeping disciple has been developed to serve this purpose. The aim of Book-keeping is to provide the information needed by the businessmen and also it helps him to take decisions.

### 1.2 MEANING OF ACCOUNTING

The American Institute of Certified Public Accounts (AICPA) defined Accounting as "Accountancy is the art of recording classifying and summarizing in a significant manner and in terms of money transactions and events which are in part of at least a financial characters and interpreting the result there of".

Again in 1966, AICPA defines Accounting as "The process of identifying, measuring and communicating economic information to permit; informed judgement and decisions by the uses of accounts".

Thus accounting may be defined as the process of recording, classifying, summarizing, analysing and interpreting the financial transactions and communicating the results. There of to the persons interested in such information.

The utility of accounting information is greatly increased when it is compiled in a systematic manner and financial statements are prepared at periodic intervals.

There is difference between the terms "Book keeping" and "Accounting". Book keeping is merely concerned with orderly record keeping and recording business transactions and financial Accounting is border in scope than book keeping. Accounting involves analysis and judgements at different stages such as recording of transactions, classification, summarization and interpretation.

### 1.3 ACCOUNTING PRINCIPLES

The basis aims of book-keeping and accountancy are to record the business transactions and events in a summarised form. Transactions are recorded in chronological order in proper books of accounts book-keeping. Accountancy and science based or fundamental truth and rules or conducts or procedures which are
universally accepted. These rules of conducts to record business transactions are called accounting principles. These principles are developed over long period of time.

The classification of accounting principles is as under:

a) Business entity
a) Disclosure
b) Going Concern
b) Materiality
c) Money Measurement
c) Consistency
d) Cost Concept
d) Conservatism
e) Accounting period
f) Duel aspect
g) Accrual Concept
h) Matching Cost
i) Realisation

### 1.3.1 Accounting Concepts:

Concepts mean a general idea which conveys certain meaning. Accounting concepts may be considered as basis assumption or conditions on which the science of accounting is based. Concepts are based on logical consideration. Accounts and Financial statements are always interpreted in light of concepts which govern accounting method.

Different accounting concepts are discussed as follows:

## a. Business Entity Concepts

According to Entity concept, business is treated as a unit of entity form separate from its Owner, Creditors and Management etc. Accounts are kept for business entity as distinguished form a person associated with it. All business transactions are recorded in the books of Accounts from the point of view of business only. Every type of business organisation is treated as separate Accounting entity.

The failure to recognise the business as separate accounting entity would make it extremely difficult to evaluate the performance of business alone.

The overall effect of adopting this concept is -

1) Only the business transactions are reported and not the personal transactions of the owners.
2) Profit is the property of business unless distributed to the owners.
3) The personal assets of the owners are not considered while recording and reporting the assets of the business entity.

## b. Going Concern

Business transactions are recorded on the assumption that the business will continue for a long time. There is neither the intention nor the necessity to liquate the particular business in near future. Therefore, it would be able to meet its contractual obligation and use its resources according to the plans and predetermined goals. Therefore, Fixed Assets are recorded at cost and depreciation is calculated on cost / written down value. Similarly prepaid expenses are treated as Assets on the presumption that the business will continue and these expenses will be utilized in future.

When an enterprise liquidates a branch or one division or one segment of its business, the ability of the enterprise to continue as a going concern is not imparted.

In case of enterprise going to liquidate or become insolvent. Then the enterprise cannot be considered as a going concern.

## c. Money Measurement Concept

A unit of exchange and measurement is necessary to account for business transaction in a uniform manner. Money is common denominator in terms of which the exchange ability of goods and services are measured. Only such transactions and events as can be interpreted in terms of money are recorded.

Non monetary events like public political contract, location of business; certain disputes, efficient Sales Force etc. can not be recorded in the books of Accounts even through these have great effects.

However, a unit of money measurement over period of time has its own drawbacks. Money has time value, which can not be considered. Time value of money is affected seriously by economic differences etc. System of accountancy treats all units of money same irrespective of time of original and settlement of it say after
two years. It will be the same amount. However value of Money true sense will be less. This is a great drawback. This leads to the introduction of inflation accounts.

## d. Cost Concepts

According to cost concept the various assets acquired by enterprise should be recorded on the basis of actual cost incurred. The cost concept does not mean that the basis for all subsequent accounting for the assets. As per cost concept Fixed Assets are shown at cost less depreciation charged from year to year. It may be noted that if nothing has been paid for acquiring something it would not be shown/recorded in the books of accounts maintain.

Financial statement based on historical cost may not be much relevant for investors and other users because they are more interested in knowing what the business actually worth today rather than the original cost.

## e. Accounting Period Concept

It is customary that the life of the business is divided into appropriate parts or segments of analysing the results shown by the business. Each part divided is known as an accounting period. It is an internal of time at end of which the income statement and balance sheet are prepared. Normally the accounting period consists of twelve months.

## f. Duel Aspect Concept

This concept based on double Entry book-keeping which means that Accounting system is set up in such a way that a record is made of the two aspects of each transaction that affects the record. The recognition of the two aspects of every transaction is known as duel aspects concept. Modern Financial Accounting considers both aspects of every transaction.

One entry consists of debit to one or more accounts and another effect consist of credit to some other one or more accounts. However, the total amount debited is always equal to the total amount credited. Therefore at any point of time total assets of a business are equal to its total liabilities. Liabilities to outsider are known as liabilities, liabilities to the owner are referred to as capital.

Assets = Liabilities + Capital
Therefore, Capital = Assets - Liabilities
Assets referred to valuable things owned by the business, Capital refers to the owner's contribution to the business.

## g. Accrual Concept

This accounting concept states that revenue is recognised when they are earned and when they are not received similarly, cost are recognised as and when they are incurred and not when they are paid. This concept implies that the income should be measured as difference between revenues and expenses rather that the difference between cash received and disbursements. Therefore certain adjustments are required while preparing Final Accounts. In case of revenue accounts; prepaid expenses, out standing expenses, Income received in advance / Receivable are adjusted. These adjustments have their impact on both the income statement and the Balance sheet.

## h. Matching Cost Concept

This concept is based on accounting period concept for determining accurate profit / Income has to compare the revenues of the business with the cost that is incurred to earn that revenue. The term "Matching" means appropriate association of related revenues and expenses. According to this concept adjustments should be made for all outstanding expenses, income receivable, prepaid expenses, Income received in advance, depreciation etc. While preparing final accounts at the end of accounting period.

## i. Realisation Concept

This accounting concept explains that sell is supposed to be completed only when ownership of goods are passed on from the seller to the buyer. Income is considered to be earned on the date when sales take place. No profit is supposed to accrue on the acquisition of any thing, however, income earned / realised will be earn only when goods are sold at a profit. Therefore closing stock is valued at cost or market price whichever is less. It prevents business Firms from inflecting their profits by recording income that is expected in future.

### 1.3.2 Accounting Conventions:

The term 'Convention' denotes customs or traditions or practice based on general agreement between the accounting bodies which guide the accountant while preparing the financial statements.

## a. Disclosure

According to convention of full disclosure, accounting must disclose all the material facts and informations so that interested parties after reading such accounting report can get a clear view of the state of affairs of the business. All information which are of
material interest to proprietors, creditors and investors should be disclosed in accounting statement.

The Companies Act makes various provisions for disclosure of essential information that their is no chance of any material information being left out.

## b. Materiality

The term material means "relative importance", Accounting to the convention of materiality; account should report only what is material and ignore insignificant details while the preparing the final accounts. Materiality will differ or changed with nature, size and tradition of the business. What is material for one enterprise may be immaterial for another enterprise. This is because otherwise accounting will unnecessarily be overburdened with minute details. It is not possible to lay down any fixed standard by which Materiality can be judged. The decision is to be made by the accountant or the Auditor based on their professional experience.
c. Consistency

This accounting convention state that ones a particular accounting practice, method or policy is adopted to prepare accounts, statements and Reports. It should be continued for years together and should not charge unless it is forced to change it. Accounting practices should remain the same from one year to another. The results of different years will be comparable only when accounting rules are continuously adhered to from years to years i.e. Valuation of stock in trade, method of depreciation, treatment of approval sale etc. Since methods of accounting consistence the financial statements are reliable to the people who use it.

## d. Conservatism

Financial Statements are usually drawn up on a conservative basis. Their are two principles which stem directly from conservatism.
a) The accountant should not anticipate income and should provide all possible losses, and
b) Faced with the choice between two methods of valuing an asset the accountant should choose a method which leads to the lesser value.

It is also called "Principles of prudence". Therefore, provision for bad and doubtful debts is also permitted and made every year. Accounting convention must be followed continuously. If not followed continuously it would result into understatement of incomes, assets and overstatement of liabilities and provisions and expenses.

### 1.4 BRANCHES OF ACCOUNTING

Accounting has forms of branches as under

### 1.4.1 Financial Accounting

It is concerned with record keeping directed towards the preparation of Trial balance, profit and loss account and balance sheet.

### 1.4.2 Cost Accounting

Cost Accounting is the process of accounting for costs. It shows classification and analysis of cost on the basis of functions process, products etc. It also deals with cost computation, cost saving, cost reduction etc. In cost accounting cost per unit of output produced or services rendered is ascertained. It helps management in the control of cost of output or services rendered.

### 1.4.3 Management Accounting

It deals with the processing of data sentenced in financial accounting and cost accounting for managerial decision making. It also deals with application of managerial economic concepts for decision making for the efficient running of the business and thus in maximising profits.

### 1.4.4 Tax Accounting

This branch of accounting is becoming important because of complex tax laws governing income-tax, Excise duty, value added tax etc. Tax planning is now a days is very important as well to save tax, Account for tax deducted at sources, payment of advance tax, Filing of various tax returns in time as well as taking Cenvat credit for various taxes whenever is available.

### 1.5 ACCOUNTING PROCESS

The process of accounting involves recording classifying and summarizing of past events and transactions of financial nature, with a view to enabling the user of accounts to interpret the resulting summary.

The utility of accounting information is greatly increased when it is complied in a systematic manner and financial statements prepared at periodic intervals.

The Accounting Process

Note: As final Accounts are separately explains in subsequent chapter, here only fund flows \& cash flows statements are explained.

## CHECK YOUR PROGRESS

- Define the following terms:

1. Cost Concept
2. Business entity concept
3. Going concern concept
4. Duel aspect concept

- Explain the following Accounting conventions:

1. Disclosure
2. Consistency

- Draw the chart showing Accounting Process.

### 1.6 FUND FLOW STATEMENT

The fund flow statement reflects movement of fund during particular period i.e. movement of working capital. Funds means working capital and not only cash/Bank balances. Sources consider of the transactions that increases net working capital and their applications consist of transactions that decrease working capital.

## Specimen of funds flow statement

Funds flow statement for the year ended.....

| Sources |  | Applications |  |
| :--- | :---: | :--- | :---: |
| Issue of Share Capital | x | Redemption of preference <br> shares | x |
| Issue of Debentures | x | Redemption Debentures | x |
| Sale of Fixed Assets | x | Repayment of Ioan Term <br> loans | x |
| Sale of Investments | x | Purchased of Fixed <br> Assets | x |
| Long term Loans | x | Purchased of Investment | x |
| Decrease in working <br> capital | x | Dividend paid | x |
| Funds from operations <br> (Cash Trading Profit) | x | Income Tax paid | x |
|  |  | Buy-Back of Equity shares | x |
|  |  | Increase in working capital | x |
|  | $\mathbf{x x}$ |  | $\mathbf{x x}$ |

In short fund flows statement indicates various sources of working capital and its applications.

### 1.7 CASH FLOW STATEMENT

Cash flow statement shows inflows and outflows of cash/ cash equivalent. It is prepared as per A.S-3.

As per A.S-3, the cash flow statement should report cash flows during the period classified as operating, Investing and financing activities.

Activities that do not require use of cash / cash equivalents should be excluded from a cash flow statement. e.g. Issue of Bonus shares conversion of Debentures into new Debentures / Shares.

Cash flow statement can be prepared by Direct method or Indirect method.

Under direct method, major classes of gross cash receipts and gross cash payments are obtained for showing it in funds from operations.

Indirect method, cash flow operating activities is calculated by adjusting net profit. Net profit is adjusted, with non cash transaction such as depreciation, Goodwill w/off etc, result figure indicates cash operating profit, which further adjusted with net increases / decreases in current Assets / Current liabilities. The final amount resulted indicates cash flows operating activities.

Proforma of cash flow statement As per A.S-3 (Indirect Method)
Cash Flow statement for the year ended

### 1.8 DISTINCTION BETWEEN FUNDS FLOW STATEMENT AND CASH FLOW STATEMENT

Both the above statement are used in analysis of past performance of the business firm.

|  | Fund Flow Statement |  | Cash Flow Statement |
| :--- | :--- | :--- | :--- |
| 1. | It is based on accrued <br> accounting system | 1. | All cash and cash <br> equivalents are taken into <br> consideration |
| 2. |  <br> application in Long term <br> funds affecting working <br> capital | 2. | Cash flows statements <br> considers only the <br> transactions affecting <br> increases or decreases in <br> current assets or / and <br> current liabilities. |
| 3. | It is more useful in Long-run <br> planning | 3. | It help form in identifying <br> the current liquidity <br> problems. |
| 4. | It is broader concepts, <br> considering short term / <br> long term funds into <br> laccounts in analysis. | It only deals with current <br> assets/ current liabilities <br> shown in Balance sheet. |  |

| 5. | It tallies the funds generated <br> from various sources with <br> various uses to which they <br> are put. | It shows in increases or <br> decreases in cash/ cash <br> equivalent during the <br> period, which tallies with <br> difference in opening / <br> closing cash / Bank <br> balances. |
| :--- | :--- | :--- | :--- |
| 6. | It shows the funds <br> generated and applied as <br>  <br> liabilities. | $6 .$It shows the cash flows <br> from operating, financing <br> and investing activities. |

### 1.9 EXERCISES :

1. Are the accounting concepts and conventions necessary?
2. Explain meaning of:
a) Accounting concepts
b) Accounting conventions
c) Accounting principles
3. Explain accounting conventions of:
a) Conservatism
b) Consistency
c) Disclosure
d) Materiality
4. Define and explain:
a) Concept of entity
b) Concept of continuity
c) Cost concept
d) Cost attach concept
e) Periodic matching of costs and revenues
5. Explain different branches of Accounting.

2

## ELEMENT OF BOOK-KEEPING, JOURNAL, CASH AND BANK BOOK-I

Unit Structure:<br>2.0 Objectives<br>2.1 Meaning of Book-keeping<br>2.2 Objective of Book-keeping<br>2.3 Utility of Book-keeping<br>2.4 Book-keeping and Accountancy<br>2.5 Accounting system<br>2.6 Account<br>2.7 Classification of Accounts<br>2.8 Rules of Debit \& Credit<br>2.9 Books of Accounts<br>2.10 A conceptual framework of financial accounting<br>2.11 Journal<br>2.12 Solved Problems<br>2.13 Exercises

### 2.0 OBJECTIVES

After studying the unit the students will be able to:

- Know the Meaning, utility and objectives of Book keeping.
- Explain the Accounting system.
- Know the Classification of Accounts.
- Understand the rules of Debit and Credit.
- Explain the Meaning and Utility of Journal.
- Journalise the Business transactions.

### 2.1 MEANING OF BOOK-KEEPING

The oxford dictionary defines Book-keeping as "The activities of keeping records of financial dealings".
J.R. Batiboi defines book-keeping as, "Book-keeping is the art of recording business dealings in set of Books".
R.N. Carter defines book-keeping as "The science and art of correctly recording in the books of accounts. All those business transactions and events inset of books, as and when such transactions take place. It is a systematic recording interms of money in set of books."

### 2.2 OBJECTIVES OF BOOK-KEEPING

The main objectives of Book-keeping are given below:

1. To maintain the permant records of the business transactions.
2. To ascertain the profit earned or loss suffered during accounting period.
3. To know various business Assets and liabilities apart from the above main objectives.
4. To know amount due to businessman from his customers.
5. To know amount payable to Suppliers.
6. To know various taxes and duties payable to government.
7. To defect and prevent errors and frauds committed by employees and other person.
8. To provide valuable informations for taking for taking various decisions.
9. To take decision on significant business matters.
10. To compare and measure the optional efficiency of his business with other firm, companies in same type of Industry.
11. To review the progress of the business from year to year.
12. To maintain permanent record of all transactions of business for future reference.
13. To excise effective control on various expenses, incomes earned over business assets, business liabilities.
14. Other firms, Companies and within the firm compare current year with previous years. Such comparison is known as infra-firm comparison.

### 2.3 UTILITY OF BOOK- KEEPING

Utility means usefulness. The utilities to different persons and entities are as under:

1) Businessman:

The owner who invest his money and assets into his business. He must know the profitabilities, financial stability. The owner can take various decisions on the basis of the valuable information obtained from books of accounts.
2) Evidence:

Books of Accounts can be produced as evidence in a court of law in case of disputes.
3) Book-keeping ensures proper calculation of Income Tax, Sales Tax, VAT and other tax liabilities.

## 4) Lenders:

On the basis of information from books, it is possible to obtain additional finance for business and working capital. On the basis of such information, lender can be provided any additional information along with various financial statements.

## 5) Trade Union:

On the basis of financial statement Trade union can insist like in Wages, Bonus etc.

## 6) Prospective Investors:

Prospective Investor can take investment decision by studying financial statements.
7) Comparative Study:

Financial statement of business enterprise may be compared over a period of years inter firm and can be compared with two or more business enterprise in same type of Business over period of years. This is known as inter firm comparison. Such comparison helps businessman to judge profitabilities and efficient of his business.

### 2.4 BOOK- KEEPING AND ACCOUNTANCY

Book-keeping and Accounting they are differ from each other. Book-keeping is mainly concern with recording of financial data relating to business operations in a significant and orderly manner. It is mechanical and repetitive.

Accounting is a broader and more analytical subject. It includes the design of accounting system which book-keepers use to preparation of financial statement, audit, cost studies, Income tax, value added tax etc. Analysis and interpretation of accounting information for internal and external end users as on aid to making business decision. Book-keeping provides the basis of accounting.

### 2.5 ACCOUNTING SYSTEM

There are two accounting system of keeping records.

### 2.5.1 Single Entry System:

The single entry system appears to be time saving and economical but it is unscientific, having number of defects. Under single Entry system only few personal accounts are kept, as nothings; Expenses / Income accounts are totally ignored. This system is followed by sole proprietor, having total control on cash as well as on goods. However this system is not generally followed by any trader.

### 2.5.2 Double Entry System:

The Double entry system is based on scientific principle and is used universally by most of business organisations. This system recognises the fact that every transaction has two aspects and records both aspects of each and every transaction. Every business transaction involves exchange of equal values or benefits. Exchange means the act of giving or receiving one thing in return of the other thing or service or benefit. Thus every transaction has two aspects i.e. receiving and giving. The receiving aspect is also known as the incoming aspect (Debit) and going aspect is known as the outgoing aspect (credit).

Under double entry system books of accounts can be maintained by either cash basis or accrual basis.

## - Cash System of Accounting

Under cash system of accounting entries are made only when cash is received or paid. No entry is made when amount is due for receipts or payments. Income is received is accounted irrespective of period for which relates. Similarly expenses are restricted to the actual payments made in cash, during the current
period is immaterial whether the payments have been made for previous year or subsequent year.

The financial statement prepare under this system do not present a true and fair view of Income, operating results of enterprise. However it is suitable in following cases.
i) For very small business organisation.
ii) For individual to record his own transactions.
iii) For professionals like Doctors, Lawyers, Chartered Accountant etc.

In cash system financial statements are prepared on the basis of Receipts and payments accounts.

- Accrual System of Accounts

This is also known as mercantile system of accounts. Under this system business transactions are recorded as and when it take place irrespectful of amount / cash received or paid. Income earned as well as expenses incurred are recorded related to the Particular period. The following are the essential features of accrual basis.
a) Revenue is recognised on it is earned irrespective of whether cash is received or not.
b) Costs are matched against revenues on the basis of relevant time period to determined periodic income.
c) Costs which are not charged to income are carried forward. Any cost that lost its utility is written off as a loss.

### 2.6 ACCOUNT

An account is summarised record or statement of all transactions relating to a particular person or to a Assets or liability or income or expense.

According to Kohler's Dictionary for accounts, An account has been defined as a formal record of a particular type of transaction expressed in money.

Each account is divided into two parts by the vertical line drawn in the middle.
Dr.
Account
Cr.

| Date | Particulars | JF | Amount | Date | Particulars | JF | Amount |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
|  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |

The left hand side is termed as Debit (Dr.) side and the right hand side is termed as credit (cr.) side.

In order to keep full record of all the transactions the business has to keep.
i) An account of each head of expenses or income earned by the business and
ii) An account of each property which belongs to the business and
iii) An account of each party with whom business deals.

### 2.7 CLASSIFICATION OF ACCOUNTS :

Accounts are classified into two classes:

- Personal Accounts
- Impersonal Accounts

Impersonal Accounts are further sub divided into

1. Real Accounts
2. Nominal Accounts
3. Valuation Accounts

Thus all accounts can be classified into Personal, Real and Nominal Accounts.

### 2.7.1 Personal Accounts:

These accounts show the transactions with customers, suppliers, Money lenders, the banks and the owner.
For example: Mohan's A/c, Rajesh's A/c, M/s XY and Co. Reliance Industries Ltd., Apna Bazar Co-operative Society Ltd., Mumbai University, Dena Bank etc.

### 2.7.2 Real Accounts:

Real accounts may be the following types.
a) Tangible real Accounts: These are accounts of such things which are tangible i.e. which can be seen touched or felt physically. Example: Land, Building, Furniture, Cash etc.
b) Intangible real Accounts: These accounts represent such things which cannot be touched, seen or felt physically. Example: Goodwill, Trade marks, Patent right etc.

### 2.7.3 Nominal Accounts:

Nominal Accounts includes accounts of all expenses, losses, incomes and gains. Nominal Accounts represent only services or uses.

### 2.7.4 Valuation Accounts:

Valuation accounts are accounts open to adjust values of assets e.g. provision for Depreciation, Stock Reserve, Provision for doubtful debt $A / c$.

## CHECK YOUR PROGRESS:

- Draw the chart showing the classification of Accounts.
- Define the following terms:

1. Account
2. Personal Accounts
3. Tangible Real Accounts
4. Valuation Accounts
5. Single Entry System
6. Accrual System of Account
7. Book Keeping

### 2.8 RULES OF DEBIT AND CREDIT :

The two sides of any account are arbitrarily distinguished. The left hand side of an Account is called Debit side and Right hand side is called the Credit side.

When entry on the left side is made it is called account is debited, and an Entry made on the right hand side of account is called account is credited.

An account is capable of receiving and giving values. When an account receives a value / benefit. It is debited and when it gives a value / benefit it is credited. Each business transactions affects at least two accounts. One account receives benefit of certain value, another account would give the benefit of the same value. The difference between the total debits and total credits in the accounts is considered as balance.

Golden Rules for Debit and Credit

## A) Personal Accounts

The personal Account which receives the benefit is debited, while the personal account which gives the benefit is credited. The fundamental rule of Debit and Credit regarding personal Account is

Debit the Receiver And Credit the Giver

The rule means, if a person receives anything from the business, his account will be debited in the books of business, and if person gives anything to the business, his account will be credited.

## Illustrations 1

Suppose Goods sold on credit to Sunil from the view point of business Sunil is a receiver because he receives goods and therefore Sunil's Account will be debited.

Subsequently cash is received from Sunil. Mr. Sunil becomes a giver because he gives cash and hence his account will be credited.

## B) Real Accounts

As a thing either comes in into business or goes out of business.

Debit-What Comes In
Credit-What Goes Out
Real account relates to things or property. Hence the above rule says if anything is coming into business, account of thing is to
be debited and anything is going out of business account of that thing is to be credited.

In the Illustration goods are sold to Mr. Sunil on credit. Goods are going out of business and therefore 'Goods A/c' is to be credited subsequently cash is received from Sunil. Cash is comes in therefore cash Account is to be debited.

## C) Nominal Accounts

Being the accounts of losses and expenses or gains and incomes.

Debit Expenses and Losses
Credit Incomes and Gains.
Dr. Nominal Accounts

| Payment of Salary, rent loss | Received Commission. |  |  |
| :--- | :--- | :--- | :--- |
| on sale of | Assets. | Bad | Interest Discount etc. |
| Debts etc |  |  |  |
| Debit losses and expenses. | Credit Incomes and Gains |  |  |

The accounts of expenses or losses of the business are to be debited where as the accounts of Incomes or profits are to be credited Exp. Paid salaries.

Here Salary is on expenditure of the business and there fore Salary account is to be debited.

In the transaction "Received Interest from A \& Co" Interest is an Income of the business and hence Interest Account is to be credited.

## Illustration. 2

State the names of the accounts to be debited or credited in the following transactions.

| No. | Transactions | Name of <br> accounts <br> affected | Classification <br> of account | Application <br> of the rules | Answers |
| :--- | :--- | :--- | :--- | :--- | :--- |
| 1. | Sujit <br> Commenced <br> business with <br> cash | Sujit's <br> Capital <br> A/c | Personal A/c | Credit the <br> giver | Credit |
|  | Cash A/c | Real A/c | Cash comes <br> in Debit <br> what comes <br> in | Debit |  |
| 2. | Purchased <br> goods for cash | Goods <br> A/c | Real A/c | Goods are <br> comes in | Debit |

|  | Cash A/c | Real A/c | Cash is <br> goes out | Credit |
| :--- | :--- | :--- | :--- | :--- |

| 3. | Sold goods on <br> credit to Mr. <br> Avinash | Avinash's <br> A/c | Personal A/c | Avinash is <br> receiver | Debit |
| :--- | :--- | :--- | :--- | :--- | :--- |
|  |  | Goods <br> A/c | Real A/c | Goods are <br> goes out | Credit |
| 4. | Cash received <br> from <br> Avinash Mr. | Cash A/c | Real A/c | Cash comes <br> In | Debit |
|  |  | Avinash's <br> A/c | Personal A/c | Avinash is <br> giver | Credit |
| 5. | Cash deposited <br> into the Bank | Cash A/c | Real A/c | Cash goes <br> out | credit |
|  | Bank A/c | Personal A/c | Bank is <br> receiver | Debit |  |

### 2.9 BOOKS OF ACCOUNTS :

A business organisations maintains three types books of Accounts; namely,

## Cash Book:

To record cash receipts and payments including receipts and Payments through Bank. A separate cash book is kept to record petty expenses.

## Journal:

To record non cash transactions like credit sales, credit purchases, Sales Returns, Purchase Returns. These Books are called Subsidiary books.

## Ledger:

Ledger contains a classified summary of all transactions recorded in cash book and journal. All personal, Real and Nominal Accounts are prepared into the ledger.

Few additional books of account may be maintained as per requirement of business organisation e.g. Stock Register, Members Register etc.

### 2.10 A CONCEPTUAL FRAMEWORK OF FINANCIAL ACCOUNTING :

### 2.11 JOURNAL :

### 2.11.1 Meaning:

It is essential in a business to record each and every transaction immediately after it takes place. To record credit transaction a separate book, called 'Journal' is maintain, Journal can be defined as, 'a subsidiary book in which all day-to-day
monetary transactions of business are recorded first as and when they take place in chronological order (i.e. date wise), in debit and credit form and in a systematic manner. Journal is also known as 'Prime entry' or 'Original entry' book. Because transactions are first entered in this book and then they are posted in the Ledger.

As Business transactions are numerous and large in size, the Journal may be split up into number of separate Journals to record particular type of transaction. These journal are known as the subsidiary books. Some of the subsidiary books are:
i) Purchase Book
ii) Purchase Return Book
iii) Sales Book
iv) Sales Return Book
v) Bills Receivable Book
vi) Bills Payable Book
vii) Journal Proper

### 2.11.2 Necessity or Utility of Journal

1. Direct recording of transactions in the ledger may result in committing errors and omissions and it would be difficult to correct them later on. Hence, Journal is necessary.
2. A complete record (i.e. Debit and credit aspects of each transaction) is available at one place.
3. As the transactions are recorded date wise, it facilitates quick and easy reference to any transaction, whenever necessary.
4. Narration to Journal entry explains the purpose of the entry and helps in understanding the transaction recorded.
5. Entries in the ledger can be made at leisure by the clerk concerned according to his convenience.
6. Cross checking between Journal and Ledger is facilitated to check the accuracy.
7. As the entries in the Journal are made from basic documents like invoices. Vouchers, receipts etc. The court considers the entries in the Journal as proof of transactions.

### 2.11.3 Specimen of Journal:

| Date | Particulars | Voucher <br> No. | LF | Dr. <br> Amt. <br> (Rs.) | Cr. <br> Amt. <br> (Rs.) |
| :--- | :--- | :--- | :--- | :--- | :--- |
|  |  |  |  |  |  |

Journalising: The act of recording a transaction in the Journal in the form required is called Journalising.

### 2.11.4 How to Journalise the Transactions

1. First find out the two accounts involved in a transaction.
2. Ascertain the types of those accounts and then decide by applying rules of Debit and Credit as to which account is to be debited and which account is to be credited.
3. The name of the account is to be debited is to be written first under 'Particulars' column. It is written close to the first margin line and the name of the account to be credited is to be proceeded by the word "To" and is to be written on the Second line.
4. The amount involved in the transactions is written under the "Dr" and "Cr" columns against the names of debit and credit accounts respectively.
5. A brief explanation of the entry is given in the bracket just below the entry. It is called "narration".
6. A line is drawn below each Journal Entry from first margin line to the second margin line to keep the entries of the transaction separate from one another.
7. Ledger folio (L.F.): It means page number in the ledger. The page on which the particular account is opened in the "Ledger" is stated under "L.F." column to facilite easy reference.
8. Date: The date of the transaction is written under the column "Date".

### 2.11.5 Debit note and Credit note:

## Debit Note:

When goods are received from the supplier, the Supplier account is credited. When goods are returned from him the supplier account is debited, so in case of purchase returns a debit note is prepared. It should contain all the details of purchase returns. Generally a debit note will be made in duplicate, one copy will be sent to the customer and other will be kept as office copy.

## Credit Note:

It is a statement sent by the seller to his customer intimating that, his account has been credited with the amount of goods return by him or any other allowances granted to him.

### 2.12 SOLVED PROBLEMS

## Illustration 1

Journalise the following transactions in the books of "Ketan". 2009
Jan. 1 Purchased goods from Nalini on Credit Rs. 1000/-. Jan. 2 Sold goods to Mr. Sharma on credit Rs. 2,500/Jan. 3 Purchased furniture for cash Rs. 10,000/-
Jan. 4 Received interest Rs. 800
Jan. 5 Paid salaries Rs. 3,500/-
After deciding the accounts to be debited and accounts to be credited the Journal Entries are passed as shown below.

## In the Books of Ketan Journal Entreis

| 45 | Cash A/c $\qquad$ .Dr. <br> To Interest A/c <br> (Being interest received) | 3,500 | 800 |
| :---: | :---: | :---: | :---: |
|  | Salaries A/c Dr. $\qquad$ <br> To Cash A/c <br> (Being Salaries paid) |  | 3,500 |
|  | Total | 17,800 | 17,800 |

## Illustration 2

Journalise the following transactions in the books of Shri. More.
2009
Dec. 1 Shri More started business with cash Rs. 15000.
2 Purchased goods from Mr. Singh Rs. 30,000
3 Deposited cash into the Bank Rs. 4,000
4 Sold goods to Mr. Gujar Rs. 2,500
5 Purchased furniture of Rs. 2,500 from furniture and Co.
6 Paid to Mr. Singh by cheque Rs. 1,000
7 Received a cheque from Mr. Gujar Rs. 1,200
8 Paid Interest Rs. 450
9 Withdraw cash Rs. 3,000 for personal use
10 Cheque received from Mr. Gujar Deposited into the Bank.
11 Returned goods to Mr. Singh Rs. 500
12 Received goods returned by Mr. Gujar Rs. 300
13 Paid salary by cheque Rs. 4,000
14 Received a cheque for rent Rs. 900. The cheque is deposited into the Bank.
15 Withdraw cash Rs. 3,000 from Bank for office use.
16 Returned Furniture of Rs. 400 to Furniture and company.
In the books of Shri. More.
Journal Entries

| Date | Particulars | L.F. | Dr. <br> Rs. | Cr. <br> Rs. |
| :---: | :--- | :---: | :---: | :---: |
| 2009 |  |  |  |  |
| Dec.1 | Cash A/c . ................Dr. <br> To Capital A/c <br> (Being started business with <br> cash) |  | 15,000 |  |
| 2 | Purchases A/c ................Dr <br> To Mr. Singh's A/c |  | 30,000 | 30,000 |
| (Being credit purchases from <br> Mr. Singh) |  |  |  |  |

| 3 | Bank A/c ....................Dr. <br> To Cash A/c <br> (Being Cash deposited in the <br> bank) | 4,000 | 4,000 |
| ---: | ---: | ---: | ---: |

### 2.13 EXERCISE

### 2.13.1 Theory Questions

1. Explain term 'Book Keeping.
2. What is Account?
3. Distinguish between:
a) Book-keeping and Accountancy
b) Personal Accounts and impersonal Accounts
c) Real Accounts and Nominal Accounts
d) Single Entry system and Double Entry system
e) Cash system of Accounts and Accrual system of Accounts.
4. Discuss the principles of debit and credit of Accounts.
5. Explain Journal \& its utility.
6. "By sub-division of journal, there will be a division of labour". Explain.

### 2.13.2 Practical Problems

1) Journalise the following transactions in the books of Ram for the month of March 2010.
March 1 Ram commenced business with cash Rs. 60,000.
2 Purchased furniture for Rs. 5,000.
4 Purchased goods for cash Rs. 2,000.
7 Bought goods from M/s. Raj \& Co. for Rs. 4,000.
10 Sold goods costing Rs. 3,000 on cash.
15 Purchased stationery for office use Rs. 1,000.
19 Received cash Rs. 1,250 from Mr. Ketan in full settlement of his account for Rs. 1,500.
20 Paid salaries by cheque Rs. 1,500.
25 Introduced additional capital Rs. 20,000.
27 Paid to Raj Rs. 3,250 in full settlement of Rs. 3,500
29 Sold goods for Rs. 15,000 to Mr. Dohi.
31 Deposited Rs. 3,000 into the Bank.
2) Journalise the following transactions in the books of Mr. Shiva for the month of April 2010.
April 1 Started business with cash Rs. 25,000/-
2 Purchased goods worth Rs. 10,000/-
4 Deposited cash Rs. 3,000 into the Bank.
6 Purchased goods of Rs. 6,000 from M/s. Raju Trading Company.
9 Sold goods to Mr. Ramesh for Rs. 3,000.
12 Paid to M/s. Raju Trading Company Rs. 3,000.
15 Received Rs. 1,000 from Mr. Ramesh.
20 Paid salaries Rs. 1,000/- and paid commission Rs. 1,600/- in cash.
25 Bought stationery for office use Rs. 300.
27 Withdrew Rs. 2,500 from business for personal use.
29 Withdrew Rs. 4,000 from bank for office use.
3) Journalise the following transactions in the journal of Mr. Anand for the month of February, 2010.
Feb 1 Borrowed from Bank @ 15\% interest Rs. 20,000.
3 Purchased goods from Mr. Sam for Rs. 3,500.
4 Paid carriage and cartage Rs. 250
7 Sold goods on cash Rs. 3,000.
10 Paid Rs. 2,250 to Mr. Sam.
15 Purchased office furniture for Rs. 6,000.
18 Paid interest Rs. 450/- to Mr. Bank.
20 Paid salaries Rs. 6,000.
22 Cash sales Rs. 20,000.
26 Cash purchases Rs. 15,000
28 Paid Rs. 2,000 to Bank in part payment of loan.
4) Journalise the following transactions in the books of Mr. Vishal for the month of March, 2010.
Mar. 1 Vishal started business with cash Rs. 35,000, goods worth Rs. 10,000.
2 Opened bank account in the Bank of India by depositing Rs. 5,000.
4 Bought goods worth Rs. 6,000 @ 10\% trade discount term.
7 Sold goods worth Rs. 3,000

9 Purchased furniture of Rs. 4,000 for office use and furniture of Rs. 1,000 for home use.
14 Withdrawn goods of Rs. 1,000 for self use.
17 Received Rs. 2,400 from Mr. Ravindra in full settlement of Rs. 2,450.
19 Paid salaries Rs. 500 to office clerk and paid electricity bill of Rs. 750 in cash.
24 Paid Mr. Raj Rs. 1,960 in full settlement of Rs. 2,000.
26 Paid insurance premium of Rs. 1,200 on the life of Mr. Vishal, a proprietor.
29 Cash sales Rs. 3,000.
30 Withdrew Rs. 4,000 from bank for office use.
5) Draft journal entries for the business transactions given below.

Apr. 1 Mr. Atul started business with cash Rs. 5,000/-, goods Rs. 7,500 and furniture Rs. 2,500/-
3 Purchased goods worth Rs. 4,500 from Mr. Kamalakar.
5 Cash sales Rs. 6,000
8 Purchased stationery for office use Rs. 500.
10 Paid to Mr. Kamalakar Rs. 4,350 in full settlement of Rs. 4,500.
13 Deposited Rs. 1,000 into the Bank.
16 Received Rs. 500 from Mr. Kiran.
19 Withdrawn Rs. 200 from business for self use.
23 Paid Rs. 150 for commission and paid Rs. 450 for rent.

27 Paid wages Rs. 600 in cash, and paid sundry expenses Rs. 200/- by cheque.
29 Borrowed Rs. 5,000 from wife for business purpose.
30 Cash purchases Rs. 1,000.

# ELEMENT OF BOOK-KEEPING, JOURNAL, CASH AND BANK BOOK-II 

## Unit Structure:

3.0 Objectives
3.1 Cash Book
3.2 Cash Discounts
3.3 Petty Cash Book
3.4 Three Column Cash Book
3.5 Exercises

### 3.0 OBJECTIVES

After studying the unit the students will be able to:

- Know the Meaning of Cash book.
- Understand the meaning of Cash discount and effect of cash discount.
- Understand the types of Cash Book.
- Record the transactions in the Cash Book.

### 3.1 CASH BOOK

This records all receipts of and payments in cash. Usually the deposits into bank accounts maintained by the business, withdrawals from such accounts and cheques payments are also recorded in the Cash Book. Sometimes a separate book for recording receipts and payments by cheques / DDs etc., is kept known as the Bank Book. A Cash Book which is used to record both cash and bank transactions is referred to as a Two-column Cash Book. The format of this cash book is given below:

## Illustration 1

Cash Book of Anand \& Co.
Dr.

| Date | Receipts | Ledger Folio | Cash | Bank | Date | Payments | Ledger Folio | Cash | Bank |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 2008 |  |  |  |  | 2008 |  |  |  |  |
| July <br> 1 <br> 6 <br> 7 <br> 11 <br> 30 | To Balance b/f <br> To Sales <br> To Z \& Co. <br> To R.K. Corporation <br> To Sales |  | $\begin{gathered} 11,500 \\ 1,800 \\ \\ 2,500 \end{gathered}$ | $\begin{array}{\|c} 13,000 \\ 7,000 \\ 2,000 \end{array}$ | July 2 5 8 15 22 31 | By Wages <br> By Electricity <br> By Salaries <br> By O Ltd <br> By Plant <br> By Balance c/f |  | $\begin{gathered} 150 \\ 4,400 \\ 4,000 \\ 7,250 \end{gathered}$ | $\begin{array}{r} 800 \\ 11,200 \\ 10,000 \end{array}$ |
|  |  |  | 15,800 | 22,000 |  |  |  | 15,800 | 22,000 |

### 3.2 CASH DISCOUNTS

Sometimes, in order to encourage early payments due from customers, a company may offer a certain percentage of the amount as a discount. For example, if a customer owes the company Rs. 11,000, the company may allow $3 \%$ discount if the payment is made before a certain date. In such a case, the customer would pay an actual cash of Rs. 10,670 only (Rs. $11000-3 \%$ of Rs. 11,000 ) and Rs. 330 would be treated as discount expense by the company. A cash discount may be distinguished from a trade discount which is given on the invoice price, especially when orders for large quantities are placed. The trade discount is therefore reflected as a reduction in the sale price itself. Therefore Trade discount not recorded in books of Accounts.

A cash book can also be used to record the cash discounts that are allowed to customers for prompt payments and the cash discounts that are earned on payments made to suppliers within a stipulated time period. Since discounts will be allowed to customers at the time of receipt of money and received from suppliers at the time of payment of dues, it is convenient to maintain the column for discounts allowed on the receipts side of the cash book and the column for discounts received on the payments side. A cash book in which the cash and bank transactions and the details of cash discounts are recorded is referred to as a Three-column cash book. An illustrative format of this type of cash book is given below:

## Illustration 2

### 3.3 PETTY CASH BOOK

When the petty cash fund is operated as an imprest fund, the recording of the petty expenses paid will be made in the petty cash book. This would also avoid recording too many small value transactions in the main cash book. The petty cash book would contain a number of analytical columns for grouping the various expenses under a few classifications which would facilitate subsequent posting into the General Ledger. A specimen petty cash book is given below:

## Illustration 1:

## Analytical Petty Cash Book of Anand \& Co.

Separate Petty Cash A/c is open in Ledger \& total Exp. credited to Petty Cash A/c. Individual expenses total is debited to concerned expenses $A / c$ in the Ledger.

### 3.4 THREE COLUMN CASH BOOK

Cash book with Discount, cash and bank column is known as three column cash-book. In this cash book along with cash transactions banking transactions are also recorded.

## Posting in the Ledger Accounts:

Now let us prepare the ledger accounts based on the entries passed earlier. A separate account is opened in ledger for each account. All the debit entries and credit entries are duly entered. At the end, the accounts are properly balanced. In other words, the total of all debit entries is adjusted against the total of credit entries and balance is carried forward to the next accounting period.

