

Letters and Sounds

Phonics

At Leamore Primary School, we learn to read and spell by recognising, then using, the letters and sounds we hear and say in words. This is called Phonics.

We follow a phonics programme called **Letters and Sounds** which teaches the children a new letter or sound to read and write with every day. Our phonics lessons are lots of fun and the children really enjoy them. We play lots of games and the children learn the new letters and sounds very quickly.

Your child's teacher will be able to tell you the letters and sounds your child is learning to read and write and will be able to give you ideas of how you can help your child at home.

The children in Year One also sit a small phonics test with their teacher at the end of the year. This will also help you to know how well your child is doing with phonics.
