

## **Oakseed Opportunity Fund**

Investor Class (SEEDX)  
Institutional Class (SEDEX)

*A series of Investment Managers Series Trust*

### **Supplement dated May 31, 2017, to the Prospectus, Summary Prospectus and Statement of Additional Information, each dated May 1, 2017.**

Jackson Park Capital, LLC (the “Advisor”), the Fund’s advisor, has given notice of resignation as investment advisor of the Oakseed Opportunity Fund (the “Fund”), effective on or about June 30, 2017. The Board of Trustees of the Trust has therefore approved a Plan of Liquidation for the Fund which authorizes the termination, liquidation and dissolution of the Fund. In order to perform such liquidation, effective immediately the Fund is closed to all new investment.

The Fund will be liquidated on or about June 30, 2017 (the “Liquidation Date”), and shareholders may redeem their shares until the Liquidation Date. On or promptly after the Liquidation Date, the Fund will make a liquidating distribution to its remaining shareholders equal to each shareholder’s proportionate interest in the net assets of the Fund, in complete redemption and cancellation of the Fund’s shares held by the shareholder, and the Fund will be dissolved. Shareholders redeeming Fund shares worth over \$250,000 on or before the Liquidation Date may request redemptions by “in-kind” distributions of portfolio securities (instead of cash) from the Fund. Any shareholder wishing to redeem its Fund shares in kind must contact the Advisor at least 15 days prior to the Liquidation Date or date of redemption, as applicable. If a shareholder receives an in-kind distribution, the shareholder could incur brokerage or other charges in converting the securities to cash.

In anticipation of the liquidation of the Fund, the Advisor may manage the Fund in a manner intended to facilitate its orderly liquidation, such as by raising cash or making investments in other highly liquid assets. As a result, during this time, all or a portion of the Fund may not be invested in a manner consistent with its stated investment strategies, which may prevent the Fund from achieving its investment objective.

Please contact the Fund at 1-888-446-4460 if you have any questions or need assistance.

*Please file this Supplement with your records.*

The date of this Prospectus is May 1, 2017.

## SUMMARY SECTION

### Investment Objective

The investment objective of the Oakseed Opportunity Fund (the “Fund”) is to seek long term capital appreciation.

### Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

	<b>Investor Class</b>	<b>Institutional Class</b>
<b>Shareholder Fees</b>		
<i>(fees paid directly from your investment)</i>		
Maximum sales charge (load) imposed on purchases	None	None
Maximum deferred sales charge (load)	None	None
Redemption fee (as a percentage of amount redeemed)	None	None
Wire fee	\$20	\$20
Overnight check delivery fee	\$25	\$25
Retirement account fees (annual maintenance fee)	\$15	\$15
<b>Annual Fund Operating Expenses</b>		
<i>(expenses that you pay each year as a percentage of the value of your investment)</i>		
Management fees	0.95%	0.95%
Distribution (Rule 12b-1) Fees	0.25%	None
Other expenses	0.42%	0.42%
Acquired fund fees and expenses	0.02%	0.02%
<b>Total annual fund operating expenses<sup>1</sup></b>	<b>1.64%</b>	<b>1.39%</b>
Fees waived and/or expenses reimbursed <sup>2</sup>	(0.22)%	(0.22)%
<b>Total annual fund operating expenses after waiving fees and/or reimbursing expenses<sup>1,2</sup></b>	<b>1.42%</b>	<b>1.17%</b>

- 1 The “total annual fund operating expenses” do not correlate to the ratio of expenses to average net assets appearing in the financial highlights table, which reflects only the operating expenses of the Fund and does not include acquired fund fees and expenses.
- 2 The Fund’s Advisor has contractually agreed to waive its fees and/or pay for operating expenses of the Fund to ensure that total annual fund operating expenses (excluding any taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, acquired fund fees and expenses (as determined in accordance with Form N-1A), expenses incurred in connection with any merger or reorganization, and extraordinary expenses such as litigation expenses) do not exceed 1.40% and 1.15% of the average daily net assets of the Fund’s Investor Class and Institutional Class shares, respectively. This agreement is in effect until April 30, 2018, and it may be terminated before that date only by the Trust’s Board of Trustees. The Advisor is permitted to seek reimbursement from the Fund, subject to certain limitations, of fees waived or payments made to the Fund for a period ending three full fiscal years after the date of the waiver or payment.

### Example

This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same.

Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	One Year	Three Years	Five Years	Ten Years
Investor Class	\$145	\$496	\$871	\$1,925
Institutional Class	\$119	\$418	\$740	\$1,650

### **Portfolio Turnover**

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund’s performance. During the most recent fiscal year, the Fund’s portfolio turnover rate was 96% of the average value of its portfolio.

### **Principal Investment Strategies**

Under normal circumstances, the Fund will invest primarily in U.S. equity securities. The Fund’s investments in equity securities may include common stocks, preferred stocks, and warrants. The Fund’s Advisor (the “Advisor”) focuses on companies that it believes to be undervalued by the general market. The Fund may invest in any size company, including small- and medium-sized companies. The Fund may also invest in foreign securities, either directly or through the use of American Depository Receipts (“ADRs”), which are receipts that represent interests in foreign securities held on deposit by U.S. banks. In addition, the Fund may invest in exchange-traded funds (“ETFs”), which are pooled investment vehicles that generally seek to track the performance of specific indices and are traded on exchanges, and real estate investment trusts (“REITs”), which are pooled investment vehicles that invest primarily in income producing real estate or real estate related loans or interests.

In investing the Fund’s assets, the Advisor uses four key components to identify investments. First, the Advisor identifies companies that it believes are high quality businesses (i.e., companies that have an underlying competitive advantage compared to their competitors, high returns or returns that are improving, and long-term secular growth). Second, the Advisor purchases securities of these high quality companies at what it believes are compelling valuations by waiting patiently for a decline in the prices of their securities caused by a decline in the overall equity markets or in a specific industry, or a specific negative company event. The third component the Advisor considers is the alignment of shareholders and management. The Advisor seeks to determine this by scrutinizing the company’s corporate history, identifying companies that reward management teams based on performance, and avoiding dual class stockholder structures. Finally, the Advisor employs discipline, patience, and temperament to seek to take advantage of short-term volatility for long-term gains, often investing in companies for three to five years.

The Advisor in evaluating REITs focuses on securities it believes to be undervalued by the general market, and most often uses the REIT metric of Funds From Operations (“FFO”) to determine estimated value. FFO is a non-GAAP accounting measure commonly disclosed by REITs.

The Fund may also use derivative instruments, primarily writing (i.e., selling) put options on individual securities, indexes and ETFs, to manage the position size of individual security holdings, enhance the Fund’s return and reduce volatility. The Fund will generally invest in derivatives to manage underlying equity exposures while seeking to maximize the efficiency of invested capital and expected return. When evaluating options, the Advisor considers the amount of premium received or invested (which is a function of the implied volatility of the underlying security, the strike price, and the time to expiration), the valuation of the underlying security at the exercise price, the weighting of the security in the portfolio if exercised, and the expiration date.

### **Principal Risks of Investing**

Risk is inherent in all investing. A summary description of certain principal risks of investing in the Fund is set forth below. Before you decide whether to invest in the Fund, carefully consider these risk factors and special considerations associated with investing in the Fund, which may cause investors to lose money. There can be no assurance that the Fund will achieve its investment objective.

**Market Risk.** The market price of a security or instrument may decline, sometimes rapidly or unpredictably, due to general market conditions that are not specifically related to a particular company, such as real or perceived adverse economic or political conditions throughout the world, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. The market

value of a security or instrument also may decline because of factors that affect a particular industry or industries, such as labor shortages or increased production costs and competitive conditions within an industry.

**Equity Risk.** The value of the equity securities held by the Fund may fall due to general market and economic conditions, perceptions regarding the industries in which the issuers of securities held by the Fund participate, or factors relating to specific companies in which the Fund invests.

**Value-Oriented Investment Strategies Risk.** Value stocks are those that are believed to be undervalued in comparison to their peers due to adverse business developments or other factors. Value investing is subject to the risk that the market will not recognize a security's inherent value for a long time or at all, or that a stock judged to be undervalued may actually be appropriately priced or overvalued. In addition, during some periods (which may be extensive) value stocks generally may be out of favor in the markets. Therefore, the Fund is most suitable for long-term investors who are willing to hold their shares for extended periods of time through market fluctuations and the accompanying changes in share prices.

**Small-Cap and Mid-Cap Company Risk.** The securities of small-capitalization and mid-capitalization companies may be subject to more abrupt or erratic market movements and may have lower trading volumes or more erratic trading than securities of larger, more established companies or market averages in general. In addition, such companies typically are more likely to be adversely affected than large capitalization companies by changes in earning results, business prospects, investor expectations or poor economic or market conditions.