## BANK RECONCILIATION STATEMENT

## Unit Structure:

### 4.0 Objectives

4.1 Meaning
4.2 Reasons for differences in Bank balance of Cash Book with Pass Book
4.3 Prepares of Bank Reconciliation Statement
4.4 Chart for solving the problems
4.5 Specimen of Bank Reconciliation Statement
4.6 Bank Overdraft
4.7 Importance of Bank Reconciliation Statement
4.8 Illustrations
4.9 Exercises

### 4.0 OBJECTIVES

After studying the unit the students will be able to:

- Define and explain bank reconciliation statement.
- Know the reasons of disagreement of the balances of cash book and bank statement.
- Prepare the format of the statement.
- Prepare bank reconciliation statement.

### 4.1 MEANING

A customer of the bank opens a Bank Account in his Cash book to record all his bank transactions. Similarly a bank maintains a Customer's Account in its ledger, and gives a Bank Pass Book to the customer. From the entries in the pass book a customer can have knowledge of the transactions recorded by the bank in his account. When we make entries on the debit side of Bank Account the bank makes entries on the credit side of our account for the same transactions and vice versa. As a result when the Bank Account shows debit balance, the pass book shows credit balance and vice-versa.

As a matter of fact balance shown by the Bank Account and by the bank pass book on a particular day must tally. But in actual practice they differ due to reasons given below. It is therefore, becomes necessary to reconcile the difference to ascertain that there are no mistakes committed. Thus a Bank Reconciliation Statement is a statement prepared to reconcile the difference between the balances as shown by the Bank Account in a Cash Book and by the Bank Pass Book.

### 4.2 REASONS FOR DIFFERENCES IN BANK BALANCE OF CASH BOOK WITH PASS BOOK

Some of the transactions are entered in the Cash Book (Bank column only) whereas some are entered only in the Pass Book. In addition to this there may be some mistakes committed, either in the Cash book or in the Pass Book.
A) Transactions entered in the Cash Book (Bank Column) or in the pass book.
i) Cheques issued: When a cheque is issued, Bank Account is at once credited, but the Customers Account is debited by the Banker only when the payment of that cheque is effected by the Bank.
ii) Cheques paid or deposited into the Bank: When a cheque is received and paid into the bank, the customer debits at once the Bank Account in his Cash Book, but the Customer's Account is credited by the Banker only when the cheque is collected by the bank.
B) Generally the following transactions are entered first in the Pass Book and subsequently they are entered in the Cash Book from the Pass Book.

1. Bank Charges
2. Interest allowed or charged by Bank
3. Dividend, Interest on Investment collected by Bank on behalf of a customer.
4. Dishonour of cheque paid into Bank and credited to Customer's Account by Bank.
5. Amount collected or paid for Bills of Exchange by Bank, Sale of Securities on behalf of a customer.
6. Payment by Bank, such as Club Subscription, Insurance Premium, Purchases of Securities on behalf of a customer.

### 4.3 PREPARATION OF BANK RECONCILIATION STATEMENT

In actual practice, we have both Cash Book (Bank Account) and the Bank Pass Book on hand, to compare the entries in them during a particular period. As the entries which are made in both the books do not cause the difference in balance, they are to be left out. The entries which are recorded only in one of the two books are taken into consideration.

Generally, Bank balance either as per Cash Book or as per Pass Book of a particular date is given and the balance as per other book is required to be traced out.
A) First ascertain balance that is whether a debit balance or a credit balance.
B) Out of the transactions given, those which are recorded in both the books that is Cash Book and Pass Book before the date of reconciliation are not to be considered.
C) Transaction which is recorded in only one of two books either in the Cash Book or in the Pass Book is to be considered.

Bank Reconciliation Statements helps the customer to know which cheques are yet to be realized and which cheques are not yet encashed.

It reduces the chances of misappropriation by the Bank employees.

### 4.4 CHART FOR SOLVING THE PROBLEMS

The following charts will help the students in solving the problems:

| Transactions | Given Bank <br> balance as per <br> Cash Book or <br> overdraft as per <br> Pass Book | Given Bank <br> balance as per <br> Pass Book or <br> overdraft as per <br> Cash Book |
| :---: | :---: | :---: |
| 1. Cheques issued but not <br> encashed recorded in the Cash <br> Book only. | Add | Less |
| 2. Interest allowed or collected by <br> Bank, Sale of Investments <br> recorded in Pass Book only. | Add | Less |
| 3. Direct payment into bank by our <br> customer etc. | Add | Less |

| 4. Wrong amount taken in Cash <br> Book <br> i) Short Amount <br> ii) Excess Amount | Add | Less |
| :--- | :--- | :--- |
| 5. Cheque paid into Bank but not <br> credited by Bank. | Less | Add |
| 6. Bank Charges, Interest charged <br> by Bank or dishonour of cheque <br> etc. are recorded in Pass Book <br> only. | Less | Add |
| 7. Bank charges, Interest charged <br> by Bank or dishonour of cheqe <br> etc. are recorded in Pass Book <br> only. | Less | Add |
| 8. Payment by bank for insurance <br> premium, club subscription, <br> Purchase of Securities etc. are <br> recorded in Pass Book only. | Less | Add |

### 4.5 SPECIMEN OF BANK RECONCILIATION STATEMENT

| Particulars | Rs. | Rs. |
| :--- | :---: | :---: |
| Balance as per Cash / Pass Book given |  | XX |
| Add : The transaction that would increase the <br> balance in the other Book. <br> Less : The transaction that would reduce the | XX | XX |
| Lealance of the other book <br> Balance as per Cash / Pass Book <br> (i.e. other book) as on XX | $(\mathrm{XX})$ |  |
|  |  | XXX |

### 4.6 BANK OVERDRAFT

Normally, Traders keeps depositing cash into Bank Account and withdraws by issuing cheques to various parties. However, trader makes arrangement with the bank, to withdraw more than his bank balance. This is known as Bank Overdraft. The upper limit of such overdraft is fixed in advance. When there is overdraft Bank Account in trader's books shows credit balance and in the books of Bank, trader's account will show debit balance, and he is a debtor.

For preparing reconciliation statement, taking Bank overdraft as base, it will be exact opposite that of Bank Balance, add items will become Less and less items will be Add.

### 4.7 IMPORTANCE OF BANK RECONCILIATION STATEMENT

After getting Bank Statement / Pass Book, businessmen, compares entries in Cash Book (recorded by trader) and Bank Statement (recorded by bank in relation to businessmen) and prepare Bank Reconciliation. While preparing reconciliation statement, numbers of entries are not matching with each other these discrepancies may lead to notice frauds, errors, misappropriation of cash, by cashier. It reduces the charges of misappropriation by the employees, so timely action may be taken. At the same time, it is possible that Bank might have made wrong entry of deposit or withdrawal, businessmen can be inform bank to correct it.

It presents sinero, of e-banking of increasing use of credit card / debit card facilities / Net banking. Their may be number of transaction are not recorded in time which can be brought to notice. For wrong entry by bank, immediate action can be taken, asking bank to verify the mistake(s).

## CHECK YOUR PROGRESS

- Give the examples of various transactions which are generally entered first in the Pass Book.
- If the Bank balance as per Cash Book is given, how the following transactions affect:

1. Interest allowed or collected by Bank, Sale of Investments recorded in Pass Book only.
2. Cheque paid into Bank but not credited by Bank.
3. Payments by bank for insurance premium, club subscription, Purchase of Securities etc. are recorded in Pass Book only.
4. Direct payment into bank by our customer.
5. Bank Charges, Interest charged by Bank or dishonour of cheque etc. are recorded in Pass Book only.

### 4.8 ILLUSTRATIONS

Illustration 1 : On 31 ${ }^{\text {st }}$ December 2010, M/s. M.D. \& Co.'s bank column of Cash Book showed a debit balance Rs.17,800/- from the
following particulars prepare a Bank Reconciliation Statement showing the balance as per Bank Pass Book as on $31^{\text {st }}$ December 2010.

1. Cheques deposited into the Bank but not cleared and credited before $31^{\text {st }}$ December amounted to Rs.8,950/-.
2. Cheques issued on $31^{\text {st }}$ December but presented for payment on the $7^{\text {th }}$ January 2011 amounted to Rs. $6,750 /$-.
3. Purchases of securities of Rs. $4,000 /$ - by the Bank on behalf of M/s. M.D. \& Co. appeared in Pass Book only.
4. Interest Rs.95/- was credited in the Pass Book but was entered in the Cash Book as Rs.59/-.
5. Bank charges Rs.45/- were recorded in the Pass Book but no entry was made in the Cash Book.

> Bank Reconciliation Statement as on 31-12-2010

| Particulars | Rs. | Rs. |
| :---: | :---: | :---: |
| Balance at the bank as per Cash Book as on 31-12-2010. |  | 17,800 |
| Add : <br> (i) Cheques issued on $31^{\text {st }}$ December but not cashed upto $31^{\text {st }}$ December 2010. <br> (ii) Interest recorded in the Cash Book as Rs.59/- instead of Rs.95/-, hence the difference. | 6,750 36 | 6,786 |
|  |  | 24,586 |
| Less: <br> (i) Cheques paid into Bank but not cleared upto $31^{\text {st }}$ December 2010. <br> (ii) Payment made by Bank for purchase of securities not entered in the Cash Book. <br> (iii) Bank charges appearing in the Pass Book. | $\begin{array}{r} 8,950 \\ 4,000 \\ 45 \end{array}$ | $(6,390)$ |
| Balance as per Pass Book as on $31^{\text {st }}$ December 2010. |  | 8,710 |

Illustration 2 : On $30^{\text {th }}$ June, 2010 the Cash Book of M/s. Patil \& Co. showed a Bank balance of Rs.12,000/-.

1. Cheques sent to Bank for collection of Rs. 10,000/- before 30 -$06-2010$ but only one cheque of Rs. $4,000 /$ - is credited in June 2010.
2. Cheque issued for Rs.5,000/- in the month of June, but cheques of Rs.2,500/- presented for payment in July 2010.
3. The following entries were passed in the Pass Book before $30^{\text {th }}$ June, 2010 but no corresponding entry was made in the Cash Book.
a) Rs.320/- paid a Insurance Premium.
b) Interest on Investment collected by the Bank Rs.600/-.
c) Bank has charged Rs.50/- as interest and commission Rs.20/-.

Prepare a Bank Reconciliation Statement as on $30^{\text {th }}$ June, 2010 from the above particulars.

## Solution :

Bank Reconciliation Statement as on 30-06-2010

| Particulars | Rs. | Rs. |
| :--- | ---: | ---: |
| Balance as per Cash Book as on 30-06-2010. |  | 12,000 |
| Add : |  |  |
| (i) Cheques issued but not encashed before |  |  |
| 30th June 2010. | 2,500 |  |
| (ii) Interest collected by Bank. | 600 | 3,100 |
| Less : |  | 15,100 |
| (i) Cheques paid in to Bank but not credited by | 6,000 |  |
| (ii) Bank. |  |  |
| (Insurance Premium paid by Bank. | 320 |  |
| (iii) Interest and Commission charged by Bank. | 70 | $(6,390)$ |
| Balance as per Pass Book as on 3-06-2010. |  | 8,710 |

Illustration 3 : Bank Account as per Bank Pass Book of Mr. Kant showed Credit Balance of Rs.20,168/- on 31-03-2010. From the following particulars prepare Bank Reconciliation Statement arriving at the balance as per Cash Book as on $31^{\text {st }}$ March, 2010.

1. Two cheques for Rs.458/- and Rs.760/- were paid into the Bank in March 2010 but they were not credited in the Pass Book by the Bank till 31-03-2010.
2. Three cheques for Rs. $1,065 \mathrm{Rs}, 545 /-$ and $335 /$ - were issued on 28-03-2010 out of which (i) the cheque for Rs.335/- was presented to the bank on 30-03-2010. (ii) the cheque for Rs.545/- was presented on 2-04-2010 and (iii) the cheque for Rs.1,065/- was lost and not presented at all.
3. The Bank has charged Rs.5/- as Bank charges and has credited interest of Rs.30/-. The bank has also collected interest on investment on behalf of Mr. Kant Rs.100/-. These are not recorded in the Cash Book.

## Solution :

Bank Reconciliation Statement as on 31-03-2010

| Particulars | Rs. | Rs. |
| :--- | ---: | ---: |
| Balance as per Pass Book as on 31-03-2010. |  | 20,168 |
| Add : |  |  |
| (i) Cheques paid into Bank but to credited by |  |  |
| (ii) Bank upto 31-03-2010. | 1,218 |  |
| Less : | 5 | 1,223 |
| (i) Cheques issued but not presented for <br> $\quad$ payment upto 31-03-2010. |  | 21,391 |
| (ii) Interest credited by Bank. | 1,610 |  |
| (iii) Interest on investments collected \& credited | 30 |  |
| (iv) Direct payment into Bank by a customer. | 100 |  |
| Balance as per Cash Book as on 31-03-2010. | 500 | $(2,240)$ |
|  |  | 19,151 |

Illustration 4 : On $31^{\text {st }}$ December 2010 the Pass Book of Dr. Raj showed a credit balance of Rs.11,000/-. On comparing it with Cash Book, following differences were discovered.
(i) Cheaues deposited with Bank before 31-12-2010, but not yet collected Rs.1,400/-.
(ii) Cheque issued upto 31-12-2010 but not yet presented for payment Rs.450/-.
(iii) The Bank has collected dividend Rs.250/- and has charged Rs.15/- as collection charges. Entries of these transactions do not appear in Cash Book.
(iv) The Bank has paid his electricity bill Rs.410/- for the month of November 2010. This transaction appears only in Pass Book.
(v) The debit column of Bank Account in Cash Book is added shorted by Rs.40/-.

Prepare Bank Reconciliation Statement.

## Solution :

Bank Reconciliation Statement as on 31-12-2010

| Particulars | Rs. | Rs. |
| :--- | ---: | ---: |
| Balance as per Pass Book as on 31-12-2010. |  | 11,000 |
| Add : <br> (i) Cheques paid into Bank but to collected and <br> credited by Bank. |  |  |
| (ii) Bank Charges not entered in Cash Book. <br> (iii) Payment of electricity bill by Bank not <br> entered in Cash Book. | 1,400 |  |
|  | 410 | 1,825 |
| Less : <br> (i) Cheques issued but not encashed <br> (ii) Collection of dividend by bank not entered in <br> Cash Book. | 450 | 12,825 |
| (iii) Undercasting of debit column of Bank <br> Account in Cash Book. | 250 |  |
| Bank Balance as per Cash Book as on 31-12- <br> 2010. | 40 | $(740)$ |

Illustration 5 : On $31^{\text {st }}$ December 2010 the Bank Pass Book of a company showed an overdraft of rss.12,060/-. Comparison of the Pass Book and the Cash Book showed the following.
a) The company had sent to the Bank three cheques on $28^{\text {th }}$ December 2010. The cheques were for Rs.4,100/-, Rs.900/-, and Rs.560/- of these only the cheque for Rs.4,100/- was credited by the Bank before $31^{\text {st }}$ December 2010.
b) The company had issued on $27^{\text {th }}$ December, 2010 cheques for Rs.800/-, Rs.500/- and Rs.1,760/-. The cheque for Rs.1,760/was paid before $31^{\text {st }}$ December, 2010. The other cheques were paid on $3^{\text {rd }}$ January, 2011.
c) The Bank had debited the company with Rs.120/- as Bank charges and with Rs.5,120/- as interest. The entries had not yet been made in the Cash Book.
d) A customer had deposited in Company's Account Rs.1,500/- but the fact was not recorded in the Cash Book.

Prepare Bank Reconciliation Statement as on $31^{\text {st }}$ December, 2010.

## Solution :

Bank Reconciliation Statement as on 31-12-2010

| Particulars | Rs. | Rs. |
| :---: | :---: | :---: |
| Balance as per Pass Book as on 31-12-2010. |  | 12,060 |
| Add : |  |  |
| (i) Cheques issued but not encashed before 31- 12-2010 (Rs.800/- + Rs.500/-) | 1,300 |  |
| (ii) Direct payment into Bank by the customer not recorded in Cash Book. | 1,500 | 2,800 |
|  |  | 14,800 |
| Less: |  |  |
| (i) Cheques paid into Bank but not credited by Bank before 31-12-2010 (Rs.560/- + Rs.900/-). | 1,460 |  |
| (ii) Bank charges and interest not recorded in Cash Book as on 31-12-2010 (Rs.120/- + Rs.5,120/-) | 5,240 | $(6,700)$ |
| Balance as per Cash Book as on 31-12-2010. |  | 8,160 |

Illustration 6 : On $1^{\text {st }}$ January, 2010 the Cash Book of Dayand showed a Bank balance overdrawn to the extent of Rs.3,117/-. On comparing his Cash Book with the Pass Book he finds that :

1. A Cheque for Rs.125/- sent to Shah has not been entered in the Cash Book.
2. Bank charges of Rs.47/- at $31^{\text {st }}$ December, 2010 were not entered in the Cash Book at all.
3. The Bank has debited Dayand's Account with a cheque for Rs.410/- received from Damodar which had been returned dishonoured. The fact of dishonour was not shown in the Cash Book.
4. The Bank column on the receipt side of the Cash Book was found to be under cast by Rs.70/-.
5. Unpresented cheques amounted to Rs.1,450/-.

Prepare a Bank Reconciliation Statement of Doyand as on $1^{\text {st }}$ January 2010.

## Solution :

Bank Reconciliation Statement as on 1-1-2010

| Particulars | Rs. | Rs. |
| :---: | :---: | :---: |
| Overdraft as per Pass Book as on 1-1-2010. |  | 3,117 |
| Add : |  |  |
| (i) Bank charges not entered in Cash Book | 47 |  |
| (ii) Entry for dishonour of cheque not recorded in Cash Book | 410 |  |
| (iii) Cheque issued to Shah and encashed is not entered in the Cash Book. | 125 | 582 |
| Less: |  | 3,699 |
| (i) Undercasting of the debit side of Bank column. | 70 |  |
| (ii) Cheques issued but not presented for payment till 01-01-2011. | 1,450 | $(1,520)$ |
| Bank Balance as per Pass Book as on 1-1-2011. |  | 2,179 |

## - Different Periods:

Sometimes entries in the Pass Book and in the Cash Book (Bank Account) are given. But they are not for the same month but they are two different months. In such a case following entries only in the Cash Book are to be considered for preparation of Reconciliation Statement.

Cash Book entries which appear also in the Pass Book; common entries in the both Books are to be consider for preparation of Reconciliation.

Illustration 7 Prepare Bank Reconciliation Statement as on 30-042010 from the following.

Cash Book (Bank Column)

| $\mathbf{2 0 1 0}$ <br> April | Receipts | Rs. | $\mathbf{2 0 1 0}$ <br> April | Payments | Rs. |
| :---: | :--- | ---: | :---: | :--- | :---: |
| 1 | To Balance b/d | 500 | 5 | By Wages A/c | 100 |
| 10 | To Kasab A/c | 100 | 15 | By Shanti A/c | 200 |
| 15 | To Interest | 50 | 20 | By Pawar A/c | 150 |
| 20 | To Sales A/c | 200 | 25 | By Purchases A/c | 100 |
| 22 | To Ashok A/c | 300 | 30 | By Balance c/d | 600 |
|  |  |  |  |  |  |
|  |  |  |  |  | $\mathbf{1 , 0 5 0}$ |
|  |  |  |  |  |  |

## Pass Book

| $\mathbf{2 0 1 0}$ <br> May | Particulars | Rs. | $\mathbf{2 0 1 0}$ <br> May | Particulars | Rs. |
| :--- | :--- | ---: | :---: | :--- | ---: |
|  | To Shanti A/c | 200 | 1 | By Balance b/d | 550 |
|  | To Pawar A/c | 150 | 2 | By Kasab A/c | 100 |
|  | To Charges A/c | 25 | 3 | By Sales A/c | 200 |
|  | To Kulkarni A/c | 100 | 10 | By Jani A/c | 1,100 |
|  | To Mane A/c | 1,010 |  |  |  |

Common entries in both book are consider in reconciliation. Uncommon month, common entries appear in Reconciliation.

## Solution

Bank Reconciliation Statement as on $30^{\text {th }}$ April 2010

| Particulars | Rs. | Rs. |
| :--- | ---: | ---: |
| Bank balance as per Cash Book |  | 600 |

|  |  | 7,760 |

### 4.9 EXERCISES

### 4.9.1 Theory Questions :

i) What is Bank Reconciliation Statement?
ii) What are different reasons for disagreement between Bank balance as per Cash Book \& Pass Book / Bank Statement?
iii) Discuss procedure for preparation of Bank Reconciliation Statement.
iv) A Trader feels that it is not necessary to prepare Bank Reconciliation Statement, do you as Finance Manager agrees with trader? Why?
v) Discuss need of preparing Bank Reconciliation Statement.

### 4.9.2 Practical problems:

1) The Cash Book of Mr. Raj shows a balance of Rs.26,700/- on $31^{\text {st }}$ October, 2011. From the following information you are required to prepare a Bank Reconciliation Statement as on $31^{\text {st }}$ October, 2010.
i) A cheque of Rs.5,000/- received from Miss Varma, deposited into the Bank but not yet credited in the Pass Book by the bank.
ii) A cheque of Rs.6,000/- drawn in favour of Miss Meena, had not been presented into the Bank.
iii) As per our instruction the bank had a promissory note of Rs.1,000/-. It is not yet recorded in the Cash Book.
iv) A cheque of Rs.7,500/- received from Mr. Madhu recorded in the Cash Book, but the same cheque was sent to the bank on $1^{\text {st }}$ November, 2010.
v) Bank collected proceeds of Bill Receivable amounted to Rs.5,500/- and credited in the Pass Book but not yet recorded in the Cash Book.
vi) Post dated cheque amounted to Rs.10,500/- issued to Mr. Shanti, recorded in the Cash Book but not yet presented to the bank.
vii) Pass Book shows credit entries in respect of Rs.4,500/- as interest collected on investment and Rs.2,000/- as dividend collected by bank. These were not recorded in the Cash Book.
2) Prepare Bank Reconciliation Statement as on $31^{\text {st }}$ January, 2011 from the following particulars.
i) Bank balance as per Cash Book Rs.22,510/-.
ii) Cheque amounted to Rs.13,500/- sent to the bank for collection as on $28^{\text {th }}$ January, 2010 but collected by the bank as on $2^{\text {nd }}$ February, 2010.
iii) Bank column of Cash Book credit side cast short by Rs.2,250/-.
iv) Cheques of Rs.7,500/- deposited into the bank and collected by the bank and credited in the Pass Book but recorded twice in the Cash Book.
v) Cheques of Rs.16,000/- issued in favour of Mr . Rane returned dishonoured for lack of fund. Dishonour of cheque not yet recorded in the Cash Book.
vi) Proprietor has closed his savings account and transferred the balance of Rs.9,500/- to current account, not recorded in Cash Book.
vii) Bank Pass Book shows debit entry for payment of electricity charges of Rs.1,800/- and credit entry of Rs.9,500/- for collection of salaries. Corresponding entries were not found in the Cash Book.
3) On $31^{\text {st }}$ December, 2010 the Cash Book showed an overdraft of Rs.16,600/-. From the following particulars, prepare Bank Reconciliation Statement as on $31^{\text {st }}$ December, 2010.
i) Cheques paid into the bank but not cleared Rs.4,040/-.
ii) Cheques drawn but not cashed for Rs.3,100/-.
iii) A Bill Receivable for Rs.1,500/- previously discounted with the bank had been dishonoured and debited in the Pass Book along with bank charges Rs.100/-.
iv) Pass Book debit total undercasted by Rs.100/- whereas credit total of Cash Book under.
v) Interest on Bank overdraft amounting Rs.6,750/- not accounted in Cash Book.
vi) ECS claring for telephone charges Rs. 710 not accounted in Cash Book.
vii) Debit total of Cash Book Page No. 11 = Rs.3,100/- wrongly carried on credit side of Cash Book.
4) Prepare a Bank Reconciliation Statement from the following particulars as on $31^{\text {st }}$ March 2010.
i) Cash Book showed an overdraft of Rs.41,000/- as on $31^{\text {st }}$ March, 2010.
ii) Cheques deposited worth Rs.6,500/- into the bank out of which only Rs.5,500/- were credited.
iii) Cheques issued worth Rs.3,000/- were not presented until $4^{\text {th }}$ April, 2010.
iv) The bank has entered in the Pass Book the interest collected on investment Rs.2,500/- and bank charges Rs.400/-, but same were not entered in the Cash Book.
v) Rs.1,050/- in respect of dishonour of issued cheques appears in the Pass Book and not in the Cash Book.
5) Prepare Bank Reconciliation Statement as on $28^{\text {th }}$ February, 2010.
i) Credit balance as per Cash Book was Rs.10,000/- on $28^{\text {th }}$ February, 2010.
ii) Interest charged by bank Rs.125/- was recorded in the Pass Book only.
iii) Dividend on shares Rs. 1,750/- was collected by bank but not recorded in cash.
iv) Cheques paid into the bank Rs.2,000/- but cheques of Rs. $1,000 /$ - were only cleared and credited by the bank.
v) Two cheques of Rs.4,000/- and Rs.4,200/- were issued, but only the cheque of Rs.4,100/- was presented for payment before the end of month.
6) The Cash Book of Mr. Kamat shows a credit balance of Rs. 10,350/-. Prepare the Bank Reconciliation Statement as on $30^{\text {th }}$ April, 2010.
i) Cheques of Rs.4,250/- received and deposited in the bank, but same were not collected upto $30^{\text {th }}$ April, 2010.
ii) Cheques of Rs.850/- issued, but not presented for payment.
iii) Interest on investment Rs.275/- and dividend of Rs.510/collected by the bank and recorded only in the Pass Book.
iv) Cheques of Rs.2,250/- deposited in the bank and collected by the bank but recorded twice in the Cash Book.
v) Cheques of Rs.1,502/- issued and presented for payment, but entered in the Pass Book as Rs.1,052/-.
7) Cash Book of Mr. Dinesh shows a credit balance of Rs.30,000/on $31^{\text {st }}$ January, 2010. However, his Pass Book shows a different balance. You are therefore, requested to prepare a Bank Reconciliation Statement as on $31^{\text {st }}$ January, 2010 from the following information :
i) Cheques amounting to Rs.15,000/- issued to supplier Mr. Rane, not yet presented for payment.
ii) Cheques amounting to Rs.14,000/- deposited into the bank but not yet collected by the bank.
iii) Bank has charged Rs.450/- as interest on overdraft for six months ending $31^{\text {st }}$ December, 2010 and also charged Rs.100/- as bank charges for above period. Same were not recorded in the Cash Book.
iv) Total of Cash Book at credit side cast short by Rs.520/-.
v) Cheque amounted to Rs. 10,525 issued and presented into the bank for payment but recorded in the Pass Book as Rs.10,652/-.
vi) Transfer of Rs.15,000/- from fixed deposit account to current account, not recorded in the Cash Book.
8) The following are the extracts given from the Cash Book (Bank column only) and bank Pass Book of Mr. V. S. K. You are required to prepare a Bank Reconciliation Statement as on $31^{\text {st }}$ December, 2010.

Cash Book (Bank column only)
Dr.
Cr.

5.1 Meaning
5.2 How to open an Account in the ledger
5.3 Posting
5.4 Balance and Balancing of Accounts
5.5 Meaning of Balances
5.6 Illustrations-1
5.7 Trial Balance
5.8 Some important items and their balance
5.9 Illustrations-2
5.10 Exercises

### 5.0 OBJECTIVES

After studying the unit the students will be able to:

- Know the meaning of Ledger.
- Understand the process of opening a Ledger Account.
- Prepare a Ledger Account from the given information.
- Explain the types of Trial Balance.
- Prepare the Trial Balance from the balances given.

### 5.1 MEANING

The ledger is the principal book of accounts relating to a particular person or property or revenue or expenses are recorded in summarized form. It is a set of accounts. It contains all accounts of the business enterprise whether real, nominal or personal. The main function of a ledger is to classify or sort out all items appearing in the journal or other subsidiary books under their appropriate accounts \& that at the end of the accounting period each account will contain the entire information of all the transactions relating to in a summarized or condensed form.

All the transactions are recorded first in the journal and then from the journal they are posted in the respective accounts in the ledger. Ledger is a book where in all the transactions would
ultimately find their place under the respective heads of accounts. Ledger is a book of final entry.

### 5.2 HOW TO OPEN AN ACCOUNT IN THE LEDGER :

The pages of all books of accounts must be numbered to facilitate reference. The page is divided into two parts by vertical line in between. The left hand side is used as a debit side of an account and the right hand side is used as a credit side.

| Dr. |  | Name (Account) |  |  |  |  | Cr |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  |  |  |  |
| Date | Particulars | J.F. | Amt. | Date | Particulars | J.F. | Amt. |
|  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |

### 5.3 POSTING :

Every transaction is first recorded in the book of original entry and then it is posted into the ledger. Posting is made to the debit side account which is debited in the journal entry and to the credit side of an account which is credited in the journal entry. Name of the credit account is written on the debit account and the name of debit account is written on the credit side of account. Entry on the debit side of an account starts with "To" whereas on the credit side starts with "By".

### 5.4 BALANCE AND BALANCING OF ACCOUNTS :

The object of recording the business transactions in various ledger accounts to enable a trader to ascertain balance in account easily at any time. For the preparation of Trial balance all accounts are to be closed.

Each account in the ledger may have same entries on the debit side and some entries on the credit side of an account. Find out difference between totals of each side. The difference in the total of both the side is termed as Balance of an account. The process of extracting the balance and inserting it on lesser side of an account is called balancing or closing of an account.

## Types of Balances

A) Debit Balance : If the debit side of an account is heavier than its credit side, the balance is called debit balance.
B) Credit Balance : If the credit side of an account is heavier than its debit side, the balance is called credit balance.

### 5.5 MEANING OF BALANCES :

5.5.1 Personal Accounts : Personal Accounts may have debit or credit balance.

Debit balance shows that person owes to the firm. He is debtors.
Credit balance shows that persons owed to him. He is creditor.
5.5.2 Real Accounts : Real accounts always have debit balance.

These are value of Assets, properties owned by businessmen.
5.5.3 Nominal Accounts : Nominal Account may have debit or credit balance debit balances shows total expenses / losses for the period. Credit balances shows total income / gain for the period.

At the end of accounting period balances of nominal accounts transferred to Trading, Profit \& Loss Account, whereas balances shown of Personal Accounts \& Real accounts in the Balance Sheet, and next year these balances considered as opening balances.

## CHECK YOUR PROGRESS

- Fill in the blanks:

1. If the debit side of an account is heavier than its credit side, the balance is called
2. The left hand side of a Ledger Account is used as a ----- and the right hand side is used as a
3. $\qquad$
$\qquad$ Accounts may have debit or credit balance.
4. Debit balance of the $\qquad$ Account shows that person owes to the firm. It means he is the $\qquad$ -of the firm.
5. Credit balances of the Nominal Account shows total $\qquad$ ------------------for the period.
6. Real accounts always have $\qquad$ balance.

- Define Ledger and draw the proforma of Ledger Account.

### 5.6 ILLUSTRATIONS-1:

Illustration 1: Enter the following transactions in the proper subsidiary books and post them to the Ledger Accounts and balance the Account 30 June 2010.

1 Commenced business with Cash Rs.5,000/- (of which Rs.2,000/- borrowed from friend Ram) and furniture Rs.1,400/-
2 Purchased goods from Kanta Rs.1,800/- less 5\%. Trade Discount.

6 Sold goods to Ketual costing Rs.400/- at 10\% Profit.
7 Cash purchases Rs.500/-.
8 Cash sales - Rs.1,200/-.
9 Purchased goods from Baba Rs.500/-.
9 Paid into Bank Rs.2,000/-.
10 Returned to Kanta goods worth Rs.150/-.
11 Purchased office furniture for Rs.1,200/- and paid for same by cheque.
16 Issued a cheque to Kanta for Rs.910/-.
21 Invoiced goods to Ketual Rs.5,000/- less 2\% Trade discount.
23 Ketual paid cash Rs.400/- and returned goods of Rs.140/-.
24 Purchased goods from Kanta Rs.1,300/-.
28 Returned damaged goods to Janta Rs.160/- \& to Baba Rs.150/-.
28 Sold goods to Kant Rs.1,200/-.
29 Received a cheque for Rs.1,100/- from Kant and banked the same.

30 Kant, who owes us Rs.100/- pays rent Rs.100/- to our landlord on our behalf.

30 We paid Rs.75/- to Raju on instructions from our creditor Kanta on his behalf.

### 5.7 TRIAL BALANCE

### 5.7.1 Introduction :

The fundament principle of double entry book keeping is that debit must be equal to credit. In other words, debit aspect of any transaction is always equal to its credit aspect.

All ledger accounts are balances. A debit balance in a general ledger account indicates an excess of debit side over credit side of the account. A credit balance in a ledger account indicates the excess of credit side over debit side of the account. A trial balance is a summary of all the ledger balances outstanding as on particular date. List of debit balances and credit balances should be equal. It said that Trial balance is tallied. When trial balance tallies is establishes the arithmetical accuracy of record. It is a statement prepared before preparing the final accounts. It is a link between books of account and final accounts i.e. the Trading \& Profit \& Loss A/c and Balance Sheet.

### 5.7.2 Types of trial balances

Trial balances are of two types.

1) Gross Trial Balance
2) Net Trial Balance

1 Gross Trial Balance :
Gross Trial Balance is prepared by taking all ledger account debit total and credit total, instead of considering ledger balances, as on a particular date.

Illustration 3: Gross Trial Balance can be as under -

$\left.$| Sr. <br> No. | Name of Account |  | Total debit <br> side (Rs.) |
| :---: | :--- | ---: | ---: | | Total credit |
| :---: |
| side (Rs.) | \right\rvert\,

## 2 Net Trial balance :

Net trial balance is list of debit \& credit balance, taken from ledger accounts on particular date. Normally, net trial balance is prepare, since it is transferred to final accounts and personal and real accounts balance are carried forward from current year to subsequent year.

Illustration 4 : Trial Balance as on $31^{\text {st }}$ March 2010.

| Sr. <br> No. | Name of Account |  | Total debit <br> side (Rs.) | Total credit <br> side (Rs.) |
| :---: | :--- | :---: | :---: | :---: |
| 1 | Opening Stock |  | 12,000 | - |
| 2 | Capital | - | $1,02,000$ |  |
| 3 | Purchases | $2,10,000$ | - |  |
| 4 | Purchase Return | - | 6,000 |  |
| 5 | Sales | - | $3,11,000$ |  |
| 6 | Sales Return | 4,000 | - |  |
| 7 | Expenses | 28,000 | - |  |
| 8 | Plant \& Machinery | $1,20,000$ | - |  |
| 9 | Customers | 80,000 | - |  |
| 10 | Suppliers | - | 62,000 |  |
| 11 | Cash | 6,000 | - |  |
| 12 | Bank balance |  | 21,000 | - |
|  |  |  |  |  |

### 5.8 SOME IMPORTANT ITEMS AND THEIR BALANCES

1. Capital : Credit balance
2. Drawings : Debit balance
3. Purchases : Debit balance
4. Expenses : Debit balance
5. Incomes : Credit balance
6. Carriage Inwards : Debit balance
7. Carriage Outwards : Debit balance
8. Stock (opening) : Debit balance
9. Loan taken : Credit balance
10. Interest paid : Debit balance
11. Loan given : Debit balance
12. Interest received : Credit balance
13. Assets
: Debit balance
14. Suppliers : Credit balance
15. Sales Return : Debit balance
16. Purchases : Debit balance
17. Return Outwards : Credit balance
18. Investments : Debit balance
19. Goodwill : Debit balance
20. Cash : Debit balance

Note : Closing stock should not be taken in trial balance. However, it Gross Profit is given in trial balance then it should be taken as Debit balance.

### 5.9 ILLUSTRATIONS-2

Illustration 5 : From the following prepare Gross Trial balance and net Trial balance as on $31^{\text {st }}$ March 2010.

| Particulars | Totals |
| :--- | ---: |
| Cash (Dr.) | 21,500 |
| Bank (Dr.) | 13,000 |
| Furniture (Dr.) | 21,000 |
| Creditors (Dr.) | 13,700 |
| Debtors (Dr.) | 22,000 |
| Rent (Dr.) | 5,500 |
| Salaries (Dr.) | 2,900 |
| Cash (Cr.) | 14,300 |

| Capital (Cr.) | 10,000 |
| :--- | ---: |
| Bank (Cr.) | 2,900 |
| Furniture (Cr.) | 400 |
| Creditors (Cr.) | 14,000 |

### 5.10 EXERCISES:

### 5.10.1 Theory questions:

1. What is ledger?
2. How entries from Journal posted to Ledger?
3. Why Real Account have always debit balance or nil balance.
4. What are different types of Trial Balance?
5. Why Trial Balance tallies?
6. Distinguish between Gross Trial Balance and Net Trial Balance.
7. Why Trial Balance prepared?

### 5.10.2 Practical Problems :

Q. 1 Prepare a Trial balance from the following as on March $31^{\text {st }}$, 2010.

| Particulars | Totals |
| :--- | ---: |
| Stock | 60,000 |
| Purchases | $1,50,000$ |
| Capital | 70,000 |
| Drawings | 22,000 |
| Sales | $2,50,000$ |
| Traveling Expenses | 1,320 |
| Salaries | 11,200 |
| Rent, Taxes \& Insurance | 5,600 |
| Returns Outwards | 2,600 |
| Advertising | 840 |
| Wages | 7,000 |
| Bank Overdraft | 20,000 |
| General Trade Expenses | 1,350 |
| Returns Inwards | 5,400 |
| Discount allowed | 600 |
| Interest \& Commission paid | 430 |
| Bad Debts | 800 |
| Sundry Creditors | 60,000 |
| Cash in hand | 2,060 |
| Sundry Debtors | 92,000 |
| Furniture | 10,000 |
| Plant \& Machinery | 20,000 |
| Buildings | 12,000 |
|  |  |

Q. 2 Following are the balances extracted from the ledger of Shri. Ketan. Prepare a Trial Balance as on $31^{\text {st }}$ Dec. 2010.

| Particulars | Rs. | Particulars | Rs. |
| :--- | ---: | :--- | ---: |
| Capital A/c | 40,000 | Purchases | 26,500 |
| Drawings A/c | 4,000 | Printing \& Stationery | 3,000 |
| Sundry Creditors | 18,440 | Rent \& Taxes | 2,500 |
| Motor Car Expenses | 3,000 | Office Expenses | 7,000 |
| Sales | 29,560 | Commission paid | 5,000 |
| Trade Expenses | 8,500 | Sundry Debtors | 18,000 |
| Insurance | 1,030 | Discount Allowed | 2,970 |
| Opening Stock | 8,500 | Interest Received | 2,000 |

Q. 3 The following balances appeared in the ledger of $\mathrm{M} / \mathrm{s}$. Tata Traders as on $1^{\text {st }}$ July 2010.

| Debit Balance | Rs. | Credit Balance | Rs. |
| :--- | ---: | :--- | ---: |
| Cash A/c | 35,000 | Capital A/c | 80,000 |
| Bank A/c | 30,000 | Kamath's A/c | 5,000 |
| Goods A/c | 35,000 | $10 \%$ Term Loan | 20,000 |
| Mehta's \& Son's A/c | 15,000 |  |  |
|  |  |  |  |
|  | $1,05,000$ |  | $1,05,000$ |

2010
July1 Borrowed Rs.25,000/- from wife for expansion of the business and deposited Rs.20,000/- in Bank.
4 Deposited Rs.15,000/- into the Bank.
6 Received from Mr. Mehta and Sons Rs.9,550/- in part payment of Rs.10,000/-.
8 Paid Rs.1,900/- to Mr. Kamath in part payment of Rs.2,000/-.
20 Withdrew from bank Rs.5,000/- for office use and Rs.4,000/- for private use.

24 Cash sales Rs.20,000/-.
25 Paid Salaries Rs.1,250/-, rent Rs.1,400/- and received commission Rs.2,600/- in cash.

28 Paid Rs.20,000/- for part payment of wife's loan. Also interest of Rs.1,250/- due on loan.

31 Deposited Rs.11,500/- into the Bank.

From the above transactions, draft journal entries, post them to respective ledger accounts and balance them, also prepare Trial Balance.
Q. 4 The following balances appeared in the ledger of Shri as on $1^{\text {st }}$ March 2010.

| Debit Balance | Rs. | Credit Balance | Rs. |
| :--- | ---: | :--- | :---: |
| Cash A/c | 25,000 | Capital A/c | 60,000 |
| Bank A/c | 10,000 | Mr. Nair A/c | 16,000 |
| Goods A/c | 35,000 |  |  |
| Govinda's A/c | 6,000 |  |  |
|  |  |  |  |

2010
Mar. 1 Introduced further capital in cash Rs.25,000/-.
2 Deposited Rs.15,000/- into the bank.
4 Received Rs.3,000/- from Mr. Govind.
7 Paid Rs.4,000/- to Mr. Nair.
9 Bought goods costing Rs.17,500/- on credit from Nair.
15 Sold goods to Mr. Govind for Rs.16,000/-.
20 Bought goods from Mr. Nair for Rs.40,000/-.
24 Withdrew Rs.12,000/- from bank for office use.
25 Good costing Rs.20,000/- sold @ 25\% Profit.
26 Rent paid by cheque Rs.6,000/-.
27 Salaries paid Rs.10,000/- a wages Rs.2,000/-.
29 Received cash from Govind Rs.9,000/- and allowed him discount Rs.100/-.

30 Withdrawn cash Rs.4,000/- and Rs.6,000/- by cheque for personal use.

You are required to journalise above transaction and prepare necessary ledger accounts and prepare trial balance.
Q. 5 Following balances appeared in the ledger of Mr. Raman as on $1^{\text {st }}$ March, 2010.

| Debit Balance | Rs. | Credit Balance | Rs. |
| :--- | ---: | :--- | :--- |
| Cash A/c | 15,000 | Capital A/c | 60,000 |
| Goods A/c | 10,000 | M/s. Godreja Co. | 14,000 |
| Bank A/c | 30,000 |  |  |
| Mr. H.O.'s A/c | 5,000 |  |  |
| Furniture A/c | 14,000 |  |  |

Transactions during the month ending 31.03.2010. 2010
Mar. 1 Introduced cash Rs. $40,000 /$ into the business as capital.
6 Bought goods worth Rs.15,000/- from Mr. Ketan @ 5\% trade discount.
14 Cash purchases Rs. $10,500 /$-.
20 Sold goods worth Rs.10,500/- to Mr. H.O. @ 2\% trade discount.

