

# CHAOS and FEAR in Aug-Sept 1945

CHAOS and FEAR of nuclear annihilation in Aug-Sept 1945 initiated a chain of events that produced the UN in Oct 1945 and lock-step, consensus science that finally surfaced as Climategate emails in Nov 2009. That is the inescapable conclusion from precise experimental data\*\* and research by the nuclear geochemist, KAZUO KURODA, who took secret possession of Japan's atomic bomb plans in August 1945: <http://news.bbc.co.uk/2/hi/asia-pacific/2170881.stm>

Earlier Aston had warned that **uncontrolled release of nuclear energy could change Earth to a star** [See page 20, last paragraph of Aston's Nobel Prize Lecture, 12 Dec 1922]: <http://veksler.jinr.ru/becquerel/text/books/aston-lecture.pdf>

These Aug-Sept 1945 events scared world leaders into hiding knowledge of nuclear energy in cores of atoms and stars after the UN was formed in Oct 1945:

1. Allied atomic bombs destroyed Hiroshima and Nagasaki on 6, 9 Aug 1945;
2. Japan exploded an atomic bomb off the east coast of Konan, Korea on 12 Aug 1945; <http://tinyurl.com/my5zsty>
3. Stalin's USSR troops captured Japan's atomic bomb facility and took scientists and technicians to Russia; <http://tinyurl.com/n3agdan>
4. On 29 Aug 1945 Stalin's troops captured and held the crew of an American B-29 for weeks of negotiations to form the UN; <http://tinyurl.com/n3agdan>
5. A copy of Japan's atomic bomb plans vanished from government control for fifty-seven year: <http://news.bbc.co.uk/2/hi/asia-pacific/2170881.stm>

\*\*This paper and my biography contain **nine pages of precise experimental data that falsify post-1945 lock-step, consensus models of energy in cores of:**

1. Heavy atoms like **Uranium**
2. Some planets like **Jupiter**
3. Ordinary stars like **the Sun**
4. Galaxies like the **Milky Way**
5. The expanding **Universe**

*“Should the research worker of the future discover some means of releasing this energy in a form which could be employed, the human race will have at its command powers beyond the dreams of scientific fiction; but the remote possibility must always be considered that the energy once liberated will be completely uncontrollable and by its intense violence detonate all neighbouring substances. **In this event the whole of the hydrogen on the earth might be transformed at once and the success of the experiment published at large to the universe as a new star.**”*