**Preferred Stock Risk.** Preferred stock represents an equity interest in a company that generally entitles the holder to receive, in preference to the holders of other stocks such as common stock, dividends and a fixed share of the proceeds resulting from a liquidation of the company. The market value of preferred stock is subject to company-specific and market risks applicable generally to equity securities and is also sensitive to changes in the company's creditworthiness, the ability of the company to make payments on the preferred stock, and changes in interest rates, typically declining in value if interest rates rise. In addition, a company's preferred stock generally pays dividends only after the company makes required payments to holders of its bonds and other debt. Therefore the value of preferred stock will usually react more strongly than bonds and other debt to actual or perceived changes in the company's financial condition or prospects.

**Warrant Risk.** Warrants may lack a liquid secondary market for resale. The prices of warrants may fluctuate as a result of speculation or other factors. Warrants can provide a greater potential for profit or loss than an equivalent investment in the underlying security. Prices of warrants do not necessarily move in tandem with the prices of their underlying securities and therefore are highly volatile and speculative investments. If a warrant expires without being exercised, the Fund will lose any amount paid for the warrant.

**Foreign Investment Risk.** The prices of foreign securities may be more volatile than the prices of securities of U.S. issuers because of economic and social conditions abroad, political developments, and changes in the regulatory environments of foreign countries. In addition, changes in exchange rates and interest rates may adversely affect the values of the Fund's foreign investments. Foreign companies are generally subject to different legal and accounting standards than U.S. companies, and foreign financial intermediaries may be subject to less supervision and regulation than U.S. financial firms. Foreign securities include ADRs and Global Depository Receipts ("GDRs"). Un-sponsored ADRs and GDRs are organized independently and without the cooperation of the foreign issuer of the underlying securities, and involve additional risks because U.S. reporting requirements do not apply. In addition, the issuing bank may deduct shareholder distribution, custody, foreign currency exchange, and other fees from the payment of dividends.

**ETF Risk.** Investing in an ETF will provide the Fund with exposure to the securities comprising the index on which the ETF is based and will expose the Fund to risks similar to those of investing directly in those securities. Shares of ETFs typically trade on securities exchanges and may at times trade at a premium or discount to their net asset values. In addition, an ETF may not replicate exactly the performance of the benchmark index it seeks to track for a number of reasons, including transaction costs incurred by the ETF,

the temporary unavailability of certain index securities in the secondary market or discrepancies between the ETF and the index with respect to the weighting of securities or the number of securities held. Investing in ETFs, which are investment companies, involves duplication of advisory fees and certain other expenses. The Fund will pay brokerage commissions in connection with the purchase and sale of shares of ETFs.

**Options Risk.** Purchasing and writing put and call options are highly specialized activities and entail greater than ordinary investment risks. The Fund may not fully benefit from or may lose money on an option if changes in its value do not correspond as anticipated to changes in the value of the underlying securities. If the Fund is not able to sell an option held in its portfolio, it would have to exercise the option to realize any profit and would incur transaction costs upon the purchase or sale of the underlying securities. Ownership of options involves the payment of premiums, which may adversely affect the Fund's performance. To the extent that the Fund invests in over-the-counter options, the Fund may be exposed to counterparty risk.

**REIT Risk.** The Fund's investment in REITs will subject the Fund to risks similar to those associated with direct ownership of real estate, including losses from casualty or condemnation, and changes in local and general economic conditions, supply and demand, interest rates, zoning laws, regulatory limitations on rents, property taxes and operating expenses. Investment in REITs is subject to additional risks, such as poor performance by the manager of the REIT, adverse changes to the tax laws or failure by the REIT to qualify for tax-free pass-through of income under the Internal Revenue Code of 1986, as amended (the "Code"). In addition, some REITs have limited diversification because they invest in a limited number of properties, a narrow geographic area, or a single type of property.

**Sector Focus Risk.** The Fund may invest a larger portion of its assets in one or more sectors than many other mutual funds, and thus will be more susceptible to negative events affecting those sectors. For example, as of December 31, 2016, 36.2% of the Fund's assets were invested in the consumer sector. Companies in the consumer sector may be adversely impacted by fluctuations in supply and demand, changes in the global economy, consumer spending, competition, demographics and consumer preferences, and production spending. In addition, as of December 31, 2016, 31.1% of the Fund's assets were invested in the financial sector. Performance of companies in the financial sector may be adversely impacted by many factors, including among others: government regulation of, or related to, the sector; governmental monetary and fiscal policies; economic, business or political conditions; credit rating downgrades; changes in interest rates; price competition; and decreased liquidity in credit markets.

**Management and Strategy Risk.** The value of your investment depends on the judgment of the Advisor about the quality, relative yield, value or market trends affecting a particular security, industry, sector or region, which may prove to be incorrect. Investment strategies employed by the Advisor in selecting investments for the Fund may not result in an increase in the value of your investment or in overall performance equal to other investments.

### **Performance**

The bar chart and table below provide some indication of the risks of investing in the Fund by showing changes in the Fund's performance from year to year for Institutional Class Shares and by showing how the average annual total returns of each class of the Fund compare with the average annual total returns of a broad-based market index. The Fund's past performance, before and after taxes, is not necessarily an indication of how the Fund will perform in the future. Sales loads are not reflected in the bar chart, and if those charges were included, returns would be less than those shown.

**Calendar-Year Total Return (before taxes) – Institutional Class Shares**

For each calendar year at NAV

<b>Institutional Class Shares</b>		
Highest Calendar Quarter Return at NAV	7.09%	Quarter Ended 12/31/13
Lowest Calendar Quarter Return at NAV	(6.99)%	Quarter Ended 09/30/15

The year-to-date return for the Fund as of March 31, 2017 was 3.80%.

<b>Average Annual Total Returns for periods ended December 31, 2016</b>	<b>1 year</b>	<b>3 years</b>	<b>Since Inception (December 31, 2012)</b>
Institutional Class - Return Before Taxes	8.89%	5.31%	9.89%
Institutional Class - Return After Taxes on Distributions*	6.68%	3.69%	8.55%
Institutional Class - Return After Taxes on Distributions and Sale of Fund Shares*	6.91%	4.06%	7.72%
Investor Class – Return Before Taxes	8.65%	5.04%	9.59%
S&P 500 Index (Reflects No Deductions for Fees, Expenses or Taxes)	11.96%	8.87%	14.33%

\* After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor’s tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts.

**Investment Advisor**

Jackson Park Capital, LLC (the “Advisor” or “Jackson Park”)

**Portfolio Managers**

The portfolio management team is comprised of Greg L. Jackson, Managing Partner, and John H. Park, Managing Partner, each of whom has been jointly and primarily responsible for the day-to-day management of the Fund’s portfolio since its inception in December 2012.

**Purchase and Sale of Fund Shares**

To purchase shares of the Fund, you must invest at least the minimum amount.

<b>Minimum Investments</b>	<b>Investor Class</b>		<b>Institutional Class</b>	
	<b>To Open Your Account</b>	<b>To Add to Your Account</b>	<b>To Open Your Account</b>	<b>To Add to Your Account</b>
Direct Regular Accounts	\$2,500	\$100	\$10,000	\$250
Direct Retirement Accounts	\$1,000	\$50	\$2,500	\$100
Automatic Investment Plan	\$ 100	\$50	\$2,500	\$100
Gift Account For Minors	\$1,000	\$50	\$2,500	\$100

Fund shares are redeemable on any business day the New York Stock Exchange (the “NYSE”) is open for business, by written request or by telephone.

**Tax Information**

The Fund’s distributions are generally taxable, and will ordinarily be taxed as ordinary income, qualified dividend income or capital gains, unless you are investing through a tax-advantaged arrangement, such as a 401(k) plan or an individual retirement account. Shareholders investing through such tax-advantaged arrangements may be taxed later upon withdrawal of monies from those arrangements.

**Payments to Broker-Dealers and Other Financial Intermediaries**

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.

## **MORE ABOUT THE FUND'S INVESTMENT OBJECTIVE, PRINCIPAL INVESTMENT STRATEGIES AND RISKS**

---

### **Investment Objective**

The Fund's investment objective is to seek long term capital appreciation. There is no assurance that the Fund will achieve its investment objective.

The Fund's investment objective is not fundamental and may be changed by the Board of Trustees without shareholder approval, upon at least 60 days' prior written notice to shareholders. The Fund's investment strategies and policies may be changed from time to time without shareholder approval or prior written notice, unless specifically stated otherwise in this Prospectus or the SAI.

### **Principal Investment Strategies**

Under normal circumstances, the Fund will invest primarily in U.S. equity securities. The Fund's investments in equity securities may include common stocks, preferred stocks, and warrants. The Advisor focuses on companies that it believes to be undervalued by the general market. The Fund may invest in any size company, including small- and medium-sized companies. The Fund may also invest in foreign securities, either directly or through the use of ADRs. In addition, the Fund may invest in ETFs and REITs.