21 Paid carriage Rs.100/-.
22 Cash sales Rs. $35,000 /$-.
24 Paid Rs.7,000/- to Mr. Godreja Co. and earned discount Rs.100/-.
27 Received Rs.6,900/- from H.O. in full settlement of Rs.7,200/-.
29 Purchase goods from David costing Rs.25,000/-.
30 Half of goods purchased were return to David.
31 Balance due to David paid @ 10\% discount.
Pass necessary journal entries, open necessary ledger accounts \& prepare Trial balance as on $31^{\text {st }}$ March 2010.

6

## FINAL ACCOUNTS OF A SOLE TRADER

## Unit Structure:

6.0 Objectives
6.1 Introduction
6.2 Trading Account
6.3 Profit \& Loss Account
6.4 Balance Sheet
6.5 Marshalling of Balance Sheet
6.6 Classification of Assets
6.7 Classification of Liabilities
6.8 Limitations of Balance Sheet
6.9 Adjustments.
6.10 Illustrations
6.11 Exercises

### 6.0 OBJECTIVES

After studying the unit the students will be able to:

- Know the meaning of Final Accounts and proforma of Final Accounts.
- Explain the Classification of Assets and Liabilities.
- Make the adjustment entries.
- Prepare Final Accounts from the given Trial Balance.

### 6.1 INTRODUCTION

The transactions of a business are first recorded in Journal / subsidiary books, then posted there form to the Ledger and at the end of accounting year, Trial balance is prepare to test accuracy, both the aspects of the transactions have been correctly recorded in the books of accounts of original entry as well as in the Ledger. The last stage in accounting process is the preparation of final Accounts.

From given trial balance a Trading, Profit \& Loss A/c \& Balance Sheet is prepared.

A Trading, Profit \& Loss A/c is prepared to determine the Profit or Loss made during a particular year, and Balance Sheet is prepare which consists of all assets, Liabilities and Capital of proprietor.

For preparing Final Accounts from Trial Balance following procedure should be followed.

## i) Debit Account balances :-

Balances appearing on the debit column of the trial balance may represent - (a) assets (b) Expenses and Losses. Assets are shown on right hand side of the balance sheet while expenses and loss are debited either to the Trading A/c or to the Profit \& Loss A/c, depending upon nature of expenditure or loss.

## ii) Credit Account balances :-

Credit items in the trial balance represents (a) Capital, Liabilities, expenses. These items are entered on the left hand side of the balance sheet (b) Income and gains. These are either credited to Trading A/c or Profit and Loss A/c.

### 6.2 TRADING ACCOUNT :-

Trading A/c is prepared to ascertain the Gross Profit. Gross Profit is difference between net sales and cost of goods sold. A specimen of Trading Account is given below:

Trading A/c for the year ended...

| Dr. |  |  | Cr. |
| :---: | :---: | :---: | :---: |
| Particulars | Rs. | Particulars | Rs. |
| To Opening Stock <br> To Purchases <br> Less: Returns $\qquad$ <br> To Carriage Inwards <br> To Wages <br> To Direct Expenses <br> To Gross Profit | $\begin{gathered} x \\ x \\ x \\ x \\ x \\ x \\ x \end{gathered}$ | By Sales $X$ <br> Less: Returns <br> (X) <br> By Closing Stock | X X |
|  | XX |  | XX |

However, Gross Profit is the balancing figure, in case debit side total exceeds the credit side, then balance will be Gross Loss, it is shown on credit side of Trading A/c as 'By Gross Loss'.

### 6.3 PROFIT AND LOSS ACCOUNT

Profit and Loss A/c is prepared to calculate the net profit or net loss. The balance of Trading A/c i.e. Gross profit / Gross loss is transferred to the Profit and Loss Account. Therefore, all those expenses and Losses are debited to the Profit and Loss A/c. Other income / gains are credited to this A/c e.g. commission received, discount earn etc.

The Profit and Loss accounts measures net profit by matching revenues and expenses according to the accounting principles, Net profit is the excess of revenue over total expenses. It should be kept in mind that all expenses / incomes must be adjusted in respect of outstanding / prepaid / paid or received in advance. Expenses or incomes are considered on mercantile basis. At end Net Profit or Net Loss transferred to Capital Account in the balance sheet.

A specimen of Profit \& Loss Account is given below :
Profit \& Loss Account for the year ended...
Dr.

| Particulars | Rs. | Particulars | Rs. |
| :--- | :---: | :--- | :---: |
| To Salaries | X | By Gross Profit b/d | X |
| To Rent, Rates \& Taxes | X | By Discount earned | X |
| To Insurance | X | By Commission received | X |
| To Printing \& Stationery | X | By Interest earned | X |

| To Audit Fees | X |  |  |
| To Discount allowed | X |  |  |
| To Interest paid on Loans | X |  |  |
| To Bad debts | X |  |  |
| To Carriage outwards | X |  |  |
| To Advertising expenses | X |  |  |
| To Depreciation on assets | X |  |  |
| To Loss due to fire | X |  |  |
| To Net Profit | X |  |  |
| [transferred to capital] |  |  | XX |
|  |  |  |  |

## It may be noted that:

1) Direct Expenses which are debited to Trading $A / c$ are not debited again to Profit \& loss A/c.
2) Personal expenses are not debited to this account.
3) Income Tax, Wealth Tax or Life insurance premium paid are personal expenses of proprietor / partners.
4) Items shown in Trial Balance should be given one effect and adjustment given below Trial Balance should be given two effects.
5) It should be noted that:

Trading Account and Profit \& Loss Account are not prepares separately as shown above but they are prepared as one account split up into two sections. As such the combined heading is given as 'Trading and Profit \& Loss A/c for the year ended...'

### 6.4 BALANCE SHEET

Balance Sheet is a statement which shows the financial position of a business entity on a given date. It is prepared from trial balance, after all nominal accounts and accounts relating to Trading, Profit \& Loss account. Accounts left out are Real accounts and personal accounts. Accounts having debit balances transferred to Assets side of balance sheet and account having credit balance transferred to Liabilities side of Balance Sheet, in some cases credit balances may be deducted from particular asset. e.g. provision for depreciation deducted from Fixed Asset; Reserve for bad \& doubtful, is deducted from sundry debtors. Balances shown in Balance Sheets are carried forward for next year.

The Balance Sheet has also two sides. The Left hand side is headed as 'Liabilities' and Right hand side is headed as 'Assets'. It is not an account, therefore in no 'To' or 'By' proceeding the names of the Account recorded in the Balance Sheet.

Balance Sheet shows financial position as on a particular date and not for the year. Therefore the heading of Balance Sheet is worded as
"Balance Sheet of ..... as on ....."

### 6.5 MARSHALLING OF BALANCE SHEET

[Order of Assets and Liabilities]

1) Assets are arranged in order of their Liquidity i.e. in order in which they can be converted into cash and Liabilities they are payable. As assets which can be immediately converted into cash will be taken first and then in order will follow the others. Similarly, Liability which is to be paid off immediately will be taken first and then next and so on.
2) The assets \& liabilities are arranged in exactly the reverse order of the above arrangement.

A specimen of Balance Sheet is given below :
Balance Sheet of $\qquad$ as on .....
[According to Liquidity order]

| Liabilities | Rs. | Assets | Rs. |
| :---: | :---: | :---: | :---: |
| Outstanding Expenses | X | Cash in hand | X |
| Sundry Creditors | x | Bank Balance | x |
| Bills Payable | X | Investments | X |
| Bank Overdrafts | x | Sundry Debtors | X |
| Loans | X | Bills Receivable | X |
| Capital | x | Outstanding Income | X |
|  |  | Stock in trade | X |
|  |  | Loose tools | X |
|  |  | Prepaid Expenses | x |
|  |  | Patents, Trade Marks | x |
|  |  | Furniture | x |
|  |  | Plant \& Machinery | X |
|  |  | Building | x |
|  |  | Land | X |
|  |  | Goodwill | x |
|  | xxx |  | xxx |

The totals of the two sides of the balance sheet must agree because of the equation
Assets = Liabilities + Capital

### 6.6 CLASSIFICATION OF ASSETS

### 6.6.1 Fixed Assets :-

These assets are acquired for long use in the business itself and not for sale. e.g. Building, Plant \& Machinery etc.

### 6.6.2 Current or Floating Assets :-

These assets are to be converted into cash as soon as possible. e.g. stock of goods, Sundry Debtors, Bills Receivable.

### 6.6.3 Liquid / Quick Assets :-

These assets can be converted into cash as quickly as possible, without undue Loss. e.g. Sundry Debtors, Bank Balance, short term govt. securities.

### 6.6.4 Wasting Assets :-

Are those fixed assets which have fixed content like coal in coal mine.

### 6.6.5 Intangible Assets :-

Are those Fixed Assets which can not be seen or touched or felt, i.e. having no physical existence, e.g. Goodwill.

### 6.6.6 Fictitious Assets :-

Are worthless assets but shown as assets in the Balance Sheet. E.g. preliminary expenses, Discount on issue of debentures.

### 6.7 CLASSIFICATION OF LIABILITIES

### 6.7.1 Fixed and Long-term Liabilities :-

Are those Liabilities which are payable after a long period of time e.g. Bank Loan, Debentures.

### 6.7.2 Current Liabilities :-

These are short term Liabilities payable usually with in year e.g. sundry creditors, Bills Payable, outstanding expenses.

### 6.7.3 Contingent Liabilities :-

These are not actual Liabilities as on date of Balance Sheet, which may or may not be payable in future, depend on the happening of certain events. In future, however due present circumstances; whether to pay or not, depends upon further happenings. Therefore existence of contingent liabilities shown below total liabilities by way of note for the sake of information and disclosure. e.g. investment in partly paid shares, compensation suit pending in court, Bills discounting but not matured, such Liabilities are shown as a foot note in the Balance Sheet on liabilities side.

### 6.8 LIMITATIONS OF BALANCE SHEET

- Balance sheet is considered to be a static document. The real position of the concern keeps on changing.
- Stock valuation / method of depreciation are different, which affects on financial position.
- Change in accounting policy may not followed consistally.
- Window-dressing is accomplished in general ways, e.g. not making adequate provisions.
- Fixed assets are shown at historical cost less depreciation. However, actual value of fixed assets, like Land might have appreciated much more.

### 6.9 ADJUSTMENTS

Before an accountant can proceeds to prepare the Final Accounts from trial balance, he has to process some additional information, which is not consider in trial balance.

The following are a few examples showing where adjustment entries would required:

## 1 Closing Stock / Inventory :-

Unsold goods in stock at the end of the period. Closing stock is valued at cost or market value which ever is lower. For accounting following entry is pass

$$
\begin{aligned}
& \text { Closing Stock A/c.........................Dr XX XX } \\
& \text { To Trading A/c }
\end{aligned}
$$

While closing stock appears on credit side of Trading A/c and it also appears on an assets, in the Balance Sheet.

## 2 Outstanding Expenses :-

The nominal accounts records the actual expenses paid during the period, However some expenses are incurred, (due) but not paid, hence it is not accounted, are also brought into the books to help in proper matching of revenues and expenses. e.g. Firm pays wages on $10^{\text {th }}$ of the subsequent mouth. These for at the end of the year say $31^{\text {st }}$ march ' 10 , wages account is debited up to Feb. 10; since March wage not paid. These unpaid / outstanding expenses must also be included. This is done by passing following adjustment entry.

Wages A/c...................................Dr XX
To outstanding wages $\mathrm{A} / \mathrm{c} \quad \mathrm{XX}$
The above entries increases wages in Trading A/c and it is since not paid shown a Liability in the balance sheet.

## 3 Prepaid Expenses :-

Certain expenses paid may relate to more than one accounting period. It is necessary to ascertain that portion of expense which the benefit is not yet received by the concern. e.g. In such premium paid Rs. 6000, for the year ended $31^{\text {st }}$ march 2010. Prepare Final Accounts for the ended $31^{\text {st }}$ Dec 2009. Hence Jan to March, three month insurance premium benefit to the subsequent three month. Such expenses paid in a advance are called 'pre-paid expenses'. Adjustment entry pass as under :

Prepaid Expenses A/c.....................Dr XX To Expenses A/c XX

Prepaid expenses deducted from concern period and shown in the balance sheet an assets.

## 4 Depreciation :-

It is the reduction or fall in the value of a Fixed Assets due to its use. Thus, the depreciation is loss to the business, to account for following adjustment entry is passed.

Depreciation A/c...........................Dr XX
To Fixed Assets A/c XX
Depreciation is debited to Profit \& Loss A/c and it is deducted from concerned Fixed Assets in the Balance Sheet.

## 5 Outstanding / Accrued Income :-

Income earned during the period but not received, Entry-

> Outstanding Income A/c.................Dr XX

To Income A/c
XX
It added to Income in Profit \& Loss A/c and shown as assets in the Balance Sheet.

## 6 Income Received in Advance :-

Income received, however it relate to subsequent year; Entry-

Income A/c...................................Dr XX
To Income Received in Advance A/c XX
Advance income deducted from income on credit side of Profit \& Loss A/c and shown it on Liability side of Balance Sheet.

## 7 Bad debts :-

When goods are sold on credit the amount is recoverable from customer. However amount receivable is not possible to recover, then such debts is to be written off, as Loss to business; Entry-

> Bad debts A/c................................Dr XX

To Customer A/c
XX

It is debited to Profit \& Loss A/c as bad debts and deducted from sundry Debtors in the balance sheet.

These are money adjustment, however, only few basis adjustment discuss above:

## 8 Hidden Adjustment in Trial Balance :-

These adjustments not directly however from Trial Balance, these are apparent, and hence must be consider.

|  | Trial Balance On <br> $31-03-2010$ |  <br> Loss A/c | Balance Sheet |
| :--- | :--- | :--- | :--- |
| 1. | Rent paid (Including <br> Rs.400/- for April) | Deduct Rs.400/- <br> from Rent Paid A/c | Show Rs.400/- as <br> Rent Prepaid on <br> Assets side |
| 2. | Rent paid (upto Feb.) <br> Rs.2,200/- | Add Rs.200/- to Rent <br> Paid A/c | Show Rs.200/- as <br> O/S Rent on <br> Liability side |
| 3.Rent Received (upto <br> Feb.) | Add Rs.300/- to Rent <br> Received A/c | Show Rs.300/- as <br> Rent Due on Assets <br> side |  |
| 4. | Rent Received (incl. <br> Rs.500/- for April) | Deduct Rs.500/- <br> from Rent Received <br> A/c | Show Rs.500/- as <br> Advance Rent on <br> Liability side |
| 5. | Leasehold Land: <br> Rs.1,00,000/- (for 10 <br> years from 01-04- <br> $2010)$ | Write off Rs.10,000/- <br> on Dr. side | Deduct Rs.10,000/- <br> form Leasehold <br> Land on Assets <br> side |
| 6. | (a) Loan from <br> ABC <br> Rs.20,000/- <br> (b) Interest to 10\% <br> p.a. Rs.1,500/- | Add Rs.500/- to <br> Interest Paid A/c | Show Rs.500/- as <br> Interest Due on <br> Liabilities side |
| 7. | (a) Machinery <br> (W.D.V.) : <br> Rs.7,500/- <br> (b) Machinery sold <br> for Rs.9,000/- | Show Profit <br> Rs.1,500/- on Cr. <br> side | Deduct Rs.7,500/- <br> from Machinery A/c <br> in Balance Sheet |

## CHECK YOUR PROGRESS

- Give the effects of the following adjustments:

1. Salary Rs. 4000 is Outstanding.
2. Prepaid rent Rs. 1000.
3. Wages included Rs. 4000 which is used for installation of Machinery.
4. Interest on Investment Rs. 3000 received in advance.

## Illustration 1:

From the following Trial Balance of Shri - Atul Sheth prepare Trading and Profit and Loss A/c for the year ended $31^{\text {st }}$ March, 2010 and a Balance Sheet on that date.

Trial Balance as on $31^{\text {st }}$ March, 2010

| Particulars | Dr. Rs. | Cr. Rs. |
| :--- | ---: | ---: |
| Machinery | 90,000 |  |
| Building | 50,000 |  |
| Stock (01-04-09) | 10,200 |  |
| Purchases | 80,800 |  |
| Wages \& Salaries | 17,000 |  |
| Carriage Outwards | 3,000 |  |
| Sundry Debtors | 50,000 |  |
| General expenses | 9,100 |  |
| Rent | 1,700 |  |
| Bad Debts | 650 |  |
| Income Tax | 600 |  |
| Legal Charges | 800 |  |
| Atul Sheth's Drawing | 24,000 |  |
| Cash In hand | 18,000 |  |
| Cash at bank |  | $1,20,200$ |
| Atul Sheth's Capital |  | 18,000 |
| Sundry Creditors |  | 23,000 |
| Bills Payable |  | 1,800 |
| Returns Outwards |  | 3,300 |
| Interest |  | $2,07,550$ |
| Sales | $3,73,850$ | $3,73,850$ |

## Adjustments :-

The following adjustments should be taken into consideration :-

1) Stock on $31^{\text {st }}$ March, 2010 was Rs. $70,000 /$ valued at cost and market price Rs.82,000/-.
2) Depreciate Machinery at $10 \%$ and Building @ $5 \%$.
3) Rent Outstanding Rs.800/-.

## Solution :-

| Creditors | 5,800 |  |
| Cash in hand | 20,000 |  |
| Bank | $\mathbf{4 , 1 2 , 2 0 0}$ | $\mathbf{4 , 1 2 , 2 0 0}$ |
| Goodwill (at cost) |  |  |
|  |  |  |

## Adjustments -

a) Stock on $31^{\text {st }}$ March, 2010 was valued at Rs.53,000/-.
b) Salaries have been paid only for 11 months.
c) Unexpired insurance included in the figure of Rs.400/appearing in trial balance is Rs.100/-.
d) Commission earned but not yet received amounting to Rs.422/is to be recorded in books of account.
e) Furniture is depreciated @ $10 \%$ per annum.
f) Only $1 / 4^{\text {th }}$ of advertising expenses are to be written off.

Prepare Trading and Profit and Loss Account for the year ended $31^{\text {st }}$ March, 2010 and balance sheet as on that date.

## Solution :

## Trading and Profit and Loss Account for the year ended 31 ${ }^{\text {st }}$ March, 2010

## Amir Khan <br> Balance sheet as on 31 ${ }^{\text {st }}$ March, 2006

### 6.11 EXERCISES

### 6.11.1 Theory Questions

1) Explain what is Final Account?
2) Distinguish between Trial balance and Balance sheet
3) Write short notes on
a) Adjustment
b) Outstanding Expenses
c) Gross Profit
d) Prepaid Expenses
e) Fixed Assets
f) Floating Assets
4) What are the limitations of Balance Sheet.

### 6.11.2 Practical Problems

Q. 1 Below is the trial balance of Suresh as at $3{ }^{1{ }^{\text {st }} \text { March, } 2010}$

| Debit balance | Rs. | Credit balance | Rs. |
| :--- | ---: | :--- | ---: |
| Suresh's Current A/c | 1,500 | Capital Account | 50,000 |
| Purchases | $7,60,450$ | Loan from Mohan @ 9\% | 20,000 |
| Salaries | 4,200 | (taken on 1 ${ }^{\text {st }}$ October, 09) |  |
| Carriage on Purchases | 400 | Sales | $7,20,000$ |
| Carriage on Sale | 500 | Discount | 500 |
| Lighting | 300 | Sundry Debtors | 20,000 |
| Rates and Insurance | 400 |  |  |
| Buildings | 27,000 |  |  |
| Sundry Debtors | 8,000 |  |  |
| Furniture | 6,000 |  |  |
| Cash in hand | 250 |  | $8,10,500$ |
| Cash at bank | 1,500 |  |  |
|  |  |  |  |

Rates have been prepaid to the extent of Rs.175/-, Bad debts totaling Rs.500/- have to be written off. Buildings have to be depreciated at 2\% and Furniture @ 10\%.

You are required to prepare the Profit and Loss Account for the year ended $31^{\text {st }}$ March, 2010 and the balance sheet as on that date.
Q. 2 From the following prepare Trading Account Profit and Loss Account and Balance Sheet.

Trial Balance as $\mathbf{3 1}^{\text {st }}$ March, 2011

| Sr. No. | Name of the Account | L.F. | Debit <br> (Rs.) | Credit <br> (Rs.) |
| :---: | :--- | :---: | :---: | :---: |
| 1 | Sundry Debtors |  | 15,000 | - |
| 2 | Buildings |  | 40,000 | - |
| 3 | Goodwill |  | 30,000 | - |
| 4 | Bills Payable |  | 45,000 |  |
| 5 | Sundry Creditors |  | - | 25,000 |
| 6 | Plant \& Machinery |  | $1,60,000$ | - |
| 7 | Opening Stock |  | 35,000 | - |
| 8 | Sales |  | - | $1,40,000$ |

| 9 | Bank Overdraft | - | 1,25,000 |
| :---: | :---: | :---: | :---: |
| 10 | Bills Receivable | 40,000 | - |
| 11 | Purchases | 1,25,000 | - |
| 12 | Sales Returns | 1,000 | - |
| 13 | Wages | 45,000 | - |
| 14 | Purchase Returns | - | 1,500 |
| 15 | Carriage Inwards | 600 | - |
| 16 | Carriage Outwards | 300 | - |
| 17 | Office Salaries | 12,000 | - |
| 18 | Office Rent | 500 | - |
| 19 | Commission | 600 | - |
| 20 | Postage \& Telegram | 100 | - |
| 21 | Depreciation | 500 | - |
| 22 | Printing \& Stationery | 45 | - |
| 23 | Bad Debts | 200 | - |
| 24 | Prepaid Insurance | 150 | - |
| 25 | Cash in hand | 6,000 | - |
| 26 | Cash at Bank | 9,000 | - |
| 27 | Income Receivable | 400 | - |
| 28 | Capital Account | - | 1,90,000 |
| 29 | Drawings | 5,105 | - |
|  |  | 5,26,500 | 5,26,500 |

Closing stock valued at Rs. $1,10,000 /$-.
Q. 3 Prepare Trading and Profit and Loss Account from the following trial balance and adjustments for the year ending $31^{\text {st }}$ December, 2008. Prepare Balance sheet as at that date.

Trial balance as on $31^{\text {st }}$ December, 2008

| Name of the Account | L.F. | Debit <br> (Rs.) | Credit <br> (Rs.) |
| :--- | :---: | :---: | :---: |
| Capital Account |  | - | $2,00,000$ |
| Drawings Account |  | 86,000 | - |
| Stock (01/01/2008) |  | 75,000 | - |
| Bills Receivable |  | - | - |
| Sales |  | 50,000 | $1,62,350$ |
| Purchases |  | 2,000 | - |
| Returns | 3,000 |  |  |
| Salaries \& Wages |  | 12,000 | - |

| Creditors |  | - | 15,000 |
| :--- | ---: | ---: | :--- |
| Insurance |  | 3,500 | - |
| Carriage Inwards |  | 1,500 | - |
| Carriage Outwards |  | 850 | - |
| Debtors |  | 68,000 | - |
| Commission |  | 4,000 | 2,000 |
| Interest |  | 3,500 | 3,000 |
| Discount |  | - | 3,000 |
| Bills Payable |  | 2,500 | - |
| Printing \& Stationery |  | 1,500 | - |
| Trade Expenses |  | 11,000 | - |
| Furniture \& Fixtures |  | 46,000 | - |
| Cash in hand |  | 12,000 | - |
| Cash at bank |  | 2,500 | - |
| Rent \& taxes |  | $\mathbf{4 , 0 0 , 3 5 0}$ | $\mathbf{4 , 0 0 , 3 5 0}$ |

## Adjustments -

1) Closing Stock was valued at Rs. $1,05,000 /$-.
2) Furniture valued at Rs. $10,000 /$-.
3) Outstanding Expenses : Salaries at 1,200/-, Rent \& Taxes Rs.600/- and prepaid insurance Rs.650/-.
Q. 4 Following is the trial balance of M/s. Anjali. You are required to prepare Trading Account, Profit and Loss Account and Balance Sheet for the year ended $31^{\text {st }}$ December, 2010, after considering the adjustment given below.

| Sr. No. | Name of the Account | Debit <br> (Rs.) | Credit <br> (Rs.) |
| :---: | :--- | ---: | :---: |
| 1 | Stock on 01-01-2010 | 60,000 | - |
| 2 | Purchases \& Sales | 80,000 | $1,00,000$ |
| 3 | Returns | 1,500 | 2,500 |
| 4 | Drawings | 2,400 | - |
| 5 | Wages - productive | 3,000 | - |
| 6 | Wages - unproductive | 2,000 | - |
| 7 | Salaries | 4,000 | - |
| 8 | Rent, rates \& insurance | 1,500 | - |
| 9 | Bad debts | 1,000 | - |
| 10 | Discount | 600 | 1,000 |
| 11 | Machinery | 20,000 | - |

| 12 | Buildings | 60,000 | - |
| :--- | :--- | ---: | :---: |
| 13 | Sundry Debtors \& Creditors | 16,000 | 18,000 |
| 14 | Cash | 12,000 | - |
| 15 | Capital | - | $1,17,200$ |
| 16 | Bank Overdraft | - | 40,000 |
| 17 | Furniture | 7,500 | - |
| 18 | Carriage Inward | 1,250 | - |
| 19 | Carriage Outward | 1,450 | - |
| 20 | Interest | 4,000 | 16,000 |
| 21 | Commission | 750 | 11,000 |
| 22 | Goodwill | 25,000 | - |
| 23 | Gas \& Fuel | 1,750 | - |
|  |  |  |  |
|  |  | $3,05,700$ | $1,05,700$ |

## Adjustments -

1) On $31^{\text {st }}$ December, 2010 the cost price of closing stock was Rs. $51,000 /$ - and its market price was Rs. $52,000 /$-.
2) Goods worth Rs.6,000/- taken over by the proprietor for the his personal use, were not entered in the books of accounts.
Q. 5 From the following Trial balance, you are required to prepare Trading and Profit and Loss Account for the year ended $31^{\text {st }}$ December, 2010 and the Balance Sheet as on that date, after taking into consideration the additional information.

Trial balance (31-12-2010)

| Sr. No. | Name of the Account | L.F. | Debit <br> (Rs.) | Credit <br> (Rs.) |
| :---: | :--- | :---: | :---: | :---: |
| 1 | Drawings |  | 23,800 | - |
| 2 | Capital |  | - | $1,95,000$ |
| 3 | Opening Stock |  | 50,000 | - |
| 4 | Creditors | - | $1,75,000$ |  |
| 5 | Purchases |  | 60,000 | - |
| 6 | Sales | - | $1,55,000$ |  |
| 7 | Royalties | 6,000 | - |  |
| 8 | Trade Expenses |  | 8,000 | - |
| 9 | Returns Outwards | - | 1,000 |  |
| 10 | Advertisement |  | 1,500 | - |
| 11 | Bills Payable | - | 2,000 |  |
| 12 | Wages and Salaries |  | 4,800 | - |
| 13 | Reserve Fund |  | - | 6,000 |

| 14 | Cash in hand |  | 8,500 | - |
| :--- | :--- | :--- | ---: | :--- |
| 15 | Debtors |  | 68,000 | - |
| 16 | Bad debts |  | 4,400 | - |
| 17 | Investments |  | $1,30,000$ | - |
| 18 | Bills Receivable | 12,000 | - |  |
| 19 | Discount | 2,500 | 2,500 |  |
| 20 | Motor Van |  | 15,000 | - |
| 21 | Furniture |  | 8,000 | - |
| 22 | Office Rent |  | 3,000 | - |
| 23 | Plant \& Machinery |  | 25,000 | - |
| 24 | Freehold Property |  | $1,30,000$ | - |
|  |  |  | $\mathbf{5 , 3 6 , 5 0 0}$ | $\mathbf{5 , 3 6 , 5 0 0}$ |

Q. 6 The following figures were taken from the books of Ashok on $31^{\text {st }}$ March, 2010.

| Particulars | Rs. | Particulars | Rs. |
| :--- | ---: | :--- | ---: |
| Cash at bank | 26,400 | Royalties received | 400 |
| Cash in hand | 30 | Trade and General |  |
| Sales | $2,61,230$ | Expenses | 5,020 |
| Stock (1 ${ }^{\text {st }}$ April, 2009) | 27,410 | Reserve on Patents | 5,000 |
| Sales Returns | 3,300 | Interest on Loan | 1,240 |
| Discount (Dr.) | 6,380 | Repairs | 840 |
| Bills Receivable | 1,820 | Sundry Debtors | 20,780 |
| Sundry Debtors | 52,720 | Buildings | 95,820 |
| Depreciation | 4,780 | Patent rights | 50,000 |
| Purchases | $1,84,030$ | Loan (raised on | 45,000 |
| Discount on Purchases | 3,900 | mortgage of buildings) |  |
| Wages | 14,040 | Agent's Commission | 6,500 |
| Provision for bad debts | 5,400 | Bad Debts | 1,900 |
| Provision for discounts |  | Plant and Machinery | 30,000 |
| on Debtors | 1,970 | Capital | $2,00,000$ |
|  |  | Drawings | 30,000 |
|  |  | Advertising | 1,000 |
|  |  | Carriage | 450 |

In addition, the following information is given.
a) Stock on $31^{\text {st }}$ March, 2010 was Rs. $82,500 /$-.

Prepare Trading and Profit and Loss Account of Ashok for the year ended $31^{\text {st }}$ March, 2010 and his balance sheet as on that date.

## PARTNERSHIP FINAL ACCOUNTS

Unit Structure:
7.0 Objectives
7.1 Introduction
7.2 Definition
7.3 Characteristics of Partnership
7.4 Types of Partners
7.5 Partnership Deed
7.6 Provisions of Partnership Act 1932
7.7 Methods of maintaining Capital Account
7.8 Partnership Final Accounts
7.9 Adjustments
7.10 Recent addition (L.L.P.)
7.11 Illustrations
7.12 Exercises
7.0 OBJECTIVES
After studying the Unit the students will be able to:

- Define partnership and explain the characteristics of Partnership.
- Explain the types of Partners.
- Understand the methods of maintaining Capital accounts
- Make the adjustment entries and prepare the Final accounts of a partnership firm.

### 7.1 INTRODUCTION

In small business, sole trader can manage business. He can himself provide the capital and supervise the work. However, there are numbers of limitations: To over come limitations, businessmen may convert his business into Partnership. Each partner contribute
capital and in return each partner get a share in the profits of the firm.

### 7.2 DEFINITION :

As per Indian Partnership Act 1932, "Partnership is the relation between persons who have agreed to share the Profit / Loss of a business carried on by all or any of them acting for all."

### 7.3 CHARACTERISTICS OF PARTNERSHIP

a) It is a voluntary association of persons.
b) The relations among them are contractual.
c) Each partner is Principal as well as Agent.
d) All the partners can take active part in business.
e) Profit / Loss are shared by the partners as per Partnership Deed.
f) Minimum two and maximum 10 partners are allowed for banking business, however maximum 20 partners are all for the general business.
g) The liability of the partners is unlimited.

### 7.4 TYPES OF PARTNERS

i) Active Partner : taking active part in firm business
ii) Sleeping / Dormant : Not taking active part in business, Partner provides capital.
iii) Nominal Partner : Only he lends his name in firm.
iv) Partners by holding out / by Estoppel
v) Minor Partner
vi) Limited Partner
: He represents himself as partner, even though he is not a partner.
: He is less than 18 year old, shares in only Profit of business.
: His liabilities is limited to the extent, the capital contributed by him.

### 7.5 PARTNERSHIP DEED

It is much agreement, in writing between the partners of the firm. The terms of contracts are written in Deed. It is prepared on stamp paper and signed by all partners. Copy partnership deed are submitted to the Bank, Income Tax Departments, Sales Tax Departments etc. Deed indicates the rights, duties and liabilities of the partner. Partnership Deed contents various term, conditions,

Profit / Loss sharing, Interest on Capital and drawings, method of valuation of Goodwill etc.

### 7.6 PROVISION OF PARTNERSHIP ACT 1932

Normally all terms and condition are stated in Partnership Deed. In case of deed is silent on certain matters, provision of Partnership Act, 1932 are applicable;

1. Profit and Losses shares by all partners equally.
2. No interest on capital and drawings.
3. No salary commission etc. payable to partner.
4. Interest @ 6\% p.a. can be paid on Loan from partner.
5. Every partner can take active part in the Partnership business and can inspect the books of accounts.
6. Partner cannot start any parallel business in competition.

### 7.7 METHODS OF MAINTAINING CAPITAL ACCOUNT

There are two methods of maintaining Partner's Capital Accounts.
a) Fixed Capital Method
b) Fluctuating Capital Method

### 7.7.1 Fixed Capital Method :

Under this method, capital contributed by partners remain fixed forever. Capital balances are not changed. Partners Current Account are open for recording transactions like interest on capital, drawing in cash or kind, share in Profit or Loss etc. Therefore Partners Current Account may have debit balance or credit balance. Debit balances of Current Account are shown on assets side of the Balance Sheet and vice versa.

### 7.7.2 Fluctuating Capital Method :

Under this method Capital Account of partner always fluctuates. It do not remains fixed as internal transactions of partner with firm are recorded in Capital Account only. Due to recording of internal transactions, capital balance fluctuates / changes.

### 7.8 PARTNERSHIP FINAL ACCOUNTS

Partnership Final Accounts consist of :
i) Trading Account
ii) Profit \& Loss Account
iii) Profit and Loss Appropriation A/c
iv) Balance Sheet of Firm

### 7.8.1 Trading, Profit \& Loss Account

Partnership Trading, Profit and Loss A/c are prepared on same line as Sole Proprietor. As these are discuss earlier, so not explain again.

### 7.8.2 Profit \& Loss Appropriation Account

Net Profit or Net Loss from business is ascertain in Profit \& Loss Account. This Net Profit / Net Loss transferred to Profit \& Loss Appropriation A/c. Internal amount payable to partners like partner Salaries, Commission, Interest on Partners Capital, Interest on drawings etc. are charges against Net Profit. Balance Net Profit / Net Loss is transferred to Partners Current Account / Capital Account as the case may be, specimen of Profit \& Loss Appropriation is as under -

## Profit \& Loss Appropriation Account for the year ended <br> $\qquad$

### 7.8.3 Balance Sheet of Partnership Firm :

Balance Sheet of Partnership Firm is also like a Balance Sheet of Sole Proprietor only differ is that instead of sole proprietor capital alone, there will be each partners capital balances, may have Partners Current Account balances, Specimen of Balance Sheet as under.

Balance Sheet as on $\qquad$

| Liabilities | Rs. | Assets | Rs. |
| :---: | :---: | :---: | :---: |
| Partner's Capital A/c |  | Cash on hand | XX |
| $\mathrm{R} \quad \mathrm{XX}$ |  | Bank balance | XX |
| $\mathrm{K} \quad \mathrm{XX}$ |  | Sundry Debtors | XX |
| $G \quad X X$ | XX | Bills Receivable | XX |
| Partners Current A/c |  | Prepaid Expenses | XX |
| $\mathrm{R} \quad \mathrm{XX}$ |  | Income receivable | XX |
| $\mathrm{G} \quad \mathrm{XX}$ | XX | Investments | XX |
| Sundry Creditors | XX | Office Equipments | XX |
| Bank Loan | XX | Plant \& Machinery | XX |
| Outstanding Expenses | XX | Patents | XX |
| Income received in |  | Land \& Building | XX |
| advance | XX | Goodwill | XX |
| Provident Fund | xx | Partners Current A/c |  |
| Reserve Fund | xx | $\mathrm{K} \quad \mathrm{XX}$ | XX |
|  | XX |  | XX |

Balance Sheets Liabilities side total must be equal to total Assets.

### 7.9 ADJUSTMENTS

In addition to normal adjusts discuss in Final Accounts of Sold Trader, there may few more adjustment in respects of firm as under.

### 7.9.1 Interest on Capital :

Calculate interest on Capital @ rate given,
Profit \& Loss Appropriation A/c
Dr. XX

To Interest on Partners Capital A/c XX (Being interest on partners' capital provided.)

Interest on Capital A/c
Dr. XX
To Partner Capital A/c XX (Being interest on Capital transferred.)

### 7.9.2 Interest on Partners drawings :

Interest may be charged on drawings made by Partner to make distribution of Profit more equitable. Since drawing are made through the year it is calculated as under -

If amount are withdrawn equally every month.
a) Middle of each month $=$ Int. for 6 months
b) $O n 1^{\text {st }}$ Day of month $=$ Int. for $61 / 2$ month
c) On Last Day of month $=\operatorname{Int}$. for $51 / 2$ month

Entry :
a) Interest on drawing $\mathrm{A} / \mathrm{c}$
Dr. XX
To Profit \& Loss Appropriation A/c XX
b) Partners Capital A/c
Dr. XX
To Interest on drawings A/c
XX

### 7.9.3 Salaries to Partners :

Profit \& Loss Appropriation A/c .................. Dr. XX
To Partner's Capital A/c XX
Remaining balance in Profit \& Loss Appropriation Account indicates distributable Profit / Loss which should be transferred to Partner's Capital Account.

In case of Profit
Profit \& Loss Appropriation A/c .................... Dr. XX
To A's Capital A/c XX
To B's Capital A/c
XX
(Being Net Profit transferred to partners in their Profit / Loss sharing ratio.)

Note:1) If Partners Capital are fixed, then instead of Capital Account, all above i.e. Interest, Salary, Net Profit etc. are transferred to Partner's Current Account.
2) Profit adjustment due to Guarantee etc. are not specially covered in syllabus \& hence not considered.

### 7.10 LIMITED LIABILITY PARTNERSHIP ACT (L.L.P.)

The Act called Limited Liability Partnership Act (L.L.P.) extended scope and working of Partnership. A present partnership firm can also be converted into L.L.P. It has number of advantages over Partnership Firm or Private Ltd. Company. Number of partners limits not applicable to L.L.P. Here are number of advantages over Partnership Firm mainly liabilities of partners rusticated to capital contribution by partners. L.L.P. enjoys more or less advantages like in private limited company.
7.11 ILLUSTRATIONS

Illustrations 1: From the following trial balance of Neela and Sheela. You are required to prepare Trading and Profit \& Loss Account for the year ended $31^{\text {st }}$ March 2007 and Balance sheet as on that date after considering the following adjustments.

Trial Balance as on 31 ${ }^{\text {st }}$ March 2007

| Particulars | Rs. | Rs. |
| :--- | ---: | :---: |
| Opening Stock | 17,500 | - |
| Salaries and Wages | 4,600 | - |
| Cash in hand | 6,000 | - |
| Purchase and Sales | $1,12,600$ | $2,65,000$ |
| Office Expenses | 4,300 | - |
| Productive Wages | 7,000 | - |
| Bills Receivable | 4,000 | - |
| Legal Expenses | 3,300 | - |
| Bad debts | 1,900 | - |
| Works Managers Salary | 5,600 | - |
| Commission | 1,800 | 2,500 |
| Investments | 42,000 | - |
| Debtors | 67,500 | - |
| Creditors | - | 92,000 |
| Bank overdraft | - | 88,000 |
| Patents | 38,000 | - |
| Loose Tools | 28,000 | - |
| Furniture | 65,000 | - |
| Goodwill | 80,000 | - |
| Interest | - | 1,600 |
| Land \& Building | $1,25,000$ | - |
| Capital Accounts : |  |  |
| Neela | - | $1,10,000$ |
| Sheela | - | $1,05,000$ |
| Drawings : |  |  |

| Neela | 20,000 | - |
| :--- | ---: | :---: |
| Sheela | 30,000 | - |
|  | $\mathbf{6 , 6 4 , 1 0 0}$ | $\mathbf{6 , 6 4 , 1 0 0}$ |

## Adjustments:

1) Partners shares Profit and losses equally.
2) The Closing Stock cost Rs.25,000/- market value Rs.19,000/-.
3) Neela has withdrawn goods worth Rs.800/- for personal use.
4) Depreciate Land and Building at 10\% p.a. and Loose Tools 15\% p.a.

### 7.12 EXERCISES

### 7.12.1 Theory Questions :

a) What is Partnership Deed?
b) What are provisions of Partnership Act relating Accounts of Partnership?
c) State different methods of maintaining Capital Account.
d) What are provisions of Indian Partnership Act 1932 in respect of interest on Capital, Drawings and Loan's from Partner?
e) What are different types of Partners?

### 7.12.2 Practical Questions

Q. 1 R and K are partners in a firm sharing Profits and Losses in the ratio $3: 2$. Their trial balance on $31 / 03 / 2010$ was as follows:

Trial Balance as on $31^{\text {st }}$ March, 2010

| Particulars | Debit <br> (Rs.) | Particulars | Credit <br> (Rs.) |
| :--- | ---: | :--- | ---: |
| Opening Stock | 26,700 | R's Capital | 36,000 |
| Purchases | 60,000 | K's Capital | 24,000 |
| Plant \& Machinery | 21,000 | Sales | $1,50,000$ |
| Furniture | 1,400 | Creditors | 4,400 |
| Carriage | 1,500 | Unpaid Wages | 900 |
| Wages and Salaries | 45,000 | Return Outwards | 1,500 |
| Traveling Expenses | 9,750 |  |  |
| Taxes and Rent | 1,950 |  |  |
| Bills Receivable | 3,000 |  |  |
| Debtors | 24,000 |  |  |
| Return Inwards | 3,750 |  |  |
| Bank | 13,500 |  |  |
| Commission | 1,500 |  |  |
| Bad Debts | 600 |  |  |
| Cash in hand | 150 |  |  |
| R's Drawing | 1,800 |  |  |
| K's Drawing | 1,200 |  |  |
|  |  |  |  |

|  | $2,16,800$ |  | $2,16,800$ |
| :--- | :--- | :--- | :--- |

Prepare Trading and Profit \& Loss Account for the year ending 31/03/2010 and the Balance Sheet as on that date after making the following adjustments.

