

Homemade Laundry Detergent

Ingredients

- 1/3 Bar Zote Soap
- 1/2 Cup Arm & Hammer Super Washing Soda
- 1/2 Cup 20 Mule Team Borax
- 2 empty Gallon size bottles (Juice bottles work well)
- Water

Directions

Grate Zote soap with a cheese grater. Place into a large saucepan along with 6 Cups of water. Heat until soap is dissolved. Add the Washing Soda and Borax and stir until dissolved. Remove from heat.

Divide mixture equally between two 1 Gallon bottles. Add water to both bottles until almost full. Shake bottles well to mix detergent.

When cold, re-shake and pour into old liquid detergent dispenser or bottle. Shake container well each time as mixture will gel.

Use 1/2 Cup per load.