In investing the Fund's assets, the Advisor uses four key components to identify investments. First, the Advisor identifies companies that it believes are high quality businesses (i.e., companies that have an underlying competitive advantage compared to their competitors, high returns or returns that are improving, and long-term secular growth). Second, the Advisor purchases these high quality companies at compelling valuations by waiting patiently for a decline in the prices of their securities caused by a decline in the overall equity markets or in a specific industry, or by a specific negative company event. The third component the Advisor considers is the alignment of shareholders and management. The Advisor seeks to determine this by scrutinizing the company's corporate history, identifying companies that reward management teams based on performance, and avoiding dual class stockholder structures. Finally, the Advisor employs discipline, patience, and temperament to seek to take advantage of short-term volatility for long-term gains, often investing in companies for three to five years.

The Advisor in evaluating REITs focuses on securities it believes to be undervalued by the general market, and most often uses the REIT metric of FFO to determine estimated value. FFO is a non-GAAP accounting measure commonly disclosed by REITs.

The Fund may also use derivative instruments, primarily writing (i.e., selling) put options on individual securities, indexes and ETFs, to manage the position size of individual security holdings, enhance the Fund's return and reduce volatility. The Fund will generally invest in derivatives to manage underlying equity exposures while seeking to maximize the efficiency of invested capital and expected return. When evaluating options, the Advisor considers the amount of premium received or invested (which is a function of the implied volatility of the underlying security, the strike price, and the time to expiration), the valuation of the underlying security at the exercise price, the weighting of the security in the portfolio if exercised, and the expiration date.

The Advisor may sell all or a portion of the Fund's portfolio holding when, in its opinion, one or more of the following occurs: (1) its price target is realized; (2) the Advisor identifies a more attractive security; (3) a tax loss is realized; or (4) the Fund experiences redemptions of shares.

Further, when current market, economic, political or other conditions are unsuitable and would impair the pursuit of the Fund's investment objective, the Fund may temporarily invest up to 100% of its assets in cash or cash equivalents, including but not limited to, obligations of the U.S. Government, corporate debt securities, money market fund shares, commercial paper, repurchase agreements, certificates of deposit and/or bankers acceptances, as well as other interest bearing or discount obligations. When the Fund takes a temporary defensive position, it may not achieve its investment objective.

## **Principal Risks of Investing**

The Fund's principal risks are set forth below. Before you decide whether to invest in the Fund, carefully consider these risk factors and special considerations associated with investing in the Fund, which may cause you to lose money.

- **Market Risk.** The market price of a security or instrument may decline, sometimes rapidly or unpredictably, due to general market conditions that are not specifically related to a particular company, such as real or perceived adverse economic or political conditions throughout the world, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. The market value of a security or instrument also may decline because of factors that affect a particular industry or industries, such as labor shortages or increased production costs and competitive conditions within an industry. For example, the financial crisis that began in 2008 caused a significant decline in the value and liquidity of many securities; in particular, the values of some sovereign debt and of securities of issuers that invest in sovereign debt and related investments fell, credit became more scarce worldwide and there was significant uncertainty in the markets. Such environments could make identifying investment risks and opportunities especially difficult for the Advisor. In response to the crisis, the United States and other governments have taken steps to support financial markets. The withdrawal of this support or failure of efforts in response to the crisis could negatively affect financial markets generally as well as the value and liquidity of certain securities. In addition, policy and legislative changes in the United States and in other countries are changing many aspects of financial regulation. The impact of these changes on the markets, and the practical implications for market participants, may not be fully known for some time.
- **Equity Risk.** The value of equity securities held by the Fund may fall due to general market and economic conditions, perceptions regarding the industries in which the issuers of securities held by the Fund participate, or factors relating to specific companies in which the Fund invests. The price of common stock of an issuer in the Fund's portfolio may decline if the issuer fails to make anticipated dividend payments because, among other reasons, the financial condition of the issuer declines. Common stock is subordinated to preferred stocks, bonds and other debt instruments in a company's capital structure in terms of priority with respect to corporate income, and therefore will be subject to greater dividend risk than preferred stocks or debt instruments of such issuers. In addition, while broad market measures of common stocks have historically generated higher average returns than fixed income securities, common stocks have also experienced significantly more volatility in those returns.
- **Value-Oriented Investment Strategies Risk.** Value stocks are those that are believed to be undervalued in comparison to their peers due to adverse business developments or other factors. Value investing carries the risk that the market will not recognize a security's inherent value for a long time or at all, or that a stock judged to be undervalued may actually be appropriately priced or overvalued. In addition, during some periods (which may be extensive) value stocks generally may be out of favor in the markets. Therefore, the Fund is most suitable for long-term investors who are willing to hold their shares for extended periods of time through market fluctuations and the accompanying changes in share prices.
- **Small-Cap and Mid-Cap Company Risk.** Investing in small-capitalization and mid-capitalization companies generally involves greater risks than investing in large-capitalization companies. Small- or mid-cap companies may have limited product lines, markets or financial resources or may depend on the expertise of a few people and may be subject to more abrupt or erratic market movements than securities of larger, more established companies or market averages in general. Many small capitalization companies may be in the early stages of development. Since equity securities of smaller companies may lack sufficient market liquidity and may not be regularly traded, it may be difficult or impossible to sell securities at an advantageous time or a desirable price.
- **Preferred Stock Risk.** Preferred stock represents an equity interest in a company that generally entitles the holder to receive, in preference to the holders of other stocks such as common stocks, dividends and a fixed share of the proceeds resulting from a liquidation of the company. Preferred stocks may pay fixed or adjustable rates of return. The market value of preferred stock is subject to issuer-specific and market risks applicable generally to equity securities and is sensitive to changes in the issuer's creditworthiness, the ability

of the issuer to make payments on the preferred stock and changes in interest rates, typically declining in value if interest rates rise. In addition, a company's preferred stock generally pays dividends only after the company makes required payments to holders of its bonds and other debt. Therefore, the value of preferred stock will usually react more strongly than bonds and other debt to actual or perceived changes in the company's financial condition or prospects.

- **Warrant Risk.** A warrant gives the holder a right to purchase, at any time during a specified period, a predetermined number of shares of common stock at a fixed price. Unlike a convertible debt security or preferred stock a warrant does not pay fixed dividends. A warrant may lack a liquid secondary market for resale. The price of a warrant may fluctuate as a result of speculation or other factors. In addition, the price of the underlying security may not reach, or have reasonable prospects of reaching, a level at which the warrant can be exercised prudently (in which case the warrant may expire without being exercised, resulting in a loss of the Fund's entire investment in the warrant).
- **Foreign Investment Risk.** Investments in foreign securities are affected by risk factors generally not thought to be present in the United States. The prices of foreign securities may be more volatile than the prices of securities of U.S. issuers because of economic and social conditions abroad, political developments, and changes in the regulatory environments of foreign countries. Special risks associated with investments in foreign markets include less liquidity, less developed or less efficient trading markets, lack of comprehensive company information, less government supervision of exchanges, brokers and issuers, greater risks associated with counterparties and settlement, and difficulty in enforcing contractual obligations. In addition, changes in exchange rates and interest rates, and imposition of foreign taxes, may adversely affect the value of the Fund's foreign investments. Foreign companies are generally subject to different legal and accounting standards than U.S. companies, and foreign financial intermediaries may be subject to less supervision and regulation than U.S. financial firms. The Fund's investments in depository receipts (including ADRs) are subject to these risks, even if denominated in U.S. Dollars, because changes in currency and exchange rates affect the values of the issuers of depository receipts. In addition, the underlying issuers of certain depository receipts, particularly unsponsored or unregistered depository receipts, are under no obligation to distribute shareholder communications to the holders of such receipts, or to pass through to them any voting rights with respect to the deposited securities.
- **ETF Risk.** Investing in an ETF will provide the Fund with exposure to the securities comprising the index on which the ETF is based and will expose the Fund to risks similar to those of investing directly in those securities. Shares of ETFs typically trade on securities exchanges and may at times trade at a premium or discount to their net asset values. In addition, an ETF may not replicate exactly the performance of the benchmark index it seeks to track for a number of reasons, including transaction costs incurred by the ETF, the temporary unavailability of certain index securities in the secondary market or discrepancies between the ETF and the index with respect to the weighting of securities or the number of securities held. Investing in ETFs, which are investment companies, involves duplication of advisory fees and certain other expenses. The Fund will pay brokerage commissions in connection with the purchase and sale of shares of ETFs.
- **Options Risk.** If a put or call option purchased by the Fund expires without being sold or exercised, the Fund would lose the premium it paid for the option. The risk involved in writing a covered call option is the lack of liquidity for the option. If the Fund is not able to close out the option transaction, the Fund would not be able to sell the underlying security until the option expires or is exercised. The risk involved in writing an uncovered call option is that there could be an increase in the market value of the underlying security caused by declining interest rates or other factors. If this occurs, the option could be exercised and the underlying security would then be sold by the Fund at a lower price than its current market value. The risk involved in writing a put option is that the market value of the underlying security could decrease as a result of rising interest rates or other factors. If this occurs, the option could be exercised and the underlying security would then be sold to the Fund at a higher price than its prevailing market value. Purchasing and writing put and call options are highly specialized activities and entail greater than ordinary investment risks. To the extent that the Fund invests in over-the-counter options, the Fund may be exposed to credit risk with regard to parties with which it trades and may also bear the risk of settlement default. These risks may differ materially from those entailed in exchange-traded transactions, which generally are backed by clearing

organization guarantees, daily marking-to-market and settlement, and segregation and minimum capital requirements applicable to intermediaries. Transactions entered directly between two counterparties generally do not benefit from such protections and expose the parties to the risk of counterparty default.