1) Closing Stock was valued at Rs.27,900/-.
2) Depreciation Plant \& Machinery by 10\% p.a.
Q. 2 Usha, Uma and Urmila were partners sharing profits \& losses in the ratio 2:2:1 respectively. The trial balance of their firm on $31^{\text {st }}$ March, 2010 was follows :

Trial balance

| Particulars | Debit <br> (Rs.) | Particulars | Credit <br> (Rs.) |
| :--- | ---: | :--- | ---: |
| Opening Stock | 8,000 | Capital Accounts : |  |
| Purchases | 50,000 | Usha | 20,000 |
| Wages | 7,000 | Uma | 20,000 |
| Carriage Inwards | 2,000 | Urmila | 10,000 |
| Electricity \& Insurance | 1,900 | Current Accounts : |  |
| Return Inwards | 4,000 | Usha | 4,000 |
| Salaries | 9,700 | Uma | 2,550 |
| Bad debts | 4,100 | Urmila | 500 |
| Bills Receivable | 7,800 | Sales | 90,000 |
| Debtors | 10,200 | Rent received | 4,400 |
| Building | 30,000 | Creditors | 30,000 |
| Traveling Expenses | 4,900 | Sundry income | 350 |
| Cash at Bank | 5,900 |  |  |
| Prepaid Insurance | 100 |  |  |
| Vehicle | 10,000 |  |  |
| Audit Fees | 700 |  |  |
| Machinery | 25,500 |  | $\mathbf{1 , 8 1 , 8 0 0}$ |
|  | $\mathbf{1 , 1 8 , 8 0 0}$ |  |  |

Prepare Trading and Profit \& Loss Account for the year ended $31^{\text {st }}$ March, 2010 and the Balance Sheet as on that date after making the following adjustments:

1) Goods worth Rs.6,000/- were destroyed by fire and Insurance Company admitted the claim for Rs.5,300/-.
2) Outstanding Expenses were Wages of Rs.1,500/- and Electricity Rs.400/-.
3) Closing Stock was valued at Rs.42,500/-.
4) Provide Salary to Partner Usha Rs.1,000/- p.a. and Interest on Capital @ 12\% p.a.
Q. 3 From the following trial balance prepare the Trading and Profit \& Loss Account for the year ending 31 ${ }^{\text {st }}$ March, 2010 and a balance sheet as on that date, after taking into considerations the following adjustments.

Trial Balance as on 31 ${ }^{\text {st }}$ March, 2010

| Particulars | Debit <br> (Rs.) | Particulars | Credit <br> (Rs.) |
| :--- | ---: | :--- | ---: |
| Opening Stock | 20,000 | Bills Payable | 10,000 |
| Sundry Debtors | 28,000 | Returns Outwards | 2,500 |
| Purchases | 40,000 | Sundry Creditors | 21,500 |
| Wages | 8,500 | Sales | 70,000 |
| Salaries | 2,700 | $10 \%$ Loan (taken on | 3,000 |
| Office Expenses | 2,445 | $1^{\text {st }}$ Oct. 2009) |  |
| Insurance | 1,300 | Commission | 1,400 |
| Plant \& Machinery | 30,000 | Discount Received | 500 |
| Rent | 1,800 | Rent Received | 700 |
| Traveling Expenses | 1,400 | Capital of Partners : |  |
| Return Inwards | 3,500 | A | 40,000 |
| Land \& Building | 44,800 | B | 50,000 |
| Bills Receivable | 4,000 |  |  |
| Bank Balance | 6,655 |  |  |
| Furniture | 2,400 |  | $\mathbf{1 , 9 9 , 6 0 0}$ |
| Sundry Expenses | 1,400 |  |  |
| Advertisement | 700 |  |  |

## Adjustments :

1) Stock as on 31.03 .2010 was valued at Rs.25,000/-.
2) Outstanding Salaries Rs.6,000/- not provided.
3) Prepaid Insurance Rs.250/-.
4) Provide Interest on Capital @ 10\% p.a.
Q. 4 From the following Trial Balance of Jayshree trader, Jalgaon, prepare Trading and Profit and Loss Account for the year ending 31/3/2010 and Balance Sheet on that date :

Trial Balance

| Particulars | Debit <br> (Rs.) | Particulars | Credit <br> (Rs.) |
| :--- | ---: | :--- | ---: |
| Opening Stock | 10,000 | Bank Overdraft | 35,000 |
| Purchases | 60,000 | Creditors | 22,000 |
| Wages | 7,000 | Reserve for doubtful |  |
| Carriages | 2,500 | debts | 700 |
| Salaries and Wages | 4,900 | Sales | $1,20,000$ |
| Printing | 2,700 | Capital Account : |  |
| Advertisement | 1,000 | Hemant | 32,000 |
| Bad debts | 2,900 | Shantanu | 16,000 |
| Discount | 2,500 | Current Account : |  |
| Debtors | 16,000 | Hemant | 3,000 |
| Bills Receivable | 13,200 | Shantanu | 2,000 |
| Building | 30,000 |  |  |
| Machinery | 42,000 |  |  |
| Cash in hand | 5,200 |  |  |
| Motor Car | 20,000 |  | $\mathbf{2 , 3 0 , 7 0 0}$ |
| Drawings: |  |  |  |
| Hemant | 4,800 |  |  |
| Shantanu | 6,000 |  |  |
|  |  |  |  |

## Adjustments :

1) Depreciate Building by $5 \%$ and Machinery by $10 \%$.
2) Otstanding expenses were : Printing Rs.200/-, Wages Rs.1,200/-.
3) Goods of Rs.1,000/- purchased on $31^{\text {st }}$ March, 2010 were included in Closing Stock but were not recorded in Purchases Book.
4) Cost price of Closing Stock was Rs. $20,500 /-$ while its market price was Rs.25,000/-.
Q. 5 The trial balance of M/s. Shrikant Traders as on $31^{\text {st }}$ March, 2010 is given below.

Trial Balance as on $31^{\text {st }}$ March, 2010

| Particulars | Debit <br> (Rs.) | Particulars | Credit <br> (Rs.) |
| :--- | ---: | :--- | ---: |
| Drawings | 750 | Sales | 75,500 |
| Land and Building | 20,000 | Purchase Returns | 1,000 |
| Plant \& Machinery | 6,000 | Sundry Creditors | 12,600 |
| Cash at Bank | 550 | Discount earned | 50 |
| Purchases | 47,500 | Outstanding Salaries | 100 |
| Sales Returns | 1,500 |  |  |
| Carriage Inward | 350 | Capital Account : |  |
| Opening Stock | 11,000 | A | 15,000 |
| Wages | 6,000 | B | 20,000 |
| Sundry Debtors | 17,600 | Current Account : |  |
| Salaries | 2,500 | A | 1,000 |
| Postage \& Telegram | 200 | B | 750 |
| Rent \& Insurance | 400 |  |  |
| Bad debts | 250 |  |  |
| Discount | 100 |  |  |
| Trade Expenses | 300 |  |  |
| Furniture | 5,000 |  |  |
| Commission | 500 |  | $\mathbf{1 , 2 6 , 0 0 0}$ |
| Prepaid Insurance | 300 |  |  |
| Printing \& Stationery | 700 |  |  |
| Cash in hand | 2,000 |  |  |
| Patents | 2,500 |  |  |
|  |  |  |  |

## Adjustments :

1) Stock as on $31^{\text {st }}$ March, 2010 was valued at Rs. $25,000 /$-.
2) Outstanding wages Rs.600/- and outstanding rent Rs.700/-
3) Provide $10 \%$ depreciation on Plant \& Machinery and 5\% depreciation of Furniture.
4) $5 \%$ interest allowed on capital.

Prepare a Trading Account and Profit and Loss Account for the year ended $31^{\text {st }}$ March, 2010 and the Balance Sheet as on that date.
Q. 6 From the following Trial Balance of $\mathrm{M} / \mathrm{s}$ Chavan and Deshpande, you are required to prepare Trading and Profit and Loss Account for the year ended $31^{\text {st }}$ March, 2010 and the Balance Sheet as on that date after taking into account the necessary adjustment.

## Trial Balance

| Particulars | Debit <br> (Rs.) | Credit <br> (Rs.) |
| :--- | ---: | :---: |
| Chavan's Capital | - | $1,80,000$ |
| Deshpande's Capital | - | $1,50,000$ |
| Chavan's Drawings | 14,450 | - |
| Deshpande's Drawings | 10,000 | - |
| Stock on 01/04/2009 | $2,00,000$ | - |
| Bills Receivable | $2,75,000$ | - |
| Purchases | - | - |
| Sales | - | $4,00,000$ |
| Bills Payable | 5,000 | - |
| Returns Inward | - | 4,500 |
| Returns Outward | $1,00,000$ | - |
| Plant and Machinery | 25,000 | - |
| Loose Tools | 25,000 | - |
| Patents | $1,25,000$ | - |
| Sundry Debtors | - | $1,40,000$ |
| Sundry Creditors | 77,550 | - |
| Cash at Bank | 19,000 | - |
| Wages | 17,500 | - |
| Salaries | 7,500 | - |
| Rates \& Taxes | 3,000 | - |
| Insurance | 2,000 | - |
| Printing and Stationery | 3,500 | - |
| Power and Fuel |  |  |
|  | $9,34,500$ | $\mathbf{9 , 3 4 , 5 0 0}$ |

## Adjustments:

1) Stock as on $31^{\text {st }}$ March 2010 valued at Rs.2,42,000/-.
2) Depreciate Plant \& Machinery by $10 \%$ p.a.

## COST ACCOUNTING

## Unit Structure:

8.0 Objectives
8.1 Introduction
8.2 Limitations of Financial Accounting
8.3 Meaning of Cost, Costing and Cost Accounting
8.4 Cost Centre and Cost Units
8.5 Objectives of Cost Accounting
8.6 Classification of Cost
8.7 Elements of Cost
8.8 Methods Of Costing
8.9 Key Points
8.10 Additional Readings
8.11 Exercise

### 8.0 OBJECTIVES

After studying this chapter, you should be able to understand:

- Need for Cost Accounting
- Meaning of Cost, Costing and Cost Accounting
- Objectives of Cost Accounting
- Classification of Cost
- Elements of Cash
- Methods of Costing

### 8.1 INTRODUCTION

Cost Accounting is the system of accounting which is concerned with determination of costs of doing something which can be manufacturing or rendering service or even conducting any
activity or function. The objective of Cost Accounting is to render detailed and useful information for guidance to Management.

Financial accounting is developed over the time to record, summarise and present the financial transaction or events which can be expressed in terms of money. This function was primarily concerned with record keeping, leading to preparation of Profit and Loss Account and Balance Sheet. The information obtained through financial statements is useful to the Management or Owner in several respects. However, the information provided by financial accounting is not sufficient for several purposes of decision making in many areas such as : determining output level, determining product selection - addition or dropping or changing product combination in the case of multi product company, determining or revising prices of products, whether Profit earned is optimum as compared with competitors and in comparison to earlier years.

The need of data for such details lead to the development of Cost Accountancy.

### 8.2 LIMITATIONS OF FINANCIAL ACCOUNTING

Financial accounting does not help in day to day management of the organisation. Cost Accounting has emerged mainly because of certain limitations of financial accounting, which are summarized as follows -

1) Financial accounting provides information about the business as a whole. But it does not reveal Profit or loss of each department or product or process.
2) Material and supplies can not be controlled effectively. There is no proper system of control of material which may in losses in the form of deterioration, scrap, misappropriation etc.
3) It does not provide cost information for fixation of prices of products and services.
4) It does not classify the expenses into direct and indirect, fixed and variable and controllable and non-controllable.
5) There is no system of recording loss of labour, i.e. idle time and labour cost is not recorded by jobs, processes etc.
6) Financial accounting is a historical record. It does not help in controlling the cost.
7) It does not facilitate cost reduction which is very important and necessary for cost control.
8) It fails to supply useful information to management for taking various decisions like replacement of labour by machine,
introduction of new product, make or buy, selection of most profitable product mix etc.

Therefore, Cost Accounting has developed as a separate branch of accounting. Both cost and financial accounting are concerned with systematic recording and presentation of financial data. Financial accounting reveals Profit / Loss of business as a whole for a certain period. But Cost Accounting reveals Profit / Loss of different product lines. It helps to decide profitability of each process or each product.

### 8.3 MEANING OF COST, COSTING and COST ACCOUNTING

### 8.3.1 Cost :

Institute of Cost and Works Accountants of India, defines cost as "measurement, in monetary terms, of the amount of resources used for the purpose of production of goods or rendering services".

Thus the term cost means the amount of expenditure, actual or notional incurred or attributable to a given thing. It can be regarded as the price paid for attaining the objective. For e.g. Material cost is the price of materials acquired for manufacturing a product.

### 8.3.2 Costing :

The term costing has been defined as "the techniques and processes of ascertainment of costs. Whelden, has defined costing as, "the classifying recording and appropriate allocation of expenditure for the determination of costs the relation of these costs to sale value and the ascertainment of profitability." Therefore costing involves the following steps.

1) Ascertaining and Collecting of Costs
2) Analysis or Classification of Costs
3) Allocating total costs to a particular thing i.e. product, a contract or a process.

Thus costing simply means cost finding by any process or technique.

### 8.3.3 Cost Accounting :

Cost Accounting is a formal system of accounting by means of which cost of products or service, are ascertained and controlled.
"Whelden" defines Cost Accounting as "Classifying, recording and appropriate allocation of expenditure for determination of costs of products or services and for the presentation of suitably arranged data for the purpose of control and guidance of management."

Therefore, Cost Accounting is the application of costing principles, methods and techniques in the ascertainment of costs and analysis of savings or / and excesses as compared with previous experience or with standards. It provides, detailed cost information to various levels of management for efficient performance of their functions. The information supplied by Cost Accounting as a tool of management for making optimum use of scarce resources and ultimately add to the profitability of business.

Cost Accounting = Costing (+) Application of Cost control methods and ascertainment of profitability (+) Presentation of relevant information for managerial decision making.

### 8.4 COST CENTRE AND COST UNITS

### 8.4.1 Cost Centre :

It is a location, person or item of equipment for which cost may be ascertained and used for the purpose of cost control. It is a convenient unit of the organisation for which cost may be ascertained. The main purpose of ascertainment of cost is to control the cost and fill up the responsibility of the person who is incharge of the cost centre.

- Types of cost centers :

## I. Personal Cost Centre :

It consists of a person or group of persons.
e.g. machine operator, salesmen, etc.

## II. Impersonal Cost Centre :

It consists of a location or an item of equipment or group of these. E.g. Factory, Machine etc.
III. Operational Cost Centre :

This consists of machines or persons carrying on similar operations.

## IV. Process Cost Centre :

This consists of a continuous sequence of operation or specific operations.

## V. Production Cost Centre :

This is the centre where actual production takes place or these include, those departments that are directly engaged in manufacturing activity and contribute to the content and form of finished product.
e.g. Cutting, Assembly and Finishing Departments etc.

## VI. Service Cost Centre :

This is the Centre which renders services to production centres. These contribute to the production process in an indirect manner.
e.g. Stores department, Repairs and Maintainance department, H.R. Department, Purchase Department etc.

### 8.4.2 Cost unit :

It is a unit of product, service or time in terms of which cost are ascertained or expressed. It is basically, a unit of quantity of product or service in relation to which costs may be ascertained or expressed.

Few examples of cost unit are given below.

| Name of Industry | Cost unit |
| :--- | :--- |
| Textiles | Meter, yards |
| Transport | Passenger km |
| Power | Kilowatt - hour |
| Paints | Litre |
| Iron and Steel | Tonne |
| Canteen | Per meal |
| Chemical | Litre, kilogram |

| Readymade Garments <br> Petrol | Number <br> Litre |
| :--- | :--- |

### 8.5 OBJECTIVES OF COST ACCOUNTING

Objectives of Cost Accounting are as follows:

1) Ascertain Cost : To ascertain the cost of product or a services reveled and enable measurement of profit by proper valuation of inventory.
2) Analyse Costs : To analysis costs or to classify the expenses under different heads of accounts viz. material, labour, expenses etc.
3) Allocate and Apportion the Costs: To allocate or charge the direct expenses or specific costs such as Raw Material, Labour to particular product, contract or process and to distribute common expenses to each product, contract or process on a suitable basis.
4) Cost Reporting : Cost Reporting or presentation includes:
a) What to report i.e. what is the nature of information to be presented?
b) Whom to Report i.e. to whom the report is to be addressed.
c) When to Report i.e. when the report is to be presented i.e. Daily weekly monthly yearly etc.
d) How to Report i.e. in what format the report is to be presented.
5) Assist the Management : Cost Accounting assist the management in the following ways
a) Indicate to the management any inefficiencies and extent of various forms of waste of Raw Material, Time, Expenses etc.
b) Help the management in fixing of selling price.
c) Provide information to enable management to take decision of various types.
6) Cost Control : Cost Accounting assist the management in cost control. Cost control includes the following stages.
a) Setting up of targets of cast and production for each period.
b) Measuring the actual figures of performance relating to cost, production etc. for the period concerned.
c) The figures of actual performance are to be compared with the targets to find out the variation.
d) Analysing the variance, whether favourable or adverse.
e) Immediate action has to be taken in case of adverse variation.
7) Controlling Inventory : Assist the management in controlling Inventory of Raw Material, goods in process, finished goods, spares and consumables etc.
8) Optimum Product Mix : Advise the management in deciding optimum product mix merits and demerits of alterative courses of action viz. make of buy decisions, introduction or Automation mechanization, rationalization, system of production etc.
9) Future Policies : Advise management on future policies regarding Expansion, growth, capital investment, etc.

### 8.6 CLASSIFICATION OF COST

Classification is the process of grouping costs according to their common characteristics. It is a systematic placement of like items together according to their common features. There are various ways of classifying costs, according to their common features as given below.

Chart showing classification of cost :

Other Basis

## I On the basis of Identification :

On the basis of identification of cost with cost units or jobs or processes, costs are classified into -

1) Direct Costs
2) Indirect Costs
3) Direct Costs : These are the costs which are incurred for and conveniently identified with a particular cost unit process or department. These are the expenditures which can be directly allocated to a particular job, product or an activity. Eg. Cost of Raw Material used, wages paid to labourers etc.
4) Indirect Costs : These are general costs and are incurred for the benefit of a number of cost units, processes or departments. These costs can not be conveniently identified with a particular cost unit or cost centre.
Example : Depreciation of Machinery, Insurance, Lighting, Power, Rent of Building, Managerial Salaries, etc.

## II On the basis of behaviour of Cost

Behaviour means change in cost due to change in output. Costs behave differently when the level of production rises or falls. Certain costs change in direct proportion with production level while other costs remain unchanged. As such on the basis of behaviour of cost - costs are classified into

1) Fixed Costs.
2) Variable Costs.
3) Semi Variable Costs.
4) Fixed Costs : It is that portion of the total cost which remain constant irrespective of output upto the capacity limit. It is the cost which does not very with the change in the volume of activity in the short run. These costs are not affected by temporary fluctuation in the activity of an enterprise. These are also known as period costs as it is concerned with period. Rent of premises, tax and insurance, staff salaries, are the examples of fixed cost.

Characteristics of Fixed Cost are :

1) Large in value
2) Fixed amount within an output range
3) Fixed cost per unit decreases with increased output
4) Indirect Cost
5) Lesser degree of controllability
6) Influence Variable Cost and Working Capital

Behaviour of Fixed Cost
2) Variable Cost: It is that cost which directly very with the volume of activity. In other words, it is a cost which changes according to the changes in the volume of output. It tends to very in direct proportion to output. It means when the volume of output increases, total variable cost also increases when the volume of output decreases, total variable cost also decreases. But the variable cost per unit remains same. Direct material, Direct Labour, Direct Expenses are the examples of variable costs. Characteristics of Variable Cost are :

1) Total cost changes in direct proportion to the change in total output.
2) Cost per unit remains content.
3) It is quite divisible.
4) It is identifiable with the individual cost unit.
5) Such costs are controlled by functional manager.

## Behaviour of Variable Cost

3) Semi-Variable Cost : This is also referred as semi-fixed costs. These costs include both a fixed and a variable component. i.e. These are partly fixed and partly variable. They remain constant upto a certain level and registers change afterwards. These costs vary in some degree with volume but not in direct or same proportion. Such costs are fixed only in relation to specified constant condition.

For example : Repairs and maintainance of machinery, telephone charges, maintainance of building, supervision, professional tax, compensation for accidents, light and power etc.

## III. On the basis of Controllability

On the basis of controllability, costs are classified into two types :

1) Controllable Cost
2) Uncontrollable Cost
3) Controllable Cost : These are the costs which can not be influenced or controlled by the concerned cost centre or responsibility centre. These costs may be directly regulated at a given level of management authority.
4) Uncontrollable Cost : These are the costs, which can not be influenced or controlled by the action of a specific member of an enterprise. For eg. it is very difficult to control costs like factory rent, managerial salaries etc.

The important points to be noted regarding this classification. First, controllable cost can not be distinguished from noncontrollable costs, without specifying the level and scope of management authority. It means cost which is uncontrollable at one level of management may be controllable at another level of management. Eg. Rent and Factory Building may be beyond control for the production department but can be controlled by the administrative department by negotiations. Secondly all costs are controllable in the long run and at the some appropriate management level.

## IV On the basis of Functions

An organisation performs many functions. On the basis of functions costs can be classified as follows :

1) Manufacturing Costs : It is the cost of all items involved in the manufacturing of a product or service. It includes all direct costs and all indirect costs related to the production. It includes cost of direct materials, direct labour, direct expenses, and overhead expenses related to production. Overhead expenses, means all indirect costs involved in the production process. This is termed as factory overhead or manufacturing overheads. Eg. Salaries of staff for production department, technical supervision, Expenses of stores department, Depreciation of Plant and Machinery, Repairs and maintainance of Factory Building and Machineries etc.
2) Administration Cost : These are costs incurred for general management of an organisation. It is the cost which is incurred for formulating the policy, directing the organisation of controlling the operations. These are in the nature of indirect costs and are also termed as administrative overhead. Eg. Salaries of Administrative Stall, General Office expenses like rent, lighting, telephone, stationery, postage etc.
3) Selling and Distribution Costs : Selling costs are the indirect costs relating to selling of products or services. They include all indirect cost in sales management for the organisation. Selling costs include all expenses relating to regular sales and sales promotion activities. Examples of expenses which are included in selling costs are :
4) Salaries, Commission and traveling expenses for sales personnel
5) Advertisement cost
6) Legal Expenses for debt realization
7) Market research cost
8) Show room expenses
9) Discount allowed
10) Sample and free gifts
11) Rent on Sales room
12) After sale services

Distribution costs are the costs incurred in handling a product from the time it is completed in the works until it reaches the ultimate consumer. Distribution expenses include all these expenses which are incurred in connection with making the goods available to customers. These expenses include the following.

1) Packing charges
2) Loading charges
3) Carriage on Sales
4) Rent of warehouse
5) Insurance and lighting of warehouse
6) Transportation costs
7) Salaries of godown keeper, driver, packing staff etc.
8) Research and Development Cost : Research and development costs are incurred to discover new ideas, processes, products by experiment. It includes the cost of the process which begins with the implementation of the decision to produce or improved product.

## V On the basis of Time

On the basis of time of computation, costs are classified into historical costs and predetermined costs.

1) Historical Costs : These are the costs which are ascertained after these have been incurred. Historical costs are then nothing but actual costs. They represent the costs of actual operational performance. These costs are not available until after the completion of manufacturing operations.
2) Pre determined Costs : These are the future costs which are ascertained in advance of production on the basis of a specification of all the factors affecting cost and cost data. Predetermined costs are future costs determined in advance on the basis of standards or estimates. These costs are extensively used for the purpose of planning and control.

## VI Other Basis

1) Normal Cost : Normal cost may be defined as a cost which is normally incurred on expected lines at a given level of output, in the condition in which that level of output in normally attained. This cost is a part of production.
2) Abnormal Cost : Abnormal cost is that cost which is not normally incurred at a given level of output, in the condition in which that level of output is normally attained. Such cost is over and above the normal cost and is not treated as a part of the cost of production.
3) Avoidable Cost : The cost which can be avoided under the present conditions is an avoidable cost. These are the costs which under given conditions of performance efficiency should not have been incurred. They are logically associated with some activity and situation and are ascertained by the difference of actual cost with the happening of the situation and the normal cost. Eg. when spoilage occurs in manufacturing in excess of normal limit, the resulting cost of spoilage is avoidable cost.
4) Unavoidable Cost : The cost which can not be avoidable under the present condition is an unavoidable cost. They are inescapable costs which are essentially to be incurred within the limits or norms provided for. It is the cost that must be incurred under a programme of business restriction.

## CHECK YOUR PROGRESS

- Draw the chart showing Classification of Cost.
- Define the following terms:

1. Costing
2. Cost Accounting
3. Impersonal cost center
4. Service Cost center
5. Direct Cost
6. Uncontrollable cost
7. Predetermined cost

- Give Examples:

1. Fixed cost
2. Variable cost
3. Semi variable cost
4. Manufacturing cost
5. Administration cost
6. Selling cost
7. Distribution Cost

### 8.7 ELEMENTS OF COST

A cost is composed of three elements i.e. material, labour and expenses. Each of these elements may be direct or indirect. This is shown as follows :

Direct Costs
Direct Material
Direct Labour Indirect Labour
Direct Expenses Indirect Expenses

### 8.7.1 Material Cost

It is the cost of material of any nature used for the purpose of production of a product or a service. Materials may be Direct Material or Indirect Material.

- Direct material : It is the cost of basic raw material used for manufacturing a product. Direct materials generally became a part of the finished product. No finished product can be manufactured without basic raw material. This cost is easily identifiable and chargeable to the product. For e.g. Leather in leather products, Steel in steel furniture, Cotton in textile etc. Direct material includes the following.

1) All materials specially purchased for production or the process.
2) All components purchased for production or the process.
3) Material transferred from one cost centre to another or one process to another process.
4) Primary packaging materials, wrappings, cardboard boxes etc necessary for production or protection of product.

However, in many cases, though a material forms a part of the finished product, yet it is not treated as direct material. Eg. nails used in furniture, thread used in stitching garments etc. This is because value of such materials is so small that it is quite difficult to measure it.

- Indirect material : It is the cost of material other than direct material which cannot be charged to the product directly. It can not be treated as part of the product. These are minor in importance. It is also known as expenses materials. It is the material which cannot be allocated to the product but can be apportioned to the cost units.

Examples : Lubricants, Cotton waste, Grease, Oil, Small tools, Minor items like thread in dress making, nails in furniture (nuts, bolts in furniture) etc.

Therefore, indirect materials can not be easily identified with specific job. They may not vary directly with the output. It is considered as a part of overheads.

### 8.7.2 Labour Cost

This is the cost of remuneration in the form of wages, Salaries, Commissions, Bonuses etc. paid to the workers and employees of an organisation.

- Direct Labour Cost : Direct Labour Cost is the amount of wages paid to those workers who are engaged on the manufacturing line. It consists of wages paid to workers engaged in converting of raw materials into finished products. The amount of wages can be conveniently identified with a particular line, product, job or process. These workers directly handle machines on the production line. Direct wages include payment made to the following group of workers.

1) Labour engaged on the actual production of the product
2) Labour engaged in aiding the operation viz. supervisor, foremen, shop Clerks and worker on internal transport.
3) Inspectors, Analysts, needed for such production.

Example : Carpenter in furniture making unit, tailor in readymade wear unit, Labour in construction work etc.

- Indirect Labour Cost : It is the amount of wages paid to those workers who are not engaged on the manufacturing line. It is of general character and can not be directly identified with a
particular cost unit. This indirect labour is not directly engaged in the production operations but such labour assist or help in production operations. It can not be easily identified with specific job, contract of work order. It may not vary directly with the output. It is treated as part of overheads.

Example : Labour in Human Resource department, Labour in payroll department, Labour in stores, Labour in Securities Department, Labour in power house department etc.

### 8.7.3 Expenses

All costs other than material and labour are termed as expenses. It is defined as the cost of services provided to an undertaking and the notional cost of the use of owned assets.

- Direct Expenses : It is the amount of expenses which is directly chargeable to product manufactured or which may be allocated to product directly. It can be easily identified with the product. These are the expenses which are specifically incurred in connection with a particular job or cost unit. They are also called as chargeable expenses.

Example : Hire of special plant for a particular job, Travelling expenses in securing a particular contract, Carriage paid for materials purchased for specific job, Royalty paid in mining or production etc.

- Indirect Expenses : All indirect costs other than indirect materials and indirect labour costs, are termed as indirect expenses. It is the amount of expenses which can not be charged to the product directly. These can not be directly identified with particular job, process or work order and are common to cost units' or cost centres. Indirect expenses include factory expenses, administrative overheads, selling and distribution expenses etc.

### 8.7.4 Overhead

This is the aggregate of indirect material cost, indirect labour cost and Indirect expenses.

Thus overhead= Indirect Material + Indirect Labour + Indirect Expenses

### 8.8 METHODS OF COSTING

Methods of Cost Accounting signify the systems used to assign cost elements to cost objects. These are the procedures by which product costs are accumulated. Different methods of cost
determination are used because business vary in their nature and the type of products or services they produce. Following are the different methods of costing.

### 8.8.1 Job costing and Batch Costing:

Job costing is designed to accumulate cost data for a manufacturing firm which produces goods to specific order. It is also known as specific orders costing or production order costing. According to "ICMA", London, it is that category of basic costing method which is applicable where the work consists of separate contract job or batches each of which is authorized by specific order or contract. It is followed by manufacturing and nonmanufacturing concerns. It is employed in industries in which -
a) A production is done on the basis of customer's own specifications.
b) Products are manufactured in distinguishable lots.
c) Products are not uniform.
d) It is practical to maintain a separate record of each lot from the time production is begun until it is completed.

Following is the list of concerns which generally employ job costing method.
a) Printing Work.
b) Design Engineering Concerns.
c) Repair Works.
d) Construction companies.
e) Furniture makers.
f) Hardware industry.
g) Automobile garages.
h) Interior decoration etc.

## Batch Costing

It is a form of job costing in which a batches of identical products is taken as the cost unit. It is used when production consists of limited repetition work and a definite number of articles are manufactured in each batch to be held in stock for sale to customers generally. Thus batch is a cost unit consisting of a group of identical units.

Batch costing is applied in the manufacture of shoes, readymade garments, component parts of cars, radios, watches etc and manufacture of drugs, engineering equipments etc.

For eg. in foot wear industry it is not just economical to manufacture a pair of shoes to meet the requirement of one customer. But batches say 500 to 5000 shoes of each size, style colour etc are economically made and held in stock for sale on demand.

### 8.8.2 Contract Costing:

It is a method of costing in which each contract is taken as a separate costing unit for the purpose of cost ascertainment and control. The objective is find out the Profit or loss on each contract separately. Contract costing is employed in business undertakings engaged in building construction, road construction, bridge construction, dam construction and other civil engineering works, ship building etc.

Contracts are generally of large size. A contract generally takes more than one year to complete. Work on contract is carried out at the site of the contracts and not in factory premises. Payments by the customer (contractee) are made at various stages of completion of the contract based on architects certificate for the completed stage.

### 8.8.3 Process Costing:

It is a method of costing used to ascertain the cost of the product at each process operation or stage of manufacture where processes are carried on. According to ICMA London, "It is that form of operation costing where standardized goods are produced."

Process costing is used to ascertain the cost of product at each stage of manufacture where material is passed through various operations to obtain a final product. This method of costing is used by those concern which manufacture articles of uniform standards. These concerns manufacture articles on a continuous flow basis.

Each process is treated as a cost centre and separate account is opened for each process. All costs related to a process are debited to its process account. The output passing through the process is also recorded. The output of one process becomes the input of next process and so on until the finished product is obtained. This method is suitable for Textile mills, Chemical works, Oil refining, Cement manufactures, Paper Manufacture, Steel production, Paint manufacture, Sugar works, Plastic manufactures etc.

### 8.8.4 Single (output) or unit costing:

It is a method of costing in which cost is ascertained in convenient units of product turned out by continuous manufacturing activity. The unit of costing is chosen according to the nature of product. This method of costing is used in those industries, in which the production consists of a single product or a few varieties of the same product with variations in size, shape, quality etc. and production is uniform and on continuous basis.

Examples of industries in which this method is commonly used are : Cement, Steel, Sugar, Paper brick works, dairies etc. Cost of units in these industries are a tonne of cement, or steel, or sugar, 1000 bricks, a gallon of milk etc.

This method is also known as single costing.

### 8.8.5 Operating Costing:

It is a method of costing which is used in those industries, which are engaged in providing services such as transport, electricity etc. The cost of providing a service is termed as operating cost. Operating costing is used in those industries, where services rendered to customers are of unique and standardized type.

The selection of a suitable cost unit (unit of service) is very important. The cost unit may be different for different type of industries. A few examples are given below.

Undertakings
Transport
Hospital
Hotel
Electricity
Cinema

## Cost Unit

Per passenger km
Per bed per day
Per room per day
Per kilowatt hour
Per seat per show

### 8.8.5 Operation Costing:

Under this method each operation is treated as a cost centre. Costs are accumulated in each operation instead of each process. This method is used by industries engaged in repetitive mass production with continuous flow of work. These industries could be those engaged in the manufacture of leather products, toys, bicycles, ceiling fans, weighing machines etc.

### 8.9 KEY POINTS

- Cost : It is the amount of expenditure, actual or notional incurred on a given thing.
- Costing : It is process of ascertaining the cost.
- Cost Centre : It is a convenient unit for which cost may be ascertained.
- Cost Unit : It is a unit of product or service for which cost is ascertained.
- Cost Control : It involves comparing actual cost with the target and taking remedial action.

## Objectives of -

- Cost Accounting : Ascertain Cost, Analyse Cost, allocate and apportion Cost, Cost Reporting, Assist the management, Cost control, Optimum product mix, Future policies.
- Elements of Cost : Direct Cost - Direct material, Direct labour, Direct expenses. Indirect Cost - Indirect material, Indirect labour, Indirect expenses.
- Methods of Costing : Job and Batch Costing, Contract Costing, Process Costing, Output Costing Operating Costing, Operation Costing.

### 8.10 ADDITIONAL READINGS

1) Cost Accounting - Principles and practice by M.N. Arora
2) Cost Accounting - An introduction by Nigam and Jain
3) Cost Accounting - Chopade and Choudhary

### 8.11 EXERCISE

1) What is meant by Cost Accounting? Explain in brief different ways of Cost Classification.
2) What is Cost Accounting? What are the elements of Cost Accounting?
3) What is Cost Accounting? Explain the methods of Costing.
4) What is Cost Accounting and what are the objectives of Cost Accounting?

## FINANCIAL MANAGEMENT

## Unit Structure:

9.0 Objectives
9.1 Meaning
9.2 Scope of Financial Management
9.3 Role of Financial Management
9.4 Functional areas of Financial Management
9.5 Various Financial Management Tools
9.6 Exercise

### 9.0 OBJECTIVES

After studying the unit the students will be able to:

- Know the meaning of Financial Management.
- Explain the Scope and role of Financial Management.
- Elaborate the Functional areas of Financial Management.
- Understand the various tools of FM, advantages and disadvantages of various tools.

### 9.1 MEANING

Finance may be defined as the art and science of managing money. The major areas of finance are Financial Services and Managerial Finance or Financial Management.

Financial Services is concerned with the design and delivery of advice and financial products to individuals, businesses and governments within the areas of banking are related institutions, personal financial planning, investments, real estate, insurance and so on.

Financial Management is concerned with the duties of the financial managers in the business firm. Financial managers actively manage the financial affairs of any type of business, namely, financial and non-financial, private and public, large and small, profit seeking and not for profit. They perform such varied tasks as budgeting, financial forecasting, cash management, credit administration, investment analysis, funds management and so on.

Financial Management as an integral part of overall management is not a totally independent area. It shows heavily related disciplines and fields of study, such as economic, accounting, marketing, production and quantitative methods.

### 9.2 SCOPE OF FINANCIAL MANAGEMENT

Financial management provides a conceptual and analytical framework for financial decision making. Financial management is an integral part of overall management. It covers both financial function of acquisition of funds and allocation of funds. Thus, apart from this involves acquiring the external funds and the main concern of financial management is the efficient and allocation of funds to various uses.

The financial management consider various financial problems of a firm. The main contents of this approach are -
What is the total volume of a firm or enterprise?
What should an enterprise acquire specific assets?
How should the funds required be financed?
It also consider How should be enterprise large and how fast should it grow?

In what form should it hold assets and what is the position of its liabilities.

The financial management covers the major problems of the firm. The main solutions to this problem corresponding under the various decisions taken by the financial managers. Mostly it covers various fields like investment, financing, dividend policy, capital budgeting, working capital management and so on.

### 9.3 ROLE OF FINANCIAL MANAGEMENT

Role of financial management is very important which are undertaken by finance manager.

1. In performing financial analysis and planning: The concern of financial analysis and planning is -
a. Transforming financial data into a form that can be used to monitor financial condition.
b. Evaluating the need for increased / reduced productive capacity and
c. Determining the additional / reduced financing required.

This activity is fully depend on the financial management. It proves financial management plays on important role in performing financial analysis and planning.
2. In making investment decisions : Financial management plays an very important role in making investment decisions like current assets as well as fixed assets. Financial manager must determine and maintain certain optimum level of each assets. He should also decide which of the best fixed asset acquired and when the existing assets need to be modified or replaced or liquidated.
3. In making financing decisions : Financial management again plays an vital role in making financing decision. It means the finance manager consider which appropriate mix of short term and long term financing selected and the best individual short term or long term sources of financing at a given point of time. These decisions are dedicated as per necessities, but same require an in-depth analysis of the available financing alternatives, the financial manager considers their costs and their long term implications.

### 9.4 FUNCTIONAL AREAS OF FINANCIAL MANAGEMENT

Financial management can be broken down into three different functional areas are as follows -

1. The investment decision
2. The financing decision and
3. The dividend policy decision
4. The Investment Decision : The investment decision relates to the selection of assets in which the funds will be invested by firm. The assets can be acquired fall into 2 categories :
i) Long term assets (fixed assets) which yields a return over a period of time.
ii) Short term or current assets defined as those assets which in the normal course of business are convertible into cash without diminution in value usually within a year.

The investment decision policy is also known as capital budgeting management. If the funds are invested in a long term period for acquiring fixed assets is called as capital budgeting management and vice-versa. If the funds are invested in a current assets is popularly for short term period known as working capital management.
2. Financing Decision : The second major decision involved in financial management is the financing decision. This is concern with the financing mix or capital structure or leverage. The term capital structure refers to the proportion of debt and equity capital. It means the choice of the proportion of these sources of finance is the capital requirement. It gives the theoretical relationship between the employment of debt and the return to the shareholders.
3. Dividend policy decision : The major third decision area of financial management is decision relating to the dividend policy. The dividend decision should be analysed in relation to the financing decision of a firm. The two alternatives are available, i.e. i) The available profits can distributed among the shareholders in the form of dividend or ii) The available profits can be reinvested into business. The decision as to which course should be followed depends largely on a significant element in the dividend decision, the dividend pay our ratio, that is, what proportion of net profits should be paid out to the shareholders.

### 9.5 VARIOUS FINANCIAL MANAGEMENT TOOLS

Following are various financial management tools:

1. Cash flow statement
2. Fund flow statement
3. Ratio analysis

### 9.5.1 Cash Flow Statement :

Cash flow statement means a statement of showing net changes in the position of cash and cash equivalents.

As per as 3 , this would include cash in hand and savings, current account balances with banks, demand deposits with banks and cash equivalents.

Cash equivalents are defined as short term and highly liquid investments that are readily convertible into cash which are subject to insignificant risk of changes in values.

## Uses / advantages of Cash Flow Statement :

1. Efficient Cash Management : The most important function of management is to manage the cash resources in such a way that adequate cash is available for meeting the expenses. It helps to plan and co-ordinate the financial operation of the business.
2. Internal Financial Management : It provides a clear picture of cash flow operations. Therefore, it is very useful for internal financial management.
3. Knowledge of changes in Cash Position : It enables the management to know about the causes of changes in cash position. The finance manager can explain the relationship between profit and cash balance.
4. Success or failure of Cash Planning : Cash flow statement helps to management in making the comparison between actual and budgeted cash flow statement to know the success or failure in cash management. It also helps in taking necessary remedial measures in cash of any deviations.
5. Projected Cash Flow : It helps to know the projected cash inflow and cash outflow.
6. Supplemental to Fund Flow Statement : It is supplementary to Fund flow statement for analysis of cash.
7. Tool of Analysis : It analysis is certainly a better tool of analysis than the fund flow analysis for short term decisions.

## Limitations of Cash Flow Statement :

1. Misleading of Inter - Industry Comparison : Cash flow statement does not measure the economic efficiency of one company in relation to another company. Therefore, due to inter-industry comparison of cash flow may mislead.
2. Misleading Inter - Firm Comparison : The terms and conditions of purchases and sales of different firms may not be the same. Hence, inter firm comparison becomes misleading.
3. Influence of Management Policies : Management policies influence the cash easily by making certain payments in advance or by postponing certain payments.
4. Can not tally with Income Statement : Cash Flow Statement can not be tally with income statement. Therefore, net cash flow does not mean income of the business.
5. Not a substitute to other statement : It can not be substitute to other statements. For eg. Fund Flow Statement and Balance Sheet.

### 9.5.2 Fund Flow Statement :

Fund flow statement shows the sources and uses of funds as well as net change in working capital. It is a financial statement which shows as to how a business entity has obtained its funds and how it has applied or employed its funds between the opening and closing Balance Sheet dates during the particular year or period.

