

Spring Plant Swap

Sunday, May 15, 2011

2:00 pm

Holliday Park

6363 Spring Mill Road

Indianapolis, IN 46260

PLEASE tell all your gardening friends, family, and colleagues! We're having the Central Indiana Spring Plant Swap on May 15th. We are encouraging all gardeners to participate! We typically have perennials, annuals, bulbs, tubers, herbs, vegetables, and shrubs. There's no cost to participate. Just bring in your divisions, leftovers, and extra plants!

Directions inside the park: Once you enter the park take an immediate left. Then pull into the first parking lot on the right. We will be under the giant sycamore tree. You can bring tables, chairs and plants to share.

MINIMUM REQUIREMENTS TO PARTICIPATE IN THE PLANT SWAP:

- You must bring at least one dozen (12) plants - some people bring more than 50.
- At least two (2) varieties of plants - try to bring one plant that is extra special.
- All plants need to be clearly identified with plant name and care.
- For best results plants should NOT be dug up and divided that day. Allow a week or two of special care, to make sure the potted plants are not stressed from being dug up.

TRADING MATERIALS

Perennials, well rooted cuttings potted up, bulbs, shrubs, happy seedlings, garden ornaments, extra gardening implements, gardening magazines and books, etc.

HOW IT WORKS

We will do the swap in the ROUND ROBIN Format - it works well for this group, and is a lot of fun:

*Round One - pick one plant *Next Round - pick one plant *Next Round - pick two plants *Next Round - pick two plants *Next Round - pick three plants *Next Round - pick four plants *And so on . . . This way everyone gets a chance to get some of the plants they really have on eye on. This works well and other swaps have had great success with it in the past. Everyone should be able to take home as many plants as they bring.

KEEP IT SIMPLE, HAVE FUN, MEET FELLOW GARDENERS

- * Bring a box or container labeled with your name to put your new plants.
- * We plan to meet even if it rains - bring those rain coats, umbrellas, etc.