- **REIT Risk.** The Fund's investments in REITs will subject the Fund to risks similar to those associated with direct ownership of real estate, including losses from casualty or condemnation, and changes in local and general economic conditions, supply and demand, interest rates, zoning laws, regulatory limitations on rents, property taxes and operating expenses. Investment in REITs is subject to additional risks, such as poor performance by the manager of the REIT, adverse changes to the tax laws or failure by the REIT to qualify for tax-free pass-through of income under the Code. In addition, some REITs have limited diversification because they invest in a limited number of properties, a narrow geographic area, or a single type of property.
- **Sector Focus Risk.** The Fund may invest a larger portion of its assets in one or more sectors than many other mutual funds, and thus will be more susceptible to negative events affecting those sectors. For example, as of December 31, 2016, 36.2% of the Fund's assets were invested in the consumer sector. Companies in the consumer sector may be adversely impacted by fluctuations in supply and demand, changes in the global economy, consumer spending, competition, demographics and consumer preferences, and production spending. Companies in the consumer sector are also affected by changes in government regulation; global economic, environmental and political events; economic conditions; and the depletion of resources. In addition, as of December 31, 2016, 31.1% of the Fund's assets were invested in the financial sector. Performance of companies in the financial sector may be adversely impacted by many factors, including, among others: government regulation of, or related to, the sector; governmental monetary and fiscal policies; economic, business or political conditions; credit rating downgrades; changes in interest rates; price competition; and decreased liquidity in credit markets. This sector has experienced significant losses and a high degree of volatility in the recent past, and the impact of more stringent capital requirements and of recent or future regulation on any individual financial company or on the sector as a whole cannot be predicted.
- **Management and Strategy Risk.** The value of your investment depends on the judgment of the Advisor about the quality, relative yield, value or market trends affecting a particular security, industry, sector or region, which may prove to be incorrect. Investment strategies employed by the Advisor in selecting investments for the Fund may not result in an increase in the value of your investment or in overall performance equal to other investments.

### **Portfolio Holdings Information**

A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio securities is available in the Fund's Statement of Additional Information ("SAI"). Currently, disclosure of the Fund's holdings is required to be made quarterly within 60 days of the end of each fiscal quarter in the Fund's Annual Report and Semi-Annual Report to Fund shareholders and in its quarterly holdings report on Form N-Q.

## **MANAGEMENT OF THE FUND**

---

### **Investment Advisor**

Jackson Park Capital, LLC is the Fund's investment Advisor and provides investment advisory services to the Fund pursuant to an investment advisory agreement between the Advisor and the Trust (the "Advisory Agreement"). The Advisor was founded in 2012 and its principal address is 175 West Canyon Crest Road, Suite 202, Alpine, Utah 84004. The Advisor is co-founded and controlled by Greg L. Jackson and John H. Park. The Advisor has approximately \$54.8 million in assets under management as of February 28, 2017.

Pursuant to the Advisory Agreement, the Fund pays the Advisor an annual advisory fee of 0.95% of the Fund's average daily net assets up to \$1 billion and 0.85% of the Fund's average daily net assets in excess of \$1 billion for the services and facilities it provides, payable on a monthly basis. For the fiscal year ended December 31, 2016, the Advisor received fees of 0.73% of the Fund's average daily net assets, after waiving fees pursuant to its expense limitation agreement with the Fund.

A discussion regarding the basis for the Board's approval of the Advisory Agreement is available in the Fund's Annual Report to shareholders dated as of December 31, 2016.

### **Portfolio Managers**

The Fund is co-managed by Greg L. Jackson and John H. Park. Each portfolio manager has equal authority over all aspects of the Fund's investment portfolio, including but not limited to, purchases and sales of individual securities, portfolio construction techniques, portfolio risk assessment and the management of daily cash flows. The portfolio managers work as a team in considering securities for selection and implementing portfolio strategies and all buy and sell decisions are made on a unanimous basis.

**Greg L. Jackson** has 25 years of investment experience. Prior to co-founding Jackson Park in 2012, Mr. Jackson served as Senior Portfolio Manager at Ensign Peak Advisors from 2011 to 2012. From 2003 to 2011, he was Co-Chief Investment Officer of Blum Capital Partners, L.P. From 1998 to 2003, Mr. Jackson was a Partner at Harris Associates, L.P. and from 1999 to 2003, he was also Co-Portfolio Manager of Oakmark Global Fund (OAKGX). From 1992 to 1998, he was a Partner and Portfolio Manager at Yacktman Asset Management.

**John H. Park** has 24 years of investment experience. Prior to co-founding Jackson Park in 2012, Mr. Park served as Co-Chief Investment Officer at Blum Capital Partners, L.P. from 2004 to 2012. From 1993 to 2004, Mr. Park was a Partner, Director of Research, and Portfolio Manager of Acorn Select Fund (ACTWX) and Co-Portfolio Manager of Acorn Fund (ACRNX) at Columbia Wanger Asset Management, L.P.

The SAI provides additional information about each portfolio managers' method of compensation, other accounts managed by the portfolio managers and the portfolio managers' ownership of Fund securities.

### **Other Service Providers**

IMST Distributors, LLC (the "Distributor"), is the Trust's principal underwriter and acts as the Trust's distributor in connection with the offering of Fund shares. The Distributor may enter into agreements with banks, broker-dealers, or other financial intermediaries through which investors may purchase or redeem shares. The Distributor is not affiliated with the Trust, the Advisor or any other service provider for the Fund.

### **Fund Expenses**

The Fund is responsible for its own operating expenses (all of which will be borne directly or indirectly by the Fund's shareholders), including, among others, legal fees and expenses of counsel to the Fund and the Fund's Independent Trustees; insurance (including Trustees' and officers' errors and omissions insurance); auditing and accounting expenses; taxes and governmental fees; listing fees; fees and expenses of the Fund's custodians, administrators, transfer agents, registrars and other service providers; expenses for portfolio pricing services by a pricing agent, if any; expenses in connection with the issuance and offering of shares; brokerage commissions and other costs of acquiring or disposing of any portfolio holding of the Fund and any litigation expenses.

The Advisor has contractually agreed to waive its fees and/or pay for operating expenses of the Fund to ensure that the total annual fund operating expenses (excluding any taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, acquired fund fees and expenses (as determined in accordance with Form N-1A), expenses incurred in connection with any merger or reorganization, and extraordinary expenses such as litigation expenses) do not exceed 1.40% and 1.15% of the average daily net assets of the Investor Class and Institutional Class shares of the Fund, respectively. This agreement is in effect until April 30, 2018, and it may be terminated before that date only by the Trust's Board of Trustees.

Any reduction in advisory fees or payment of the Fund's expenses made by the Advisor in a fiscal year may be reimbursed by the Fund for a period ending three full fiscal years after the date of reduction or payment if the Advisor so requests. This reimbursement may be requested from the Fund if the aggregate amount of operating expenses for a fiscal year, as accrued each month does not exceed the lesser of (a) the limitation on Fund expenses in effect at the time of the relevant reduction in advisory fees or payment of the Fund's expenses, or (b) the limitation on Fund expenses at the time of the request. However, the reimbursement amount may not exceed the total amount of fees waived and/or Fund expenses paid by the Advisor and will not include any amounts previously reimbursed to the Advisor by the Fund. Any such reimbursement is contingent upon the Board's subsequent review of the reimbursed

amounts and no reimbursement may cause the total operating expenses paid by the Fund in a fiscal year to exceed the applicable limitation on Fund expenses. The Fund must pay current ordinary operating expenses before the Advisor is entitled to any reimbursement of fees and/or Fund expenses.