## Uses / advantages of Fund Flow Statement :

1. Fund flow statement helps the management in the assessment of long range forecasts of a cash requirements and availability of liquid resources. The manager can judge the quality of management decisions.
2. With the help of Fund Flow Statement, the investors are able to measure as to how the company has utilized the funds supplied by them and its financial strength. Also, the investors can judge the company's capacity to generate funds from operations.
3. It serves as effective tools to the Management for economic analysis as it supplies additional information which can not be provided by financial statement based on historical data.
4. Fund flow statement explains the relationship between changes in working capital and net profits.
5. Fund flow statement helps the management in making planning process of a company. It is also useful in assessing the resources available and the manner of utilization of the resources.
6. It explains the financial consequences of business activities. It also provides explicit and clean answer to questions regarding liquid and solvency position of the company.
7. Fund Flow Statement provides clues to the creditors and financial institutions as to the ability of a company to use funds effectively in the best interest of the investors, creditors and owners of the company.

## Limitations of Fund Flow Statements

1. It should not be overlooked that Fund Statements ignore noncash transactions, therefore it is considered as cruder device than the financial statement.
2. Fund Flow Statements merely rearrange a part of the information contained in financial statements. They do not serve as original evidence of financial status.
3. Though changes in cash resources are more significant, they are not highlighted by Fund Statements except being shown by them as a part of working capital.
4. As Fund Flow Statements are prepared from information provided by financial statements, they are essentially historical in nature.

## Distinction between Cash Flow Statement \& Fund Flow Statement

| Cash Flow Statement | Fund Flow Statement |
| :--- | :--- |
| It shows net change in the <br> position of cash and cash <br> equivalents | It shows change in the position <br> of 'working capital'. |
| It is based on narrower concept <br> of funds i.e. cash and cash <br> equivalents. | It is based on broader concept <br> of funds i.e. working capital. |
| Now, it is mandatory for all the <br> listed companies and is more <br> widely used in India or abroad. | It is not mandatory and it is not <br> being used by the companies. |
| Changes in working capital are <br> adjusted for ascertaining cash <br> generated from operations. | Statement of changes in in <br> working capital is prepared <br> under fund flow statement. |
| In Cash flow statement, <br> decrease in current liability or or <br> increase in current assets <br> results in decrease in cash and <br> vice - versa. | In working capital, decrease in <br> current liability or increase in <br> current asset brings increase in <br> working capital and vice - <br> versa. |

### 9.5.3 Ratio Analysis:

Financial statement gives us clear idea about the financial position of the company. It will help the proprietor whether to continue the business or closed down or to make changes in working style of the business. Every businessman is interested in profit margin only. Financial statement gives the clear idea of the profit margin in amounting term. But with the help of ratio, we get the clear idea of comparison and with the help of ratio we are able to express the relationship between different figures.

Ratios express the relationship between two number as well as accounting figures. It shows the process of computing and presenting the relationship between items of the financial statement.

The ratio can be expressed in 3 terms:

1. Simple or pure ratio.
2. Percentage.
3. Rate.

### 9.6 EXERCISE

1. Explain fund flow and cash flow.
2. Distinguish between Fund flow and Cash flow.
3. Define financial management. Briefly explain the functional areas of FM.
4. Explain the tools of Financial Management.
5. Elaborate the role of Financial Management in decision making.

10

## RATIO ANALYSIS-I

Unit Structure:
10.0 Objectives
10.1 Introduction
10.2 Meaning
10.3 Forms
10.4 Classification
10.5 Balance Sheet Ratio
10.6 Revenue Statement Ratio
10.7 Composite Ratio
10.8 Advantages and Limitations of Ratio Analysis
10.9 Exercise
10.0 OBJECTIVES

After studying the unit the students will be able to:

- Define Ratio.
- Understand the classification of ratio.
- Know the forms in which the ratios can be expressed.
- Explain the advantages and limitations of ratio analyses.

### 10.1 INTRODUCTION

Financial statement gives us clear idea about the financial position of the company. It will help the proprietor whether to continue the business or closed down or to make changes in working style of the business. Every businessman is interested in profit margin only. Financial statement gives the clear idea of the profit margin in amounting term. But with the help of ratio, we get the clear idea of comparison and with the help of ratio we are able to express the relationship between different figures.

### 10.2 MEANING

Ratios express the relationship between two number as well as accounting figures. It shows the process of computing and presenting the relationship between items of the financial statement.

### 10.3 FORMS:-

The ratio can be expressed in 3 terms:

1. Simple or pure ratio.
2. Percentage.
3. Rate.

## 1. Simple or pure ratio -

It gives a simple relationship between two figures. We take simple example of current ratio, it means consider the relationship between current assets and current liabilities, if the current assets are Rs. $4,00,000 /$ - and current liabilities are Rs. $2,00,000 /$-, the ratio is derived by dividing Rs. $4,00,000 /$ - by Rs. $2,00,000 /$-, then the answer is 2 which will be expressed on 2:1.

## 2. Percentage -

Some ratio's is expressed in terms of percentage. The relationship between profit and sales is expressed in percentage. For example- If sales are Rs.10, 00,000/- and gross profit is Rs. $5,00,000 /$ - then it is expressed as gross profit being $50 \%$ of sales.

## 3. Rate-

Ratios are also expressed in terms of rates. i.e. number of times or certain period. The relationship between stock is expressed in terms of rates. For Example- If stock turn over rate is said to be 6 times in a year, it mean that the stock is converted into sales 6 times in 12 months.

### 10.4 CLASSIFICATION

Ratios are classified as follow:

1. Based on financial statement
2. Based on function
3. Based on user

### 10.4.1 Based on financial statement :

The relationship between two figures which is expressed, it is taken from financial statement i.e. profit and loss a/c, balance sheet or both. This can be grouped as follows.

## I. Balance sheet ratio -

The relationship between two figures is expressed by taking figures from balance sheet itself. There is no need to refer income statement. Actually, the relationship between the assets and liabilities is current ratio, liquid ratio, proprietary ratio capital gearing ratio, debt equity ratio, and stock-working capital ratio.

## II. Income statement ratio -

The relationship between two groups is expressed from income statement itself. Mostly, it shows the relationship between profitability and sales of the firm. For Example - gross profit ratio, operating ratio, net profit ratio, net operating profit ratio and stock turnover ratio.

## III. Combined ratios -

Under these ratio's the relationship between two figures is expressed by taking figures on from Balance Sheet and another from Income Statement. It shows the relationship between the profits and investment of the firm. For e.g. Return on Capital employed, Earning Per Share, Debtors Turnover Ratio, etc.

### 10.4.2 Based on Functions:

Accounting Ratio's can be classified on the basis of their function or according to their purpose, that is, Liquidity Ratio, Leverage Ratio, Activity Ratio, Profitability Ratio and Coverage Ratio or valuation Ratios.

## I. Liquidity Ratio -

It analyse the short term and immediate financial position of the business organization and it also indicates the relationship between current assets and current liabilities. For e.g. Current Ratio, Liquid Ratio, Quick Ratio.

## II. Leverage Ratio -

It shows the relationship between debts and own funds in financing the assets of the business. It includes debt equity ratio, capital gearing ratio and proprietary ratio. It also helps in knowing the solvency or the company and so it is known as capital structure ratio or solvency ratio.

## III. Activity Ratio -

This ratio shows comparison of sales with different items of income statement and Balance Sheet. It shows the utilization of funds and efficiency of business important activity ratios of stock turnover ratio, debtors turnover ratio etc.

## IV. Profitability Ratio -

It makes comparison of profits with sales and assets of the business profits include gross profit, operating net profit, profit before tax etc. It reflects overall efficiency of business. It includes gross profit ratio, net profit ratio, return on capital employed etc.

## V. Coverage Ratio -

It is the relationship between profits of the company and amounts payable to outsider. Out of such profits in the form of dividends, interests, etc. it includes dividend payout ratio, debt ratio etc.

### 10.4.3 Based on users :

## 1. Ratio for shareholders -

Shareholders are interested in the safety of their funds and capital appreciation. It includes return on proprietors' funds and return on equity capital.

## 2. Ratio for Short Term Creditors:

Basically, creditors are interested in knowing the firms ability to meet short term obligation in time. This includes current ratio, liquid ratio.

## 3. Ratio for Management :-

The management is interested in the returns on their investment. For e.g. Return on capital employed, turnover ratio, operating ratio etc.

## 4. Ratios for Long Term Creditors :-

They are interested in companies ability to pay interest and repay the debts when it is actually due. E.g. Debt Equity Ratio, Proprietary Ratio etc.

## CHECK YOUR PROGRESS

- Draw the chart showing Classification of Ratios.
- Define the following terms:

1. Ratio
2. Balance sheet ratio
3. Liquidity ratio
4. Activity ratio
5. Coverage ratio

### 10.5 BALANCE SHEET RATIO

For making easy calculation or Ratio draw up Vertical Statement of Balance Sheet.

### 10.5.1 Vertical Format or Balance Sheet

| Particulars | Amt | Amt | Amt |
| :--- | :--- | :--- | :--- |

| I. SOURCES OF FUNDS |  |  |  |
| :---: | :---: | :---: | :---: |
| 1. Equity Share Capital | XX |  |  |
| 2. Reserves \& Surplus | XX |  |  |
| Equity Shareholders (1+2) Funds |  | XX |  |
| 3. Preference Share Capital |  | XX |  |
| Proprietors Fund (1+2+3) |  | XX |  |
| 4. Borrowed Funds |  | XX | XX |
| Total Sources of Funds |  |  | XXX |
| II. APPLICATION OF FUNDS |  |  |  |
| 1. Fixed Assets |  |  |  |
| Goodwill $\quad$ XX |  |  |  |
| Plant \& Machinery $\quad$ XX |  |  |  |
| 2. Investment |  |  |  |
|  |  |  |  |
| 3.a) Current Assets |  |  |  |
| i) Debtor ${ }^{\text {ii) }}$ XX |  |  |  |
| ii) Cash $\quad$ XX |  |  |  |
| iii) Bills Receivable $\quad$ XX |  |  |  |
| Quick Assets ( $1+\mathrm{ii}+\mathrm{iii}$ ) |  | XX |  |
| iv) Closing Stock | XX |  |  |
| v) Prepayments | XX | XX |  |
|  |  | XX |  |
| 4.b) Current Liabilities |  |  |  |
| i) Creditors $X X$ |  |  |  |
| ii) Bills Payable | XX |  |  |
| Quick Liabilities $\quad \pm$ XX |  |  |  |
| iii) Bank Overdraft | XX |  |  |
| iv) Other Quick Liabilities | XX | XX |  |
| Total Current Liabilities (b) |  | XX |  |
| 5. Working Capital (a-b) |  | XX | XX |
| Total Application of Funds / Total Capital Employed (1 + 2 +5) |  |  | XXX |

### 10.5.2 Current Ratio -

This ratio compares the current assets with the current liabilities. It is expressed in the form of pure ratio. E.g. 2:1.
a. Current Ratio $=\frac{\text { Current Assets }}{\text { Current Liabilities }}$
b. Current assets include assets which are circulated and liquidated in cash within one accounting period. E.g. Debtors
(net), bills receivables, short term investment, inventories, loose tools etc.
c. Current Liabilities, any liability which is due to be paid within one accounting period is a current liability. E.g. Creditors, bills payable, outstanding expenses, proposed dividend, bank overdraft etc.
d. Significance - It indicates the strength of working capital and measures short term solvency of the business. It reflects the ability of business to pay its short term liabilities.
e. Standard - Normally, $2: 1$ is regarded as standard ratio which means current assets must be nearly two times of current liabilities.
f. Limitations - It ignores the components of working capital by considering liquid assets and deferred assets as same. It also ignores the quality of working capital by including dead stock in working capital.
g. Example:

Current Assets or a company on Rs. 4,00,000 and on the same data, current liabilities are Rs. 2,00,000. Then

$$
\begin{aligned}
\text { Current Ratio } & =\frac{\text { Current Assets }}{\text { Current Liabilities }} \\
& =\frac{4,00,000}{2,00,000} \\
& =2: 1
\end{aligned}
$$

### 10.5.3 Quick Ratio / Liquid Ratio / Acid Test Ratio -

Liquid ratio compares the quick assets with the quick liabilities. It is expressed in the form of a pure ratio and it is also known as quick ratio and Acid Ratio.
a. Quick Ratio $=\frac{\text { Quick Assets }}{\text { Quick Liabilities }}$
b. Quick Assets include all current assets minus stock and prepaid expenses.
c. Quick Liabilities includes all current liabilities minus advances received and bank overdraft.
d. Significance - It helps to know the immediate short term liabilities and abilities of business to pay them.
e. Standard - Normally, $1: 1$ is the standard quick ratio which means quick assets must be at least equal to quick liabilities.
f. Limitation- It may not indicate the long term solvency of the business.
g. Example:

From the following information given calculate 1) Quick Assets 2) Quick Liabilities and 3) Quick Ratio.

| Particulars | Amt | Particulars | Amt |
| :--- | ---: | :--- | :---: |
| Cash | 5,000 | Outstanding Salaries | 1,000 |
| Debtors | 10,000 | Bank Overdraft | 2,000 |
| Creditors | 5,000 | Stock | 3,000 |
| Prepaid Expenses | 2,000 | Bills Payable | 4,000 |
| Bills Receivable | 8,000 |  |  |

## Solution:-

Quick Assets:-

| Cash | 5,000 |
| :--- | ---: |
| Debtors | 10,000 |
| Bills Receivable | 8,000 |
|  | 23,000 |

Quick Liabilities:-

| Creditors | 5,000 |
| :--- | ---: |
| Outstanding Salary | 1,000 |
| Bills Payable | 4,000 |
|  | 10,000 |

Quick Ratio $=\frac{\text { Quick Assets }}{\text { Quick Liabilities }}$

$$
\begin{aligned}
& =\frac{23,000}{10,000} \\
& =2: 3: 1
\end{aligned}
$$

### 10.5.4 Stock-Working Capital Ratio -

This ratio shows the relationship between the closing stock and the working capital.
a. Stock - Working Capital Ratio $=\frac{\text { Stock }}{\text { Working Capital }} \times 100$
b. Stock means closing stock.
c. Working capital is equal to current assets minus current liabilities.
d. Significance - It shows the quality of working capital and the quantum of stock in it.
e. Standard - It is practically not possible to have a standard.
f. Example:

If inventory is Rs.80,000/- \& Working Capital Rs.1,20,000/the stock to Working Capital Ratio would be

$$
\begin{aligned}
& =\frac{\text { Stock }}{\text { Working Capital }} \times 100 \\
& =\frac{80,000}{1,20,000} \times 100
\end{aligned}
$$

Stock working capital ratio $=67 \%$

### 10.5.5 Proprietary Ratio / Net Worth Ratio / Assets Backing Ratio-

It compares proprietor's funds with total liabilities or total assets. It is expressed in terms of percentage.
a. Proprietory Ratio $=\frac{\text { Proprietors Funds }}{\text { Total Assets }} \times 100$
b. Proprietors funds, includes paid up preference share capital, paid up Equity Share Capital, Capital Reserve, Revenue Reserve, Security Reserve , Profit \& Loss Account minus Accumulated losses and fictitious assets.
c. Total Assets includes Fixed Assets, investments and current assets.
d. Significance - It determines to what extent total assets are financed by proprietors. It also compares proprietors funds with total assets and total liabilities. It also indicated as Total Assets = Total Liabilities, Total Liabilities $=$ Proprietors Funds + Loans + Current Liabilities.
e. Standard - It should be very high or very low. Normally, it should be guided as $65 \%-75 \%$ considered. But, it differs from business to business.
f. Example: Proprietary Ratio -

From the following information calculate proprietary Ratio or S Ltd.

| Particulars | Amt |
| :--- | :---: |
| Equity share capital | $1,50,000$ |
|  |  |

| Preference share capital | 50,000 |
| :--- | ---: |
| Reserves | 30,000 |
| Proprietors funds | $2,30,000$ |
| Current Assets | $1,00,000$ |
| Fixed Assets | $2,50,000$ |
| Total Assets | $3,50,000$ |

$$
\begin{aligned}
\text { Proprietory Ratio } & =\frac{\text { Proprietors Fund }}{\text { Total Assets }} \times 100 \\
& =\frac{23,000}{35,000} \times 100 \\
& =66 \%
\end{aligned}
$$

### 10.5.6 Debt Equity Ratio -

This ratio compares the long term debts with shareholders' funds. It is usually expressed as a pure ratio.
a. Debt Equity Ratio $=\frac{\text { Debt }}{\text { Equity }}$

OR
Loan Funds
Owned Funds
b. Debt includes borrowed funds as secured / Unsecured loans including debentures, interest accrues and due on loans.
c. Proprietors funds includes paid up share capital, Reserves and surplus minus fictitious assets and accumulated losses.
d. Significance - This is a solvency ratio and it also indicated the proportion of debt and equity in financing the funds of the concerns. It also shows protection cover for long term creditors. The low debt equity ratio is considered as favourable to creditors. It indicates, low ratio means less dependence on long term debts.
e. Standard - If debts equity ratio is two third then it is considered as satisfactory ratio. It implies that out of three total funds debts would be 2 and Equity would be 1.
f. Example: Debt Equity Ratio -

From the following information calculate Debt - Equity Ratio or P Ltd.

| Particulars | Amt |
| :---: | :---: |
| $5 \%$ Debentures | $4,00,000$ |

| 7 \% Preference share Capital | $2,00,000$ |
| :--- | :--- |
| Equity Capital | $3,00,000$ |

Debt Equity Ratio $=\frac{\text { Borrowed funds }}{\text { Funds }}$

$$
\begin{aligned}
& =\frac{4,00,000}{5,00,000} \\
& =0.8
\end{aligned}
$$

### 10.5.7 Capital Gearing Ratio / Financing Leverage Ratio / Capital Structure Ratio -

Gearing means the process of increasing the equity shareholders' return through the use of debt. Equity shareholders earn more when the rate or return on total capital is more than the rate of interest on debts.

> Capital Bearing Fixed Rate
a. Capital Gearing Ratio $=\frac{\text { of Interest \& Dividend }}{\text { Capital Not Bearing Fixed Rate }}$ of Interest \& Dividend.
b. Capital bearing fixed rate of interest and dividend includes Preference share capital, debentures, loans etc.
c. Capital not bearing fixed rate of interest and dividend includes equity share capital, reserves and surplus, fictitious assets and accumulated losses.
d. Significance - It shows balance between debt and equity and it also shows whether a company is practicing trading on equity.
e. Example: Capital Gearing Ratio-

The following are the relevant extract from Balance sheet or ABC Ltd as on $31^{\text {st }}$ Dec, 2003. Calculate the capital gearing ratio.

| Liabilities | Amt |
| :--- | ---: |
| 8,000 Equity share or Rs.10/- each Fully Paid | 80,000 |
| $9 \%$ Preference Shares or Rs.100/- cash fully paid | $1,50,000$ |
| Security (share) Premium | 10,000 |
| Capital Reserve | 16,000 |
| $10 \%$ Debentures | 50,000 |

Capital Gearing Ratio $=\frac{\text { Capital entitled to fixed Interest } / \text { Dividend }}{\text { Capital not entitled to fixed Interest } / \text { Dividend }}$
OR
$=\frac{\text { Preference Capital }+ \text { Debentures }}{\text { Equity Capital }+ \text { Share Premium }+ \text { Capital Reserve }}$
$=\frac{1,50,000+50,000}{80,000+10,000+16,000}$
$=\frac{2,00,000}{1,06,000}$
$=1.89$

### 10.6 REVENUE STATEMENT RATIO

10.6.1 Format of Revenue statement

Profit \& Loss A/c.
Vertical Income / Revenue Statement

| Particulars | Amt | Amt | Amt |
| :---: | :---: | :---: | :---: |
| Credit Sales |  | XX |  |
| Cash Sales |  | XX |  |
| Total Sales |  |  | XX |
| Opening Stock |  | XX |  |
| Credit Purchases | XX |  |  |
| Cash Purchases | XX |  |  |
| Total Purchases |  | XX |  |
| Direct Expenses |  | XX |  |
| (-) Closing Stock |  | (XX) |  |
| Cost of Good Sold |  |  | (XX) |
| Gross Profit |  |  | XX |
| Operating Exp |  |  |  |
| Administrative Exp |  | XX |  |
| Selling Expenses |  | XX |  |
| Finance Exp (Excl. Interest) |  | XX | (XX) |
| Operating Profit |  |  | XX |
| (+) Non Operating Income |  |  | XX |

| Retained Earnings |

### 10.6.2 Gross Profit Ratio -

This ratio compares gross profit with net sales.
a. Gross Pr ofit Ratio $=\frac{\text { Gross Pr ofit }}{\text { Net Sales }} \times 100$
b. Gross Profit $=$ Sales minus Cost of Goods Sold
(Cost of Goods Sold = Opening Stock + Purchases + Direct Expense - Closing Stock)
c. Net Sales = Sales minus Sales Returns minus Allowances.
d. Significance - It indicates basic profitability of business concern, it also indicate the efficiency of the purchase department, production department and the sales department. It shows the percentage of mark up on the goods sold.
e. Example: Gross Profit Ratio -

Net Sales
(-) Cost of Goods Sold
Gross Profit 80,000

Calculate Gross Profit Ratio.

$$
\begin{aligned}
\text { Gross Pr ofit Ratio } & =\frac{\text { Gross Pr ofit }}{\text { Sales }} \times 100 \\
& =\frac{80,000}{5,00,000} \times 100 \\
& =16 \%
\end{aligned}
$$

### 10.6.3 Operating Ratio -

It expresses the relationship between total operating costs and net sales.
a) Operating Ratio $=\frac{\text { Operating Cost }}{\text { Net Sales }} \times 100$

$$
=\frac{\text { cost of goods sold }+ \text { Operating Expenses }}{\text { Net Sales }} \times 100
$$

b) It expresses the relationship between each item of expenditure with sales. It brings out the relationship between elements of operating cost and net sales.
c) Significance - This enables the management in controlling cost and improving profit ability as well as the auditor and income tax department to judge the correctness and reliability of various expenses.
d) Limitations - If expenses of fixed amount the ratio of expenses to sales may be increased or decreased in value. The ratio of variable expenses may remain same even though sales are increased.
e) Example: Operating Ratio -

Calculate operating ratio from the following information.

Sales
Rs. 20,00,000
Gross Profit
Rs. 7,00,000
Operating Expenses

Cost of goods sold = Sales less Gross Profit $1,30,000=20,00,000-7,00,000$

Operating Ratio $=\frac{\text { Cost of Goods Sold }+ \text { Operating expenses }}{\text { Net Sales }} \times 100$
$=\frac{13,00,000+5,00,000}{20,00,000} \times 100$

$$
=90 \%
$$

Calculate various expenses ratios and operating ratio from the following information.
i) Cost of goods sold
ii) Office \& Administrative expenses
iii) Selling \& distribution Expenses
iv) Sales

Rs. 40,000
Rs. 20,000
Rs. 15,000
Rs. 1,00,000
i) Cost of goods sold Ratio $=\frac{\text { cost of goods sold }}{\text { Sales }} \times 100$

$$
\begin{aligned}
& =\frac{40,000}{10,000} \times 100 \\
& =40 \%
\end{aligned}
$$

ii) Office \& administrative Expenses Ratio

$$
\begin{aligned}
& =\frac{\text { Office \& Administrative Expenses }}{\text { Sales }} \times 100 \\
& =\frac{20,000}{1,00,000} \times 100 \\
& =20 \%
\end{aligned}
$$

iii) Selling \& distribution Expenses Ratio

$$
\begin{aligned}
& =\frac{\text { Selling \& distribution Expenses }}{\text { Sales }} \times 100 \\
& =\frac{15,000}{1,00,000} \times 100 \\
& =15 \%
\end{aligned}
$$

iv) Operating Ratio $=\frac{\text { Cost of goods sold }+ \text { Operating Exp }}{\text { Net Sales }} \times 100$
$=\frac{40,000+20,000+15,000}{1,00,000} \times 100$
$=75 \%$

### 10.6.4 Net Profit Ratio -

Net profit ratio indicates the relationship between net profit and the sales. It is usually expressed in the form of a percentage.
a) It is calculated in three ways.
i. Net Operating Pr ofit Ratio $=\frac{\text { Net Operating Pr ofit }}{\text { Net Sales }} \times 100$
ii. Net Pr ofit Ratio $=\frac{\text { Net Pr ofit before tax }}{\text { Net Sales }} \times 100$
iii. Net Profit Ratio $=\frac{\text { Net Profit after tax }}{\text { Net Sales }} \times 100$
b) Net Profit before tax $=$ Operating Net profit + Non operating income - Non operating expenses.
Net profit after tax = Net profit before tax - income tax
c) Net Sales = Gross sales minus Returns minus allowances
d) Significance - It indicates overall profitability of business organization, it also indicates as to what portion of net profit is available to the proprietors.
e) Limitations - It cannot be used as a text Net profit Ratio without considering other revenue statement ratio. It may be also affected by non operating income of expenses, income from extra ordinary transaction. In such cases, Net profit ratio may be showing higher or lower volume even though sales and other cost may be showing the same tendency as before and hence net profit Ratio is isolation cannot provide clear idea about the company's profitability.
f) Example: Net Profit Ratio -

Calculate Net Profit Ratio from the following :
Operating Net Profit Rs.1,50,000
Non Operating Income
Rs.25,000
Non Operating Expenses
Rs.20,000
Net Sales
Rs.10,00,000
Net Profit Ratio $=\frac{\text { Net Profit before Tax }}{\text { Sales }} \times 100$
NPBT = Operating Net Profit + Non Operating Income - Non Operating Expenses
$=1,50,000+25,000-20,000$
$=1,55,000$
NP Ratio $=\frac{1,55,000}{10,00,000} \times 100$

$$
=15.5 \%
$$

### 10.6.5 Stock Turnover Ratio / Stock velocity Ratio / inventory Turnover Ratio -

Stock turnover ratio shows the relationship between the cost of goods sold and the average stock.
a) Stock turnover Ratio $=\frac{\text { cost of goods sold }}{\text { Average stock }}$

OR

$$
=\frac{\text { Net Sales }}{\text { Average stock at selling price }}
$$

b) Cost of goods sold $=$ Opening stock + Purchases + Direct expenses - closing stock
c) Average stock $=\frac{\text { Opening stock }+ \text { closing Stock }}{2}$
d) Significance - Stock turnover ratio helps in determining the frequency of inventory replacement. It also helps in determining the liquidity of business organization.
e) Limitations - It should be studied along with current ratio stock working capital ratio. Stock being differed from current assets, current ratio may be satisfactory due to large stock, but it may suffer bud quick ratio.
f) Example: Stock Turnover Ratio -

If cost of sales is Rs. $25,00,000 /-$ and opening stock Rs.3,00,000/- and closing stock Rs.2,00,000/-. Calculate Stock Turnover Ratio.

$$
\begin{aligned}
\text { Average Stock } & =\frac{\text { Opening Stock }+ \text { Closing Stock }}{2} \\
& =\frac{3,00,000+2,00,000}{2} \\
& =2,50,000
\end{aligned}
$$

$$
\begin{aligned}
\text { Stock Turnover Ratio } & =\frac{\text { Cost of Sales }}{\text { Average Stock }} \\
& =\frac{25,00,000}{2,50,000} \\
& =10 \text { times }
\end{aligned}
$$

### 10.6.6 Operating Profit Ratio -

Operating profit ratio indicates the relationship between Operating profit and Sales.
a) Operating Profit Ratio $=\frac{\text { Operating Profit }}{\text { Net Sales }} \times 100$
b) Operating profit $=$ Gross profit minus operating expenses,

- Operating expenses =

1 Office and administrative expenses
2 Selling a distribution expenses

3 Finance expenses excluding interest on loans and Debentures.
c) Net Sales = Sales less Returns less Allowances.
d) Significance - It is a profitability ratio, which shows the relationship between profits and sales, it also indicates profits from operations.
e) Example: Operating Profit Ratio -

Calculate operating net profit ratio from the following data.
Gross Profit
Office Expenses
Selling Expenses
Sales
Operating Net Profit = Gross Profit less Selling Expenses less Office Expenses
$1,50,000=4,00,000-1,00,000-1,50,000$
Operating Net Pr ofit Ratio $=\frac{\text { Operating Net Pr ofit }}{\text { Net Sales }} \times 100$

$$
\begin{aligned}
& =\frac{1,50,000}{10,00,000} \times 100 \\
& =15 \%
\end{aligned}
$$

### 10.7 COMPOSITE RATIO

### 10.7.1 Return on capital employed -

This ratio measures the relationship between net profit (before interest \& tax) and the capital employed to earn it. It is expressed as a percentage.

> Net profit before
a) Re turn on capital employed $=\frac{\text { int erest, Tax, dividend }}{\text { Capital employed }} \times 100$
b) Net Profit before interest, tax and dividend
c) Capital Employed = Proprietors fund + Long Term Loans OR
Fixed Assets + Current Assets - current liabilities.
d) Significance - It gives clear index or utilization of assets earning capacity. This ratio measures the overall profitability from the total funds employed. It means, measures the relationship
between net profit before interest, tax and capital employed to earn net profit.
e) Limitations - This ratio is based on earning and capital employed of the business. These components are subject to various manipulations by management or based on various different accounting policies.
f) Example: Return On Capital Employed -

Calculate return on capital employed from the following data.
Net Profit
Rs. 2,00,000
Capital Employed
Rs. 20,00,000

$$
\begin{aligned}
\text { Return on Capital Employed } & =\frac{\text { Net Profit }}{\text { Capital Employed }} \times 100 \\
& =\frac{2,00,000}{20,00,000} \times 100 \\
& =10 \%
\end{aligned}
$$

### 1.7.2 Return on proprietors fund / Return on proprietors Equity -

It measures the relationship between profits available to proprietor funds.
a) Return on proprietors fund $=\frac{\text { Net profit after Tax }}{\text { proprietors fund }} \times 100$
b) Net profit after Tax
c) Proprietors funds includes paid up Preference share capital, paid up equity share capital, capital Reserve, Revenue Reserve, Security Reserve, Profit and Loss A/C surplus minus Accumulated losses and fictitious Assets.
d) Significance - Higher ratio signifies better utilization of funds. It also measures the overall performance of a business in regards utilization of total resources available.
e) Example: Return on Proprietors fund-

The following is the relevant extract from the Profit \& Loss A/c \& Balance Sheet of SR Ltd. as on 31. 03. 2004

Profit \& Loss A/c, for the year ended 31. 03.04
Dr.
Cr.

| Particulars | Amt | Particulars | Amt |
| :---: | :---: | :---: | :---: |
| To Administrative Exp. | 80,000 | By Gross Profit b/d | $2,00,000$ |

| To Selling Expenses | 30,000 |  |  |
| :--- | ---: | :--- | :--- |
| To Provision for Tax | 20,000 |  |  |
| To Net Profit c/d | 70,000 |  |  |
|  |  |  | $\mathbf{2 , 0 0 , 0 0 0}$ |

Balance Sheet as on 31. 03. 2004

| Particulars | Amt | Amt |
| :--- | ---: | ---: |
| Share Capital <br> 600, 7\% Preference Shares of Rs.100/- <br> each fully paid |  |  |
| 1,500, Equity Shares of Rs.100/- each |  |  |
| fully paid | 60,000 |  |
| Reserves | $1,50,000$ | $2,10,000$ |
| General Reserve | 40,000 |  |
| Capital Redemption Reserve | 30,000 |  |
| $\quad$ Dividend Equalisation Fund | 20,000 | 90,000 |
|  |  | $\mathbf{3 , 0 0 , 0 0 0}$ |

Return on Pr oprietors Fund $=\frac{\text { Net Pr ofit }}{\text { Pr oprietors Fund }} \times 100$

$$
\begin{aligned}
& =\frac{70,000}{3,00,000} \times 100 \\
& =23.3 \%
\end{aligned}
$$

### 10.7.3 Return on Equity Share Capital -

It indicates the rate of earning on equity share capital.
a) Return on Equity $=\frac{\text { Net Profit after Tax }- \text { Preference Dividend }}{\text { Equity Share Capital }} \times 100$ Share Capital
b) Net Profit after Tax minus Preference dividend.
c) Equity Share Capital includes paid up equity share capital.
d) Significance - It includes an investor in shares of company whether continue to hold or dispose off such shares. It also enables investors to compare earnings of the company with that another company. Higher ratio signifies better utilization of shareholders fund and higher return on equity share capital.
e) Example: Return on Equity Share Capital -

From the following information calculate Return on Equity Capital Ratio.

Net Profit after Tax
7\% Preference share capital
Paid up Equity share capital
3,25,000
1,50,000
10,00,000
Re turn on Equity Capital $=\frac{\text { Net Pr ofit less Pr eference dividend }}{\text { Paidup Equity Capital }} \times 100$

$$
\begin{aligned}
& =\frac{3,25,000-(7 \% \text { of } 1,50,000)}{10,00,000} \times 100 \\
& =\frac{3,25,000-10,500}{10,00,000} \times 100 \\
& =\frac{3,14,500}{10,00,000} \times 100 \\
& =31.45 \%
\end{aligned}
$$

### 10.7.4 Earning Per Share -

It shows earning per equity share, whether or not company declares dividend.
a) Earning per share $=\frac{\text { Net Pr ofit after Tax }- \text { Pr eference Dividend }}{\text { Number of Equity Shares }}$
b) Net profit after Tax minus Preference dividend.
c) Number of equity shares outstanding.
d) Significance - Higher ratio signifies better utilization of funds available and the company may pay dividend at a higher rate in future. Higher ratio indicates higher overall profitability and effective utilization of equity capital.
e) Example: Earning Per Share-

Net Profit after Tax
Rs.2,25,000
8\% Preference Share Capital
Rs.2,00,000
Paid up Equity Share Capital
Rs.10,00,000
(Rs. 100/- each)
Earning Per Share $=\frac{\text { Net Profit after Tax }- \text { Pr eference dividend }}{\text { No. of Equity Share }}$

No. of Equity Shares $=\frac{\text { Share Capital }}{\text { Face Value Per Share }}$

$$
\begin{aligned}
& \quad=\frac{10,00,000}{100} \\
& =10,000 \text { Shares } \\
& =\frac{2,25,000-(8 \% \text { of } 2,00,000)}{10,000} \\
& =\frac{2,25,000-16,000}{10,000} \\
& =\frac{2,09,000}{10,000} \\
& =\text { Rs. } 20.90
\end{aligned}
$$

### 10.7.5 Dividend Payout Ratio -

It shows the relationship between the dividend paid to equity shareholders out of the profits available to equity shareholders.
a) Dividend Payout Ratio $=\frac{\text { Dividend Per Equity Share }}{\text { Earning per Share }}$
b) Dividend per share equity share means dividend paid on one equity share.
c) Earning per share is calculated as per above formula.
d) Significance - It measures dividend paying capacity of the company. Higher ratio signifies the company has utilized larger portion of its earning for payment of dividend. Low ratio indicates that smaller portion of earning has been utilized for payment of dividend. It also indicated that larger portion of earnings had been retained.
e) Example: Dividend Payout Ratio -

Net Profit after Tax
7\% Preference Share Capital
Paid up Equity share
Capital of Rs. 10 per share

Rs. $3,25,000$
Rs. 2,00,000

Rs. 10,00,000

Equity Dividend @ Rs. 1 per share

Dividend Payout Ratio $=\frac{\text { Dividend to Equity Shareholders }}{\text { Pr ofit available to Equity shareholders }} \times 100$

$$
\begin{aligned}
& =\frac{10,00,000}{3,25,000-14,000} \times 100 \\
& =\frac{10,00,000}{3,25,000(7 \% \text { of } 2,00,000)} \times 100 \\
& =\frac{10,00,000}{3,11,000} \times 100 \\
& =32.15 \%
\end{aligned}
$$

### 10.7.6 Dividend Yield Ratio -

It shows the relationship between dividend per share earned by shareholder on market price of each share.
a) Dividend Yield Ratio $=\frac{\text { Dividend Per Share }}{\text { Market Price per share }}$
b) Dividend per share is derived by dividing Total Dividend payout to Number of Shares.
c) Market price per share is the quotation price in the stock market.
d) Significance - This ratio indicates the ultimate current return which investors will get as a percentage on its current market value of shares. It also indicates dividend policy of the company.
e) Example: Dividend Yield Ratio -

Dividend per Share
Market Price per Share

Rs. 10
Rs. 100

Dividend Yield Ratio $=\frac{\text { Dividend Per Share }}{\text { Market Pr ice Per Share }}$

$$
\begin{aligned}
& =\frac{10}{100} \times 100 \\
& =10 \%
\end{aligned}
$$

### 10.7.7 Price Earnings Ratio -

It brings out the relationship between market price per share with earning per share.
a) Price Earning Ratio $=\frac{\text { Market Price Per share }}{\text { Earning per Share }}$
b) Market price of one share is value of one share in the market.
c) Earning per share.
d) Significance - It indicates the relationship between market price of share and current earning per share. It also helps in determining the future value of the share.
e) Example: Price Earnings Ratio -

Net Profit after Tax
7\% Preference Share Capital
Paid up Equity Share
Capital of Rs. 100 per share
Market Price per share

Rs.3,25,000
Rs.2,00,000

Rs.10,00,000
Rs.210/-

Earning Per Share $=\frac{\text { Net Pr ofit ater Tax }- \text { Pr eference dividend }}{\text { No. of Equity Shares }}$
No. of Equity Shares $=\frac{\text { Equity Share Capital }}{\text { Face Value Per Share }}$
Price Earning Ratio $=\frac{\text { Market Pr ice Per Share }}{\text { Earning Per Share }}$
No. of Equity Shares $=\frac{10,00,000}{100}=10,000$ Shares
$E P S=\frac{3,25,000-14,000}{10,000}=31.10$
$\operatorname{PER}=\frac{210}{31.10}=6.75$

### 10.7.8 Fixed Assets Turnover Ratio -

It indicates the frequency of fixed assets utilization.
a) Fixed Assets Turnover Ratio $=\frac{\text { Net Assets }}{\text { Fixed Assets }}$
b) Net Sales $=$ Gross Sales minus Sales Return minus Allowances.
c) Fixed Assets includes assets acquired for long term use in the business and not for sale in ordinary course of business. For e.g. Goodwill, Land \& Building, Plant \& Machinery, Vehicles etc.
d) Significance - It indicates efficiency in or extend of utilization of fixed assets. Higher ratio indicates high degree of efficiency in utilization and low degree signifies vice-versa.
e) Example: Fixed Assets Turnover Ratio -

If sales are Rs.10,00,000/- and Fixed Assets are Rs.3,00,000/- calculate Fixed Assets.

Turnover Ratio $=\frac{\text { Net Sales }}{\text { Fixed Assets }}=\frac{1,00,000}{3,00,000}=3.33$

### 10.7.9 Total Assets Turnover Ratio -

It shows the relationship between net sales and total assets.
a) Total Assets Turnover Ratio $=\frac{\text { Net Sales }}{\text { Total Assets }}$
b) Net Sales = Gross sales minus Returns minus Allowances.
c) Total Fixed Assets = Fixed Assets + Investment + Current Assets but excluding fictitious assets.
d) Significance - It indicates how efficiency assets are employed overall.
e) Example: Total Assets Turnover Ratio -

Total Assets $=$ Fixed Assets + Current Assets
$5,00,000=3,00,000+2,00,000$
Turnover Rs.10,00,000/-
Total Assets Turnover Ratio $=\frac{\text { Net Sales }}{\text { Total Assets }}$

$$
\begin{aligned}
& =\frac{10,00,000}{5,00,000} \\
& =20
\end{aligned}
$$

### 10.7.10 Debt Service Ratio / Interest Coverage Ratio -

This ratio shows the relationship between earning before interest and interest on long term loans. The main purpose of this
ratio is to find out the number of times the fixed interest charges are covered by the income before interest and tax.
a) Debt Service Ratio $=\frac{\text { Net Profit before Interest \& Tax }}{\text { Fixed Interest Charges }}$
b) Profit before interest \& tax means the amount of net profit before interest and tax. Interest means the interest payable on loans.
c) Fixed interest charges mean interest on long term loans.
d) Significance - Its main purposed is to measure the interest paying capacity of the company.
e) Example: Debt Service Ratio -

Find out the Debt Service Ratio from the following details
a) Profit before interest and tax Rs.1,00,000/-
b) Interest payable Rs.25,000/-

$$
\begin{aligned}
\text { Debt Service Ratio } & =\frac{\text { Profit before Interest \& Tax }}{\text { Interest }} \\
& =\frac{1,00,000}{25,000} \\
& =4
\end{aligned}
$$

### 10.7.11 Debt Service Coverage Ratio -

It shows the relationship between net profits and interest plus installments payable on loans. It is expressed as a pure number.
a) Debt Service Coverage Ratio $=\frac{\text { debt servicing }}{\text { Interest }+ \text { Installment due }}$ on loans
b) Cash profits available for debt servicing are calculated as follows:
i) Net Profit after interest and Tax
ii) (+) Non cash debits to Profit \& Loss A/c
(E.g. Depreciation, goodwill w/off, loss on sales of Fixed Assets etc)
iii) Cash Profits for debt servicing.
c) Interest means interest on long term loans during the year.

Installment means installments due on long term loans during the year.
d) Significance - This ratio indicates the company's ability to pay interest and principal amount on time as it indicates whether company is able to pay interest and repayment of loan out of earnings of the company. It is more useful for lender as it takes care of total repayment liability.
e) Example: Debt Service Coverage Ratio

Find out the Debt Service Coverage Ratio from the following details.

1) Profit after interest and tax Rs.2,50,000/-
2) Interest Payable Rs.25,000/-
3) Depreciation Rs.15,000/-
4) Loan installment payable during the year Rs.1,45,000/-.