## **DISTRIBUTION PLAN**

---

### **Distribution (Rule 12b-1) Plan**

The Trust has adopted a plan on behalf of the Fund pursuant to Rule 12b-1 of the 1940 Act (the “12b-1 Plan”) which allows the Fund to pay distribution fees for the sale and distribution of its Investor Class shares and/or shareholder liaison service fees in connection with the provision of personal services to shareholders of Investor Class shares and the maintenance of their shareholder accounts. The 12b-1 Plan provides for the payment of such fees at the annual rate of up to 0.25% of average daily net assets attributable to Investor Class shares. Since these fees are paid out of the Fund’s assets attributable to the Fund’s Investor Class shares, these fees will increase the cost of your investment and, over time, may cost you more than paying other types of sales charges. The net income attributable to Investor Class shares will be reduced by the amount of distribution and shareholder liaison service fees and other expenses of the Fund associated with that class of shares.

To assist investors in comparing classes of shares, the table under the Prospectus heading “Fees and Expenses of the Fund” provides a summary of expenses and an example of the sales charges and expenses of the Fund applicable to each class of shares offered in this Prospectus.

Institutional Class shares are not subject to any distribution fees under the 12b-1 Plan.

### **Additional Payments to Broker-Dealers and Other Financial Intermediaries**

The Advisor may pay service fees to intermediaries such as banks, broker-dealers, financial advisors or other financial institutions, some of which may be affiliates, for sub-administration, sub-transfer agency and other shareholder services associated with shareholders whose shares are held of record in omnibus accounts, other group accounts or accounts traded through registered securities clearing agents.

The Advisor, out of its own resources, and without additional cost to the Fund or its shareholders, may provide additional cash payments or non-cash compensation to broker-dealers or intermediaries that sell shares of the Fund. These additional cash payments are generally made to intermediaries that provide shareholder servicing, marketing support and/or access to sales meetings, sales representatives and management representatives of the intermediary. The Advisor may pay cash compensation for inclusion of the Fund on a sales list, including a preferred or select sales list, or in other sales programs, or may pay an expense reimbursement in cases where the intermediary provides shareholder services to the Fund’s shareholders. The Advisor may also pay cash compensation in the form of finder’s fees that vary depending on the dollar amount of the shares sold.

## **YOUR ACCOUNT WITH THE FUND**

---

### **Share Price**

The offering price of each class of each Fund’s shares is the net asset value per share (“NAV”) of that class. The Fund’s NAVs are calculated as of 4:00 p.m. Eastern time, the normal close of regular trading on the NYSE, on each day the NYSE is open for trading. If for example, the NYSE closes at 1:00 p.m. Eastern time, the Fund’s NAVs would still be determined as of 4:00 p.m. Eastern time. In this example, portfolio securities traded on the NYSE would be valued at their closing prices unless the Trust’s Valuation Committee determines that a “fair value” adjustment is appropriate due to subsequent events. The NAV for each class is determined by dividing the value of the Fund’s portfolio securities, cash and other assets (including accrued interest) allocable to such class, less all liabilities (including accrued expenses) allocable to such class, by the total number of outstanding shares of such class. The Fund’s NAVs may be calculated earlier if trading on the NYSE is restricted or if permitted by the SEC. The NYSE is closed on weekends and most U.S. national holidays. However, foreign securities listed primarily on non-U.S. markets may trade on weekends or other days on which the Fund does not value its shares, which may significantly affect the Fund’s NAVs on days when you are not able to buy or sell Fund shares.

The Fund's securities generally are valued at market price. Securities are valued at fair value when market quotations are not readily available. The Board has adopted procedures to be followed when the Fund must utilize fair value pricing, including when reliable market quotations are not readily available, when the Fund's pricing service does not provide a valuation (or provides a valuation that, in the judgment of the Advisor, does not represent the security's fair value), or when, in the judgment of the Advisor, events have rendered the market value unreliable (see, for example, the discussion of fair value pricing of foreign securities in the paragraph below). Valuing securities at fair value involves reliance on the judgment of the Advisor and the Board (or a committee thereof), and may result in a different price being used in the calculation of the Fund's NAVs from quoted or published prices for the same securities. Fair value determinations are made in good faith in accordance with procedures adopted by the Board. There can be no assurance that the Fund will obtain the fair value assigned to a security if it sells the security.

In certain circumstances, the Fund employs fair value pricing to ensure greater accuracy in determining daily NAVs and to prevent dilution by frequent traders or market timers who seek to exploit temporary market anomalies. Fair value pricing may be applied to foreign securities held by the Fund upon the occurrence of an event after the close of trading on non-U.S. markets but before the close of trading on the NYSE when the Fund's NAVs are determined. If the event may result in a material adjustment to the price of the Fund's foreign securities once non-U.S. markets open on the following business day (such as, for example, a significant surge or decline in the U.S. market), the Fund may value such foreign securities at fair value, taking into account the effect of such event, in order to calculate the Fund's NAVs.

Other types of portfolio securities that the Fund may fair value include, but are not limited to: (1) investments that are illiquid or traded infrequently, including "restricted" securities and private placements for which there is no public market; (2) investments for which, in the judgment of the Advisor, the market price is stale; (3) securities of an issuer that has entered into a restructuring; (4) securities for which trading has been halted or suspended; and (5) fixed income securities for which there is not a current market value quotation.

### **Buying Fund Shares**

This Prospectus offers two classes of shares of the Fund, designated as Investor Class and Institutional Class shares.

- Investor Class shares generally incur annual distribution fees.
- Institutional Class shares do not incur distribution fees.

By offering multiple classes of shares, the Fund permits each investor to choose the class of shares that is most beneficial given the type of investor, the amount to be invested and the length of time the investor expects to hold the shares.

Each class of shares generally has the same rights, except for the distribution fees, and related expenses associated with each class of shares, and the exclusive voting rights by each class with respect to any distribution plan or service plan for such class of shares.

To purchase shares of the Fund, you must invest at least the minimum amount indicated in the following table.

<b>Minimum Investments</b>	<b>Investor Class</b>		<b>Institutional Class</b>	
	<b>To Open Your Account</b>	<b>To Add to Your Account</b>	<b>To Open Your Account</b>	<b>To Add to Your Account</b>
Direct Regular Accounts	\$2,500	\$100	\$10,000	\$250
Direct Retirement Accounts	\$1,000	\$50	\$2,500	\$100
Automatic Investment Plan	\$ 100	\$50	\$2,500	\$100
Gift Account For Minors	\$1,000	\$50	\$2,500	\$100

Shares of the Fund may be purchased by check, by wire transfer of funds via a bank or through an approved financial intermediary (*i.e.*, a supermarket, investment advisor, financial planner or consultant, broker, dealer or other investment professional and their agents) authorized by the Fund to receive purchase orders. A financial intermediary may charge additional fees and may require higher minimum investments or impose other limitations on buying and selling Fund shares. From time to time, a financial intermediary may modify or waive the initial and subsequent

investment minimums. You may make an initial investment in an amount greater than the minimum amounts shown in the preceding table and the Fund may, from time to time, reduce or waive the minimum initial investment amounts. The minimum initial investment amount is automatically waived for Fund shares purchased by Trustees of the Trust and current or retired directors and employees of the Advisor and its affiliates.

To the extent allowed by applicable law, the Fund reserves the right to discontinue offering shares at any time or to cease operating entirely.

### **In-Kind Purchases and Redemptions**

The Fund reserves the right to accept payment for shares in the form of securities that are permissible investments for the Fund. The Fund also reserves the right to pay redemptions by an “in-kind” distribution of portfolio securities (instead of cash) from the Fund. In-kind purchases and redemptions are taxable events and may result in the recognition of gain or loss for federal income tax purposes. See the SAI for further information about the terms of these purchases and redemptions.

### **Additional Investments**

Additional subscriptions in the Fund generally may be made by investing at least the minimum amount shown in the table above. Exceptions may be made at the Fund’s discretion. You may purchase additional shares of the Fund by sending a check together with the investment stub from your most recent account statement to the Fund at the applicable address listed in the table below. Please ensure that you include your account number on the check. If you do not have the investment stub from your account statement, list your name, address and account number on a separate sheet of paper and include it with your check. You may also make additional investments in the Fund by wire transfer of funds or through an approved financial intermediary. The minimum additional investment amount is automatically waived for shares purchased by Trustees of the Trust and current or retired directors and employees of the Advisor and its affiliates. Please follow the procedures described in this Prospectus.

### **Customer Identification Information**

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify and record information that identifies each person who opens an account. When you open an account, you will be asked for your name, date of birth (for a natural person), your residential address or principal place of business, and mailing address, if different, as well as your Social Security Number or Taxpayer Identification Number. Additional information is required for corporations, partnerships and other entities. Applications without such information will not be considered in good order. The Fund reserves the right to deny any application if the application is not in good order.

This Prospectus should not be considered a solicitation to purchase or as an offer to sell shares of the Fund in any jurisdiction where it would be unlawful to do so under the laws of that jurisdiction. Please note that the value of your account may be transferred to the appropriate state if no activity occurs in the account within the time period specified by state law.

### **Automatic Investment Plan**

If you intend to use the Automatic Investment Plan (“AIP”), you may open your account with the initial minimum investment amount. Once an account has been opened, you may make additional investments in the Fund at regular intervals through the AIP. If elected on your account application, funds can be automatically transferred from your checking or savings account on the 5<sup>th</sup>, 10<sup>th</sup>, 15<sup>th</sup>, 20<sup>th</sup> or 25<sup>th</sup> of each month. In order to participate in the AIP, each additional subscription must be at least \$50, and your financial institution must be a member of the Automated Clearing House (“ACH”) network. The first AIP purchase will be made 15 days after the Transfer Agent receives your request in good order. The Transfer Agent will charge a \$25 fee for any ACH payment that is rejected by your bank. Your AIP will be terminated if two successive mailings we send to you are returned by the U.S. Postal Service as undeliverable. You may terminate your participation in the AIP at any time by notifying the Transfer Agent at 1-888-446-4460 at least five days prior to the date of the next AIP transfer. The Fund may modify or terminate the AIP at any time without notice.

### **Timing and Nature of Requests**

The purchase price you will pay for the Fund's shares will be the next NAV calculated after the Transfer Agent or your authorized financial intermediary receives your request in good order. "Good order" means that your purchase request includes: (1) the name of the Fund, (2) the dollar amount of shares to be purchased, (3) your purchase application or investment stub, and (4) a check payable to **Oakseed Opportunity Fund**. All requests received in good order before 4:00 p.m. (Eastern Time) on any business day will be processed on that same day. Requests received at or after 4:00 p.m. (Eastern Time) will be transacted at the next business day's NAV. All purchases must be made in U.S. Dollars and drawn on U.S. financial institutions.

### **Methods of Buying**

---

#### ***Through a broker-dealer or other financial intermediary***

The Fund is offered through certain approved financial intermediaries (and their agents). The Fund is also offered directly. A purchase order placed with a financial intermediary or its authorized agent is treated as if such order were placed directly with the Fund, and will be deemed to have been received by the Fund when the financial intermediary or its authorized agent receives the order and executed at the next NAV calculated by the Fund. Your financial intermediary will hold your shares in a pooled account in its (or its agent's) name. The Fund may pay your financial intermediary (or its agent) to maintain your individual ownership information, maintain required records, and provide other shareholder services. The financial intermediary which offers shares may require payment of additional fees from its individual clients. If you invest through your financial intermediary, its policies and fees may be different than those described in this Prospectus. For example, the financial intermediary may charge transaction fees or set different minimum investments. Your financial intermediary is responsible for processing your order correctly and promptly, keeping you advised of the status of your account, confirming your transactions and ensuring that you receive copies of the Fund's Prospectus. Please contact your financial intermediary to determine whether it is an approved financial intermediary of the Fund or for additional information.

---

#### ***By mail***

The Fund will not accept payment in cash, including cashier's checks. Also, to prevent check fraud, the Fund will not accept third party checks, Treasury checks, credit card checks, traveler's checks, money orders or starter checks for the purchase of shares. All checks must be made in U.S. Dollars and drawn on U.S. financial institutions.

To buy shares directly from the Fund by mail, complete an account application and send it together with your check for the amount you wish to invest to the Fund at the address indicated below. To make additional investments once you have opened your account, write your account number on the check and send it to the Fund together with the most recent confirmation statement received from the Transfer Agent. If your check is returned for insufficient funds, your purchase will be canceled and a \$25 fee will be assessed against your account by the Transfer Agent.

**Regular Mail**  
***Oakseed Opportunity Fund***  
P.O. Box 2175  
Milwaukee, Wisconsin 53201

**Overnight Delivery**  
***Oakseed Opportunity Fund***  
235 West Galena Street  
Milwaukee, Wisconsin 53212

***The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents.***

---

---

***By telephone***

To make additional investments by telephone, you must authorize telephone purchases on your account application. If you have given authorization for telephone transactions and your account has been open for at least 15 days, call the Transfer Agent toll-free at 1-888-446-4460 and you will be allowed to move money in amounts of at least \$5,000 but not greater than \$50,000, from your bank account to the Fund's account upon request. Only bank accounts held at U.S. institutions that are ACH members may be used for telephone transactions. If your order is placed before 4:00 p.m. (Eastern Time) on a business day shares will be purchased in your account at the NAV calculated on that day. Orders received at or after 4:00 p.m. (Eastern Time) will be transacted at the next business day's NAV. For security reasons, requests by telephone will be recorded.

---

***By wire***

To open an account by wire, a completed account application form must be received by the Fund before your wire can be accepted. You may mail or send by overnight delivery your account application form to the Transfer Agent. Upon receipt of your completed account application form, an account will be established for you. The account number assigned to you will be required as part of the wiring instruction that should be provided to your bank to send the wire. Your bank must include the name of the Fund, the account number, and your name so that monies can be correctly applied. Your bank should transmit monies by wire to:

**UMB Bank, n.a.**

ABA Number 101000695

**For credit to Oakseed Opportunity Fund**

A/C # 987 201 2720

**For further credit to:**

Your account number

Fund Name

Name(s) of investor(s)

Social Security Number or Taxpayer Identification Number

Before sending your wire, please contact the Transfer Agent at 1-888-446-4460 to notify it of your intention to wire funds. This will ensure prompt and accurate credit upon receipt of your wire. Your bank may charge a fee for its wiring service.

Wired funds must be received prior to 4:00 p.m. (Eastern Time) on a business day to be eligible for same day pricing. **The Fund and UMB Bank, n.a. are not responsible for the consequences of delays resulting from the banking or Federal Reserve wire system, or from incomplete wiring instructions.**

---

**Selling (Redeeming) Fund Shares*****Through a broker-dealer or other financial intermediary***

If you purchased your shares through an approved financial intermediary, your redemption order must be placed through the same financial intermediary. The Fund will be deemed to have received a redemption order when a financial intermediary (or its authorized agent) receives the order. The financial intermediary must receive your redemption order prior to 4:00 p.m. (Eastern Time) on a business day for the redemption to be processed at the current day's NAV. Orders received at or after 4:00 p.m. (Eastern Time) on a business day or on a day when the Fund does not value its shares will be transacted at the next business day's NAV. Please keep in mind that your financial intermediary may charge additional fees for its services. In the event your approved financial intermediary is no longer available or in operation, you may place your redemption order directly with the Fund as described below.

---

---

***By mail***

You may redeem shares purchased directly from the Fund by mail. Send your written redemption request to **Oakseed Opportunity Fund** at the address indicated below. Your request must be in good order and contain the Fund name, the name(s) on the account, your account number and the dollar amount or the number of shares to be redeemed. The redemption request must be signed by all shareholders listed on the account. Additional documents are required for certain types of shareholders, such as corporations, partnerships, executors, trustees, administrators, or guardians (*i.e.*, corporate resolutions dated within 60 days, or trust documents indicating proper authorization).

**Regular Mail*****Oakseed Opportunity Fund***

P.O. Box 2175  
Milwaukee, Wisconsin 53201

**Overnight Delivery*****Oakseed Opportunity Fund***

235 West Galena Street  
Milwaukee, Wisconsin 53212

A Medallion signature guarantee must be included if any of the following situations apply:

- You wish to redeem more than \$50,000 worth of shares;
- When redemption proceeds are sent to any person, address or bank account not on record;
- If a change of address was received by the Transfer Agent within the last 15 days;
- If ownership is changed on your account; or
- When establishing or modifying certain services on your account.

---

***By telephone***

To redeem shares by telephone, call the Fund at 1-888-446-4460 and specify the amount of money you wish to redeem. You may have a check sent to the address of record, or, if previously established on your account, you may have proceeds sent by wire or electronic funds transfer through the ACH network directly to your bank account. Wire transfers are subject to a \$20 fee paid by the shareholder and your bank may charge a fee to receive wired funds. Checks sent via overnight delivery are subject to a \$25 charge. You do not incur any charge when proceeds are sent via the ACH network; however, credit may not be available for two to three business days.

If you are authorized to perform telephone transactions (either through your account application form or by subsequent arrangement in writing with the Fund), you may redeem shares worth up to \$50,000, by instructing the Fund by phone at 1-888-446-4460. Unless noted on the initial account application, a Medallion signature guarantee is required of all shareholders in order to qualify for or to change telephone redemption privileges.

Note: The Fund and all of its service providers will not be liable for any loss or expense in acting upon instructions that are reasonably believed to be genuine. To confirm that all telephone instructions are genuine, the caller must verify the following:

- The Fund account number;
- The name in which his or her account is registered;
- The Social Security Number or Taxpayer Identification Number under which the account is registered; and
- The address of the account holder, as stated in the account application form.

---

**Medallion Signature Guarantee**

In addition to the situations described above, the Fund reserves the right to require a Medallion signature guarantee in other instances based on the circumstances relative to the particular situation.