Debt Equity Ratio $=\frac{\text { Net Profit before Interest \& Tax }}{\text { Fixed Interest Charges }}$
$=\frac{2,50,000+15,000+25,000}{25,000+1,45,000}$
$=1.70$

### 10.7.12 Debtors Turnover Ratio / Debtors Velocity / Accounts Receivable Turnover -

This shows the relationship between net credit sales and average trade debtors. It is expressed as a rate.
a) Debtors Turnover Ratio $=\frac{\text { Net Credit Sales }}{\text { Debtors }+ \text { Bills Receivables }}$

OR
Credit Sales
Average Account Receivable
b) Net Credit Sales $=$ Gross Credit Sales minus Sales Returns
c) Debtors and bills receivable may be taken at the average of opening and closing amounts. If the details are not available only the closing balance may be considered.
d) Example: Debtors Turnover Ratio -

From the following information calculate the Debtors Turnover Ratio -

Net Credit Sales
Net Debtors
Net Bills Receivable
7,30,000
75,000
25,000

Debtors Turnover Ratio $=\frac{\text { Credit Sales }}{\text { Debtors }+ \text { BillsReceivable }}$

$$
\begin{aligned}
& =\frac{7,30,000}{1,00,000} \\
& =7.3 \text { times }
\end{aligned}
$$

### 10.7.13 Creditors Turnover Ratio -

This shows the relationship between the net credit purchases and the average trade creditors. This ratio is normally expressed as a "rate".
a) Creditor Turnover Ratio $=\frac{\text { Credit Purchases }}{\text { Average Accounts Payable }}$

OR
Credit Purchases
Creditors + Bills Payable
b) Net Credit Purchases = Gross Credit Purchases - Purchase Return - Allowances on Credit Purchases
c) Creditors and bills payable may be taken at the average of the opening and closing amount. If the details are not available, only the closing balance may be considered.
d) Example: Credit turnover ratio.

From the following information calculate the credit turnover ratio.

Net Credit Purchases
Creditors
Bills Payable

Rs. 1,00,000
Rs. 20,000
Rs. 5,000

Creditor Turnover $=\frac{\text { Credit Purchases }}{\text { Creditors }+ \text { BillsPayable }}$

$$
\begin{aligned}
& =\frac{1,00,000}{20,000+5,000} \\
& =\frac{1,00,000}{25,000} \\
& =4 \text { times }
\end{aligned}
$$

### 10.7.14 Debt Collection Period -

This ratio gives average debt collection period and indicates the extend to each the debts have being collected in time.
a) Debt Collection Period $=\frac{\text { Number of days or months in a year }}{\text { Debtors Turnover Ratio }}$
b) Significance - It indicates credit and collection policy and it also indicates effectiveness of collection from debtors.
c) Example: Debt Collection Period -

Debt collection period is calculated from above illustration of the point 10.7.12

$$
\begin{aligned}
\text { Debt Collection Period } & =\frac{365}{\text { Debtors Turnover Ratio }} \\
& =\frac{365}{7.33} \\
& =50 \text { days. }
\end{aligned}
$$

### 10.7.15 Creditors Payout Ratio -

This shows the relationship between Number of days or months in a year with the promptness in payment of credit purchases.
a) Creditor Payout Ratio $=\frac{\text { No. of day sin a year }}{\text { Creditor Turnover Ratio }}$
b) Significance - It should be compared with actual credit available from suppliers and whether the company is taking full benefit of the credit period allowed by creditors.
c) Example: Credit Collection Period -

It is calculated from above illustration No. 10.7.13

$$
\begin{aligned}
\text { Credit Collection Period } & =\frac{365}{\text { Creditors Turnover Ratio }} \\
& =\frac{365}{4} \\
& =\frac{12}{4} \quad 91 \text { days or } 3 \text { months. }
\end{aligned}
$$

### 10.8 ADVANTAGES AND LIMITATIONS OF RATIO ANALYSIS

### 10.8.1 Advantages of Ratios Analysis:

Ratio analysis is an important and age-old technique of financial analysis. The following are some of the advantages / Benefits of ratio analysis:

1. Simplifies financial statements: It simplifies the comprehension of financial statements. Ratios tell the whole story of changes in the financial condition of the business
2. Facilitates inter-firm comparison: It provides data for interfirm comparison. Ratios highlight the factors associated with with successful and unsuccessful firm. They also reveal strong firms and weak firms, overvalued and undervalued firms.
3. Helps in planning: It helps in planning and forecasting. Ratios can assist management, in its basic functions of forecasting. Planning, co-ordination, control and communications.
4. Makes inter-firm comparison possible: Ratios analysis also makes possible comparison of the performance of different divisions of the firm. The ratios are helpful in deciding about their efficiency or otherwise in the past and likely performance in the future.
5. Help in investment decisions: It helps in investment decisions in the case of investors and lending decisions in the case of bankers etc.

### 10.8.2 Limitations of Ratios Analysis:

The ratios analysis is one of the most powerful tools of financial management. Though ratios are simple to calculate and easy to understand, they suffer from serious limitations.

1. Limitations of financial statements: Ratios are based only on the information which has been recorded in the financial statements. Financial statements themselves are subject to several limitations. Thus ratios derived, there from, are also subject to those limitations. For example, non-financial changes though important for the business are not relevant by the financial statements. Financial statements are affected to a very great extent by accounting conventions and concepts. Personal judgment plays a great part in determining the figures for financial statements.
2. Comparative study required: Ratios are useful in judging the efficiency of the business only when they are compared with past results of the business. However, such a comparison only provide glimpse of the past performance and forecasts for future may not prove correct since several other factors like market conditions, management policies, etc. may affect the future operations.
3. Ratios alone are not adequate: Ratios are only indicators, they cannot be taken as final regarding good or bad financial position of the business. Other things have also to be seen.
4. Problems of price level changes: A change in price level can affect the validity of ratios calculated for different time periods. In such a case the ratio analysis may not clearly indicate the trend in solvency and profitability of the company. The financial statements, therefore, be adjusted keeping in view the price level changes if a meaningful comparison is to be made through accounting ratios.
5. Lack of adequate standard: No fixed standard can be laid down for ideal ratios. There are no well accepted standards or rule of thumb for all ratios which can be accepted as norm. It renders interpretation of the ratios difficult.
6. Limited use of single ratios: A single ratio, usually, does not convey much of a sense. To make a better interpretation, a number of ratios have to be calculated which is likely to confuse the analyst than help him in making any good decision.
7. Personal bias: Ratios are only means of financial analysis and not an end in itself. Ratios have to interpreted and different people may interpret the same ratio in different way.
8. Incomparable: Not only industries differ in their nature, but also the firms of the similar business widely differ in their size and accounting procedures etc. It makes comparison of ratios difficult and misleading.

### 10.9 EXERCISE

1. Explain the advantages and limitations of ratio analyses.
2. Briefly explain the classification of Ratios.
3. Give significance of Following Ratios:

- Proprietors ratio
- Debt Equity ratio
- Gross profit ratio
- Stock turnover ratio
- Earnings per share
- Creditors payout ratio

4. Give formula of the ratio:

- Current Assets
- Quick liabilities
- Proprietors fund
- Capital gearing ratio
- Net profit before tax
- Capital employed
- Total Assets

11

## RATIO ANALYSES-II

## Unit Structure:

11.0 Objectives
11.1 Solved Problems
11.2 Exercise

### 11.0 OBJECTIVES

After studying the unit the students will be able to solve the practical problems on Ratio analyses.

### 11.1 SOLVED PROBLEMS

Q. 1 The following are summarized Profit and Loss Account for the year ending $31^{\text {st }}$ March, 2005 and the Balance Sheet as on that date of A Ltd.

Profit \& Loss Account
Dr.
Cr.

| Particulars | Rs. | Particulars | Rs. |
| :--- | ---: | :--- | ---: |
| To Opening Stock | 10,000 | By Sales | $1,00,000$ |
| To Purchases | 55,000 | By Closing Stock | 15,000 |
| To Gross Profit | 50,000 |  |  |
|  |  |  | $1,15,000$ |
|  | $1,15,000$ |  | 50,000 |
| To Administrative |  | By Gross Profit |  |
| $\quad$ Expenses | 15,000 |  |  |
| To Interest | 3,000 |  |  |
| To Selling Expenses | 12,000 |  |  |
| To Net Profit | 20,000 |  | 50,000 |

Balance Sheet

| Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | :--- |
| Share Capital | $1,00,000$ | Land \& Building | 50,000 |
| (Rs.10/- each) |  | Plant \& Machinery | 30,000 |
| Profit \& Loss Account | 20,000 | Stock | 15,000 |
| Creditors | 25,000 | Debtors | 15,000 |
| Bills Payable | 15,000 | Bills Receivable | 12,500 |
|  |  | Cash \& Bank | 17,500 |
|  |  | Furniture | 20,000 |

|  |  |  |  |
| :--- | ---: | :--- | :--- |
|  | $1,60,000$ |  | $1,60,000$ |

Average Debtors Rs.12,500/-
Credit Purchases Rs.40,000/-
Credit Sales Rs.80,000/-
Calculate -
(i) Stock Turnover Ratio
(ii) Debtors turnover ratio,
(iii) Creditors turnover ratio,
(iv) Working Capital turnover ratio,
(v) Sales to Capital employed, (vi) Return on shareholders funds,
(vii) Gross Profit Ratio,
(viii) Net Profit ratio,
(ix) EPS,
(x) Operating ratio.

## Solution :

i) Stock turnover ratio $=\frac{\text { Cost of goods sold }}{\text { AverageStock }}$
$=\frac{50,000 \text { [Sales }- \text { G.P. }]}{10,000+15,000 / 2}$
$=\frac{50,000}{12,500}$
$=4$ times
ii) Debtors turnover ratio $=\frac{\text { Credit Sales }}{\text { Average Debtors }}$

$$
=\frac{80,000}{12,500}
$$

$$
=6.4 \text { times }
$$

iii) Creditors turnover ratio

$$
=\frac{\text { Credit Purchases }}{\text { Average Accounts Payable }}
$$

$$
=\frac{40,000}{40,000[\mathrm{Crs}+\text { B.P. }]}
$$

$$
=1 \text { time }
$$

iv) Sales to Capital employed $=\frac{\text { Sales }}{(\text { working Capital })}$
[Current Assets -Current Liabilities]

$$
\begin{aligned}
& =\frac{1,00,000}{20,000} \\
& =5 \text { times }
\end{aligned}
$$

v) Sales to Capital Employed $=\frac{\text { Sales }}{\text { Capital employed }} \times 100$

$$
\begin{aligned}
& =\frac{1,00,000}{1,00,000+20,000} \\
& \text { Equity P\&L A/c }
\end{aligned}
$$

vi) Returns on Shareholders funds $=\frac{\text { Net Profit }}{\text { Shareholders funds }} \times 100$

$$
\begin{aligned}
& =\frac{20,000}{1,20,000} \times 100 \\
& =16.67 \% \\
& =\frac{\text { Gross Profit }}{\text { Sales }} \times 100 \\
& =\frac{50,000}{1,00,000} \times 100 \\
& =50 \% \\
& =\frac{\text { Net Profit }}{\text { Sales }} \times 100 \\
& =\frac{20,000}{1,00,000} \times 100 \\
& =20 \% \\
& =\frac{20}{\text { No. of Equity Shares }} \\
& =\frac{20,000}{10,000} \\
& =\text { Rs. } 2 /-
\end{aligned}
$$

$$
\text { vii) Gross Profit Ratio } \quad=\frac{\text { Gross Profit }}{\text { Sales }} \times 100
$$

$$
\text { viii)Net Profit Ratio } \quad=\frac{\text { Net Profit }}{\text { Sales }} \times 100
$$

ix) EPS
x) Operating ratio
$=\frac{\text { Cost of Good Sold }+ \text { Operation Expenses }}{\text { Sales }}$
$=\frac{50,000+27,000 \times 100}{1,00,000}$
= $77 \%$
Q. 2 From the following information, you are required to prepare a Balance Sheet.

| Particulars | Rs. |
| :--- | ---: |
| Working Capital | 75,000 |
| Reserves and Surplus | $1,00,000$ |
| Bank Overdraft | 60,000 |
| Current Ratio | 1.75 |
| Liquid Ratio | 1.75 |
| Fixed assets to proprietors' Funds | .75 |
| Long-term liabilities | Nil |

## Solution :

## Balance Sheet

| Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | ---: |
| Share capital | $2,00,000$ | Fixed Assets | $2,25,000$ |
| Reserves \& Surplus | $1,00,000$ | Stock | 60,000 |
| Bank Overdraft | 60,000 | Debtors and Cash | $1,15,000$ |
| Creditors | 40,000 |  |  |
|  |  |  | $4,00,000$ |
|  | $4,00,000$ |  |  |

## Workings :

## 1. Current Assets

Current Ratio $=1.75$
Working Capital should be $=.75$
Working Capital $\times \frac{175}{75}=$ Rs. $75,000 \times \frac{175}{75}=$ Rs. $1,75,000$

## 2. Liquid Assets (Debtors and Cash)

Liquid Ratio - 1.15
If current assets are 175 liquid assets should be 115
Current Assets $\times \frac{175}{175}=$ Rs. $1,75,000 \times \frac{115}{175}=$ Rs. $1,15,000$

## 3. Stock

Current Assets - Liquid Assets
= Rs.1,75,000 - Rs.1,15,000
= Rs.60,000

## 4. Fixed Assets

Shareholders' Equity should be equal to total net assets.
Proprietory ratio - 7.5

If fixed assets are 75 to proprietors' funds, net current assets should be 25 of the total net assets.

Net Current Assets $\times \frac{75}{25}=$ Rs. $75,000 \times \frac{75}{25}=$ Rs.2,25,000

## 5. Shareholders' Funds

If fixed assets are 75 shareholders' funds should be 100
Fixed Assets $\times \frac{100}{75}=$ Rs.2,25,000 $\times \frac{100}{75}=$ Rs.3,00,000

Share Capital = Shareholder's Funds - Reserves and Surplus
Rs.3,00,000-1,00,000 = Rs.2,00,000

## 6. Creditors

Current assets - Working Capital - Bank Overdraft
Rs.1,75,000-75,000-60,000 = Rs.40,000
Q. 3 From the following Balance Sheet of Tara Ltd. calculate Long Term Debt Equity, Proprietory, Capital Gearing, Stock Working Capital Ratios.

| Liabilities | Rs. | Assets | Rs. |
| :--- | :---: | :--- | ---: |
| Equity Share Capital | $2,00,000$ | Land and Building | $1,40,000$ |
| 8\% Preference Share |  | Plant \& Machinery | 80,000 |
| Capital | 60,000 | Furniture \& Fixtures | 20,000 |

| Reserves | 30,000 | Debtors | 80,000 |
| :--- | ---: | :--- | :--- |
| Profit \& Loss A/c | 20,000 | Stock | 70,000 |
| $9 \%$ Debentures | 40,000 | Cash in hand | 30,000 |
| Creditors | 60,000 | Prepaid Expenses | 10,000 |
| Outstanding Exp | 5,000 | Preliminary Expenses | 20,000 |
| Provision for Taxation | 20,000 |  |  |
| Proposed Dividend | 15,000 |  |  |
|  |  |  | $4,50,000$ |

## Solution :

## Vertical Balance Sheet of Tara Ltd.

| Particulars | Amt | Amt | Amt |
| :---: | :---: | :---: | :---: |
| I. SOURCES OF FUNDS <br> 1. Proprietors' Fund : <br> a) Equity Share Capital <br> (EC) <br> b) Reserves \& Surplus <br> Reserves <br> Profit \& Loss A/c <br> c) Less : Preliminary Exp. (PC) <br> (RS) <br> (EF) <br> d) $8 \%$ Preference Share Capital Proprietors' Funds <br> (PF) <br> 2. Loan Funds : <br> 9\% Debentures | $\begin{array}{\|r} \hline 30,000 \\ 20,000 \\ \hline 50,000 \\ (20,000) \\ \hline \end{array}$ | $\begin{array}{r} 2,00,000 \\ \\ \\ 30,000 \\ \hline 2,30,000 \\ 60,000 \\ \hline \end{array}$ | $\begin{array}{r} 2,90,000 \\ 40,000 \end{array}$ |
| Capital Employed (CE) |  |  | 3,30,000 |

1) Long Term Debt Equity

$$
\begin{aligned}
& =\frac{\text { Long Term Debt }}{\text { Shareholder 's Fund }}=\frac{B F}{P F} \\
& =\frac{40,000}{2,90,000} \\
& =0.14: 1
\end{aligned}
$$

2) Proprietory Ratio

$$
\begin{aligned}
& =\frac{\text { Proprietor 's Funds }}{\text { Total Assets }} \times 100 \\
& =\frac{P F}{T A} \times 100 \\
& =\frac{2,90,000}{4,30,000} \times 100 \\
& =67.44 \%
\end{aligned}
$$

$$
T A=F A+C A=2,40,000+1,90,000=4,30,000
$$

Capital Entitled to Fixed
3) Capital Gearing Ratio
$=\frac{\text { Rate of Dividend } / \text { Interest }}{\text { Other Capital }}$

$$
=\frac{\mathrm{PC}+\mathrm{BF}}{\mathrm{EF}}
$$

Preference Capital + Debentures
$=\frac{+ \text { Long Term Loans }}{\text { Equity Capital }+ \text { Net Reserves }}$
-Preliminary Expenses

$$
=\frac{60,000+40,000}{2,30,000}
$$

$$
=\frac{1,00,000}{2,30,000}=0.43: 1
$$

4) Stock Working Capital Ratio $=\frac{\text { Stock }}{\text { Working Capital }} \times 100$

$$
\begin{aligned}
& =\frac{C S T}{W C} \times 100 \\
& =\frac{70,000}{90,000} \times 100 \\
& =77.78 \%
\end{aligned}
$$

Q. $4 \quad \mathrm{X}$ Ltd. and Y Ltd. are in the same line of business. Following are their Balance Sheets as on $31^{\text {st }}$ December 2003.

## Balance Sheet as on $31^{\text {st }}$ December, 2003

| Liabilities | X Ltd. <br> (Rs.) | Y Ltd. <br> (Rs.) | Assets | X Ltd. <br> (Rs.) | Y Ltd. <br> (Rs.) |
| :--- | :---: | ---: | :--- | :--- | :--- |
| Equity Share Capital | $7,00,000$ | $2,00,000$ | Land | $1,00,000$ | 80,000 |
| Reserve \& Surplus | $1,00,000$ | $1,00,000$ | Building | $2,50,000$ | $2,00,000$ |
| $12 \%$ Debentures | $2,00,000$ | $5,00,000$ | Plant \& Machinery | $5,00,000$ | $3,00,000$ |
| Creditors | $1,20,000$ | 70,000 | Debtors | $2,10,000$ | $1,10,000$ |
| Bills Payable | 40,000 | 20,000 | Stock | $1,00,000$ | $2,00,000$ |
| Proposed Dividend | 20,000 | 20,000 | Cash \& Bank | 55,0000 | 40,000 |
| Provision for Tax | 35,000 | 20,000 |  |  |  |
|  |  |  |  |  |  |
|  | $12,15,000$ | $9,30,000$ |  | $12,15,000$ | $9,30,000$ |

You are required to rearrange the Balance Sheets (in Vertical form) and calculate the following ratios for both the companies (any three)
a) Proprietory Ratio
b) Capital - Gearing Ratio
c) Current Ratio
d) Stock Working Capital Ratio
(Mar 2003, adapted)

## Solution :

## Balance Sheet as on $31^{\text {st }}$ December, 2003

| Particulars |  | Amt | Amt |
| :---: | :---: | :---: | :---: |
| I. SOURCES OF FUNDS <br> 1. Shareholders Fund <br> a) Share Capital <br> b) Reserves \& Surplus Proprietors' Funds (A+B) <br> 2. Borrowed Funds : 12\% Debentures | (PF/EF) <br> (BF) | $7,00,000$ <br> $1,00,000$ <br> $8,00,000$ <br> $2,00,000$ | $\begin{array}{r}2,00,000 \\ 1,00,000 \\ \hline 3,00,000 \\ \hline \\ \hline, 00,000\end{array}$ |
| Total Funds Available | $(1+2)$ | 10,00,000 | 8,00,000 |
| II. APPLICATION OF FUNDS <br> 1. Fixed Assets Land Building Plant \& Machinery |  | $\begin{aligned} & 1,00,000 \\ & 2,50,000 \\ & 5,00,000 \\ & \hline 8,50,000 \\ & \hline \end{aligned}$ | $\begin{array}{r} 80,000 \\ 2,00,000 \\ 3,00,000 \\ \hline 5,80,000 \end{array}$ |
| 2. Working Capital <br> Current Assets <br> Debtor <br> Cash \& Bank <br> Stock | (CST) |  | $\begin{array}{r} 1,10,000 \\ 40,000 \\ 2,00,000 \end{array}$ |

| Creditors <br> Bills Payable <br> Proposed Dividend <br> Provision for Tax |  | $\begin{array}{r} 1,20,000 \\ 40,000 \\ 20,000 \\ 35,000 \end{array}$ | $\begin{aligned} & 70,000 \\ & 20,000 \\ & 20,000 \\ & 20,000 \end{aligned}$ |
|  | (CL) | 2,15,000 | 1,30,000 |
| Working Capital (CA - CL) | (WC) | 1,50,000 | 2,20,000 |
| Total Funds Employed | $(1+2+3)$ | 10,00,000 | 8,00,000 |

## Calculation of Ratios:

| No. | Ratios | X Ltd. | Y Ltd. |
| :---: | :---: | :---: | :---: |
| 1 | $\begin{aligned} & \text { Proprietory Ratio } \\ & =\frac{\text { Proprietors' Funds }}{\text { Total Assets }} \times 100 \\ & =\frac{\mathrm{PF}}{\mathrm{TA}} \times 100 \\ & {[\mathrm{TA}=\mathrm{FA}-\mathrm{CA}]} \end{aligned}$ | $\begin{aligned} & =\frac{8,00,000}{12,15,000} \times 100 \\ & =65.84 \% \end{aligned}$ | $\begin{aligned} & =\frac{3,00,000}{9,30,000} \times 100 \\ & =32.26 \% \end{aligned}$ |
| 2 | Capital Gearing Ratio Capital Entitled to Fixed Yield <br> Capital not so Entitled to any Fixed Yield $=\frac{P C+B F}{E F}$ | $\begin{aligned} & =\frac{2,00,000}{8,00,000} \\ & =0.25: 1 \end{aligned}$ | $\begin{aligned} & =\frac{5,00,000}{3,00,000} \\ & =1.67: 1 \end{aligned}$ |
| 3 | $\begin{aligned} & \text { Current Ratio } \\ & =\frac{\text { Current Assets }}{\text { Current Liabilities }}=\frac{\mathrm{CA}}{\mathrm{CL}} \end{aligned}$ | $\begin{aligned} & =\frac{3,65,000}{2,15,000} \\ & =1.70: 1 \end{aligned}$ | $\begin{aligned} & =\frac{3,50,000}{1,30,000} \\ & =2.69: 1 \end{aligned}$ |
| 4 | Stock Working Capital Ratio $\begin{aligned} & =\frac{\text { Stock }}{\text { Working Capital }} \times 100 \\ & =\frac{C S T}{W C} \times 100 \end{aligned}$ | $\begin{aligned} & =\frac{1,00,000}{1,50,000} \times 100 \\ & =66.67 \% \end{aligned}$ | $\begin{aligned} & =\frac{2,00,000}{2,20,000} \times 100 \\ & =90.90 \% \end{aligned}$ |

Q. 5 Following figures have been extracted from the book of Voodoo Ltd.

| Particulars | Rs. | Particulars | Rs. |
| :--- | ---: | :--- | ---: |
| Land and Building | $6,00,000$ | Misc. Current Assets | 5,000 |
| Plant and Machinery | $5,00,000$ | P\&L Acccount | $2,00,000$ |
| Equity Capital | $5,00,000$ | General Reserves | $1,00,000$ |
| Preference Capital | $2,00,000$ | Sundry Creditors | 80,000 |
| Stock | $2,40,000$ | Bills Payable | 60,000 |
| Debtors | $2,00,000$ | Misc. Current Liabilities | 60,000 |
| Cash and Bank | 55,000 | Debentures | $4,00,000$ |
|  |  |  |  |

You are required to -
a) Rearrange above figures in the vertical form and
b) Calculate - (i) Debt-Equity Ratio (ii) Proprietory Ratio (iii) Capital Gearing Ratio.
(April 98, adapted)

## Solution :

Balance Sheet of Voodoo Ltd. as on $\qquad$

| Particulars | Amt |  | Amt |
| :---: | :---: | :---: | :---: |
| I. SOURCES OF FUNDS <br> 1. Proprietors' Fund <br> a) Equity Share Capital <br> b) P\&L Account <br> c) General Reserve <br> Equityholders' Funds (A+B) (EF) <br> d) Preference Capital <br> Proprietors Funds <br> 2. Borrowed Funds : <br> Debentures |  | $\begin{array}{r} 5,00,000 \\ 2,00,000 \\ 1,00,000 \\ \hline 8,00,000 \\ 2,00,000 \\ \hline \end{array}$ | $\begin{array}{r} 10,00,000 \\ 4,00,000 \end{array}$ |
| Capital Employed (1+2) (CE) |  |  | 14,00,000 |
| II. APPLICATION OF FUNDS <br> 1. Fixed Assets <br> Land \& Building <br> Plant \& Machinery <br> (FA) <br> 2. Working Capital <br> Debtors <br> Cash / Bank <br> Misc. Q. 6 Following is the Balance Sheet of Roland Ltd.

Balance Sheet as on $31^{\text {st }}$ March, 2004

| Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | ---: |
| Equity Share Capital | $1,00,000$ | Cash in hand | 2,000 |
| 6\% Preference Share |  | Cash at Bank | 10,000 |
| Capital | $1,00,000$ | Bills Receivable | 30,000 |
| 7\% Debentures | 40,000 | Debtors | 70,000 |
| 8\% Public Deposits | 20,000 | Stock | 40,000 |
| Bank Overdraft | 40,000 | Advances | 20,000 |

| Creditors | 60,000 | Furniture | 30,000 |
| :--- | ---: | :--- | ---: |
| Unpaid Dividend | 10,000 | Machinery | $1,00,000$ |
| Outstanding Exp. | 7,000 | Land \& Building | $2,20,000$ |
| Reserves | $1,50,000$ | Goodwill | 30,000 |
| Provision for Tax | 20,000 | Preliminary Expenses | 10,000 |
| Profit \& Loss Account | 20,000 | Calls in Arrears in |  |
|  |  | Equity Shares | 5,000 |
|  |  |  |  |
|  | $5,67,000$ |  | $5,67,000$ |

Convert the above Balance Sheet in vertical form and calculate - (i) Current Ratio (ii) Quick Ratio (iii) Proprietary Ratio (iv) Capital Gearing Ratio (v) Stock Working Capital Ratio.
(Oct. 01, adapted)

## Solution :

Vertical Balance Sheet as on $31^{\text {st }}$ March, 2003

## Calculation of Ratios:

1) Current Ratio $\begin{aligned} & =\frac{\text { Current Assets }}{\text { Current Liabilities }}=\frac{C A}{C L} \\ & =\frac{1,72,000}{1,37,000}=1.26: 1 \\ \text { 2) Quick Ratio } & =\frac{\text { Quick Assets }}{\text { Quick Liabilities }}=\frac{Q A}{Q L} \\ & =\frac{1,32,000}{97,000}=1.36: 1\end{aligned}$
2) Proprietory Ratio $=\frac{\text { Proprietor's Funds }}{\text { Total Assets }} \times 100$

$$
=\frac{P F}{T A} \times 100
$$

$$
=\frac{\text { Proprietors' Fund }}{\text { Fixed Assets }+ \text { Current Assets }} \times 100
$$

$$
=\frac{3,55,000}{5,52,000}=64.31 \%
$$

Capital Entitled to Fixed Rate of
4) Capital Gearing Ratio $=\frac{\text { Interest or Dividend }}{\text { Capital not so entitled to Fixed }}$

Rate of Dividend

$$
\begin{aligned}
& =\frac{P C+B F}{E F} \\
& =\frac{1,60,000}{2,55,000}=0.63: 1
\end{aligned}
$$

5) Stock Working Capital Ratio $=\frac{\text { Stock }}{\text { Working Capital }} \times 100$

$$
=\frac{40,000}{35,000} \times 100=114.29 \%
$$

Q. 7 From the following given below prepare Balance Sheet in a vertical form, suitable for analysis and calculate the following ratios:
a) Capital Gearing Ratio
b) Proprietory Ratio
c) Current Ratio
d) Liquid Ratio
e) Stock to Working Capital
(Oct. 06, adapted)

| Particulars | Rs. | Particulars | Rs. |
| :--- | ---: | :--- | ---: |
| Cash at Bank | 12,500 | Land \& Building | $2,00,000$ |
| Expenses paid in Advance | 15,500 | Stock | 68,250 |
| Creditors | $1,01,500$ | Debtors | $1,30,750$ |
| Bills Receivable | 5,250 | Plant \& Machinery | $1,36,000$ |
| 12\% Debentures | 62,500 | Loan from Director | $1,00,000$ |
| Equity Share Capital | $2,50,000$ | (Repayable after three |  |
| Profit \& Loss A/c (Cr.) | 54,250 | years) |  |
|  |  |  | $5,67,000$ |

## Solution:

Vertical Balance Sheet as on ...

\begin{tabular}{|c|c|c|c|}
\hline Particulars \& Amt \& Amt \& Amt \\
\hline \begin{tabular}{l}
I. SOURCES OF FUNDS \\
1. Shareholder's Fund \\
a) Share Capital \\
Equity Share Capital \\
b) Reserves and Surplus Profit \& Loss Account - Cr. bal Own fund / Net Worth (A + B) \\
2. Loan Funds : \\
a) Secured Loans \(12 \%\) Debentures \\
b) Unsecured Loans Loan from Directors (Repayable for 3 years)
\end{tabular} \& \& \[
\begin{array}{r}
2,50,000 \\
\hline 54,250 \\
\hline 62,500 \\
\\
1,00,000
\end{array}
\] \& \[
3,04,250
\] \\
\hline Total Funds Available (1 + \& \& \& 4,66,750 \\
\hline \begin{tabular}{l}
II. APPLICATION OF FUNDS \\
1. Fixed Assets \\
A. Tangible Assets Land \& Building Plant \& Machinery \\
B. Intangible Assets \\

83,750 \\
\hline 2,32,250
\end{array}
\]
\[
1,01,500
\]
\end{tabular} \& \(3,36,000\)

$1,30,750$ <br>
\hline Total Funds Employed (2+3) \& \& \& 4,66,750 <br>
\hline
\end{tabular}

## Ratios:

a) Capital Gearing Ratio $\quad=\frac{\text { Interest or Dividend }}{\text { Capital not so entitled to Fixed }}$

Rate of Dividend
Preference Share Capital + Borrowed Funds
$=\frac{\text { Borrowed Funds }}{\text { Equity Share Capital }+ \text { Reserves }}$

- Misc. Expenses
$=\frac{1,62,500}{2,50,000+54,250}$
$=\frac{1,62,500}{3,04,250}=0.534: 1$
b) Proprietory Ratio

$$
=\frac{\text { Shareholders Funds }}{\text { Total Assets }}
$$

$$
=\frac{3,04,250}{5,68,250}=0.535: 1
$$

$$
\text { Total Assets = Fixed Assets + Investment }+ \text { Current Assets }
$$

$$
=3,36,000+\mathrm{Nil}+2,32,250=\text { Rs.5,68,250 }
$$

c) Current Ratio

$$
\begin{aligned}
& =\frac{\text { Current Assets }}{\text { Current Liabilities }} \\
& =\frac{2,32,250}{1,01,500}=2.288: 1
\end{aligned}
$$

d) Liquid Ratio

$$
\begin{aligned}
& =\frac{\text { Quick Assets }}{\text { Quick Liabilities }} \\
& =\frac{1,48,500}{1,01,500}=1.463: 1
\end{aligned}
$$

e) Stock to Working Capital $=\frac{\text { Stock }}{\text { Working Capital }}$

$$
=\frac{68,250}{1,30,750}=0.522: 1
$$

Q. 8 (A) Following is the Profit and Loss Account of Saurav Limited for the year ended $31^{\text {st }}$ March, 2003. You are required to prepare Vertical Income Statement for the purpose of analysis.

| Particulars | Rs. | Particulars | Rs. |
| :---: | :---: | :---: | :---: |
| To Opening Stock <br> To Purchases <br> To Wages <br> To Factory Expenses <br> To Office Salaries <br> To Office Rent <br> To Postage \& Telegram <br> To Directors Fee <br> To Salesmen Salaries <br> To Advertising <br> To Delivery Expenses <br> To Debenture Interest <br> To Depreciation <br> On Office Furniture <br> On Plant <br> On Delivery Van <br> To Loss on Sales of Van <br> To Income Tax <br> To Net Profit | 700 900 150 350 25 39 5 6 12 18 20 20 10 30 20 5 175 145 |  | 2,000 600 10 20 |
|  | 2,630 |  | 2,630 |

(B) From the above Vertical Income Statement Calculate: (i) Gross Profit Ratio, (ii) Operating Costs Ratio excluding Finance expenses (iii) Stock Turnover Ratio.
(Oct. 2003, adapted)

## Solution :

Vertical Income Statement for the year ended 31 ${ }^{\text {st }}$ March, 2003

| Particulars |  | Rs. | Rs. |
| :--- | :--- | ---: | :--- |
| Credit Sales | CRS | 1,500 |  |
| Cash Sales |  | 520 |  |
| Less : Returns |  | $(20)$ |  |
| 1. Total Sales | S |  | 2,000 |
| Opening Stock | OST | 700 |  |
| Purchases | CRP | 900 |  |
| Factory Expenses |  | 350 |  |

| Wages |  | 150 |  |
| :---: | :---: | :---: | :---: |
| Depreciation : Machinery |  | 30 |  |
| Less : Closing Stock | (CST) | (600) |  |
| 2. Cost of Goods Sold | COGS |  | 1,530 |
| 3. Gross Profit | GP |  | 470 |
| 4. Administration Expenses |  |  |  |
| Office Rent |  | 39 |  |
| Salaries |  | 25 |  |
| Postage |  | 5 |  |
| Depreciation |  | 10 |  |
| Directors Fees |  | 6 |  |
|  | AE |  | 85 |
| 5. Selling Expenses |  |  |  |
| Salaries |  | 12 |  |
| Advertising |  | 18 |  |
| Depreciation |  | 20 |  |
| Delivery Expenses |  | 20 |  |
|  | SE |  | 70 |
| 6. Operating Expenses | OE |  | 155 |
| 7. Operating Profit [GP - OE] | OP |  | 315 |
| Dividend |  | 10 |  |
| Profit on Sale of Furniture |  | 20 |  |
| Loss on Sale of Van |  | (5) |  |
| 8. Net Non-Operating Profit / Loss | NO |  | 25 |
| 9. Profit before Interest \& Tax | PBIT |  | 340 |
| Interest on Debentures | INT |  | 20 |
| 10. Net Profit Before Tax | NPBT |  | 320 |
| Income Tax |  |  | 175 |
| 11. Net Profit After Tax | NPAT |  | 145 |
| Preference Dividends |  |  | 0 |
| 12. Profit Av. For Equityholders | PAES |  | 145 |
| Equity Dividends | ED |  | 0 |
| 13. Retained Earnings | RET |  | 145 |

## Calculation of Ratios:

i) Gross Profit Ratio

$$
\begin{aligned}
& =\frac{\text { Gross Profit }}{\text { Net Sales }} \times 100 \mathrm{Gr} \\
& =\frac{470}{2,000} \times 100=23.5 \%
\end{aligned}
$$

ii) Operating Cost Ratio $=\frac{\text { Operating Cost }}{\text { Net Sales }} \times 100$

$$
=\frac{1,685}{2,000} \times 100=84.25 \%
$$

Operating Cost $=$ Cost of Sales + Operating Expenses

$$
=1,530+175=1,705
$$

iii) Stock Turnover Ratio $=\frac{\text { Cost of Goods Sold }}{\text { Average Stock }}$

$$
=\frac{1,530}{650}=2.35 \text { Times }
$$

$$
\text { Average Stock } \quad=\frac{\text { Opening Stock }+ \text { Closing Stock }}{2}
$$

$$
=\frac{700+600}{2}=650
$$

Q. 9 The following figures relate to the trading activities of Z Ltd., for the year ended $31^{\text {st }}$ March 2003.

| Particulars | Rs. |
| :--- | ---: |
| Sales | $10,57,000$ |
| Closing Stock | $4,60,000$ |
| Purchases | $8,35,000$ |
| Loss on Sales of Assets | 45,000 |
| Advertising | 32,750 |
| Rent | 18,750 |
| Profit on Sale of Shares | 25,000 |
| Provision for taxation | $1,00,000$ |
| Salaries | 35,750 |
| Salesmen's Salaries | 14,250 |
| Depreciation | 36,000 |
| Sales Returns | 57,000 |
| Depreciation on Delivery Van | 8,000 |
| Printing and Stationery | 17,500 |
| Audit Fees | 12,000 |
| Opening Stock | $2,25,000$ |
| Dividend received on Shares | 15,000 |

You are required to rearrange above income statement in vertical form and compute the following ratios.
a) Gross Profit Ratio,
b) Operating Ratio
c) Net Operating Profit Ratio
d) Selling and Distribution Expenses to Sales Ratio
e) Net Profit Ratio

## Solution :

Vertical Income Statement for the year ended 31-03-2003

a) Gross Profit Ratio $\quad \begin{aligned} & =\frac{\text { G.P. }}{\text { Net Sales }} \times 100 \\ & =\frac{4,00,000}{10,00,000} \times 100=40 \%\end{aligned}$
b) Operating Ratio

$$
\begin{aligned}
& =\frac{\text { COGS }+ \text { OE }}{\text { Net Sales }} \times 100 \\
& =\frac{7,75,000}{10,00,000} \times 100=77.50 \%
\end{aligned}
$$

c) Net Operating Profit Ratio

$$
=\frac{\text { Operating N.P. }}{\text { Net Sales }} \times 100=\frac{2,25,000}{10,00,000} \times 100=22.50 \%
$$

d) Selling \& Distr. Exp. to Sales Ratio

$$
=\frac{\text { Selling \& Dist. Expenses }}{\text { Net Sales }} \times 100
$$

e) Net Profit Ratio $=\frac{\text { Net Profit Before Tax }}{\text { Sales }} \times 100=\frac{2,20,000}{10,00,000} \times 100$

$$
=22 \%
$$

## Compute Various Ratios

Q. 10 (Two Companies)

The summarised final accounts of two companies are as follows:

## Balance Sheet

| Liabilities | X Ltd. <br> Rs. | Y Ltd. <br> Rs. | Assets | X Ltd. <br> Rs. | Y Ltd <br> Rs. |
| :--- | ---: | ---: | :--- | ---: | ---: |
| Share Capital | 88,000 | 88,000 | Fixed Assets | $1,21,000$ | 96,800 |
| Reserves | 42,900 | 35,200 | Current Assets | $1,25,400$ | $1,03,400$ |
| 8\% Debentures | 22,000 | 22,000 | Less: Current <br> Liabilities | 93,500 | 55,000 |
|  | $\mathbf{1 , 5 2 , 9 0 0}$ | $\mathbf{1 , 4 5 , 2 0 0}$ |  | $\mathbf{1 , 5 2 , 9 0 0}$ | $\mathbf{1 , 4 5 , 2 0 0}$ |

Revenue Statement for the year

| Particulars | X Ltd. <br> Rs. | Y Ltd. <br> Rs. |
| :--- | ---: | ---: |
| Sales | $3,30,000$ | $2,64,000$ |
| Less: Cost of Sales | $2,37,600$ | $1,98,000$ |
| Gross Profit | $\mathbf{9 2 , 4 0 0}$ | $\mathbf{6 6 , 0 0 0}$ |
| Less: Operating Expenses | 63,800 | 44,000 |
| Net Profit before Tax | 28,600 | 22,000 |
| Less: Tax | 12,100 | 9,240 |
| Profit after Tax | $\mathbf{1 6 , 5 0 0}$ | $\mathbf{1 2 , 7 6 0}$ |
| Less: Dividend | $\mathbf{8 , 8 0 0}$ | 6,600 |
| Retained Earning | $\mathbf{7 , 7 0 0}$ | $\mathbf{6 , 1 6 0}$ |

You are required to calculate the following ratios:
(1) Proprietory ratio (2) Capital gearing ratio (3) Gross profit ratio
(4) Operating ratio (5) Return on capital employed ratio (6) Return on proprietor's equity ratio (7) Expenses ratio (8) Net profit ratio.
(Apr. 95, adapted)

## Solution:

## Vertical Balance Sheet

| Particulars |  | X Ltd. |  | Y Ltd. |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | Rs. | Rs. | Rs. | Rs. |

$\left.\begin{array}{|l|l|l|l|}\hline \text { (7) } & \begin{array}{l}\text { Expenses Ratio } \\ \text { (a) } \frac{\text { COGS }}{\text { Sales }} \times 100\end{array} & =\frac{2,37,600}{3,30,000} \times 100=72 \%\end{array}\right)=\frac{1,98,000}{2,64,000} \times 100=75 \%$
Q. 11 From the following Balance Sheet of X Ltd. compute -
(a) Liquid Ratio
(b) Proprietory Ratio
(c) Stock Turnover Ratio
(d) Capital Gearing Ratio (e) Debtors Velocity and offer you comments in brief.

Balance Sheet as on 31 ${ }^{\text {st }}$ March, 2003

| Particulars | Rs. | Particulars | Rs. |
| :--- | ---: | :--- | ---: |
| Preference Share Capital | $2,00,000$ | Fixed Assets | $12,00,000$ |
| Equity Share Capital | $5,00,000$ | Stock | $5,40,000$ |
| Reserves | $10,00,000$ | Sundry Debtors | $8,00,000$ |
| Secured Loans | $4,00,000$ | Advance Income-tax | $1,20,000$ |
| Current Liabilities | $5,40,000$ | Cash at Bank | $7,90,000$ |
| Provisions | $8,10,000$ |  |  |
| Total | $\mathbf{3 4 , 5 0 , 0 0 0}$ | Total | $\mathbf{3 4 , 5 0 , 0 0 0}$ |

Total Sales during the year was Rs. 77,76,000 (including Cash Sales Rs. $5,76,000$ ) which yielded a Gross Profit of $25 \%$ on Sales. The Stock on $31^{\text {st }}$ March, 2002 was Rs. 4,32,000. Assume for your working 360 days for the year.