Shareholders redeeming more than \$50,000 worth of shares by mail should submit written instructions with a Medallion signature guarantee from an eligible institution acceptable to the Transfer Agent, such as a domestic bank or trust company, broker, dealer, clearing agency or savings association, or from any participant in a Medallion program recognized by the Securities Transfer Association. The three currently recognized Medallion programs are Securities Transfer Agents Medallion Program, Stock Exchanges Medallion Program and New York Stock Exchange, Inc. Medallion Signature Program. Signature guarantees that are not part of these programs will not be accepted.

Participants in Medallion programs are subject to dollar limitations which must be considered when requesting their guarantee. The Transfer Agent may reject any signature guarantee if it believes the transaction would otherwise be improper. *A notary public cannot provide a signature guarantee.*

### **Systematic Withdrawal Plan**

You may request that a predetermined dollar amount be sent to you on a monthly or quarterly basis. Your account must maintain a value of at least \$2,500 for the Investor Class and \$10,000 for the Institutional Class (\$1,000 for IRA accounts) for you to be eligible to participate in the Systematic Withdrawal Plan (“SWP”). The minimum withdrawal amount is \$100. If you elect to receive redemptions through the SWP, the Fund will send a check to your address of record, or will send the payment via electronic funds transfer through the ACH network, directly to your bank account on record. You may request an application for the SWP by calling the Transfer Agent toll-free at 1-888-446-4460. The Fund may modify or terminate the SWP at any time. You may terminate your participation in the SWP by calling the Transfer Agent at least five business days before the next withdrawal.

### **Payment of Redemption Proceeds**

You may redeem shares of the Fund at a price equal to the NAV next determined after the Transfer Agent and/or authorized agent receives your redemption request in good order. Generally your redemption request cannot be processed on days the NYSE is closed. All requests received in good order by the Transfer Agent and/or authorized agent before the close of the regular trading session of the NYSE (generally 4:00 p.m. Eastern Time) will usually be sent to the bank you indicate or wired on the following business day using the wire instructions on record. Except as specified below, the Fund will process your redemption request and send your proceeds within seven calendar days after the Fund receives your redemption request.

If you purchase shares using a check and request a redemption before the check has cleared, the Fund may postpone payment of your redemption proceeds up to 15 calendar days while the Fund waits for the check to clear. Furthermore, the Fund may suspend the right to redeem shares or postpone the date of payment upon redemption for more than seven calendar days: (1) for any period during which the NYSE is closed (other than customary weekend or holiday closings) or trading on the NYSE is restricted; (2) for any period during which an emergency exists affecting the sale of the Fund’s securities or making such sale or the fair determination of the value of the Fund’s net assets not reasonably practicable; or (3) for such other periods as the SEC may permit for the protection of the Fund’s shareholders.

### **Other Redemption Information**

Shareholders who hold shares of the Fund through an IRA or other retirement plan must indicate on their redemption requests whether to withhold federal income tax. Redemption requests failing to indicate an election not to have taxes withheld will generally be subject to a 10% federal income tax withholding. In addition, if you are a resident of certain states, state income tax also applies to non-Roth IRA distributions when federal withholding applies. Please consult with your tax professional.

The Fund generally pays sale (redemption) proceeds in cash. However, under unusual conditions, the Fund may pay all or part of a shareholder’s redemption proceeds in portfolio securities with a market value equal to the redemption price (redemption-in-kind) in lieu of cash in order to protect the interests of the Fund’s remaining shareholders. If the Fund redeems your shares in kind, you will bear any market risks associated with investment in these securities, and you will be responsible for the costs (including brokerage charges) of converting the securities to cash.

### **Cost Basis Information**

Federal tax law requires that regulated investment companies such as the Fund report their shareholders’ cost basis, gain/loss, and holding period to the IRS on the shareholders’ Consolidated Form 1099s when “covered” shares of the regulated investment companies are sold. Covered shares are any shares acquired (including pursuant to a dividend reinvestment plan) on or after January 1, 2012.

The Fund has chosen “first-in, first-out” (FIFO) as its standing (default) tax lot identification method for all shareholders, which means this is the method the Fund will use to determine which specific shares are deemed to be sold when there are multiple purchases on different dates at differing net asset values, and the entire position is not sold at one time. The Fund’s standing tax lot identification method is the method it will use to report the sale of

covered shares on your Consolidated Form 1099 if you do not select a specific tax lot identification method. Redemptions are taxable and you may realize a gain or a loss upon the sale of your shares. Certain shareholders may be subject to backup withholding.

Subject to certain limitations, you may choose a method other than the Fund's standing method at the time of your purchase or upon the sale of covered shares. Please refer to the appropriate Treasury regulations or consult your tax advisor with regard to your personal circumstances.

### **Tools to Combat Frequent Transactions**

The Trust's Board of Trustees has adopted policies and procedures with respect to frequent purchases and redemptions of Fund shares by Fund shareholders. The Trust discourages excessive, short-term trading and other abusive trading practices that may disrupt portfolio management strategies and harm the Fund's performance. The Trust takes steps to reduce the frequency and effect of these activities in the Fund. These steps may include monitoring trading activity and using fair value pricing. In addition, the Trust may take action, which may include using its best efforts to restrict a shareholder's trading privileges in the Fund, if that shareholder has engaged in four or more "round trips" in the Fund during a 12-month period. Although these efforts (which are described in more detail below) are designed to discourage abusive trading practices, these tools cannot eliminate the possibility that such activity may occur. Further, while the Trust makes efforts to identify and restrict frequent trading, the Trust receives purchase and sale orders through financial intermediaries and cannot always know or detect frequent trading that may be facilitated by the use of intermediaries or the use of group or omnibus accounts by those intermediaries. The Trust seeks to exercise its judgment in implementing these tools to the best of its ability in a manner that the Trust believes is consistent with the interests of Fund shareholders.

---

#### ***Monitoring Trading Practices***

The Trust may monitor trades in Fund shares in an effort to detect short-term trading activities. If, as a result of this monitoring, the Trust believes that a shareholder of the Fund has engaged in excessive short-term trading, it may, in its discretion, ask the shareholder to stop such activities or refuse to process purchases in the shareholder's accounts. In making such judgments, the Trust seeks to act in a manner that it believes is consistent with the best interest of Fund shareholders. Due to the complexity and subjectivity involved in identifying abusive trading activity, there can be no assurance that the Trust's efforts will identify all trades or trading practices that may be considered abusive.

---

### **General Transaction Policies**

Some of the following policies are mentioned above. In general, the Fund reserves the right to:

- vary or waive any minimum investment requirement;
- refuse, change, discontinue, or temporarily suspend account services, including purchase or telephone redemption privileges (if redemption by telephone is not available, you may send your redemption order to the Fund via regular or overnight delivery), for any reason;
- reject any purchase request for any reason (generally, the Fund does this if the purchase is disruptive to the efficient management of the Fund due to the timing of the investment or an investor's history of excessive trading);
- delay paying redemption proceeds for up to seven calendar days after receiving a request, if an earlier payment could adversely affect the Fund;
- reject any purchase or redemption request that does not contain all required documentation; and
- subject to applicable law and with prior notice, adopt other policies from time to time requiring mandatory redemption of shares in certain circumstances.

If you elect telephone privileges on the account application or in a letter to the Fund, you may be responsible for any fraudulent telephone orders as long as the Fund and/or its service providers have taken reasonable precautions to verify your identity. In addition, once you place a telephone transaction request, it cannot be canceled or modified.

During periods of significant economic or market change, telephone transactions may be difficult to complete. If you are unable to contact the Fund by telephone, you may also mail your request to the Fund at the address listed under “Methods of Buying.”

Your broker or other financial intermediary may establish policies that differ from those of the Fund. For example, the organization may charge transaction fees, set higher minimum investments, or impose certain limitations on buying or selling shares in addition to those identified in this Prospectus. Contact your broker or other financial intermediary for details.

Please note that the value of your account may be transferred to the appropriate state if no activity occurs in the account within the time period specified by state law.

### **Conversion of Shares**

A share conversion is a transaction in which shares of one class of the Fund are exchanged for shares of another class of the Fund. Share conversions can occur between each share class of the Fund. Generally, share conversions occur when a shareholder becomes eligible for another share class of the Fund or no longer meets the eligibility criteria of the share class owned by the shareholder (and another class exists for which the shareholder would be eligible). Please note that a share conversion is generally a non-taxable event, but you should consult with your personal tax advisor on your particular circumstances. Please note, all share conversion requests must be approved by the Advisor.

A request for a share conversion will not be processed until it is received in “good order” (as defined above) by the Fund or your financial intermediary. To receive the NAV of the new class calculated that day, conversion requests must be received in good order by the Fund or your financial intermediary before 4:00 p.m., Eastern Time or the financial intermediary’s earlier applicable deadline. Please note that, because the NAV of each class of the Fund will generally vary from the NAV of the other class due to differences in expenses, you will receive a number of shares of the new class that is different from the number of shares that you held of the old class, but the total value of your holdings will remain the same.

The Fund’s frequent trading policies will not be applicable to share conversions. If you hold your shares through a financial intermediary, please contact the financial intermediary for more information on share conversions. Please note that certain financial intermediaries may not permit all types of share conversions. The Fund reserves the right to terminate, suspend or modify the share conversion privilege for any shareholder or group of shareholders.

The Fund reserves the right to automatically convert shareholders from one class to another if they either no longer qualify as eligible for their existing class or if they become eligible for another class. Such mandatory conversions may be as a result of a change in value of an account due to market movements, exchanges or redemptions. The Fund will notify affected shareholders in writing prior to any mandatory conversion.

### **Availability of Information**

In order to reduce the amount of mail you receive and to help reduce expenses, we generally send a single copy of any shareholder report and Prospectus to each household. If you do not want the mailing of these documents to be combined with those of other members of your household, please contact your authorized dealer or the Transfer Agent.

### **Additional Information**

The Fund enters into contractual arrangements with various parties, including among others the Advisor, who provide services to the Fund. Shareholders are not parties to, or intended (or “third party”) beneficiaries of, those contractual arrangements.

The Prospectus and the SAI provide information concerning the Fund that you should consider in determining whether to purchase shares of the Fund. The Fund may make changes to this information from time to time. Neither this prospectus nor the SAI is intended to give rise to any contract rights or other rights in any shareholder, other than any rights conferred by federal or state securities laws that may not be waived.

## **DIVIDENDS AND DISTRIBUTIONS**

---

The Fund will make distributions of net investment income and net capital gains, if any, at least annually, typically in December. The Fund may make additional payments of dividends or distributions if it deems it desirable at any other time during the year.

All dividends and distributions will be reinvested in Fund shares unless you choose one of the following options: (1) to receive net investment income dividends in cash, while reinvesting capital gain distributions in additional Fund shares; or (2) to receive all dividends and distributions in cash. If you wish to change your distribution option, please write to the Transfer Agent before the payment date of the distribution.

If you elect to receive distributions in cash and the U.S. Postal Service cannot deliver your check, or if your distribution check has not been cashed for six months, the Fund reserves the right to reinvest the distribution check in your account at the Fund's then current NAV and to reinvest all subsequent distributions.

## **FEDERAL INCOME TAX CONSEQUENCES**

---

The following discussion is very general and does not address investors subject to special rules, such as investors who hold Fund shares through an IRA, 401(k) plan or other tax-advantaged account. The SAI contains further information about taxes. Because each shareholder's circumstances are different and special tax rules may apply, you should consult your tax advisor about your investment in the Fund.

You will generally have to pay federal income taxes, as well as any state or local taxes, on distributions received from the Fund, whether paid in cash or reinvested in additional shares. If you sell Fund shares, it is generally considered a taxable event. If you exchange shares of the Fund for shares of another fund, the exchange will be treated as a sale of the Fund's shares and any gain on the transaction may be subject to federal income tax.

Distributions of net investment income, other than "qualified dividend income," and distributions of net short-term capital gains, are taxable for federal income tax purposes at ordinary income tax rates. Distributions from the Fund's net capital gain (i.e., the excess of its net long-term capital gain over its net short-term capital loss) are taxable for federal income tax purposes as long-term capital gain, regardless of how long the shareholder has held Fund shares.

Dividends paid by the Fund (but none of the Fund's capital gain distributions) may qualify in part for the dividends-received deduction available to corporate shareholders, provided certain holding period and other requirements are satisfied. Distributions of investment income that the Fund reports as "qualified dividend income" may be eligible to be taxed to non-corporate shareholders at the reduced rates applicable to long-term capital gain if derived from the Fund's qualified dividend income and if certain other requirements are satisfied. "Qualified dividend income" generally is income derived from dividends paid by U.S. corporations or certain foreign corporations that are either incorporated in a U.S. possession or eligible for tax benefits under certain U.S. income tax treaties. In addition, dividends that the Fund receives in respect of stock of certain foreign corporations may be qualified dividend income if that stock is readily tradable on an established U.S. securities market.

You may want to avoid buying shares of the Fund just before it declares a distribution (on or before the record date), because such a distribution will be taxable to you even though it may effectively be a return of a portion of your investment.

Although distributions are generally taxable when received, dividends declared in October, November or December to shareholders of record as of a date in such month and paid during the following January are treated as if received on December 31 of the calendar year when the dividends were declared.

Information on the federal income tax status of dividends and distributions is provided annually.

Dividends and distributions from the Fund and net gain from redemptions of Fund shares will generally be taken into account in determining a shareholder's "net investment income" for purposes of the Medicare contribution tax applicable to certain individuals, estates and trusts.

If you do not provide the Fund with your correct taxpayer identification number and any required certifications, you will be subject to backup withholding on your redemption proceeds, dividends and other distributions. The backup withholding rate is currently 28%.

Dividends and certain other payments made by the Fund to a non-U.S. shareholder are subject to such withholding of federal income tax at the rate of 30% (or such lower rate as may be determined in accordance with any applicable treaty). Dividends that are reported by the Fund as "interest-related dividends" or "short-term capital gain dividends" are generally exempt from such withholding. In general, the Fund may report interest-related dividends to the extent of its net income derived from U.S.-source interest and the Fund may report short-term capital gain dividends to the extent its net short-term capital gain for the taxable year exceeds its net long-term capital loss. Backup withholding will not be applied to payments that have been subject to the 30% withholding tax described in this paragraph.

Unless certain non-U.S. entities that hold shares comply with IRS requirements that will generally require them to report information regarding U.S. persons investing in, or holding accounts with, such entities, a 30% withholding tax may apply to distributions and, after December 31, 2018, to redemption proceeds and certain capital gain dividends payable to such entities. A non-U.S. shareholder may be exempt from the withholding described in this paragraph under an applicable intergovernmental agreement between the United States and a foreign government, provided that the shareholder and the applicable foreign government comply with the terms of the agreement.

Some of the Fund's investment income may be subject to foreign income taxes that are withheld at the country of origin. Tax treaties between certain countries and the United States may reduce or eliminate such taxes, but there can be no assurance that the Fund will qualify for treaty benefits.

## FINANCIAL HIGHLIGHTS

The following table is intended to help you understand the Fund's financial performance. Certain information reflects financial results for a single Fund share. The total return figures represent the percentage that an investor in the Fund would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). The financial information for the periods shown has been audited by Tait, Weller & Baker LLP an independent registered public accounting firm, whose report, along with the Fund's financial statements, is included in the Fund's annual report, which is available upon request (see back cover).

### Oakseed Opportunity Fund Investor Class

*Per share operating performance.*

*For a capital share outstanding throughout each period.*

	For the Year Ended December 31, 2016	For the Year Ended December 31, 2015	For the Year Ended December 31, 2014	For the Year Ended December 31, 2013	For the Period Ended December 31, 2012*
<b>Net asset value, beginning of period</b>	\$ 11.82	\$ 13.13	\$ 12.37	\$ 10.00	\$ 10.00
<b>Income from Investment Operations:</b>

**FOR MORE INFORMATION**

---

**Statement of Additional Information (SAI)**

The SAI provides additional details about the investments and techniques of the Fund and certain other additional information. A current SAI is on file with the SEC and is incorporated into this Prospectus by reference. This means that the SAI is legally considered a part of this Prospectus even though it is not physically within this Prospectus.

**Shareholder Reports**

Additional information about the Fund's investments is available in the Fund's annual and semi-annual reports to shareholders. In the Fund's annual report, you will find a discussion of the market conditions and investment strategies that significantly affected the Fund's performance during its most recent fiscal year.

The Fund's SAI and annual and semi-annual reports are available, free of charge, on the Fund's website at [www.oakseedfunds.com](http://www.oakseedfunds.com). You can also obtain a free copy of the Fund's SAI or annual and semi-annual reports, request other information, or inquire about the Fund by contacting a broker that sells shares of the Fund or by calling the Fund (toll-free) at 1-888-446-4460 or by writing to:

**Oakseed Opportunity Fund**  
P.O. Box 2175  
Milwaukee, Wisconsin 53201

Information about the Fund (including the SAI) can be reviewed and copied at the Public Reference Room of the SEC in Washington, DC. You can obtain information on the operation of the Public Reference Room by calling the SEC at 1-202-551-8090. Reports and other information about the Fund are also available:

- Free of charge, on the SEC's EDGAR Database on the SEC's Internet site at <http://www.sec.gov>;
- For a duplication fee, by electronic request at the following e-mail address: [publicinfo@sec.gov](mailto:publicinfo@sec.gov); or
- For a duplication fee, by writing to the SEC's Public Reference Section, Washington, DC 20549-1520.

(Investment Company Act file no. 811- 21719.)