## Solution:

(a) Liquid Ratio $=\frac{\text { Quick Assets }}{\text { Quick Liabilities }}=\frac{\mathrm{QA}}{\mathrm{QL}} \quad=\frac{15,90,000}{13,50,000}$
(b) Proprietory Ratio $=\frac{\text { Proprietor's Funds }}{\text { Total Assets }} \times 100=\frac{\mathrm{PF}}{\mathrm{TA}} \times 100$

$$
\begin{aligned}
& =\frac{17,00,000}{34,50,000} \times 100 \\
& =49 \%
\end{aligned}
$$

(c) Stock-Turnover Ratio $=\frac{\text { COGS }}{\text { Avg.Stock }}$

$$
\begin{aligned}
=\frac{\text { Sales }- \text { GrossProfit }}{\frac{\text { Opening Stock }+ \text { Closing Stock }}{2}} & =\frac{58,32,000}{4,86,000} \\
& =12 \text { times }
\end{aligned}
$$

Stock Velocity $=\frac{\text { No. of days in year }}{\text { Stock Turnover Ratio }} \quad=\frac{360}{12}$

$$
=30 \text { days }
$$

(d) Capital Gearing Ratio $=\frac{\text { Pref. Capital }+ \text { Borrowed Funds }}{\text { Equity Share Capital }+ \text { Reserves }}$

$$
\begin{aligned}
& =\frac{6,00,000}{15,00,000} \\
& =0.40: 1
\end{aligned}
$$

(e) Debtors Velocity $=\frac{\text { Debtors }+B R}{\text { Credit Sales }} \times 360=\frac{8,00,000}{72,00,000} \times 360$ $=40$ days

## Working Note:

Q. 12 Following are the Trading and Profit and Loss Account of Sarmer Ltd. for the year ending $31^{\text {st }}$ December, 2002 and Balance Sheet on that date:

## P and L Account

| Particulars | Rs. | Particulars | Rs. |
| :--- | ---: | :--- | :---: |
| To Opening Stock | $1,45,000$ | By Sales | $7,50,000$ |
| To Purchases | $6,10,000$ | By Closing Stock | $1,55,000$ |
| To Gross Profit C/d | $1,50,000$ |  |  |
|  | $\mathbf{9 , 0 5 , 0 0 0}$ |  | $\mathbf{9 , 0 5 , 0 0 0}$ |
| To Sundry Expenses | 80,000 | By Gross Profit B/d | $1,50,000$ |
| To Net Profit | 70,000 |  |  |
|  | $\mathbf{1 , 5 0 , 0 0 0}$ |  | $\mathbf{1 , 5 0 , 0 0 0}$ |

Balance Sheet

| Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | :---: |
| Share Capital | $7,00,000$ | Net Block | $5,50,000$ |
| Reserve \& Surplus 50,000 |  | Stock | $1,55,000$ |
| Add: Profit for the year $\quad 70,000$ | $1,20,000$ | Debtors | $1,80,000$ |
| Bank Overdraft | 35,000 | Cash | $1,20,000$ |
| Creditors | $1,50,000$ |  |  |
|  | $\mathbf{1 0 , 0 5 , 0 0 0}$ |  | $\mathbf{1 0 , 0 5 , 0 0 0}$ |

You are required to calculate the following ratios. Current Ratio, Quick Ratio, Gross Profit to Sales, Stock Turnover, Debtors Turnover Ratio, NP to paid up Capital.
(April 98, adapted)

## Solution:

(1) Gross Profit Ratio $=\frac{\text { Gross Profit }}{\text { Net Sales }} \times 100=\frac{\text { GP }}{S} \times 100$

$$
\begin{aligned}
& =\frac{1,50,000}{7,50,000} \times 100 \\
& =20 \%
\end{aligned}
$$

(2) Stock Turnover Ratio $=\frac{\text { COGS }}{\text { Average Stock }}=\frac{\text { COGS }}{\frac{\text { OST }+\mathrm{CST}}{2}}$

$$
\begin{aligned}
& =\frac{6,00,000}{1,50,000} \\
& =4 \text { times }
\end{aligned}
$$

$$
\text { Average Stock }=\frac{\text { Opening Stock }+ \text { Closing Stock }}{2}=1,50,000
$$

(3) Current Ratio $=\frac{\text { Current Assets }}{\text { Current Liabilities }}=\frac{\mathrm{CA}}{\mathrm{CL}}=\frac{4,55,000}{1,85,000}$

$$
=2.46: 1
$$

(4) Quick Ratio $=\frac{\text { Quick Assets }}{\text { Quick Liabilities }}=\frac{\mathrm{QA}}{\mathrm{QL}} \quad=\frac{3,00,000}{1,50,000}$

$$
=2: 1
$$

(5) Debtors Turnover Ratio $=\frac{\text { Credit Sales }}{\text { Debtors }+ \text { Bill Receivable }}=\frac{\mathrm{CRS}}{\mathrm{DR}+\mathrm{BR}}$

$$
\begin{aligned}
= & \frac{7,50,000}{1,80,000} \\
= & 4.17 \text { times } \\
& (\text { period } 88 \text { days })
\end{aligned}
$$

(6) N.P. to Paid-up Capital $=\frac{\text { N.P.A.T. }}{\text { Paid-up Share Capital }} \times 100$

$$
\begin{aligned}
=\frac{\mathrm{NPAT}}{\mathrm{EC}} \times 100 & =\frac{70,000}{7,00,000} \times 100 \\
& =10 \%
\end{aligned}
$$

| To Interest | 5,000 |  |  |
| To Provision for Tax | 20,000 |  |  |
| To Net Profit c/d | 50,000 |  |  |
|  | $\mathbf{1 , 6 1 , 0 0 0}$ |  |  |

Balance Sheet as on $31^{\text {st }}$ March, 2007

| Liabilities | Rs. | Assets |  | Rs. |
| :---: | :---: | :---: | :---: | :---: |
| Equity Share Capital (Rs. 10) | 1,50,000 | Fixed Assets <br> (-) Depreciation | $\begin{array}{r} \hline 1,60,000 \\ 30,000 \end{array}$ | 1,30,000 |
| 8\% Preference Share Capital (Rs. 100) | 1,00,000 | Investment |  | 1,00,000 |
| Reserve \& Surplus | 62,000 | Stock |  | 80,000 |
| 10\% Debenture | 50,000 | Debtors |  | 60,000 |
| Bank Loan (Payable after 5 years) | 40,000 | Bills Receivable |  | 50,000 |

| Creditors | 60,000 | Cash | 85,000 |
| :--- | ---: | :--- | ---: |
| Provision for Tax (C.Y.) | 20,000 | Preliminary Expenses | 5,000 |
| Bank Overdraft | 20,000 |  |  |
| Proposed Pref. <br> Dividend | 8,000 |  |  |
|  | $\mathbf{5 , 1 0 , 0 0 0}$ |  | $\mathbf{5 , 1 0 , 0 0 0}$ |

Note: Market value of Equity share is Rs. 12 and Dividend paid per Equity share is Rs. 2. Calculate the following ratio:
(a) Acid Test Ratio
(b) Capital Gearing Ratio
(c) Operating Ratio
(d) Dividend Payout Ratio
(e) Debt Service Ratio
(f) Creditors Turnover Ratio
(g) Earning per Share
(h) Stock Turnover Ratio
(i) Price Earning Ratio
(Mar. 08, adapted)

## Solution:

## Balance Sheet Ratios:

1. Quick/Liquid Ratio $=\frac{\mathrm{QA}}{\mathrm{QL}}=\frac{60,000+50,000+85,000}{60,000+20,000+8,000}$

$$
=\frac{1,95,000}{88,000}=2.22
$$

2. Capital Gearing Ratio $=\frac{\mathrm{PC}+\mathrm{BF}}{\mathrm{EF}}=\frac{1,00,000+50,000+40,000}{1,50,000+62,000-5,000}$

$$
=\frac{1,90,000}{2,07,000}=0.92
$$

## Profit \& Loss Ratios:

3. Operating Ratio $=\frac{\text { COGS }+\mathrm{OE}}{\mathrm{S}} \times 100$

$$
\begin{aligned}
& \begin{array}{c}
(70,000+5,40,000+2,14,000-80,000) \\
\\
= \\
+(26,000+5,000+15,000+10,000+30,000)
\end{array} \\
= & \frac{8,00,000}{9,00,000} \times 100=92 \%
\end{aligned}
$$

$$
\text { Stock Turnover Ratio }=\frac{C O G S}{(O S T+C S T) / 2}=\frac{7,44,000}{75,000}=9.92
$$

## Composite Ratios:

4. Debt Service $=\frac{\text { PBIT }}{\text { INT }}=\frac{\text { Sales }- \text { COGS }-\mathrm{OE}+\text { Interest }}{\text { Interest on Debentures }}$

$$
=\frac{9,00,000-8,30,000+5,000}{5,000}=\frac{75,000}{5,000}=15.00
$$

5. Creditors Turnover $=\frac{C R P}{(C D+B P)}=\frac{5,40,000}{60,000}=9.00$
6. Creditors Velocity $=\frac{365}{C T R}=\frac{365}{9.00}=40.56$
7. Dividend Pay-out Ratio $=\frac{E D}{P A E S} \times 100=\frac{30,000}{42,000}=0.71$
8. EPS $=\frac{\text { Profitfor Equityholders }}{\text { No. of Equity Shares }}=\frac{42,000}{15,000}=$ Rs. 2.80
9. Price Earning Ratio $=\frac{\text { Marke Price }}{\text { EPS }}=\frac{12}{2.80}=4.29$

Q. 15 Following is the Profit and Loss A/c and Balance Sheet of Adhiraj Ltd:

Profit and Loss A/c for the Year ended 31 ${ }^{\text {st }}$ December, 2006

| Particulars | Rs. | Particulars | Rs. |
| :--- | ---: | :--- | ---: |
| To Opening Stock | 20,000 | By Sales | $4,50,000$ |
| To Purchases | $2,00,000$ | By Closing Stock | 80,000 |
| To Wages | 50,000 |  |  |
| To Factory Exp. | 70,000 |  |  |
| To G.P. c/d | $1,90,000$ |  | $\mathbf{5 , 3 0 , 0 0 0}$ |
|  | $\mathbf{5 , 3 0 , 0 0 0}$ |  | $1,90,000$ |
| To Administrative Exp. | 60,000 | By Gross Profit b/d | 5,000 |
| To Selling Exp. | 40,000 | By Interest Received |  |
| To Interest on Loan | 5,000 |  | $\mathbf{1 , 9 5 , 0 0 0}$ |
| To Debenture Interest | 8,000 |  | 82,000 |
| To Net Profit | $\mathbf{8 2 , 0 0 0}$ |  |  |
|  | $\mathbf{1 , 9 5 , 0 0 0}$ |  | $\mathbf{8 2 , 0 0 0}$ |
| To Tax Provision |  | By Net Profit |  |
| To Proposed Dividend |  |  |  |
| To Balance Profit |  |  |  |
|  | $\mathbf{8 2 , 0 0 0}$ |  |  |

Balance Sheet as on 31 ${ }^{\text {st }}$ December, 2006

| Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | :---: |
| Equity Share Capital <br> (Rs. 10) | $2,00,000$ | Land \& Building | $1,75,000$ |
| 9\% Preference Share <br> Capital | $1,50,000$ | Machinery | $1,50,000$ |
| $8 \%$ Debenture | $1,00,000$ | Furniture | $1,00,000$ |
| Reserve | 50,000 | Goodwill | 50,000 |
| Profit \& Loss A/c | 30,000 | Patents | 50,000 |
| Short Term Loan <br> (Repaid within one <br> year) | $1,00,000$ | Vehicles | $1,40,000$ |
| Bank Overdraft | 75,000 | Investment | 50,000 |

| Sundry Creditors | $1,40,000$ | Stock | 80,000 |
| :--- | ---: | :--- | ---: |
| Bills Payable | 30,000 | Debtors | 90,000 |
| Provision for Tax | 20,000 | Bills Receivable | 30,000 |
| Proposed Dividend | 20,000 |  |  |
|  | $\mathbf{9 , 1 5 , 0 0 0}$ |  | $\mathbf{9 , 1 5 , 0 0 0}$ |

Market price of equity share is Rs. 7.
Calculate the following ratios:
(a) Acid Test Ratio
(b) Capital Gearing Ratio
(c) Stock Turnover Ratio
(d) Debtors Turnover Ratio
(e) Creditors Turnover Ratio
(f) Return on Capital Employed
(g) Stock Working Capital Ratio Ratio
(h) Operating Ratio
(i) Earning Per Share
(j) Price Earning Ratio
(Mar. 07, adapted)

## Solution:

## Ratios:

(a) Quick/Liquid/Acid Test Ratio $=\frac{\text { Quick Assets }}{\text { Quick Liabilities }}$

$$
=\frac{1,20,000}{3,10,000}=0.387: 1
$$

(b) Capital Gearing Ratio

$$
=\frac{\text { Preference Share Capital }+ \text { Borrowed Funds }}{\text { Equity Share Capital }+ \text { Reserves }- \text { Misc. Expenses }}
$$

$$
=\frac{2,50,000}{2,80,000}=0.893
$$

(c) Stock Turnover Ratio $=\frac{\text { Cost of Goods Sold }}{\text { Average Stock }}$

$$
=\frac{2,60,000}{50,000}=5.20 \mathrm{times}
$$

$$
\begin{aligned}
\text { Average Stock } & =\frac{\text { Opening Stock }+ \text { Closing Stock }}{2} \\
& =\frac{20,000+80,000}{2}=50,000
\end{aligned}
$$

(d) Debtors Turnover Ratio $=\frac{\text { Credit Sales }}{\text { Debtors }}=\frac{C R S}{(D R+B R)}$

$$
=\frac{4,50,000}{1,20,000}=3.75
$$

(e) Creditors Turnover Ratio $=\frac{\text { Credit Purchases }}{\text { Creditors }}=\frac{C R P}{(C D+B P)}$

$$
=\frac{2,00,000}{1,70,000}=1.176
$$

(f) Return on Capital Employed $=\frac{\mathrm{PBIT} \times 100}{\mathrm{CE}}$

$$
=\frac{90,000}{5,30,000} \times 100=16.98 \%
$$

(g) Stock to Working Capital $=\frac{\text { Stock }}{\text { Working Capital }}$

$$
=\frac{80,000}{(1,85,000)}=(0.43)
$$

(h) Operating Ratio $=\frac{\mathrm{COGS}+\mathrm{OE} \times 100}{\mathrm{~S}}=\frac{3,65,000}{4,50,000} \times 100=81.11 \%$
(i) Earning Per Share $=\frac{\text { PAES }}{\text { No. of Equity Shares }}=\frac{48,500}{20,000}=2.425$
(j) Price Earnings Ratio $=\frac{\text { Market Price }}{\text { EPS }}=\frac{7}{2.425}=2.90$

Working Note:
Balance Sheet as on $31^{\text {st }}$ December, 2006

### 11.2 EXERCISE

Q. 1 Re-arrange the following Balance Sheet, and Profit and Loss Account of Eden woods Ltd. in a form suitable for analysis and calculate the following ratios:
(a) Current Ration
(b) Stock Turnover Ratio
(c) Liquidity Ratio
(d) Debt Equity Ratio
(e) Gross Profit Ratio
(f) Net Profit Ratio

Balance Sheet as at $31^{\text {st }}$ March, 2003

| Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | ---: |
| Bills Payable | 25,000 | Fixed Assets | $1,25,000$ |
| Sundry Creditors | 50,000 | Sundry Debtors | 50,000 |
| Debentures | $1,00,000$ | Bank Balance | 25,000 |
| Reserves | 50,000 | Inventory | $1,25,000$ |
| Equity Share Capital | 50,000 |  |  |
| Preference Share <br> Capital | 50,000 |  |  |
| Total | $\mathbf{3 , 2 5 , 0 0 0}$ | Total | $\mathbf{3 , 2 5 , 0 0 0}$ |

Profit and Loss Account for the year ended 31 ${ }^{\text {st }}$ March, 2003

| Particulars | Rs. | Particulars | Rs. |
| :--- | ---: | :--- | ---: |
| To Opening <br> Inventories | 75,000 | By Sales | $5,00,000$ |
| To Purchases | $1,50,000$ | By Closing <br> Inventories | $1,25,000$ |
| To Manufacturing <br> Expenses | 50,000 | By Profit on sale of <br> Shares | 25,000 |
| To Direct Wages | $1,00,000$ |  |  |
| To Administrative <br> Expenses | 25,000 |  |  |
| To Selling Expenses | 25,000 |  |  |
| To Loss on Sale of <br> Assets | 27,500 |  | $\mathbf{6 , 5 0 , 0 0 0}$ |
| To Interest on <br> Debentures | 5,000 |  |  |
| To Net Profit | $1,92,500$ |  | Total |
| Total | $\mathbf{6 , 5 0 , 0 0 0}$ |  |  |

(April 96, adapted)
[Ans.: B/S (v) Total Rs. 2,50,000; (a) 2.67:1 (b) 2.5 (c) $1: 1$
(d) $0.67: 1$ or $0.4: 1$ (e) $50 \%$ (f) $38.5 \%$ ]
Q. 2 The following is the Trading and Profit and Loss A/c and Balance Sheet of Sham Ltd.

Trading and Profit and Loss Account as on 31 ${ }^{\text {st }}$ March, 2003

| Particulars | Rs. | Particulars | Rs. |
| :--- | ---: | :--- | ---: |
| To Opening Stock | 10,000 | By Sales | $1,50,000$ |
| To Purchases | 55,000 | By Closing Stock | 15,000 |
| To Wages | 20,000 |  |  |
| To Power \& Fuel | 10,000 |  |  |
| To Gross Profit c/d | 70,000 |  | $\mathbf{1 , 6 5 , 0 0 0}$ |
|  | $\mathbf{1 , 6 5 , 0 0 0}$ |  | By Gross Profit b/d |
| To Administration <br> Expenses |  | By Rent Received | $1,50,000$ |
| To Interest |  |  |  |
| To Depreciation on <br> Machinery |  |  |  |
| To Selling Expenses |  |  | $\mathbf{7 1 , 5 0 0}$ |
| To Loss by Fire |  |  | 15,000 |
| To Provision for Tax |  |  | 20,000 |
| To Net Profit | $\mathbf{7 1 , 5 0 0}$ |  | $\mathbf{3 5 , 0 0 0}$ |
|  |  | By Opening |  |
| To Interim Dividend | 10,000 |  |  |
| To Closing Balance | 25,000 | By Net Profit |  |
|  | $\mathbf{3 5 , 0 0 0}$ |  |  |

Balance Sheet as on $31^{\text {st }}$ March, 2003

| Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | ---: |
| Equity Share Capital | $1,00,000$ | Land \& Building | 50,000 |
| Profit \& Loss A/c | 25,000 | Plant \& Machinery | 30,000 |
| Creditors | 15,000 | Furniture | 20,000 |
| Secured Loans | 10,000 | Stock | 15,000 |
| Bank Overdraft | 25,000 | Debtors | 15,000 |
| Provision for Tax | 5,000 | Investments | 12,500 |
| Outstanding <br> Expenses | 5,000 | Cash | 17,500 |
|  |  | Goodwill | 20,000 |
|  | Miscellaneous <br> Expenditure | 5,000 |  |
|  | $\mathbf{1 , 8 5 , 0 0 0}$ |  | $\mathbf{1 , 8 5 , 0 0 0}$ |

Calculate the following ratios after converting above financial statements in vertical form :-
(1) Inventory Turnover Ratio
(2) Gross Profit Ratio
(3) Operating Ratio
(4) Current Ratio
(5) Proprietory Ratio
(6) Liquid Ratio
(April 2002, adapted)
[Ans.: B/S (v) Total Rs. 1,30,000; (1) 6.8 (2) 43.33\%
(3) $74.67 \%$ (4) $0.95: 1$ (5) $66.67 \%$ (6) $1.30: 1]$
Q. 3 (From Details): Given below are extracts of Financial Statement of M/s. D.K. Ltd.

| Particulars | 31-3-2004 <br> Rs. |
| :--- | ---: |
| Stock | $2,60,000$ |
| Debtors | $1,00,000$ |
| Cash | $1,40,000$ |
| Bills Receivable | $1,00,000$ |
| Creditors | $1,00,000$ |
| Bank Balance (Cr.) | 30,000 |
| Outstanding Expenses | 10,000 |
| Bills Payable | 50,000 |
| Total Purchases | $8,00,000$ |
| Cash Purchases | $2,00,000$ |
| Cash Sales | $3,00,000$ |
| Credit Sales | $12,00,000$ |
| Credit allowed to Customers | $11 / 2$ months |
| Credit allowed to Suppliers | 3 months |

From the above find out the following Ratios and give your comment for the year ended 31-3-2004:
(1) Current Ratio (2) Liquid Ratio (3) Debtors Turn Over Ratio and Age of Debtor. (4) Creditors Turn Over Ratio and Age of Creditors.
(October 2001, adapted)
[Ans.: (1) $3.16: 1$ (2) $2.13: 1$ (3) 6 (4) 4 times, 3 months]
Q. 4 Following are the financial statements of two similar companies:

Balance Sheet as at 31 ${ }^{\text {st }}$ December, 2006

| Liabilities | X Ltd. <br> Rs. | Y Ltd. <br> Rs. | Assets | X Ltd. <br> Rs. | Y Ltd. <br> Rs. |
| :--- | ---: | ---: | :--- | ---: | ---: |
| Share Capital |  |  |  |  |  |
| Equity Share of <br> Rs. 10/- each | 4,000 | 4,000 | Land and <br> Building | 1,400 | 1,200 |
| Revenue <br> Reserve | 1,950 | 1,600 | Plant | 4,100 | 3,200 |
| 8\% Debenture | 1,000 | 1,000 | Stock | 2,850 | 2,100 |
| Trade Creditors | 2,800 | 1,400 | Debtors | 2,600 | 1,900 |
| Other Creditors | 250 | 200 | Investment <br> (Long Term) | - | 300 |
| Provision for <br> Tax | 900 | 700 | Bank | 100 | 300 |
| Proposed <br> Dividend | 300 | 200 | Deposit | 150 | 100 |
|  | $\mathbf{1 1 , 2 0 0}$ | $\mathbf{9 , 1 0 0}$ |  | $\mathbf{1 1 , 2 0 0}$ | $\mathbf{9 , 1 0 0}$ |

Income Statement for 2006

|  | X Ltd. <br> Rs. | Y Ltd. <br> Rs. |  | X Ltd. <br> Rs. | Y Ltd. <br> Rs. |
| :--- | ---: | ---: | :--- | :---: | :---: |
| Cost of Sales | 10,800 | 9,000 | Sales | 15,000 | 12,000 |
| Operating Exps | 2,900 | 2,000 |  |  |  |
| Taxation | 550 | 410 |  |  |  |
| Net Profit after <br> Tax | 750 | 590 |  |  |  |
|  | $\mathbf{1 5 , 0 0 0}$ | $\mathbf{1 2 , 0 0 0}$ |  | $\mathbf{1 5 , 0 0 0}$ | $\mathbf{1 2 , 0 0 0}$ |

On the basis of above information. You are required to compute separately the following ratio:
(1) Capital Gearing Ratio
(2) Current Ratio
(3) Debtors Turnover Ratio
(4) Return on Proprietory Fund Vertical final accounts need not be prepared.
(Oct. 07, adapted)
[Ans: X Ltd (1) 0.168 (2) 1.34 : 1 (3) 5.77 (4) 12.61\%
Y Ltd (1) 0.179 (2) 1.76 : 1 (3) 6.32 (4) 10.54 \%]
Q. 5 Following are the Balance Sheets of $X$ Ltd. and $Y$ Ltd as on $31^{\text {st }}$ March, 2004 together with supplementary information for the year ended on that date:

Balance Sheet as on 31 ${ }^{\text {st }}$ March, 2004

| Liabilities | X Ltd. <br> Rs. | Y Ltd. <br> Rs. | Assets | Xtd. <br> Rs. | Y Ltd. <br> Rs. |
| :--- | ---: | ---: | :--- | ---: | ---: |
| Paid-up Share <br> Capital | $2,00,000$ | $3,50,000$ | Goodwill | 30,000 | 50,000 |
| Reserves | 50,500 | 60,000 | Building | $1,20,000$ | $2,40,000$ |
| Profit \& Loss <br> A/c | 12,250 | $1,02,200$ | Plant and <br> Machinery | 29,000 | 42,000 |
| Bank Overdraft | 11,250 | 14,800 | Stock | 66,000 | 93,000 |
| Sundry <br> Creditors | 36,000 | 58,000 | Debtors | 85,000 | $1,75,000$ |
| Provision for <br> Taxation | 20,000 | 15,000 |  |  |  |
|  | $\mathbf{3 , 3 0 , 0 0 0}$ | $\mathbf{6 , 0 0 , 0 0 0}$ |  | $\mathbf{3 , 3 0 , 0 0 0}$ | $\mathbf{6 , 0 0 , 0 0 0}$ |

Additional Information:

| Particulars | X Ltd. <br> Rs. | Y Ltd. <br> Rs. |
| :--- | ---: | ---: |
| Sales for the year | $8,40,000$ | $10,50,000$ |
| Stock on $31^{\text {st }}$ March, 2003 | 60,000 | $1,07,000$ |
| Gross Profit | $2,10,000$ | $2,50,000$ |

You are required to compute the following ratios of both companies
(a) Current Ratio
(b) Liquid Ratio
(c) Proprietary Ratio
(d) Stock Turnover Ratio and
(e) Debtors Turnover Ratio in no. of times

All sales are on credit basis.
(Oct. 2005, adapted)
[Ans: X Ltd. (a) 2.245: 1 (b) $1.52: 1$ (c) $0.80: 1$ (d) 10 (e) 9.88
Y Ltd. (a) $3.05: 1$ (b) $2.40: 1$ (c) $0.85: 1$ (d) 8 (e) 6]
Q. 6 (From Details): The following are the extracts from the financial statements of M/s. Salman Ltd., as on $31^{\text {st }}$ March 2002 and 2003 respectively.

| Particulars | 31-3-2002 <br> Rs. | $\mathbf{3 1 - 3 - 2 0 0 3}$ <br> Rs. |
| :--- | ---: | ---: |

| Cash on Hand | 18,000 | 15,000 |
| Creditors | 25,000 | 30,000 |
| Bills Payable | 15,000 | 20,000 |
| Bank Overdraft | -- | 2,000 |
| 9\% Debentures | $5,00,000$ | $5,00,000$ |
| Sales for the year | $3,50,000$ | $3,00,000$ |
| Gross Profit | 70,000 | 50,000 |

You are required to compute for both these years: (i) Current Ratio; (ii) Liquid Ratio; (iii) Stock Turnover Rate; (iv) Number of days outstanding of debtors; (v) Stock-Working Capital Ratio.
[Ans: C.R: 1.5 \& 1.25; L.R: 1.25 \& 0.8; S.T.R: 28 \& 14.29 times; D.T.R: $31 \& 30$ days; S.W.C: $0.5 \& 1.92]$
Q. 7 (From Details): Calculate from the following details furnished by Suraj Ltd. (a) Current Ratio (b) Liquid Ratio (c) Creditors Turnover Ratio and Average Credit Period (d) Debtors Turnover Ratio and Average Credit Period (e) Stock Turnover Ratio.

| Particulars | Rs. |
| :--- | ---: |
| Stock | $8,00,000$ |
| Debtors | $1,70,000$ |
| Cash | 30,000 |
| Creditors | $3,00,000$ |
| Bank Overdraft | 40,000 |
| Outstanding Expenses | 60,000 |
| Total Purchases | $9,30,000$ |
| Cash Purchases | 30,000 |

Gross Profit Rates
(April 2000, adapted)
[Ans: (a) CR 2.5: 1 (b) LR 0.56 : 1 (c) CTR 3 times (d) DTR 7.29 times (assume Opening Stock = Closing Stock) (e) STR 1.16 times]
Q. 8 Calculate from the following details furnished by Pardeshi Ltd.:
(a) Current Ratio
(b) Liquid Ratio
(c) Credit Turnover Ratio and Average Credit Period
(d) Debtors Turnover Ratio and Average Credit Period
(e) Stock Turnover Ratio

|  | Rs. |
| :--- | ---: |
| Stock | $1,00,000$ |
| Debtors | $1,40,000$ |
| Cash | 60,000 |
| Creditors | $1,60,000$ |
| Bank Overdraft | 30,000 |
| Outstanding Expenses | 10,000 |
| Total Purchases | $6,60,000$ |
| Cash Purchases | 20,000 |
| Gross Profit Ratio | $33 \mathrm{y} \%$ |

(Oct. 2000, adapted)
[Ans: (a) 1.5: 1 (b) $1.18: 1$ (c) 4 times (d) 7.07 times (e) 6.6 times]
Q. 9 From the following information, relating to a limited company, prepare a statement of Proprietor's Funds.
(i) Current Ratio 2
(ii) Liquid Ratio 1.5
(iii) Fixed Assets /Proprietor's Funds 3/4
(iv) Working Capital

Rs. 75,000
(v) Reserves and Surplus

Rs. 50,000
(vi) Bank Overdraft

Rs. 10,000
There were no long-term loans or fictitious assets.
All workings must form part of your answer.
[Ans: (i) Shareholder's Funds - Rs. 3,00,000
(ii) Fixed Assets - Rs. 2,25,000 (iii) Working Capital - Rs. 75,000)
Q. 10 From the following information of $X$ Engineering Co. complete the Proforma Balance Sheet if sales are Rs. 16,00,000.

| Sales to Net Worth | 2.3 times |
| :--- | :--- |
| Current Liabilities to Net Worth | $42 \%$ |
| Total Liabilities to Net Worth | $75 \%$ |
| Current Ratio | 2.9 |
| Sales to Closing Inventory | 4.5 |
| Average Collection Period | 64 days |

## Proforma Balance Sheet

| Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | ---: |
| Net Worth | $?$ | Fixed Assets | $?$ |
| Long term Liabilities | $?$ | Cash | $?$ |
| Current Liabilities | $?$ | Stock in Trade | $?$ |
|  | $?$ | Debtors | $?$ |
|  |  |  |  |

Calculations are to be made to the nearest rupee.
[Ans: Net worth Rs. 6,95,652; Long term liabilities Rs. 2,29,565;
Current Liabilities Rs. 2,92,174; Fixed Assets Rs. 3,70,086;
Debtors Rs. 2,80,548; Stock Rs. 3,55,555; Cash Rs. 2,11,202]
Q. 11 From the following information, prepare a summarised Balance Sheet as at $31^{\text {st }}$ March, 2004.

Rs.

Working Capital
Reserves \& Surplus
Bank Overdraft
Fixed Assets Proprietory Ratio
Current Ratio
Liquid Ratio
Your working notes should form part of the answer.
[Ans: B/S Total Rs. 5,60,000; Fixed Assets Rs. 3,60,000;
Stock Rs. 80,000; Capital Rs. 4,00,000]
Q. 12 Based on the following information of the financial ratios, prepare Balance Sheet of Star Enterprises Ltd. as on December $31^{\text {st }}$, 2002. Explain your working and assumptions.
Current Ratio 2.5

Liquidity Ratio 1.5
Net Working Capital
Rs. 6,00,000
Stock Turnover Ratio 5
Ratio of Gross Profit to Sales 20\%
Turnover Ratio to Net Fixed Assets (COGS /FA) 2
Average Debt Collection Period 2.4 months
Fixed Assets to Net Worth
0.80

Long-term Debt to Capital and Reserve
7/25
Ans:
Balance Sheet as on December 31 ${ }^{\text {st }} 2002$

| Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | ---: |
| Share Capital and <br> Reserves | $12,50,000$ | Fixed Assets (Cost) |  |
| Long-term Debts | $3,50,000$ | Less Depreciation | $10,00,000$ |
| Current Liabilities | $4,00,000$ | Current Assets: |  |
|  |  | Stock in Trade | $4,00,000$ |
|  |  | Sundry Debtors | $5,00,000$ |
|  |  | Cash | $1,00,000$ |
|  | $20,00,000$ |  | $20,00,000$ |

Q. 13 From the following information prepare a Balance Sheet with as many details as possible.
(1) Current Ratio $2.5: 1$
(2) Liquid Ratio 1.5:1
(3) Fixed Assets / Proprietor's Fund 0.75
(4) Working Capital Rs. 60,000
(5) Reserves and Surplus Rs. 40,000
(6) Bank Overdraft Rs. 10,000
(7) There is no long-term loan or fictitious asset.

Ans:
Balance Sheet

| Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | :---: |
| Share Capital | $2,00,000$ | Fixed Assets | $1,80,000$ |
| Reserves and Surplus | 40,000 | Current Assets |  |
| Current Liabilities |  | Liquid Assets 45,000 |  |
| Bank Overdraft 10,000 |  | Stock | 55,000 |
| Quick Liabilities 30,000 | 40,000 |  | $1,00,000$ |
|  | $2,80,000$ |  |  |
|  |  | $2,80,000$ |  |

Q. 14 From the following information, prepare a summarised Balance Sheet as at $31^{\text {st }}$ March, 2002.
Stock Turnover 6
Fixed Assets Turnover Ratio
(Sales $\div$ Fixed Assets)
4
Capital Turnover Ratio (Sales $\div$ Capital) 2
Gross Profit Ratio
Debt Collection Period
Gross Profit
2 months
Closing Stock was Rs. 5,000 in excess of opening stock Creditors
All workings should form part of your answer.
Ans:
Balance Sheet as on 31-3-2002

| Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | ---: |
| Capital | $1,50,000$ | Fixed Assets | 75,000 |
| Creditors | 49,000 | Debtors | 50,000 |
|  |  | Closing Stock | 42,500 |
|  | $1,99,000$ | Cash \& Bank <br> (Bal. Fig.) | 31,500 |
|  |  | $1,99,000$ |  |

Q. 15 Shri Devdas asks you to prepare his Balance Sheet from the particulars furnished hereunder:
Gross Profit margin
20\%
Stock velocity: 6
Capital
Rs. 1,50,000
Fixed Assets
Debt collection period
Creditors payment period
Gross Profit was
Excess of closing stock over opening stock was Rs. 5,000
Difference in Balance Sheet represents bank balance.
[Ans: Bank - Rs. 31,500]

12

## Unit Structure:

12.0 Objectives
12.1 Introduction
12.2 Meaning and Definition of working capital
12.3 Working Capital Cycle
12.4 Classification of working capital
12.5 Factors determining working capital requirements
12.6 Need for working capital (Importance of working capital)
12.7 Working capital management
12.8 Changes in working capital
12.9 Key points
12.10 Additional readings
12.11 Exercise

### 12.0 OBJECTIVES

After studying this chapter you should be able to understand

- Concept of Working Capital
- Nature of Working Capital
- Need for Working Capital
- Working Capital Cycle
- Classification of Working Capital
- Determinants of Working Capital

### 12.1 INTRODUCTION

Every organization requires Fixed Capital for purchase of fixed assets viz. Land and Building, Plant and Machinery, Furniture, Vehicles etc. In addition to fixed capital an organisation also requires additional capital for financing day to day activities. Such capital which is required for financing day to day activities in the business is called Working Capital.

Working Capital is that part of the funds of a business which is used for day to day operation. It is the money required to keep the business running smoothly. (It is required for smooth conduct of business activities.) In the absence of Working Capital, fixed assets can not be employed gainfully. It is the working capital
which decides success or failure of an organisation. It is the life blood of an organisation.

Forecasting Working Capital and Control of Working Capital is a continuous process and therefore, part of parcel of the overall management of the business.

### 12.2 MEANING AND DEFINITION OF WORKING CAPITAL

The term Working Capital has been defined by different authors in different ways.

According to "Hoagland", "Working Capital is descriptive of that capital which is not fixed. But, the more common use of Working Capital is to consider it as the difference between the book value of the current assets and the current liabilities.

Gerestenberg defines Working Capital as, "Circulating capital means, Current Assets of a Co. that are changed in the ordinary course of business from one form to another as for example from cash to inventories, inventories to receivables and receivables to cash."

The accounting principles Board of the American Institute of Certified Public Accountants define Working Capital as, "Working Capital is represented by the excess of current assets over current liabilities and identifies the relatively liquid portion of the total enterprise, capital which constitutes a margin or buffer for maturing obligation within the ordinary operating cycle of the business."

From the above definitions, Working Capital means the excess of Current Assets over Current Liabilities. Working Capital is the amount of net Current Assets. It is the investments made by a business organisation in short term Current Assets like Cash, Debtors, Bills receivable etc.

Current Assets are those assets which will be converted into Cash or will be realised within a year. These assets will be liquidated in the near future.

Current liabilities are those liabilities which will have to be paid within a year and include such income received in advance for which are to be given within 12 months.

Working Capital $=$ Current Assets - Current Liabilities

### 12.3 WORKING CAPITAL CYCLE

Working Capital cycle is also known as operating cycle concept. This concept is based on continuity of flow of funds through business operations. This flow of value is caused by different operational activities during a given period of time. The operational activities of an organisation may include :
a) Purchase of raw materials.
b) Conversion of raw materials into finished products.
c) Sale of finished products.
d) Realisation of accounts receivables.

The operating cycle of a manufacturing concern begins on the day it purchases raw material to produce the goods and ends on the day it receives the sale price from debtors. The period between these two days is the duration of the entire operating cycle.

## Operating cycle of a manufacturing organisation

## Operating cycle of a Trading Organisation :

In case of trading organisation, operational activities include:

1) Purchase of finished goods.
2) Sale of finished goods on cash or credit.
3) Collection from debtors (Bills Receivables).

When the goods are sold on credit basis, the sale of goods cannot be converted into cash instantly because of time lag between sales and realization of cash. Due to time lag between sales and realization of receivables, there is a need for sufficient Working Capital to deal with the problem which arises due to lack of immediate realization of cash against goods sold. The operating cycle is the length of time required for conversion of cash into raw material, raw material into work in progress, work in progress into finished goods, finished goods into bills receivables, bills receivables into cash and the same cycle repeats. Therefore operating cycle is a continuous process.

### 12.4 CLASSIFICATION OF WORKING CAPITAL

Working Capital can be classified into :

1) Gross and Net Working Capital.
2) Permanent and Temporary Working Capital.
3) Balance Sheet and Cash Working Capital.
4) Positive and Negative Working Capital.

## 1) Gross and Net Working Capital

Gross Working Capital is equal to total current assets only. It is identified with current assets alone. It is the value of non fixed assets of an organisation and includes all current assets only. Items of current assets are stock of raw material, work in progress, finished goods spares and consumables, stores, sundry debtors, bills receivables, cash and bank balances, prepaid expenses, accrued income, advance payments, short term investments etc.

Gross Working Capital indicates the quantum of Working Capital available to meet current liabilities. This is very useful for planning of business activities in normal course.

## Therefore, Gross Working Capital = Total Current Assets

Net Working Capital is the excess of current assets over current liabilities i.e. current assets less current liabilities.

$\underset{\text { Capital }}{\text { Net Working }}=$| Total Current |
| :---: |
| Assets |$\quad(-)$| Total Current |
| :---: |
| Liabilities |

In other words, total value of current assets is reduced by total current liabilities such as sundry creditors, bills payable, bank overdraft, income received in advance, outstanding liabilities, etc.

This is most common type of Working Capital. It indicates the amount available to meet short term dues of the concern. This concept is useful for calculating the amount of current assets available to meet the current liabilities. It indicates the liquidity of the concern in the immediate future.

## 2) Permanent and Temporary Working Capital <br> - Permanent Working Capital

A business organisation must always have a minimum amount of Working Capital to meet the current liabilities as and when they arise. In other words a concern must have minimum amount of fund to ensure liquidity and solvency. It is the minimum aggregate of cash, inventory and debtors maintained to carry on business operations smoothly at any time during an accounting period such minimum amount of Working Capital required to enable the concern to operate at the any level of activity is called permanent Working Capital. The quantum of permanent Working Capital will very according to the level of business activities from time to time.
Permanent Working Capital is of two types :
a) Initial Working Capital
b) Regular Working Capital

## a) Initial Working Capital

This is the amount of Working Capital required at the inception of an organisation. In the initial stages, when the
revenues are not regular, it may be difficult for a company to obtain credit from banks and at the same time it may be required to grant credit to its customers. In such cases, adequate Working Capital is required to activate the circulation of capital and keep it moving till the collection from debtors and other cash receipts exceed the payment. Therefore, it is the Working Capital in the initial stage to start the business and to commence the operating cycle.

## b) Regular Working Capital :

This is the amount of Working Capital required for the continuous operations of an enterprise. It refers to the excess of current assets over current liabilities. Every organisation has to maintain a minimum stock of materials, finished goods and cash to ensure its smooth working and to meet its immediate obligations. This is the minimum amount of capital required to enable the concern to operate at the lowest level of activity. Such minimum amount of Working Capital is called Permanent Working Capital or Core Working Capital.

Then Permanent Working Capital is the quantum of funds required permanently for the production of goods and services on a continuing basis to satisfy the demands of customers Permanent Working Capital has following features.
a) It is constantly changing. They change from one current asset to another as in case of raw materials. Raw materials as they are in process, become semi finished goods, then finished goods and when they are sold become debtors, debtors when realized become cash and so on.
b) The size of permanent Working Capital will increase as long as the business is growing and expanding.
c) Permanent Working Capital is different from fixed assets which are sunk in the business operations and retain their firm for a long period.

## - Temporary or Variable Working Capital

If the business organisation wants to increase its level of activity and produce and sell more goods, naturally it will need additional amount of Working Capital. If the increase in level of activity is temporary or seasonal, the additional Working Capital required is called Temporary Working Capital.

The amount of Temporary Working Capital varies with the level of activity (level of production). When the production is at higher level, larger Temporary Working Capital is needed, when the production level is lower, smaller amount of Temporary Working

Capital is required. Therefore, Temporary Working Capital is also called as Variable or Fluctuating Working Capital.

Sometimes temporary Working Capital may be Seasonal Working Capital. It is the amount of Working Capital required at stated intervals to meet the changing seasonal requirements. When the season approaches, business needs more funds to meet the seasonal pressure of demand. For e.g. Sugar factories require large amount of Working Capital during peak season and much smaller amount of Working Capital once the season is over.

Temporary Working Capital can be financed through temporary sources of finance. E.g. short term loans, deposits, bank overdraft etc.

## 3) Balance sheet and Cash Working Capital

- Balance Sheet Working Capital

Working Capital is determined on the basis of the balances of current assets and current liabilities as per the closing balance sheet of the business. Such Working Capital which is computed on the basis of book values of current assets and current liabilities is called Balance Sheet Working Capital. Therefore, Balance Sheet Working Capital shows the amount of Net Current Assets as on the last day of accounting year of a concern. This concept of Working Capital helps in judging the liquidity and solvency of a concern.

## - Cash Working Capital

It is that part of gross Working Capital which is essentially in liquid term. It is available in cash or cash resources. It is calculated from the items appearing in the Balance sheet. It shows the real flow of money at a particular time. It is considered to be the most realistic approach in Working Capital management. Cash Working Capital indicates the adequacy of the cash flow.

## 4) Positive and Negative Working Capital

- Positive Working Capital

When current assets exceed current liabilities, the Working Capital is said to be positive Working Capital. In other words when current assets are more than current liabilities, the net current asset is a positive figure and hence it is called Positive Working Capital. Such Working Capital indicates favourable liquidity and solvency position of the business.

When the current assets are less than the current liabilities, the Working Capital is said to be Negative Working Capital. In other words when current assets are less than current liabilities the net current asset is negative figure and hence it is called Negative Working Capital. Such Working Capital indicates lack of liquidity and adverse solvency position of the business.

### 12.5 FACTORS DETERMINING WORKING CAPITAL REQUIREMENTS

The amount of Working Capital required by a business organisation depends on many factors. They are as follows.

1) Nature of Business: The quantum of Working Capital required by a business organisation is related to the type and nature of its business activities. Public utilities (like railway companies) require less Working Capital as they sell services on cash basis only. But a trading organisation requires proportionately larger amount of Working Capital as it has to carry large inventories and allow credit to customers. Similarly, a manufacturing concern requires more Working Capital as compared to a firm engaged in trading. However, the requirement of Working Capital varies from industry to industry and from time to time in the same industry.
2) Size of Business : It is an important factor for determining the proportion of Working Capital. If the size of the business organisation in big, it require more Working Capital. On the other hand, small scale organisation requires less amount of Working Capital.
3) Production Policies : Production policies of a business organisation exert considerable influence on the requirement of Working Capital. But production policies depend on the nature of product. The level of production, decides the investment in current assets which in turn decides the quantum of working capital required.
4) Terms of Purchase and Sale : A business organisation making purchases of goods on credit and selling the goods on cash terms would require less Working Capital whereas an organisation selling the goods on credit basis would require more Working Capital. If the payment is to be made in advance to suppliers, then large amount of Working Capital would be required.
5) Production Process : If the production process requires a long period of time, greater amount of Working Capital will be required. But, simple and short production process requires less amount of Working Capital. If production process in an industry entails high cost because of its complex nature, more Working Capital will be required to finance that process and also for other expenses which very with the cost of production whereas if production process is simple requiring less cost, less Working Capital will be required.
6) Turnover of Circulating Capital : Turnover of circulating capital plays an important and decisive role in judging the adequacy of Working Capital. The speed with which circulating capital completes its cycle i.e. conversion of cash into inventory of raw materials, raw materials into finished goods, finished goods into debts and debts into cash decides the Working Capital requirements of an organization. Slow movement of Working Capital cycle requires large provision of Working Capital.
7) Dividend Policies : Dividend policies of a business organisation also influence the requirement of Working Capital. If a business is following a liberal dividend policy, it requires high Working Capital to pay cash dividends where as a firm following a conservative dividend policy will require less amount of Working Capital.
8) Seasonal Variations : In case of seasonal industries like Sugar, Oil mills etc. More Working Capital is required during peak seasons as compared to slack seasons.
9) Business Cycle : Business expands during the period of prosperity and declines during the period of depression. More Working Capital is required during the period of prosperity and less Working Capital is required during the period of depression.
10)Change in Technology : Changes in Technology as regards production have impact on the need of Working Capital. A firm using labour oriented technology will require more Working Capital to pay labour wages regularly.
11)Inflation : During inflation a business concern requires more Working Capital to pay for raw materials, labour and other expenses. This may be compensated to some extent later due to possible rise in the selling price.
12)Turnover of Inventories : A business organisation having low inventory turnover would require more Working Capital where as a business having high inventory turnover would require limited or less Working Capital.
13)Taxation Policies : Government taxation policy affects the quantum of Working Capital requirements. High tax rate demands more amount of Working Capital.
14)Degree of Co-ordination : Co-ordination between production and distribution policies is important in determining Working Capital requirements. In the absence of co-ordination between production and distribution policies more Working Capital may be required.

### 12.6 NEED FOR WORKING CAPITAL (IMPORTANCE OF WORKING CAPITAL)

'Working Capital' discussed in the earlier paragraphs mean excess of current assets over current liabilities. Such Working Capital is required to smooth conduct of business activities. It is as important as blood to body. An organisation's profitability depends on the quantum of Working Capital available to it. Adequate Working Capital is a source of energy to any business organisation. It is the life blood of an organisation.

The following points will highlight the need of Working Capital.
Adequate Working Capital :
a) Enables a company to meet its obligations.
b) Ensures the credit standing of a company.
c) Facilitates obtaining Credit from banks without any difficulty.
d) Ensures solvency of a company.
e) Enables a company to make prompt payments to its creditors and thereby take advantage of cash and quantity discounts offered by them.
f) Enhances the goodwill of a company as it can meet its operational expenses and maturing liabilities in time.
g) Improves the prospects of prosperity and progress of a company.
h) Enables an organisation to tide over difficult periods successfully.

Thus, adequate Working Capital is an important factor for prosperity and smooth running of a business organisation. It is rightly called as the "backbone" of the financial structure of a business organisation.

### 12.7 WORKING CAPITAL MANAGEMENT

Working Capital as it is explained in the earlier paragraphs, means excess of current assets over current liabilities. Working Capital management means all aspects of managing and controlling current assets and current liabilities. It is an attempt to solve the problems that arise in the management of current assets and current liabilities.

The main objective of Working Capital management is to manage the current assets and current liabilities of a business efficiently with the idea to bring about a satisfactory level of Working Capital so that the business can run smoothly. It aims to strike a judicious balance between individual items of current assets and current liabilities and thereby achieves a reasonable safety margin.

Working Capital management policies exercise strong influence on a company's profitability, liquidity and its structural health. Estimating the amount of Working Capital required and identification of the source from which the required funds have to be raised, are the two main objectives of Working Capital management. Thus Working Capital management aims at best utilization of scarce resources to bring about satisfactory level of Working Capital and so that the business can run smoothly.

### 12.8 CHANGES IN WORKING CAPITAL

Working Capital means excess of current assets over current liabilities. It ensures the solvency of a company. It also ensures the credit standing of a company. But if the value of current assets increases, the Working Capital also increases and if value of current liabilities increases the Working Capital decrease. Therefore, change in current assets and current liabilities also change the Working Capital of the organisation.

The following list shows the effect of change in current assets or current liabilities on the Working Capital.

## Change in Current Assets or Current <br> Effects on Working Capital

| Liabilities |  |
| :--- | :--- |
| Increase in Current Assets | Increase in Working Capital |
| Decrease in Current Assets | Decrease in Working Capital |
| Increase in Current Liabilities | Decrease in Working Capital |
| Decrease in Current Liabilities | Increase in Working Capital |
| Realization from Debtors | No change in Working Capital |
| Obtaining Bills Receivable from Debtors | No change in Working Capital |
| Bills payable issued to Creditors | No change in Working Capital |
| Sales of goods on credit | No change in Working Capital |
| Purchase of Stocks on credit | No change in Working Capital |
| Payment of cash to Creditors | No change in Working Capital |
| Payments of Cash against Bills Payable | No change in Working Capital |
| Collection of Cash on Bills Receivable | No change in Working Capital |

### 12.9 KEY POINTS

- Working Capital is excess of Current Assets over Current Liabilities.
- Current Assets include Stock, Debtors, Work in Progress, Bills Receivables, Cash / Bank, Prepaid Expenses.
- Current liabilities include Creditors, Bills Payable, Bank Overdraft, and Outstanding Expenses.
- Operating cycle of a manufacturing organisation includes operational activities like purchase of raw materials, payment of wages and expenses, production of finished goods, sale of finished goods on cash and credit, collection from debtors.
- Operating cycle of a trading organisation includes operational activities like purchase of finished goods, sale of finished goods on cash and credit, collection from debtors.
- Classifications Working Capital
- Gross and Net Working Capital
- Permanent and Temporary Working Capital
- Balance Sheet and Cash Working Capital
- Positive and Negative Working Capital
- Determinants of Working Capital

### 12.10 ADDITIONAL READINGS

1) Introduction to Management Accounting by Chopade and Chaudhari
2) Introduction to Management Accounting by Ainapure.

### 12.11 EXERCISE

1) Define Working Capital. Explain the importance of Working Capital in business.
2) What is Working Capital and what are the types of Working Capital?
3) What is Working Capital? Explain the factors determining Working Capital requirements.
4) Write short notes on:
a) Permanent and Temporary Working Capital
b) Gross and Net Working Capital
c) Balance Sheet and Cash Working Capital
d) Positive and Negative Working Capital.
5) What is Working Capital? Explain the need for Working Capital.

13

## BUDGETING-I

## Unit Structure:

13.0 Objectives
13.1 Meaning of Budget
13.2 Purpose of Budget
13.3 Budgetory Control
13.4 Preparation of Budget \& Types
13.5 Methods of Preparation of Cash Budget
13.6 Exercises

### 13.0 OBJECTIVES

After studying the unit the students will be able to:

- Understand the meaning of Budget and Budgetary control.
- Know the purpose of Budget.
- Explain the types of Budget.
- Understand how to prepare cash budget.

### 13.1 MEANING OF BUDGET

Budget means a financial and quantitative statement prepared and approved prior to a defined period of time. It is plan of expected achievements based on most efficient operating standards in effect. It may be considered as a guide.

### 13.2 PURPOSE OF BUDGET

1. Planning
2. Co-ordination
3. Control
4. Planning - It helps in combining ideas of different management levels. So that maximum profitability is achieved.
5. Co-ordination - It brings different people together in accomplishing the organizational goals.
6. Control - It helps in comparing the actual results with the estimates and putting controls wherever required.

### 13.3 BUDGETORY CONTROL

It is a system of planning and controlling costs. It helps in comparing the actual results with budgeted estimates to secure by individual action the objective of that policy or to provide basis for its revision.

## STEPS IN BUDGETORY CONTROL

1. ESTABLISHMENT OF BUDGETS - Budgets are prepared for each division and are well co-ordinated with each other to prepare the master budget of a firm.
2. MEASUREMENT OF ACTUAL PERFORMANCE - The actual results are measured to compare with the budgets.
3. COMPARISON AND VARIANCES - The actual results after comparing with standards, deviations are work out known as variances.
4. ANALYSIS OF CAUSES OF VARIATION - The deviations between budgeted and actual results are studied and analysed help in taking the right action in right time.

### 13.4 PREPARATION OF BUDGETS AND TYPES

13.4.1 MASTER BUDGET - It is defined as summary budget which includes different functional budgets and which is finally approved adopted and employed. It is defined as a budget which summarises all functional budgets when all functional budgets are prepared they are summarized to produce.
i. Profit \& Loss Account and Profit \& Loss Appropriation Account.
ii. Balance Sheet.

Master Budget takes the form of budged Profit \& Loss Account and Balance Sheet. It is overall business plan and familiar to financial statements. The only difference is that the accountant here deals with expected future data rather than historical data.

The budget committee will prepare the master budget based on the functional budget. Once it is approved by the committee it becomes the target for the firm during the budget period.
13.4.2 FIXED BUDGET - Budget prepare at single level of activity are referred to as Fixed Budget. Such budgets focus only on a specific activity and a specific level. All adjustments are made considering only this level of activity.
13.4.3 FLEXIBLE BUDGET - Flexible Budget estimates cost of several level of activities. Instead of one estimates it contains several estimates in different assumed circumstances. The construction of flexible budget is similar to fixed budget is based on cost and other business operations at one level, the flexible budget consider several operations. The essence of flexible budget is the presentation of estimated cost date in a manner that permits there determination at various levels of volume. This means that all costs must be identified into fixed and variable. Fixed cost remain unchanged. They are fixed for a relevant range of volume for a given budget period.

Variable cost fluctuate in direct proportion to the activity/ volume with in relevant range for a given budget period. Mixed cost contents both fixed and variable element.
13.4.4 CASH BUDGET - A Cash Budget is a projected cash transaction in future that is utilized in controlling actual receipts and payments by mending for the variances. It starts with a given 'Cash Balance' which may be either big or small. But the said balance is, in any case, desired to be 'the optimum balance'. The sign of optimality for a given cash balance is obviously its ability to produce the highest rate of return for the minimum cost for mainly the said cash balance.

The main aim of Cash Budget is to ascertain whether there is excess or deficit of cash. It involves different steps.
i. The First element is selection of time period to be covered which is known as planning horizon. This coverage will differ from firm to firm depending upon its nature and degree of accuracy.
ii. The Second element is the factors affecting the cash flows. Non cash items such as, depreciation are excluded from Cash Budget. The cash flow is affected by two factors operating and financial. The operating category includes cash flow generated by operations of the firm and are known as operating cash flows. The other category is known as financial cash flow.

## a) Operating Cash Flow contains the following.

## INFLOW

## OUTFLOW

1. Cash Sales 1. Cash Purchases
2. Collection from Debtors
3. Payment to Creditors
4. Sale of Assets
5. Purchase of Assets.
6. Operating Expenses Paid
b) Financial Cash Flow contains the following.

INFLOW

1. Loans taken
2. Sale of Investments
3. Issue of Shares
4. Interest, Divided, Rent Received.

OUTFLOW

1. Repayment of Loan
2. Purchase of Investment
3. Redemption of Shares
4. Interest, Dividend, Rent Paid
13.5 METHODS OF PREPARATION OF CASH BUDGET

Methods used for cash forecasting - There are two recognized ways of preparing a cash forecasting.

### 13.5.1 The Receipt \& Payment Method.

13.5.2 The Income Statement Cash Flow Method (Adjusted Profit \& Loss method)
13.5.1 THE RECEIPT AND PAYMENT METHOD - Under this method, all expected cash receipts and payments during the period; under consideration are taken into account. The expected cash balance of a week or month will be equivalent to the difference between total expected Cash Receipts including opening balance, if any, and total expected Cash Payment during that period. The budget is generally prepared from various plans.
i. Cash Receipts from Customers, based on sales forecast, the term of sale, lag in payment etc. are generally taken into consideration.
ii. Cash Receipts from other sources, such as dividend on trade investments, rent, issue of capital, sale of; investment and fixed assets etc.
iii. Cash requirements for materials, wages and salaries and overhead expenses based on purchasing, personnel and overhead budgets. The policy of the business with regard to the payment of supplier's accounts, the term of cash discount, the lag in payment of wages etc. are given due consideration.
iv. Cash requirements for capital expenditure as per capital expenditure budget.
v. Cash requirement for other purposes, such as payment of dividend, income tax, fines, penalties etc.

FORMAT OF CASH BUDGET (Monthly / Quarterly)

| Month/ Quarter | $\mathbf{1}$ | $\mathbf{2}$ | $\mathbf{3}$ | $\mathbf{4}$ | Total |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Particulars |  |  |  |  |  |
| Opening Balance <br> Cash Sales <br> Collection from Debtors <br> Income from Investments <br> Loans <br> Share Capital <br> Others | x |  |  |  | x |

### 13.5.2 THE INCOME STATEMENT CASH FLOW METHOD (ADJUSTED PROFIT \& LOSS ACCOUNT) -

This method is based both on cash and non-cash transactions. Under this method, budgeted net profit is adjusted by adding back noncash charges and deducting non-cash credits and adding or deducting changes in assets or liability accounts which affect cash. The theory is based upon the basic assumption that profit will be equivalent to cash, or in other words, the earning of profit brings equal amount of cash into the business. This also leads one to another assumption that the business will remain static. That is, there will not be wearing out or expansion of assets; balances of debtors, creditors, stock etc will remain unchanged. So that total cash available for distribution would be equal to the profit earned. But in practice a business does not remain stationery so that an adjustment will have to be made in respect of many items like fluctuations of stock, appropriation of profit, provisions, accruals etc.

Thus, the preparation of a cash budget under this method depends on the availability of the following information :-
a. Budgeted Profit \& Loss Account for the budget period in respect of which the cash budget is to be prepared.
b. Budgeted Balance Sheet as at the end of the same period and
c. The Balance Sheet as at the end of the previous period.

This method may be employed for making long term cash forecasts.
(Note: First Method of Cash Budget is a part of the syllabus.)

### 13.6 EXERCISE

1. Define Budget. Explain the purpose of Budget.
2. Which are the types of Budget?
3. Explain the Methods of preparation of Cash budget.
4. Explain Cash Budget briefly.

14

## BUDGETING-II

## Unit Structure:

14.0 Objectives
14.1 Illustrations

### 14.0 OBJECTIVES

After studying the unit the students will be able to solve the practical problems of Cash Budget.

### 14.1 ILLUSTRATIONS

Illustration 1 : Prepare Cash Budget for the 6 months ending $31^{\text {st }}$ December, 2003 from the monthly budgeted operating results of the company and other additional information is given below :

| Month | Sales | Material <br> Purchased <br> $\&$ <br> Consumed | Wages | Production | Adminis- <br> tration | Selling | Distribu- <br> tion | Research <br> $\&$ <br> Develop- <br> ment |
| :--- | :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| March | $8,00,000$ | $3,60,000$ | 80,000 | 48,000 | 40,000 | 20,000 | 10,000 | 11,000 |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: | ---: | ---: |
| April | $12,00,000$ | $6,00,000$ | $1,28,000$ | 64,000 | 56,000 | 29,000 | 14,000 | 16,000 |
| May | $9,60,000$ | $5,20,000$ | $1,20,000$ | 62,000 | 48,000 | 25,000 | 10,000 | 12,000 |
| June | $6,40,000$ | $3,36,000$ | 56,000 | 30,000 | 20,000 | 11,000 | 6,000 | 6,000 |
| July | $8,00,000$ | $3,84,000$ | 80,000 | 44,000 | 32,000 | 16,000 | 8,000 | 10,000 |
| Aug. | $8,80,000$ | $4,00,000$ | 96,000 | 49,000 | 40,000 | 21,000 | 10,000 | 12,000 |
| Sept. | $11,20,000$ | $4,96,000$ | $1,20,000$ | 62,000 | 52,000 | 26,000 | 12,000 | 13,000 |
| Oct. | $12,80,000$ | $6,00,000$ | $1,04,000$ | 54,000 | 40,000 | 20,000 | 10,000 | 12,000 |
| Nov. | $14,40,000$ | $6,40,000$ | $1,36,000$ | 72,000 | 56,000 | 29,000 | 15,000 | 16,000 |
| Dec. | $16,00,000$ | $8,00,000$ | $1,52,000$ | 74,000 | 58,000 | 30,000 | 16,000 | 17,000 |

1. New machinery which was installed in April at a cost of Rs. 120000 is to be paid on $1^{\text {st }}$ August. Extension to the Research \& Development Department amounting to Rs. 8,00,000 in total was contemplated from September, at the rate of Rs. $1,60,000$ per month.
2. Rs. 2, 40,000 per month is to be paid under a hire purchase scheme agreement.
3. The Sales Commission of $4 \%$ on sales not included in Selling Overheads is to be paid within the month following actual sales.
4. The period of credit allowed by supplier is 4 months, and that allowed to customers is 3 months. The delay in the payment of overheads is 2 months and that in payment of wages is one-fourth of a month.
5. Preference Share Dividend of $8 \%$ on the capital of Rs. $1,60,00,000$ is payable on $1^{\text {st }}$ December.
6. $8 \%$ Calls on Equity shares at the rate of Rs. $9,60,000$ is due on $1^{\text {st }}$ July, $1^{\text {st }}$ Sept, and $1^{\text {st }}$ November.
7. Taxation of Rs. $8,00,000$ is payable on $1^{\text {st }}$ November. Dividend on investment amounting to Rs. 2,40,000 is expected on $1^{\text {st }}$ July and $1^{\text {st }}$ December. Cash sales of Rs. 80,000 per month are expected on which no commission is payable. This cash sales is not included in the details for sales given above.
8. Cash balance on $1^{\text {st }}$ July was expected to be Rs. 2,00,000.

Illustration 2 : Prepare a Profit Budget and a Cash Budget for the $1^{\text {st }}$ Quarter April - June 2004 for KG Industrial Ltd. From the following information:
a. The company produces two products and their unit sale prices and material contents are as under :-

|  | Sale Price |  | Material Content |
| :--- | :--- | :--- | :--- |
| Product A | Rs. 75,000 |  | $60 \%$ of sale price |
| Product B | Rs.25,000 | $50 \%$ of sale price |  |

(In addition Excise duty and sales tax as per item (f) below is recovered)
b. The production target has been fixed as under :

| Month | $\underline{\text { Product A }} \quad \underline{\text { Product B }}$ |  |
| :--- | :--- | :--- | :--- |
| April | 50 Nos. | 50 Nos. |
| May | 60 Nos. | 60 Nos. |
| June | 70 Nos. | 60 Nos. |

Production for January, February and March 2004 was at $80 \%$ level of April 2004 production.
c. The monthly expenses are as under :
i. Salaries \& Wages Rs. 7.50,000 payable in the following month.
ii. Variable overheads $-5 \%$ of sale value payable in the following month.
iii. Fixed overheads - Rs. 2,00,000 payable $50 \%$ in the current month and $50 \%$ in the following month.
d. Payment for material is made in the third month from the month of procurement.
e. The company maintains a constant level of inventory. No Stock of finished goods is kept and the entire production is invoiced the same month. The company gives 30 days credit to its customers.
f. Company's products attract Excise Duty @ 15\% and Sales Tax @ 2\% on sales payable to the authorities in the following month.
g. The company enjoys a Cash Credit facility from its Banker to the extent of Rs. 35,00,000, which is fully drawn. The interest payable is @ $17 \%$ which is charged every quarter that is, June, September, December and March. The Company carries its banking operation presently through a Current Account.

| Excise Duty | 80 | 84 | 88 | 90 |
| TOTAL | $\mathbf{8 6 0}$ | $\mathbf{8 6 4}$ | $\mathbf{9 4 8}$ | $\mathbf{1 , 0 1 2}$ |
| Profit / Loss | 20 | 16 | 42 | $(20)$ |

The following are relevant additional information:

1. $10 \%$ of sales are for cash and the balance on 30 days credit.
2. Creditors for purchases are paid in 30 days.
3. Expenses include :
a. Interest payable at the end of each quarter.
b. Depreciation of Rs. 10 lakhs per month.
c. Provision for bonus to workmen of Rs. 5 lakhs per month, payable only in October, 2006
d. One half of the rest of the expenses payable in the month concerned and the following month.
4. Rs. 200 lakhs of debentures are redeemable by $30^{\text {th }}$ June.
5. Provision for taxation includes Rs. 20 lakhs of surplus provisions carried forward earlier years besides the balance for the year 2005-06 payable before $31^{\text {st }}$ May, 2006.
6. Annual General Meeting is to be held on $31^{\text {st }}$ May, 2006.
7. Overdraft is permissible interest on which may be ignored.

You are required to prepare Cash Budgets for the months of April to July 2006 on a monthly basis.

Illustrations 4 : Prepare Cash Budget for April - October 2011 from the information supplied by Mahesh Stores.

Balance Sheet as on 31 ${ }^{\text {st }}$ March, 2011

| Liabilities | Amount | Assets | Amount |
| :--- | ---: | :--- | ---: |
| Proprietors Capital | $1,00,000$ | Cash | 20,500 |
| Outstanding Liabilities | 17,000 | Stock in trade | 50,500 |
|  |  | Sundry Debtors | 26,000 |
|  |  | Furniture 25,000 |  |
|  |  | Less : Depreciation 5,000 | 20,000 |
|  | $\mathbf{1 , 1 7 , 0 0 0}$ |  | $\mathbf{1 , 1 7 , 0 0 0}$ |

| Expected for | Sales (Rs.) | Salaries (Rs.) |
| :---: | :---: | :---: |
| April | 30,000 | 3,000 |
| May | 52,000 | 3,500 |
| June | 50,000 | 3,500 |
| July | 75,000 | 4,000 |
| August | 90,000 | 4,000 |
| September | 35,000 | 3,000 |

Other Expenses :- Rent Rs. 1000 pm.
Sales Commission - $1 \%$ of sales
Misc. Exp. Rs. 500 pm.
Sales - $80 \%$ on Credit and $20 \%$ on cash
Out of the Credit sales $-70 \%$ collected after one month and remaining in next month.

Gross margin is $70 \%$ purchases equal to requirement of next months sales are made for which payment is against delivery.

Debtor on $31^{\text {st }}$ March, 2011 included Rs.20,000 for February and remaining for January.

Cash on Hand should be Rs. 10000 at all times. The deficiency to be met by short term loans.

Prepare Cash Budget for April to August 2011 and ascertain the borrowing to be made from time to time.

Illustration 6: Mr. Tushar promoted a company Tushar Enterprises Limited on $1^{\text {st }}$ Oct 2011. It received certificate to commence business on $15^{\text {th }}$ Nov., 2011.

On $1^{\text {st }}$ December, 2011 the company issued 5000 Equity Shares of Rs. 10/- each at par to promoters against full cash payment In the same month allotted 20,000 shares to friends and relatives at par for full cash payment.

On $15^{\text {th }}$ December, 2011, company bought premises costing Rs. $2,00,000$ and equipment costing Rs. $3,00,000$ On the same date a loan to the extent of $60 \%$ of cost of these assets was received from bank. The loan is to be repaid by twenty equal quarterly installments payable on $15^{\text {th }}$ March, June, September, and December each year. Interest @ 15\% p.a. on unpaid balance is to be paid with installment.

The commercial production began from $1^{\text {st }}$ January, 2012. The target sales are as under:

| Jan | 1000 units |
| :--- | ---: |
| Feb | 1500 units |
| March | 2500 units |

The cost and sales per units are as under:
Raw material Rs. 5 units @ Rs. 10/- 50 per unit
Wages 2 hour @ Rs. 20/- 40 per unit.
Factory Expenses
Variable Rs. 20 per unit.
Fixed Rs. 10,000 per month.
Administration Exp. Rs. 5,000 per month
Selling Expenses Rs. 20 per unit.
Sales Price Rs. 200 per unit.
The stock of raw materials is to be maintained at 5,000 units and of finished goods at 1,000 units. The purchase/ production for the stock should be effected in January.

The processing time may be ignored. The terms of credit are-

1. Cash sales will be 500 units per month and remaining sales will be on credit of one month.. It is expected that $60 \%$ will pay within credit period and remaining will pay a month later.
2. Payment for purchases of material is to be made as $25 \%$ on delivery and balance one month later.
3. Wages are to be paid fortnightly but after lapse of 3 days thereafter.
4. Fixed factory expenses are payable at the end of the month to which they relate.
5) Remaining factory and administration expenses are payable $60 \%$ in same month and balance in following month.
6) Selling expenses are to be paid a month after sales is effected.

You are required to prepare Cash budget for period from December-2011 to March -2012.

## Solution :

| Cash Budget from December to March 2012. |  |  |  |  |  |

### 14.2 EXERCISES

Q. 1 B. Ltd has anticipated sales as under -

January to March Rs. 4,00,000 pm.
April to August Rs. 6,00,000 pm.
September to December Rs. 2,00,000 pm
The Material cost is $25 \%$ and Labour cost is $15 \%$ of sales. The production overhead $20 \%$ of Sales.
The sales commission is 5\% on sales and general overhead are @ $10 \%$ on sales.

The credit period for sales is $11 / 2$ month and purchases is 1 month.
The Labour Cost is payable at the end of month. The other expenses have credit period of $1 / 2$ month.
The minimum cash balance is Rs. 50,000.
Irregular payments-
a. Income Tax instrument in June, September, December @ Rs. 50,000
b. Dividend Rs. 2,00,000 in August
c. Interest on borrowing Rs. 1,00,000 in September and March.

Prepare Cash Budget for April to September for 6 months.
Q. 2 Prepare Cash Budget for January - June from the following information:
a. The estimated sales are as follows :

| Nov | Dec | Jan | Feb |
| :---: | :---: | :---: | :---: |
| $2,00,000$ | $2,20,000$ | $1,20,000$ | $1,00,000$ |
| March | April | May | June |
| $1,50,000$ | $2,40,000$ | $2,00,000$ | $2,00,000$ |

b. $20 \%$ of the sales are on cash basis and the balance on credit.
c. The Firm has gross margin of $25 \%$ on sales.
d. $50 \%$ of the credit sales are collected in the month following the sales, $30 \%$ in the second months and $20 \%$ in the third month.
e. Material for sales of each month is purchased on month in advance on a credit for two months.
f. The time lag in the payment of wages and salaries is one third of a month and miscellaneous expenses one month.
g. Debentures worth Rs. 40,000 were issued in January.
h. Cash balance at the end of December is Rs. 60,000.
i. Salaries and office Expenses are Rs. 30,000 p.m. in November, December and April and $80 \%$ of the same January to March and 90\% in May and June.
j. Dividend is payable in June Rs. 20,000.
k. Selling expenses @ $10 \%$ on sales payable one month after sales.

1. The firm can maintained minimum balance should be Rs. 40,000 and the firm can borrow from bank @ $12 \%$ pa in multiples of Rs. 1,000. Interest payable at the time of repayment. The borrowing and repayment should be resorted to as and when required.
Q. 3 Prepare a Cash Budget for three months ending 30thJune, 2006 from the information given below :
a)

| Month | Sales | Materials | Wages | Overheads |
| :---: | :---: | :---: | :---: | :---: |
| February | Rs. 14,000 | 9,600 | 3,000 | 1,700 |
| March | Rs. 15,000 | 9,000 | 3,000 | 1,900 |
| April | Rs. 16,000 | 9,200 | 3,200 | 2,000 |

| May | Rs. 17,000 | 10,000 | 3,600 | 2,200 |
| :--- | :--- | :--- | :--- | :--- |
| June | Rs. 18,000 | 10,400 | 4,000 | 2,300 |

b) i. Credit terms are:

Sales/ Debtors $10 \%$ sales are on Cash basic.
$50 \%$ of credit sales are collected next month and balance in the following month.
ii. Creditors Materials 2 Months

Wages $1 / 4^{\text {th }}$ Month
Overhead $1 / 2$ Month
c) Cash and bank balance on $1^{\text {st }}$ April 2006 is expected to be Rs. 6,000.
d) Other relevant information is :
i) Plant and machinery will be installed in February, 2006 at a cost of Rs. 96,000 . The monthly installment of Rs. 2,000 is payable from April onwards.
ii) Dividend @ 5\% on preference share capital of Rs. 2,00,000 will be paid on $1^{\text {st }}$ June.
iii) Advance to be received for sales of vehicle Rs. 9,000 in June.
iv) Dividend from investment amounting to Rs.1,000 are expected to be received in June.
v) Income Tax (advance) to be paid in June is Rs. 2,000.
Q. 4 Prepare Cash Budget for July-December from the following information.

1. Estimated Sales, expenses etc. are as follows (Rs. In lakhs)

|  | June | July | Aug | Sept | Oct | Nov | Dec |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Sales | 35 | 40 | 40 | 50 | 50 | 60 | 65 |
| Purchases | 14 | 16 | 17 | 20 | 20 | 25 | 28 |
| Wages \& Salary | 12 | 14 | 14 | 18 | 18 | 20 | 22 |
| Misc. Exp. | 05 | 06 | 06 | 06 | 07 | 07 | 07 |
| Int. Received | 02 | -- | -- | 02 | -- | -- | 02 |
| Sales of Shares | -- | -- | 20 | -- | -- | -- | -- |

2. $20 \%$ of the sales are on cash and the balance on credit.
3. $1 \%$ of the Credit Sales are returned by Customers, $2 \%$ of the Total Accounts Receivable constitute bad debt Losses. 505 of the good accounts receivable are collected in the month of the sales and the rest in the next month.
4. The times lag in payment of miscellaneous expenses and purchases in one month. Wages and salaries are paid fortnightly with a time lag of 15 days.
5. The company keeps minimum cash balance of Rs. 5 lakhs. Cash in Excess of Rs. 7 lakhs in invested in Government Securities in the multiple of Rs. 1 lakh. Short falls in minimum cash balance are made good by borrowing from banks. Ignore interest received and paid.
Q. 5. From the information given below prepare cash budget of ' $X$ ' Ltd.

## From January 2006 to March 2006.

| Particulars | Dec | Jan | Feb | Mar | April |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Sales budge units | 60 | 60 | 65 | 75 | 80 |
| Selling Price per unit Rs. | 1000 | 1000 | 1000 | 1000 | 1000 |
| Off season discount | $20 \%$ | $20 \%$ | $10 \%$ | -- | -- |
| End of month inventory <br> units | 10 | 12 | 15 | 25 | 25 |

1. Half of the sale proceeds are collected in the month of sales and other half in the month following.
2. Materials amounting to Rs. 300 per unit manufactured are purchased one month in advance of manufacture and paid for in cash, earning 5\% discount of half of material purchased.
3. Direct labour budget was Rs. 50 per unit and variable overheads Rs. 100 per unit.
4. Indirect labour budget was Rs. 6000 per month.
5. Depreciation was provided uniformly at Rs. 3000 per month.
6. Fixed overhead budget was Rs. 6000 per month during off season and Rs. 7000 per month during the season. Out of this, the Quarterly premium for life insurance amounting to Rs. 600 was payable in the first month of each quarter.
7. Dividends for the year 2006 amounting to Rs. 20,000 were expected to be declared in March 2006 and payments were to be spread over March and April equally.
8. A machine was sold for Rs. 10000 in December, 2005 on 3 months credit.
9. The company had overdraft arrangement with Bank up to Rs. 50,000.
Q. 6 The following information is available in respect of Padmavati Textiles Ltd.

| Particulars | Jan | Feb | Mar | April | May | June |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| Sales | 40 | 50 | 60 | 60 | 60 | 40 |
| Purchase (R. M) | 15 | 16 | 18 | 18 | 18 | 16 |
| Direct Labour | 6 | 7 | 8 | 8 | 8 | 6 |
| Manufacturing Expenses | 13 | 13 | 14 | 14 | 14 | 13 |
| Administrative Expenses | 2 | 2 | 2 | 2 | 2 | 2 |
| Distribution Expenses | 2 | 3 | 4 | 4 | 4 | 2 |

The following financial flows are expected during the period.

- Interest to be received in January Rs. 2,00,000.
- Dividend to be received during March Rs. 2,00,000.
- Sale of investment in June Rs. 60,00,000.
- Interest to be paid in February Rs. 1,00,000
- Dividend to be paid in April Rs. 4,00,000
- Installment payment on Machine to be paid in June Rs. 20,00,000.

Assume that $10 \%$ of the sales are on cash, the balance $90 \%$ are on credit. The terms and credit experience of the company are :

1. No cash discount.
2. $1 \%$ of credit sales is returned by the customers.
3. $1 \%$ of the total accounts receivable is bad debt.
4. $50 \%$ of all accounts that are going to pay, do so within 30 days.
5. $100 \%$ of all accounts that are going to pay, so within 60 days.
6. Raw materials are purchased on 30 day's credit.

Balance is to be maintained by the end of the month by borrowing temporarily from bank in multiples of Rs. 10,000 (ignore interest).

Prepare a Cash Budget for six months.
Q. 7 A newly established company manufacturing two products furnished the cost sheet as under -

| Particulars | Product L | Product B |
| :--- | :---: | :---: |
| Direct Material | 40 | 20 |
| Direct Labour | 30 | 15 |
| Variable Overhead | 14 | 7 |

| Selling Price | 100 | 50 |
| :--- | :--- | :--- |

Fixed overheads excluding bank interest amount to Rs. 6,00,000 p.a. spread over evenly throughout the year.

Sales forecasts is as under -

| Product | July | Aug | Sept | Oct | Nov. |
| :--- | :---: | :---: | :---: | :---: | :---: |
| L units | 4200 | 4600 | 3600 | 4000 | 4500 |
| B Units | 2100 | 2300 | 1800 | 2000 | 1900 |

Production: $75 \%$ of each months sales will be produced in the month of sales and $25 \%$ in the previous month.

## Sales Pattern -

## Product L -

- One third of sales will be on cash basis on which cash discount of $2 \%$ is allowed.
- One third will be on documents against payment basis. The documents will be discounted by the bank in the month of sales itself.
- Balance of one third on documents against acceptance basis.
- The payments under this scheme will be received in third month e.g. sales in September payment will be received in November.

## Product B -

- $80 \%$ of the sales will be against cash to be received in the month of sales and the balance.
- $20 \%$ will be received in the following month.

Direct Materials - 50\% of the direct materials required for each month's production will be purchased in the previous month and the balance in the month of the production itself. The payments will be made in the month following the purchases.

Direct Wages - 80\% of the direct wages will be paid in the month of use of direct labour for production and the balance in the following month.

Variable Overheads - $50 \%$ to be paid in the month of incurrence and the balance in the following month.

Fixed Overheads - $40 \%$ will be paid in the month of occurrence and the other $40 \%$ in the following month. The balance $20 \%$ represents depreciation.

The bill discounting charges payable to the bank in the month in which the bills are discounted. The Cash balance of Rs. $1,00,000$ will be maintained on $1^{\text {st }}$ July.

Prepare Cash Budget monthwise for July, August and September.
Q. 8 The following results are expected by XYZ Ltd. For Jan. to July 2004, from which you are required to prepare Cash Budget.

1. The estimated sales, expenses etc. are as follows:

| Particulars | Jan | Feb | Ma <br> r | Apr | May | Jun | Jul |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Sales | 70 | 80 | 80 | 100 | 100 | 120 | 130 |
| Purchases | 28 | 32 | 34 | 40 | 40 | 50 | 56 |
| Wages and Salaries | 24 | 28 | 28 | 36 | 36 | 40 | 44 |
| Sundry Expenses | 10 | 12 | 12 | 12 | 14 | 14 | 14 |
| Receipt of Rent | 4 | -- | -- | 4 | -- | -- | 4 |
| Sale of Asset | -- | -- | 40 | -- | -- | -- | -- |

2. $20 \%$ of the sales are on cash and balance on credit.
3. $1 \%$ of the Credit sales are returned by the customers, $2 \%$ debts are uncollectable, $50 \%$ of the good accounts receivables are collected in the month of the sales and the rest during next month.
4. The time lag in payment of Sundry Expenses and Purchase is of one month. Wages and salaries are paid fortnightly with a time lag of 15 days.

| Jan 20 Withdrew from bank for office use | 5,000 |
| Jan 21 Used goods for domestic consumption by the <br> proprietor | 1,000 |
| Jan 25 Paid for office cleaning | 200 |
| Jan 26 Distributed sweets for anniversary Function in <br> Office | 1,000 |
| Jan 31 Paid Staff Salary by cheque | 6,500 |

Q. 5 a) What is meant by Cost Accounting? Explain in brief three different ways of cost classification.
b) From the following budgeted data, prepare a Cash Budget for the quarter ending $30^{\text {th }}$ June, 2008.

| Months | Sales <br> Rs. | Purchase <br> Rs. | Wages <br> Rs. | Manufacturing <br> Exp (Rs.) | Selling <br> Expenses |
| :--- | ---: | ---: | ---: | ---: | ---: |
| Jan'08 | 70,000 | 45,000 | 16,000 | 4,000 | 2,200 |
| Feb' 08 | 60,000 | 43,000 | 16,600 | 4,200 | 2,400 |
| Mar'08 | 64,000 | 45,000 | 17,000 | 4,300 | 2,500 |
| April'08 | 80,000 | 55,000 | 17,400 | 4,500 | 2,700 |
| May' 08 | 84,000 | 59,000 | 18,400 | 5,200 | 3,400 |
| June'08 | 76,000 | 45,000 | 19,000 | 5,000 | 3,000 |

The expected cash balance as on 1 April is Rs. 30,000. Other information is as follows:

1) Purchases \& expenses are to be paid with a lag of one month.
2) Wages are to be paid during the month in which they are incurred.
3) $40 \%$ of the credit sale is collected in the month of sale, $40 \%$ in the following month and balance in the month thereafter.
4) $5 \%$ sales commission is to be paid within the month following actual sales.
5) Equity Share Capital Call Money of Rs. 10,000 is receivable in each of the three months under consideration.
6) Manufacturing Overheads include Rs. 1,000 as depreciation.
Q. 6 a) Distinguish between Fund Flow and Cash Flow.
b) The following are the extracts of Balance sheets of Efficient Ltd.
(12)

| Liabilities | $\mathbf{2 0 0 6}$ | $\mathbf{2 0 0 7}$ | Assets | $\mathbf{2 0 0 6}$ | $\mathbf{2 0 0 7}$ |
| :--- | :--- | ---: | :--- | :--- | :---: |
| Creditors | 25,000 | 30,000 | Stocks | 10,000 | 25,000 |
| Bills <br> Payable | 15,000 | 20,000 | Debtors | 20,000 | 20,000 |
| Bank <br> Overdraft | - | 2,000 | Bills <br> Receivable | 10,000 | 5,000 |
| $9 \%$ <br> Debentures | $5,00,000$ | $5,00,000$ | Prepaid <br> Expenses | 2,000 | - |
|  |  |  | Cash on Hand | 18,000 | 15,000 |

## Additional Information:

Sales 2006: Rs. 3,50,000 \& Gross Profit 70,000
Sales 2007: Rs. 3,00,000 \& Gross Profit 50,000
Calculate the following Ratios for both the years:
i) Current Ratio
ii) Liquid Ratio
iii) Stock to Working Capital Ratio
iv) Debtors Turnover Ratio \& Debtor's Velocity
Q. 7 a) Explain cash budget briefly.
b) Define Working Capital. Explain the importance of working capital in business.
